COMPLAINT FOR DECLARATORY AND INJUNCTIVE RELIEF

INTRODUCTION

1. Defendant United States Department of Commerce (Commerce) has violated the Freedom of Information Act (FOIA), 5 U.S.C. § 552, by failing to fully disclose records relating to a July 2017 determination by the Secretary of Commerce that New Jersey had complied with its obligation to implement management measures aimed at conserving summer flounder. Plaintiff Natural Resources Defense Council (NRDC) requested these records from Commerce six months ago.

2. Commerce’s National Oceanic and Atmospheric Administration (NOAA), regional fishery management councils, and the interstate Atlantic States Marine Fisheries Commission (the Fisheries Commission or Commission) work together to conserve and manage various fish populations along the Atlantic coast. As part of these efforts, the Fisheries Commission adopts management plans to protect certain fish species against depletion. Under Federal law, the Commission

identifies Atlantic coastal states to be included in its various management plans and then works to ensure that those states implement and enforce the plans.

3. In June 2017, the Fisheries Commission determined that New Jersey was out of compliance with the Commission's management plan for summer flounder, a fish species that is currently subject to overfishing. In July 2017, contrary to the Commission's determination, the Secretary of Commerce found that the summer flounder management measures New Jersey had failed to implement were not necessary for the conservation of summer flounder. The Secretary's determination allowed New Jersey's recreational summer flounder fishing season to proceed.

4. On July 26, 2017, NRDC submitted a FOIA request to Commerce for documents related to the Secretary's finding that the summer flounder management plan measures New Jersey had failed to implement were unnecessary for conserving summer flounder.

5. In October and November, Commerce via NOAA (a component of Commerce) provided NRDC with two "interim" releases of responsive documents. These interim releases consisted solely of documents from NOAA's files, and nothing from other Commerce components or the Office of the Secretary.

6. After the most recent interim release, Commerce informed NRDC that there were no more responsive documents in NOAA's files. Commerce further informed NRDC that it was unable to provide an update regarding the status of its

search for additional responsive documents outside of NOAA, other than noting a “significant logjam” due to the volume of Commerce FOIA requests.

7. Although Commerce has had six months to search for and produce responsive documents, it has not provided NRDC with any records from components of Commerce other than NOAA. Nor has Commerce provided NRDC with a final determination as to whether it will comply with NRDC’s request. The statutory deadline for such a final determination was, at the latest, September 11, 2017, with the final production of documents due promptly thereafter.

8. It is important that NRDC receives these documents in a timely manner. The Commission has already begun setting management measures for the 2018 summer flounder recreational fishing season, and the Commission and individual states will make key management decisions over the next four months prior to the opening of the season in May 2018. Particularly if New Jersey or other states choose not to comply with the relevant management plan for the 2018 fishing season, the requested documents could provide critical information to NRDC and the public in making advocacy decisions.

9. NRDC seeks a declaration that Commerce has violated FOIA by failing to provide a final determination as to whether it will comply with NRDC’s request, and by failing to produce all non-exempt responsive records, by the statutory deadline. NRDC seeks an injunction ordering Commerce to disclose at no cost and without further delay all non-exempt, responsive records to NRDC.

THE PARTIES

10. Plaintiff NRDC is a national, non-profit environmental and public health membership organization with hundreds of thousands of members nationwide. NRDC engages in research, advocacy, public education, and litigation related to protecting public health and the environment. The organization's work includes efforts to end overfishing and promote the long-term sustainability of fishing practices in the United States.

11. Defendant Commerce is a federal agency within the meaning of FOIA, 5 U.S.C. § 551(1), and has possession or control of the records that NRDC seeks.

JURISDICTION AND VENUE

12. This Court has jurisdiction over this action pursuant to 28 U.S.C. § 1331 and 5 U.S.C. § 552(a)(4)(B).

13. Venue is proper in this court because plaintiff NRDC resides and has its principal place of business in this judicial district. 5 U.S.C. § 552(a)(4)(B).

STATUTORY AND REGULATORY FRAMEWORK

14. FOIA requires that federal agencies release, upon request, information to the public, 5 U.S.C. § 552(a)(3), unless one of nine statutory exemptions applies, *id.* § 552(b).

15. Within 20 business days of an agency's receipt of a FOIA request, the agency must "determine . . . whether to comply with such request," *id.* § 552(a)(6)(A)(i); *see also* 15 C.F.R. § 4.6(b) (Commerce FOIA regulation), and "immediately notify the person making such request of . . . such determination and

the reasons therefor,” 5 U.S.C. § 552(a)(6)(A)(i). If the agency determines that it will comply with the request, it must “promptly” release responsive, non-exempt records to the requester. *Id.* § 552(a)(6)(C)(i); *see also* 15 C.F.R. § 4.7(c).

16. In “unusual circumstances,” an agency may extend the time limit for responding to a FOIA request by up to 10 business days. 5 U.S.C. § 552(a)(6)(B)(i).

17. If the agency fails to comply with the statutory time limits, the requester is deemed to have exhausted her administrative remedies and may immediately file suit “to enjoin the agency from withholding agency records and to order the production of any agency records improperly withheld.” 5 U.S.C. §§ 552(a)(4)(B), 552(a)(6)(C)(i).

FACTUAL BACKGROUND

18. Summer flounder is an important fish for commercial and recreational fishing industries along the Mid-Atlantic coast, and is found in waters from Nova Scotia, Canada, to the east coast of Florida. Despite conservation efforts, the summer flounder population is below target levels and is currently subject to overfishing.

19. Summer flounder and the fishing of summer flounder collectively known as the summer flounder fishery are jointly managed by NOAA (a component of Commerce), the Mid-Atlantic Fishery Management Council, and the Fisheries Commission. Together, these entities seek to conserve summer flounder and prevent depletion of the species.

20. Under the Atlantic Coastal Fisheries Cooperative Management Act (Atlantic Coastal Act), 16 U.S.C. §§ 5101-5108, the Fisheries Commission is tasked with developing management plans to conserve summer flounder (as well as other fish species in the Atlantic coastal region), *see id.* § 5104(a). The Atlantic Coastal Act provides that, for each management plan, the Commission must identify the states that are required to implement and enforce the plan. *Id.* § 5104(a)(1). Under some management plans, the Commission allows states to implement their own management measures, so long as the state's measures achieve the same level of conservation as the Commission's plan.

21. If the Fisheries Commission finds that a state has failed to implement or enforce measures in compliance with the Commission's management plan for a particular fish species, the Atlantic Coastal Act requires the Commission to make a formal non-compliance determination. *Id.* § 5105(a). This determination is subject to review by the Secretary of Commerce, who makes an independent compliance determination. *Id.* § 5106(a)(1). If the Secretary agrees that the state has failed to implement and enforce the measures contained in the management plan, and also that such measures are "necessary for the conservation of the fishery," the Secretary must declare a moratorium on fishing that species in the waters of the non-complying state. *Id.* § 5106(a), (c)(1).

22. In February 2017, in response to new science indicating the declining population status of summer flounder, the Fisheries Commission tightened measures in its summer flounder management plan applicable to recreational

fishing. These stricter measures included increased minimum size requirements and a reduction in the maximum number of summer flounder allowed to be caught and kept by any one person.

23. State officials from New Jersey—one of several states required to implement and enforce the Commission’s summer flounder management plan—vocally opposed these stricter measures. Soon after the Fisheries Commission voted on the new restrictions, the New Jersey Department of Environmental Protection Commissioner wrote a letter to the Secretary of Commerce, asking the Secretary to stop them from going into effect, claiming the restrictions would lead to the “destruction of” New Jersey’s recreational summer flounder industry.

24. New Jersey ultimately proposed its own summer flounder recreational management measures, instead of implementing the new measures adopted by the Commission. Although the Commission’s summer flounder management plan allowed New Jersey to do so if the measures would achieve the same level of conservation as the Commission’s plan, after reviewing the measures proposed by New Jersey, the Commission found that the measures would not sufficiently protect summer flounder and were therefore inconsistent with the Commission’s plan.

25. New Jersey nonetheless implemented its own measures, prompting a formal non-compliance determination by the Fisheries Commission on June 1, 2017.

26. In July 2017, for the first time in the twenty-four-year history of the Atlantic Coastal Act, the Secretary of Commerce made a finding contrary to the Commission’s non-compliance determination, allowing New Jersey’s recreational

summer flounder season to proceed. Specifically, the Secretary found that the measures New Jersey failed to implement were “not necessary for the conservation of summer flounder.” 82 Fed. Reg. 33,481 (July 20, 2017). The notice announcing the Secretary’s compliance determination was brief and devoid of any substantive explanation. *See id.*

27. On July 26, 2017, NRDC served a FOIA request on Commerce, seeking records supporting, explaining, or otherwise relating to the Secretary’s finding that the summer flounder management measures New Jersey failed to implement were not necessary for the conservation of summer flounder. NRDC also requested a fee waiver.

28. NRDC received an email notification indicating that the request would be processed by NOAA, a component of Commerce. NRDC also received a letter from NOAA on August 4, 2017, acknowledging receipt of the request and stating that the agency was invoking the statutory ten-day extension applicable in “unusual circumstances.” In its letter, NOAA stated that it anticipated completing NRDC’s request by September 7, 2017.

29. On August 23, NRDC received a letter from NOAA recommending that NRDC narrow the scope of its request. After a phone call with NRDC on August 24 and an additional email from NRDC on August 25, NOAA agreed to move forward with the request. Around the same time, Commerce granted NRDC’s fee waiver request.

30. NOAA provided NRDC with two “interim releases” of responsive documents in October and November, but did not provide a final date for Commerce’s completion of NRDC’s request. The interim releases consisted solely of documents from NOAA’s files, and a NOAA representative confirmed that NOAA itself has no other responsive documents. NOAA further informed NRDC that it was unable to provide more information regarding the status of Commerce’s search for additional responsive documents, other than noting a “significant logjam” due to the volume of Commerce FOIA requests.

31. It has been six months since NRDC served its FOIA request on Commerce, and more than four months since the statutory deadline passed, yet Commerce has failed to provide NRDC with a final response to its request.

CLAIM FOR RELIEF

32. Plaintiff incorporates by reference all preceding paragraphs.

33. NRDC has a statutory right under FOIA to obtain without further delay all records responsive to its request that are not exempt from disclosure.

34. Commerce violated its duty under FOIA, 5 U.S.C. § 552(a), to release by the statutory deadline all non-exempt, responsive records to NRDC.

REQUEST FOR RELIEF

Plaintiff respectfully requests that this Court enter judgment against Commerce as follows:

A. Declaring that Commerce has violated FOIA by failing to produce all non-exempt records responsive to NRDC’s FOIA request by the statutory deadline;

- B. Ordering that Commerce disclose the remaining requested records to NRDC at no cost and without further delay;
- C. Ordering that Commerce produce an index identifying any documents or parts thereof that it withholds and the basis for the withholdings, in the event Commerce determines that certain responsive records are exempt from disclosure;
- D. Retaining jurisdiction over this case to rule on any challenged assertions by Commerce that certain responsive records are exempt from disclosure;
- E. Awarding NRDC its costs and reasonable attorneys' fees; and
- F. Granting such other relief that the Court considers just and proper.

Respectfully submitted,

Dear Mr. Hoey,

Please find attached a public records act request from Cause of Action Institute. As detailed in our letter, we are seeking public records under the control of Dr. John Quinn.

Thank you for your assistance in processing this request. I look forward to your response.

Kind regards,

Ryan Mulvey

Re: Massachusetts Freedom of Information Act Request

Dear Mr. Hoey:

I write on behalf of Cause of Action Institute (“CoA Institute”), a nonprofit strategic oversight group committed to ensuring that government decision-making is open, honest, and fair.¹ In carrying out its mission, CoA Institute uses investigative and legal tools to educate the public about the importance of government transparency and accountability.

On April 11, 2017, CoA Institute submitted a public comment to the New England Fishery Management Council (“NEFMC”) concerning NEFMC’s draft Industry-Funded Monitoring Omnibus Amendment.² The comment was specifically directed to Dr. John Quinn, who serves as NEFMC Chairman and also represents the interests of the Commonwealth of Massachusetts in his capacity as a voting member.³ In the comment, CoA Institute expressed concern over the lack of statutory authority for the NEFMC and the National Oceanic and Atmospheric Administration (“NOAA”) to compel regulated parties (*i.e.*, commercial fishermen) to pay for supplemental at-sea monitoring.⁴

¹ See CAUSE OF ACTION INST., *About*, www.causeofaction.org/about (last visited Feb. 26, 2018).

² Letter from CoA Inst. to Dr. John Quinn, New Eng. Fishery Mgmt. Council (Apr. 11, 2017) (attached as Exhibit 1).

³ See 16 U.S.C. § 1852(a)(1)(C), (b)(2). To the extent Dr. Quinn uses his state government e mail address for NEFMC business, the records that he creates, receives, and maintains qualify as “public records” for the purposes of the Massachusetts Public Records Act. See MASS. GEN. LAWS, ch. 4, § 7(26); see also 950 MASS. CODE REGS. § 32.02 (defining “public record” to include “[a]ll . . . papers . . . or other documentary materials or data, regardless of physical form of characteristics, made or received by a governmental entity[.]”). The relevant definitions of “governmental entity” and “agency” incontrovertibly include the University of Massachusetts Dartmouth and Dr. Quinn in his capacity as a university employee. The University is therefore the proper custodian to receive and process CoA Institute’s records request. Indeed, at all times relevant, Dr. Quinn advertised his university e mail account as the proper addresses by which to contact him for NEFMC business. See, e.g., NEW ENG. FISHERY MGMT. COUNCIL, COUNCIL MEMBER BIOGRAPHIES at 1 (Jan. 22, 2018), available at <http://bit.ly/2ommQ7l>; see also *Council Membership*, New Eng. Fishery Mgmt. Council (archived page date July 31, 2017) (attached as Exhibit 2); see generally E mail from CoA Inst. to Dr. John Quinn, New Eng. Fishery Mgmt. Council (Apr. 11, 2017) (attached as Exhibit 3).

⁴ See CoA Inst., Press Release: Withdraw Unlawful Plan Forcing Fishermen to Pay for At Sea Monitors (Apr. 12, 2017), available at <http://coainst.org/2AYOikc>; see also *Fishermen in New England Face Another Costly Regulation*, COA INST. (Apr. 26, 2017), <http://coainst.org/2owyd5H>.

Pursuant to the Massachusetts Public Records Act § 66–10, *et seq.*, CoA Institute hereby requests access to the following records:

All records concerning CoA Institute’s April 2017 comment, including but not limited to all correspondence between or amongst Dr. John Quinn and (1) members of the NEFMC or Mid-Atlantic Fishery Management Council; (2) officials, employees, or representatives of NOAA; (3) officials, employees, or representatives of the Commonwealth of Massachusetts; or (4) any non-governmental third party.

The time period for this request is April 11, 2017 to the present.⁵ Search terms may include, but are not limited to, “Cause of Action,” “CoA,” “Julie Smith,” “Eric Bolinder,” and “Ryan Mulvey.” In addition to e-mail correspondence, other responsive records may include notes on the comment (handwritten or otherwise), memoranda, letters, meeting agendas, phone call notes, voice messages, text and instant messages, and desk calendar entries.

Request for a Public Interest Fee Waiver and Treatment as a News Media Requester

CoA Institute requests a waiver of all applicable fees. Massachusetts law and applicable regulations provide that a records access officer may furnish records without or at reduced charge if “disclosure of the requested record[s] is in the public interest” and “is not primarily in the commercial interest of the requester.”⁶ In this case, CoA Institute seeks the disclosure of information that will contribute significantly to public understanding of the operations or activities of the Commonwealth vis-à-vis Dr. Quinn’s representation on the NEFMC. This request is not primarily in the commercial interest of CoA Institute, a federal tax-exempt organization that is frequently treated as a representative of the news media in its Freedom of Information Act work.

In this case, the requested records will unquestionably shed light on the operations or activities of the NEFMC—and the Commonwealth’s representative, Dr. John Quinn—in overseeing the transition of the herring and mackerel fisheries to an industry-funded at-sea monitoring regime and, moreover, in laying a foundation for the introduction of industry funding across all regional fisheries. The public interest value of the requested records is demonstrated by the widespread concern over the economic feasibility of industry funding among vessel owners and operators. Indeed, the legality of industry-funded monitoring has been the subject of litigation.⁷ The public has a right to view these records. Disclosure will likely aid public understanding because, to date, all records concerning CoA Institute’s comment have not been made publicly available.

CoA Institute has the intent and ability to make the results of this request available to a reasonably broad public audience through various media. Its staff has significant experience and expertise in government oversight, investigative reporting, and public interest litigation. These professionals will analyze the information responsive to this request, use their editorial skills to turn raw materials

⁵ For purposes of this request, the term “present” should be construed as the date on which a search for responsive records is begun. The term “record” means the entirety of a record any portion of which contains responsive information.

⁶ 950 MASS. CODE REGS. § 32.07(2)(k)(1) (2).

⁷ See *Goethel v. Pritzker*, 854 F.3d 106 (1st Cir. 2017); *Goethel v. Pritzker*, No. 15 497, 2016 WL 4076831 (D.N.H. 2016); see also CoA Inst., Press Release: Supreme Court Denies Petition to Review Job Killing Fishery Rule (Oct. 2, 2017), available at <http://bit.ly/2B5Hxx2>.

into a distinct work, and share the resulting analysis with the public through CoA Institute's regularly published online newsletter, memoranda, reports, or press releases. In addition, CoA Institute is a non-profit entity as defined under Section 501(c)(3) of the Internal Revenue Code.

For fee purposes, CoA Institute also qualifies as a representative of the news media because it gathers information of potential interest to a segment of the public, uses its editorial skills to turn raw materials into a distinct work, and distributes that work to an audience.⁸ CoA Institute gathers the news it regularly publishes from a variety of sources, including federal and state Freedom of Information Act requests, whistleblowers/insiders, and scholarly works. It does not merely make raw information available to the public, but distributes distinct work product, including articles, blog posts, investigative reports, newsletters, and congressional testimony and statements for the record.⁹ These distinct works are distributed to the public through various media, including CoA Institute's website, Twitter, and Facebook. CoA Institute also provides news updates to subscribers via e-mail.

In the event fees are not waived or reduced, please inform me if the applicable costs for searching and copying the requested records will exceed \$100.

Record Production and Contact Information

The Massachusetts Public Records Act requires a response to this request within ten (10) business days.¹⁰ In an effort to facilitate document review, please provide the responsive documents in electronic form in lieu of a paper production. If a certain portion of responsive records can be produced more readily, CoA Institute requests that they be produced first and the remaining records be produced on a rolling basis as circumstances permit. If you deny any or all of this request, please provide citations to the exemptions that justify such determination, along with notice of the appeal procedures available under the law.

If you have any questions about this request, please contact me by telephone at (202) 499-4232 or by e-mail at ryan.mulvey@causeofaction.org. Thank you for your attention to this matter.

⁸ Under the federal Freedom of Information Act, agencies have regularly recognized CoA Institute's status as a representative of the news media. *See, e.g.*, FOIA Request 2016 11 008, Dep't of the Treasury (Nov. 7, 2016); FOIA Requests OS 2017 00057 & OS 2017 00060, Dep't of Interior (Oct. 31, 2016); FOIA Request 2017 00497, Office of Personnel Mgmt. New England Fishery Management Council
ATTN: Dr. John Quinn, Chairman
50 Water Street, Mill 2
Newburyport, MA 01950
E-mail: comments@nefmc.org

Re: Industry-Funded Monitoring (IFM) Omnibus Amendment

Dear Chairman Quinn:

I write on behalf of Cause of Action Institute (“CoA Institute”) with respect to the New England Fishery Management Council’s (“NEFMC” or “Council”) consideration of final action on the Industry-Funded Monitoring Omnibus Amendment (“Omnibus Amendment”).¹ The Omnibus Amendment raises a number of serious legal questions concerning the Council’s authority to compel regulated parties, *i.e.*, fishermen, to pay for supplemental monitoring services. As set forth in detail below, there is no authority under the Magnuson-Stevens Act (“MSA”), 16 U.S.C. § 1801 *et seq.*, for industry funding requirements in most of the Atlantic fisheries. As such, the Omnibus Amendment, and future attempts to implement industry-funded monitoring under the Omnibus Amendment’s framework, will almost certainly face legal challenge. CoA Institute requests that the Council either abandon the Omnibus Amendment or develop alternative ways to achieve the Council’s goals of increased data collection and expanded policing of annual catch totals.² The NEFMC could, for example, work with the National Marine Fisheries Service (“NMFS”) to reallocate existing funds for monitoring or petition Congress to appropriate funding specific to expanded monitoring. Attempting to shift monitoring costs without legal authority onto an already economically-beleaguered industry would be ill-advised.

¹ New Eng. Fishery Mgmt. Council & Mid-Atl. Fishery Mgmt. Council, Industry-Funded Monitoring Omnibus Amend. (Sept. 2016) [hereinafter Omnibus Amend.], *available at* <http://bit.ly/2mQxrtn>.

² CoA Institute acknowledges that the Council has chosen its preferred alternatives, including Omnibus Alternatives 2.2 and 2.6 and Herring Alternatives 2.5 and 2.7. *See, e.g.*, New Eng. Fishery Mgmt. Council, Press Release: Council Selects Industry-Funded Monitoring Alternatives for Omnibus Amendment, Atlantic Herring Category A and B Boats (Jan. 25, 2017), *available at* <http://bit.ly/2nKW463>. Nevertheless, final approval by the NEFMC and the Mid-Atlantic Fishery Management Council are required before the Omnibus Amendment is submitted to NMFS for secretarial review and publication in the Federal Register. *See* 16 U.S.C. § 1854(a), (f)(1).

CoA Institute is a nonpartisan 501(c)(3) nonprofit strategic oversight group committed to ensuring that government decision-making is open, honest, and fair.³ In carrying out its mission, CoA Institute uses various investigative and legal tools to educate the public about the importance of government transparency and accountability, as well as agency adherence to the rule of law. CoA Institute advocates on behalf of clients facing federal overreach and overregulation, including members of the New England fishing industry. CoA Institute currently represents David Goethel—a former member of the NEFMC—and the members of Northeast Fishery Sector XIII in a challenge to the Northeast multispecies industry-funded sector at-sea monitoring program.⁴ That case raises many of the same issues faced by the Council vis-à-vis the Omnibus Amendment.

I. The Magnuson-Stevens Act Does Not Authorize the Industry-Funded Monitoring Programs Intended by the Omnibus Amendment.

The stated purpose of the Omnibus Amendment is straightforward: the Council is “interested in increasing monitoring and/or other types of data collection to assess the amount and type of catch, to more precisely monitor annual catch limits, and/or provide other information for management,”⁵ but its ability to fund that increased monitoring is limited.⁶ The proposed solution is to design a standardized mechanism that would permit the government to order fishermen to cover a substantial portion of monitoring costs.⁷ Yet the Council fails to point to *any provision* in the MSA that gives it the authority to implement such a plan.

³ CAUSE OF ACTION INST., *About*, <http://www.causeofaction.org/about> (last visited Apr. 12, 2017).

⁴ *See Goethel v. Pritzker*, No. 16-2103 (1st Cir. argued Mar. 7, 2017); *Goethel v. Pritzker*, No. 15-497, 2016 WL 4076831 (D.N.H. July 29, 2016).

⁵ *See* Omnibus Amend. at 41.

⁶ *See id.* at 43–44 (“NMFS has limited funding for monitoring, so both Councils have considered requiring industry to contribute to the cost of monitoring.”); Greater Atl. Reg’l Fisheries Office, Nat’l Marine Fisheries Serv., Press Release: Industry-Funded Monitoring Omnibus Amendment, Public Hearings and Comment Period (Sept. 20, 2016) (“The amount of available Federal funding to support additional monitoring is limited[.]”), *available at* <http://bit.ly/2nHNpl1>.

⁷ *See, e.g.*, Omnibus Amend. at 62 (“Under Omnibus Alternative 2, there would be an established, standardized structure for new industry-funded monitoring programs . . . [that addresses] (1) standard cost responsibilities associated with industry-funded monitoring for NMFS and the fishing industry, (2) a process for FMP-specific industry-funded monitoring to be implemented via [amendment and revised via] a . . . framework adjustment action, (3) standard administrative requirements [for industry-funded monitoring service providers] . . . (4) [a] process to prioritize new industry-funded monitoring programs in order to allocate available Federal resources for industry-funded monitoring across FMPs, including the type of weighing approach and the timing of revising the weighing approach, and [(5)] a process for FMP-specific monitoring set-aside programs to be

a. The Council Requires Explicit Statutory Authorization to Require Industry to Fund Supplemental Discretionary Monitoring Programs

Federal agencies do not enjoy unbridled power in choosing which programs to pursue; they cannot impose new fees or taxes, nor can they simply demand that citizens pay for programs that the government ought to be financing in the first place. In this sense, the most basic presumption in the Omnibus Amendment, namely, that the Council can order industry to fund a monitoring program, is gravely mistaken and runs afoul of a fundamental principle of administrative law: “[A]n agency literally has no power to act . . . unless and until Congress confers power upon it.”⁸ The Council appears to acknowledge as much, but does not give the principle due credit: “A Federal agency cannot spend money on a program beyond the maximum authorized program level without authorization from Congress. [It] also cannot get around the maximum authorized program level by adding to its appropriations from sources outside the government without permission from Congress.”⁹

The MSA does not authorize the Council to redesign fishery management plans to introduce the sort of industry-funded monitoring envisioned by the Omnibus Amendment. At most, the MSA authorizes the *placement* of observers and monitors.¹⁰ The Council, however, is not at liberty to design any particular *funding* mechanism for those monitors. The plain meaning of the MSA, here, is clear and unambiguous.¹¹ The statute only authorizes industry-funded monitoring in a few specific regions and circumstances: (1) foreign fishing,¹² (2) limited access privilege programs,¹³ and (3) the North Pacific fisheries research plan.¹⁴ Congress’s decision to permit NMFS and the regional councils to require industry-funded monitoring and observing in those, and

implemented via a future framework adjustment action. Additionally, [it] would include a range of options for the process to prioritize industry-funded monitoring across all FMPs.” (alternations indicate changes in the April 2017 Omnibus Amendment draft, *available at* <http://bit.ly/2omwA0Q>).

⁸ *La. Pub. Serv. Comm’n v. Fed. Commc’ns Comm’n*, 476 U.S. 355, 374 (1986); *see Util. Air Regulatory Grp. v. Envtl. Prot. Agency*, 134 S. Ct. 2427, 2466 (2014) (“An agency confronting resource constraints may change its own conduct, but it cannot change the law.”).

⁹ *See* Omnibus Amend. at 45.

¹⁰ 16 U.S.C. § 1853(b)(8); 50 C.F.R. § 648.2.

¹¹ *See generally Palmieri v. Nynex Long Distance Co.*, 437 F.3d 111, 115 (1st Cir. 2006); *Bonilla v. Muebles J.J. Alvarez, Inc.*, 194 F.3d 275, 277 n.2 (1st Cir. 1999).

¹² 16 U.S.C. § 1821(h)(4).

¹³ *Id.* § 1853a(e). The Greater Atlantic Region contains two fisheries that permit cost recovery through a fee system: the Atlantic sea scallop individual fishing quota and golden tilefish individual fishing quota limited access privilege programs. *See* Omnibus Amend. at 51.

¹⁴ 16 U.S.C. § 1862(a).

only those, three situations shows its intent to disallow industry funding in other instances.¹⁵ To read the statute otherwise violates Congress’s clear intent and the well-established legislative history of the MSA.¹⁶

b. The Omnibus Amendment’s Industry-Funded Monitoring Scheme Would Violate the National Standards and Other Important Legal Principles.

Notwithstanding the Council’s lack of explicit legal authority, the introduction of industry-funded monitoring across the Greater Atlantic fisheries would also impose a tremendous economic burden on the fishing industry and could lead to the elimination of small-scale fishing. This result would violate National Standards 7 and 8.¹⁷ Congress never intended to grant the Council the authority to regulate a substantial portion of the Atlantic fleet out of existence.¹⁸ Indeed, as the Supreme Court has held, “Congress . . . does not alter the fundamental details of a regulatory scheme [such as the one intended by the MSA] in vague terms or ancillary provisions,”¹⁹ nor does it “delegate a decision of such economic and political significance [as the introduction of

¹⁵ Any other reading of the MSA would render provisions discussing industry funding surplusage, *Nat’l Credit Union Admin v. First Nat’l Bank & Tr. Co.*, 522 U.S. 479, 501 (1998), and offend important canons of construction. *Duncan v. Walker*, 533 U.S. 167, 173 (2001); see also *EchoStar Satellite L.L.C. v. Fed. Comm’n’s Comm’n*, 704 F.3d 992, 999 (D.C. Cir. 2013); *Ry. Labor Execs.’ Ass’n v. Nat’l Mediation Bd.*, 29 F.3d 655 (D.C. Cir. 1994); cf. *Anglers Conservation Network v. Pritzker*, 139 F. Supp. 3d 102, 116 n.9 (D.D.C. 2015) (“[C]ost sharing’ programs with industry participants in other fisheries in order to provide higher observer coverage levels . . . were expressly authorized by statute for particular fisheries only.”) (emphasis added) (citing 16 U.S.C. § 1862).

¹⁶ There is no evidence of Congressional recognition for some pre-existing, implied authority to impose monitoring costs on industry. Congress has repeatedly declined the opportunity to permit industry funding nationwide. Each time the MSA has been reauthorized, Congress considered (and rejected) bills that would have created blanket authority for mandatory industry funding. H.R. 1554, 101st Cong. § 2(a)(3) (1989); H.R. 39, 104th Cong. § 9(b)(4) (1995); H.R. 5018, 109th Cong. § 9(b) (2006).

¹⁷ See 16 U.S.C. § 1851(a)(7)–(8). It should not lightly be concluded that Congress intend to grant authority for the Council and NMFS to take actions that would put fishermen out of business. See *Arctic Sole Seafoods v. Gutierrez*, 622 F. Supp. 2d 1050, 1061 (W.D. Wash. 2008) (rejecting agency interpretation because it “leads to absurd results—the inevitable elimination of the fishery); *W. Sea Fishing Co. v. Locke*, 722 F. Supp. 2d 126, 140 (D. Mass. 2010) (“[The MSA] creates a duty to allow for harvesting at optimum yield in the present, while at the same time protecting fishery output for the future[.]”).

¹⁸ The Council could certainly repeal or revoke any of its fishery management plans, but it must do so explicitly and by three-quarters majority approval of its voting members. 16 U.S.C. § 1854(h).

¹⁹ *Whitman v. Am. Trucking Ass’n, Inc.*, 531 U.S. 457, 468 (2001).

industry-funded monitoring] in so cryptic a fashion.”²⁰ Industry-funded monitoring as a normal course of fishery regulation is not only novel, but represents a shift of economic and political significance.

In the absence of authorization for the sort of industry-funded monitoring programs contemplated by the Omnibus Amendment, the Council can only be described as preparing to impose a “tax” to extract money from regulated parties in order to fund desired regulatory programs. This cannot stand as “only Congress has the power to levy taxes.”²¹ The Omnibus Amendment, as applied in future fishery management plan amendments, would also violate numerous statutes governing agency finance, such as the Anti-Deficiency Act²² and the Miscellaneous Receipts Statutes.²³ Finally, industry funding requirements would impermissibly compel fishermen into commercial transactions in violation of the Commerce Clause²⁴ and violate other parts of the Constitution, including the Fourth Amendment.

II. The Expected Economic Impact of the Omnibus Amendment, including Provisions for the Herring and Mackerel Fisheries, and Stakeholder Feedback Expose Other Important Deficiencies.

In line with the National Standards, the Omnibus Amendment and future industry-funded monitoring programs must “minimize costs,”²⁵ “provide for the sustained participation of [fishing] communities,”²⁶ and “minimize adverse economic impacts.”²⁷ The Omnibus Amendment fails to meet these standards, both generally

²⁰ *Food & Drug Admin. v. Brown & Williamson Tobacco Corp.*, 529 U.S. 120, 160 (2000); see *Gonzales v. Oregon*, 546 U.S. 243, 267 (2006) (rejecting the argument that Congress would delegate “broad and unusual authority through an implicit delegation”).

²¹ *Thomas v. Network Solutions*, 2 F. Supp. 2d 22, 29 (D.D.C. 1998); see U.S. Const., art. I., § 8, cl. 1; *Nat’l Cable Television Ass’n, Inc. v. United States*, 415 U.S. 336, 340 (1974) (“Taxation is a legislative function, and Congress . . . is the sole organ for levying taxes[.]”).

²² See 31 U.S.C. § 1341(a)(1)(A)–(B); see also *Env’tl. Def. Ctr. v. Babbitt*, 73 F.3d 867, 872 (9th Cir. 1995).

²³ See 31 U.S.C. § 3302(b); see also *Scheduled Airlines Traffic Offices, Inc. v. Dep’t of Def.*, 87 F.3d 1356, 1361 (D.C. Cir. 1996). The Government Accountability Office has rejected the proposition that an agency can avoid the Miscellaneous Receipts Statute “by authorizing a contractor to charge fees to outside parties and keep the payments in order to offset costs that would otherwise be borne by agency appropriations.” Gov’t Accountability Office, 2 Principles of Fed. Appropriations L. at 6-177 (3d ed. 2006).

²⁴ See, e.g., *Nat’l Fed’n of Indep. Bus. v. Sebelius*, 132 S. Ct. 2566, 2587 (2012) (The government cannot “compel[] individuals to become active in commerce by purchasing a product.”).

²⁵ 16 U.S.C. § 1851(a)(7).

²⁶ *Id.* § 1851(a)(8).

²⁷ *Id.*

and with respect to the herring and mackerel alternatives, because it will have a severe and adverse impact on the fishing industry.

The expected economic impact on fishery-related business and communities is uniformly negative.²⁸ Monitoring costs in the herring fishery, for example, will likely exceed \$710 per sea day for an at-sea monitor and \$818 per sea day for a NEFOP-level observer.²⁹ Such costs are probably higher than the daily landings revenue of the typical small-scale vessel. This is certainly the case in the Northeast multispecies fishery. Under the groundfish sector at-sea monitoring program, up to 60% of the fleet is expected to “see negative returns to owner when full” monitoring costs “are factored in.”³⁰ The Council cannot ignore the devastating economic effects of industry funding in the herring and mackerel fisheries, just as it cannot ignore the costs associated with the Omnibus Alternatives, which it has deemed too “speculative” to consider.³¹

It is worth noting the overwhelmingly negative feedback that the Council and NMFS have received in pursuing the Omnibus Amendment. Of the eighty-three (83) submissions posted to the electronic docket during the last round of public comment, only six (6) voiced various levels of support for industry-funded monitoring; the vast majority — 93% — opposed it.³² The reasons for this opposition are straightforward enough. Many small-scale fishermen cannot remain profitable if they must assume

²⁸ See, e.g., Omnibus Amend. at xiii–xxiv; *id.* at 244 (“Overall, there will be *negative direct economic impacts to fishing vessels* as a result of selecting Omnibus Alternative 2[.]”) (emphasis added).

²⁹ *Id.* at 291 (Table 89). For fishermen active in both the herring and the mackerel fisheries, these costs could rise even further. See *id.* at 301 (“Many of the vessels that would be impacted by industry-funded monitoring costs in the herring fishery would also be impacted by industry-funded monitoring costs in the mackerel fishery.”). Total estimated costs for vessels active in the mackerel fishery will depend, of course, on the Mid-Atlantic Fishery Management Council’s preferred mackerel coverage target alternatives, which have not yet been chosen.

³⁰ New Eng. Fishery Mgmt. Council, Draft Report: Preliminary Evaluation of the Impact of Groundfish-Sector Funded At Sea Monitoring on Groundfish Fishery Profits at 10 (June 19, 2015), available at <http://bit.ly/28QUXwT>. These costs are predicted to be heaviest for small vessels. *Id.* at 13 (Table 12). NMFS recognized these prospects, describing them as a “restructuring of the fleet.” *Id.* at 10.

³¹ Omnibus Amend. at 237 (“[P]otential downstream effects (e.g., subsequent management measures to address bycatch issues) of this action are considered too remote and speculative to be appropriate for consideration[.]”).

³² Dep’t of Commerce, Nat’l Oceanic & Atmospheric Admin., 81 Fed. Reg. 64,426 (Sept. 20, 2016), Docket No. NOAA-NMFS-2016-0139-0001, available at <http://bit.ly/2p5NO1s>.

monitoring costs.³³ The Long Island Commercial Fishing Association, for example, expects that the Omnibus Amendment's approximately \$800 per sea day cost would force more than half of the entire New York-based fleet out of business.³⁴ Stakeholders are also skeptical that increased monitoring has any connection to conservation or maintaining the sustainability of the fisheries, and they question the quality of the data collected. Most importantly, however, the public recognizes that the MSA does *not*, in fact, authorize industry-funded monitoring simply because the Council or NMFS wishes it to do so,³⁵ and they acknowledge the potential constitutional problems.³⁶

Apart from the lack of authority under the MSA for the Council and NMFS to impose monitoring costs on vessels, the Council has also failed to provide an adequate explanation for why increased monitoring is necessary, let alone justify that monitoring in light of the extreme financial burden it will put on fishermen. Industry-funded monitoring, as proposed, would destroy multi-generational, small-business fishermen up-and-down the East Coast while benefitting industrial fishing firms. That result is unacceptable.

³³ See Comment of Meghan Lapp, Seafreeze Ltd., on Omnibus Amend. (Nov. 7, 2016), Docket No. NOAA-NMFS-2016-0139-0009, *available at* <http://bit.ly/2nUf8Ph> (discussing impact of herring and mackerel alternatives).

³⁴ See Comment of Long Island Commercial Fishing Ass'n on Omnibus Amend. (Nov. 8, 2016), Docket No. NOAA-NMFS-2016-0139-0084, *available at* <http://bit.ly/2odOrsX> ("The onus for NMFS required observer coverage should be on NMFS, not industry. It is cost prohibitive.").

³⁵ See, e.g., Comment of David Goethel on Omnibus Amend. (Nov. 7, 2016), Docket No. NOAA-NMFS-2016-0139-0010, *available at* <http://bit.ly/2o04Mye> ("Monitoring is a function of government and should be funded at levels Congress deems appropriate through NOAA line items in the budget. . . . [The MSA] allows for the placement of observers on fishing boats but is silent on cost recovery except in specific fisheries in the North Pacific Region."); *see also* Comment of Gregg Morris on Omnibus Amend. (Nov. 8, 2016), Docket No. NOAA-NMFS-2016-0139-0080, *available at* <http://bit.ly/2o09hJp> (same).

³⁶ E.g., Comment of N.C. Fisheries Ass'n on Omnibus Amend. (Nov. 7, 2016), Docket No. NOAA-NMFS-2016-0139-0082, *available at* <http://bit.ly/2oXBtAa> (raising due process concerns) ("There was no reasonable opportunity for [public hearings] down in the affected states of Maryland, Virginia, and North Carolina. Their involvement in the public hearings process was substantially truncate. [Those] whose stand to be severely impacted . . . have not been given a single public hearing reasonably close enough for them to be expected to attend."); *cf.* Brooke Constance White, *Stonington fishermen, first selectman: Camera proposal violates Fourth Amendment rights*, THE WESTERLY SUN (Apr. 7, 2017), <http://bit.ly/2o00maB>.

Council Members

Council Membership

The 18 voting members of the Council include the Regional Administrator of NOAA Fisheries in the Greater Atlantic Region (GARFO) and the five principal state officials with marine fishery management responsibility (or their designee) from CT, ME, MA, NH, and RI.

Twelve other NEFMC members are nominated by the governors of the New England coastal states and appointed by the Secretary of Commerce for three-year terms. Additionally, four non-voting members represent the United States Coast Guard, U.S. Fish and Wildlife Service, U.S. Department of State, and the Atlantic States Marine Fisheries Commission.

Financial Interest of Members

Council members may have an interest in any fishery-related harvesting, processing, lobbying, advocacy, or marketing activity as long as they disclose the extent of this interest to the public. This ensures that knowledgeable fishing industry members can serve on the Council. Council members are not allowed to vote on matters that would benefit only them or a minority of other people within the same sector or gear group.

Council member financial disclosure forms must be available for public inspection on the internet and at the Council office. Details of this requirement are provided in the Magnuson-Stevens Fishery Conservation and Management

New England Fishery Management Council 2016-2017 voting members. Front row (left to right): Mark Godfroy (NH), Dr. Michael Sissenwine (MA), Eric Reid (RI), Council Chairman Dr. John Quinn (MA), Council Vice Chairman Terry Stockwell (ME), Terry Alexander (ME), Peter Kendall (NH), Doug Grout (NH), and Elizabeth "Libby" Etrie (MA). Back row (left to right): Rick Bellavance (RI), Dr. David Pierce (MA), Dr. Matt McKenzie (CT), U.S. Coast Guard representative Capt. Brian Fiedler (non-voting member), John Pappalardo (MA), Mark Gibson (RI), Mark Alexander (CT), Vincent Balzano (ME), and Mary Beth Nickell-Tooley (ME). Missing is Greater Atlantic Regional Fisheries Office Regional Administrator John Bullard, a voting member.

Dear Dr. Quinn,

Please find attached a letter with Cause of Action Institute's comments on the draft Industry-Funded Monitoring Omnibus Amendment. We hope that you and the other Council members will take these comments under consideration at your upcoming monthly meeting. Thank you.

Best Regards,

Julie Smith | Vice President

CAUSE of ACTION INSTITUTE

Pursuing Freedom and Opportunity through Justice and Accountability

April 12, 2017

VIA ELECTRONIC MAIL

New England Fishery Management Council
ATTN: Dr. John Quinn, Chairman
50 Water Street, Mill 2
Newburyport, MA 01950
E-mail: comments@nefmc.org

Re: Industry-Funded Monitoring (IFM) Omnibus Amendment

Dear Chairman Quinn:

I write on behalf of Cause of Action Institute (“CoA Institute”) with respect to the New England Fishery Management Council’s (“NEFMC” or “Council”) consideration of final action on the Industry-Funded Monitoring Omnibus Amendment (“Omnibus Amendment”).¹ The Omnibus Amendment raises a number of serious legal questions concerning the Council’s authority to compel regulated parties, *i.e.*, fishermen, to pay for supplemental monitoring services. As set forth in detail below, there is no authority under the Magnuson-Stevens Act (“MSA”), 16 U.S.C. § 1801 *et seq.*, for industry funding requirements in most of the Atlantic fisheries. As such, the Omnibus Amendment, and future attempts to implement industry-funded monitoring under the Omnibus Amendment’s framework, will almost certainly face legal challenge. CoA Institute requests that the Council either abandon the Omnibus Amendment or develop alternative ways to achieve the Council’s goals of increased data collection and expanded policing of annual catch totals.² The NEFMC could, for example, work with the National Marine Fisheries Service (“NMFS”) to reallocate existing funds for monitoring or petition Congress to appropriate funding specific to expanded monitoring. Attempting to shift monitoring costs without legal authority onto an already economically-beleaguered industry would be ill-advised.

¹ New Eng. Fishery Mgmt. Council & Mid-Atl. Fishery Mgmt. Council, Industry-Funded Monitoring Omnibus Amend. (Sept. 2016) [hereinafter Omnibus Amend.], *available at* <http://bit.ly/2mQxrtn>.

² CoA Institute acknowledges that the Council has chosen its preferred alternatives, including Omnibus Alternatives 2.2 and 2.6 and Herring Alternatives 2.5 and 2.7. *See, e.g.*, New Eng. Fishery Mgmt. Council, Press Release: Council Selects Industry-Funded Monitoring Alternatives for Omnibus Amendment, Atlantic Herring Category A and B Boats (Jan. 25, 2017), *available at* <http://bit.ly/2nKW463>. Nevertheless, final approval by the NEFMC and the Mid-Atlantic Fishery Management Council are required before the Omnibus Amendment is submitted to NMFS for secretarial review and publication in the Federal Register. *See* 16 U.S.C. § 1854(a), (f)(1).

CoA Institute is a nonpartisan 501(c)(3) nonprofit strategic oversight group committed to ensuring that government decision-making is open, honest, and fair.³ In carrying out its mission, CoA Institute uses various investigative and legal tools to educate the public about the importance of government transparency and accountability, as well as agency adherence to the rule of law. CoA Institute advocates on behalf of clients facing federal overreach and overregulation, including members of the New England fishing industry. CoA Institute currently represents David Goethel—a former member of the NEFMC—and the members of Northeast Fishery Sector XIII in a challenge to the Northeast multispecies industry-funded sector at-sea monitoring program.⁴ That case raises many of the same issues faced by the Council vis-à-vis the Omnibus Amendment.

I. The Magnuson-Stevens Act Does Not Authorize the Industry-Funded Monitoring Programs Intended by the Omnibus Amendment.

The stated purpose of the Omnibus Amendment is straightforward: the Council is “interested in increasing monitoring and/or other types of data collection to assess the amount and type of catch, to more precisely monitor annual catch limits, and/or provide other information for management,”⁵ but its ability to fund that increased monitoring is limited.⁶ The proposed solution is to design a standardized mechanism that would permit the government to order fishermen to cover a substantial portion of monitoring costs.⁷ Yet the Council fails to point to *any provision* in the MSA that gives it the authority to implement such a plan.

³ CAUSE OF ACTION INST., *About*, <http://www.causeofaction.org/about> (last visited Apr. 12, 2017).

⁴ *See Goethel v. Pritzker*, No. 16-2103 (1st Cir. argued Mar. 7, 2017); *Goethel v. Pritzker*, No. 15-497, 2016 WL 4076831 (D.N.H. July 29, 2016).

⁵ *See* Omnibus Amend. at 41.

⁶ *See id.* at 43–44 (“NMFS has limited funding for monitoring, so both Councils have considered requiring industry to contribute to the cost of monitoring.”); Greater Atl. Reg’l Fisheries Office, Nat’l Marine Fisheries Serv., Press Release: Industry-Funded Monitoring Omnibus Amendment, Public Hearings and Comment Period (Sept. 20, 2016) (“The amount of available Federal funding to support additional monitoring is limited[.]”), *available at* <http://bit.ly/2nHNpl1>.

⁷ *See, e.g.*, Omnibus Amend. at 62 (“Under Omnibus Alternative 2, there would be an established, standardized structure for new industry-funded monitoring programs . . . [that addresses] (1) standard cost responsibilities associated with industry-funded monitoring for NMFS and the fishing industry, (2) a process for FMP-specific industry-funded monitoring to be implemented via [amendment and revised via] a . . . framework adjustment action, (3) standard administrative requirements [for industry-funded monitoring service providers] . . . (4) [a] process to prioritize new industry-funded monitoring programs in order to allocate available Federal resources for industry-funded monitoring across FMPs, including the type of weighing approach and the timing of revising the weighing approach, and [(5)] a process for FMP-specific monitoring set-aside programs to be

a. The Council Requires Explicit Statutory Authorization to Require Industry to Fund Supplemental Discretionary Monitoring Programs

Federal agencies do not enjoy unbridled power in choosing which programs to pursue; they cannot impose new fees or taxes, nor can they simply demand that citizens pay for programs that the government ought to be financing in the first place. In this sense, the most basic presumption in the Omnibus Amendment, namely, that the Council can order industry to fund a monitoring program, is gravely mistaken and runs afoul of a fundamental principle of administrative law: “[A]n agency literally has no power to act . . . unless and until Congress confers power upon it.”⁸ The Council appears to acknowledge as much, but does not give the principle due credit: “A Federal agency cannot spend money on a program beyond the maximum authorized program level without authorization from Congress. [It] also cannot get around the maximum authorized program level by adding to its appropriations from sources outside the government without permission from Congress.”⁹

The MSA does not authorize the Council to redesign fishery management plans to introduce the sort of industry-funded monitoring envisioned by the Omnibus Amendment. At most, the MSA authorizes the *placement* of observers and monitors.¹⁰ The Council, however, is not at liberty to design any particular *funding* mechanism for those monitors. The plain meaning of the MSA, here, is clear and unambiguous.¹¹ The statute only authorizes industry-funded monitoring in a few specific regions and circumstances: (1) foreign fishing,¹² (2) limited access privilege programs,¹³ and (3) the North Pacific fisheries research plan.¹⁴ Congress’s decision to permit NMFS and the regional councils to require industry-funded monitoring and observing in those, and

implemented via a future framework adjustment action. Additionally, [it] would include a range of options for the process to prioritize industry-funded monitoring across all FMPs.” (alternations indicate changes in the April 2017 Omnibus Amendment draft, *available at* <http://bit.ly/2omwA0Q>).

⁸ *La. Pub. Serv. Comm’n v. Fed. Commc’ns Comm’n*, 476 U.S. 355, 374 (1986); *see Util. Air Regulatory Grp. v. Envtl. Prot. Agency*, 134 S. Ct. 2427, 2466 (2014) (“An agency confronting resource constraints may change its own conduct, but it cannot change the law.”).

⁹ *See* Omnibus Amend. at 45.

¹⁰ 16 U.S.C. § 1853(b)(8); 50 C.F.R. § 648.2.

¹¹ *See generally Palmieri v. Nynex Long Distance Co.*, 437 F.3d 111, 115 (1st Cir. 2006); *Bonilla v. Muebles J.J. Alvarez, Inc.*, 194 F.3d 275, 277 n.2 (1st Cir. 1999).

¹² 16 U.S.C. § 1821(h)(4).

¹³ *Id.* § 1853a(e). The Greater Atlantic Region contains two fisheries that permit cost recovery through a fee system: the Atlantic sea scallop individual fishing quota and golden tilefish individual fishing quota limited access privilege programs. *See* Omnibus Amend. at 51.

¹⁴ 16 U.S.C. § 1862(a).

only those, three situations shows its intent to disallow industry funding in other instances.¹⁵ To read the statute otherwise violates Congress’s clear intent and the well-established legislative history of the MSA.¹⁶

b. The Omnibus Amendment’s Industry-Funded Monitoring Scheme Would Violate the National Standards and Other Important Legal Principles.

Notwithstanding the Council’s lack of explicit legal authority, the introduction of industry-funded monitoring across the Greater Atlantic fisheries would also impose a tremendous economic burden on the fishing industry and could lead to the elimination of small-scale fishing. This result would violate National Standards 7 and 8.¹⁷ Congress never intended to grant the Council the authority to regulate a substantial portion of the Atlantic fleet out of existence.¹⁸ Indeed, as the Supreme Court has held, “Congress . . . does not alter the fundamental details of a regulatory scheme [such as the one intended by the MSA] in vague terms or ancillary provisions,”¹⁹ nor does it “delegate a decision of such economic and political significance [as the introduction of

¹⁵ Any other reading of the MSA would render provisions discussing industry funding surplusage, *Nat’l Credit Union Admin v. First Nat’l Bank & Tr. Co.*, 522 U.S. 479, 501 (1998), and offend important canons of construction. *Duncan v. Walker*, 533 U.S. 167, 173 (2001); see also *EchoStar Satellite L.L.C. v. Fed. Comm’n’s Comm’n*, 704 F.3d 992, 999 (D.C. Cir. 2013); *Ry. Labor Execs.’ Ass’n v. Nat’l Mediation Bd.*, 29 F.3d 655 (D.C. Cir. 1994); cf. *Anglers Conservation Network v. Pritzker*, 139 F. Supp. 3d 102, 116 n.9 (D.D.C. 2015) (“[C]ost sharing’ programs with industry participants in other fisheries in order to provide higher observer coverage levels . . . were expressly authorized by statute for particular fisheries only.”) (emphasis added) (citing 16 U.S.C. § 1862).

¹⁶ There is no evidence of Congressional recognition for some pre-existing, implied authority to impose monitoring costs on industry. Congress has repeatedly declined the opportunity to permit industry funding nationwide. Each time the MSA has been reauthorized, Congress considered (and rejected) bills that would have created blanket authority for mandatory industry funding. H.R. 1554, 101st Cong. § 2(a)(3) (1989); H.R. 39, 104th Cong. § 9(b)(4) (1995); H.R. 5018, 109th Cong. § 9(b) (2006).

¹⁷ See 16 U.S.C. § 1851(a)(7)–(8). It should not lightly be concluded that Congress intend to grant authority for the Council and NMFS to take actions that would put fishermen out of business. See *Arctic Sole Seafoods v. Gutierrez*, 622 F. Supp. 2d 1050, 1061 (W.D. Wash. 2008) (rejecting agency interpretation because it “leads to absurd results—the inevitable elimination of the fishery); *W. Sea Fishing Co. v. Locke*, 722 F. Supp. 2d 126, 140 (D. Mass. 2010) (“[The MSA] creates a duty to allow for harvesting at optimum yield in the present, while at the same time protecting fishery output for the future[.]”).

¹⁸ The Council could certainly repeal or revoke any of its fishery management plans, but it must do so explicitly and by three-quarters majority approval of its voting members. 16 U.S.C. § 1854(h).

¹⁹ *Whitman v. Am. Trucking Ass’n, Inc.*, 531 U.S. 457, 468 (2001).

industry-funded monitoring] in so cryptic a fashion.”²⁰ Industry-funded monitoring as a normal course of fishery regulation is not only novel, but represents a shift of economic and political significance.

In the absence of authorization for the sort of industry-funded monitoring programs contemplated by the Omnibus Amendment, the Council can only be described as preparing to impose a “tax” to extract money from regulated parties in order to fund desired regulatory programs. This cannot stand as “only Congress has the power to levy taxes.”²¹ The Omnibus Amendment, as applied in future fishery management plan amendments, would also violate numerous statutes governing agency finance, such as the Anti-Deficiency Act²² and the Miscellaneous Receipts Statutes.²³ Finally, industry funding requirements would impermissibly compel fishermen into commercial transactions in violation of the Commerce Clause²⁴ and violate other parts of the Constitution, including the Fourth Amendment.

II. The Expected Economic Impact of the Omnibus Amendment, including Provisions for the Herring and Mackerel Fisheries, and Stakeholder Feedback Expose Other Important Deficiencies.

In line with the National Standards, the Omnibus Amendment and future industry-funded monitoring programs must “minimize costs,”²⁵ “provide for the sustained participation of [fishing] communities,”²⁶ and “minimize adverse economic impacts.”²⁷ The Omnibus Amendment fails to meet these standards, both generally

²⁰ *Food & Drug Admin. v. Brown & Williamson Tobacco Corp.*, 529 U.S. 120, 160 (2000); see *Gonzales v. Oregon*, 546 U.S. 243, 267 (2006) (rejecting the argument that Congress would delegate “broad and unusual authority through an implicit delegation”).

²¹ *Thomas v. Network Solutions*, 2 F. Supp. 2d 22, 29 (D.D.C. 1998); see U.S. Const., art. I., § 8, cl. 1; *Nat’l Cable Television Ass’n, Inc. v. United States*, 415 U.S. 336, 340 (1974) (“Taxation is a legislative function, and Congress . . . is the sole organ for levying taxes[.]”).

²² See 31 U.S.C. § 1341(a)(1)(A)–(B); see also *Env’tl. Def. Ctr. v. Babbitt*, 73 F.3d 867, 872 (9th Cir. 1995).

²³ See 31 U.S.C. § 3302(b); see also *Scheduled Airlines Traffic Offices, Inc. v. Dep’t of Def.*, 87 F.3d 1356, 1361 (D.C. Cir. 1996). The Government Accountability Office has rejected the proposition that an agency can avoid the Miscellaneous Receipts Statute “by authorizing a contractor to charge fees to outside parties and keep the payments in order to offset costs that would otherwise be borne by agency appropriations.” Gov’t Accountability Office, 2 Principles of Fed. Appropriations L. at 6-177 (3d ed. 2006).

²⁴ See, e.g., *Nat’l Fed’n of Indep. Bus. v. Sebelius*, 132 S. Ct. 2566, 2587 (2012) (The government cannot “compel[] individuals to become active in commerce by purchasing a product.”).

²⁵ 16 U.S.C. § 1851(a)(7).

²⁶ *Id.* § 1851(a)(8).

²⁷ *Id.*

and with respect to the herring and mackerel alternatives, because it will have a severe and adverse impact on the fishing industry.

The expected economic impact on fishery-related business and communities is uniformly negative.²⁸ Monitoring costs in the herring fishery, for example, will likely exceed \$710 per sea day for an at-sea monitor and \$818 per sea day for a NEFOP-level observer.²⁹ Such costs are probably higher than the daily landings revenue of the typical small-scale vessel. This is certainly the case in the Northeast multispecies fishery. Under the groundfish sector at-sea monitoring program, up to 60% of the fleet is expected to “see negative returns to owner when full” monitoring costs “are factored in.”³⁰ The Council cannot ignore the devastating economic effects of industry funding in the herring and mackerel fisheries, just as it cannot ignore the costs associated with the Omnibus Alternatives, which it has deemed too “speculative” to consider.³¹

It is worth noting the overwhelmingly negative feedback that the Council and NMFS have received in pursuing the Omnibus Amendment. Of the eighty-three (83) submissions posted to the electronic docket during the last round of public comment, only six (6) voiced various levels of support for industry-funded monitoring; the vast majority — 93% — opposed it.³² The reasons for this opposition are straightforward enough. Many small-scale fishermen cannot remain profitable if they must assume

²⁸ See, e.g., Omnibus Amend. at xiii–xxiv; *id.* at 244 (“Overall, there will be *negative direct economic impacts to fishing vessels* as a result of selecting Omnibus Alternative 2[.]”) (emphasis added).

²⁹ *Id.* at 291 (Table 89). For fishermen active in both the herring and the mackerel fisheries, these costs could rise even further. See *id.* at 301 (“Many of the vessels that would be impacted by industry-funded monitoring costs in the herring fishery would also be impacted by industry-funded monitoring costs in the mackerel fishery.”). Total estimated costs for vessels active in the mackerel fishery will depend, of course, on the Mid-Atlantic Fishery Management Council’s preferred mackerel coverage target alternatives, which have not yet been chosen.

³⁰ New Eng. Fishery Mgmt. Council, Draft Report: Preliminary Evaluation of the Impact of Groundfish-Sector Funded At Sea Monitoring on Groundfish Fishery Profits at 10 (June 19, 2015), available at <http://bit.ly/28QUXwT>. These costs are predicted to be heaviest for small vessels. *Id.* at 13 (Table 12). NMFS recognized these prospects, describing them as a “restructuring of the fleet.” *Id.* at 10.

³¹ Omnibus Amend. at 237 (“[P]otential downstream effects (e.g., subsequent management measures to address bycatch issues) of this action are considered too remote and speculative to be appropriate for consideration[.]”).

³² Dep’t of Commerce, Nat’l Oceanic & Atmospheric Admin., 81 Fed. Reg. 64,426 (Sept. 20, 2016), Docket No. NOAA-NMFS-2016-0139-0001, available at <http://bit.ly/2p5NO1s>.

monitoring costs.³³ The Long Island Commercial Fishing Association, for example, expects that the Omnibus Amendment's approximately \$800 per sea day cost would force more than half of the entire New York-based fleet out of business.³⁴ Stakeholders are also skeptical that increased monitoring has any connection to conservation or maintaining the sustainability of the fisheries, and they question the quality of the data collected. Most importantly, however, the public recognizes that the MSA does *not*, in fact, authorize industry-funded monitoring simply because the Council or NMFS wishes it to do so,³⁵ and they acknowledge the potential constitutional problems.³⁶

Apart from the lack of authority under the MSA for the Council and NMFS to impose monitoring costs on vessels, the Council has also failed to provide an adequate explanation for why increased monitoring is necessary, let alone justify that monitoring in light of the extreme financial burden it will put on fishermen. Industry-funded monitoring, as proposed, would destroy multi-generational, small-business fishermen up-and-down the East Coast while benefitting industrial fishing firms. That result is unacceptable.

³³ See Comment of Meghan Lapp, Seafreeze Ltd., on Omnibus Amend. (Nov. 7, 2016), Docket No. NOAA-NMFS-2016-0139-0009, *available at* <http://bit.ly/2nUf8Ph> (discussing impact of herring and mackerel alternatives).

³⁴ See Comment of Long Island Commercial Fishing Ass'n on Omnibus Amend. (Nov. 8, 2016), Docket No. NOAA-NMFS-2016-0139-0084, *available at* <http://bit.ly/2odOrsX> ("The onus for NMFS required observer coverage should be on NMFS, not industry. It is cost prohibitive.").

³⁵ See, e.g., Comment of David Goethel on Omnibus Amend. (Nov. 7, 2016), Docket No. NOAA-NMFS-2016-0139-0010, *available at* <http://bit.ly/2o04Mye> ("Monitoring is a function of government and should be funded at levels Congress deems appropriate through NOAA line items in the budget. . . . [The MSA] allows for the placement of observers on fishing boats but is silent on cost recovery except in specific fisheries in the North Pacific Region."); *see also* Comment of Gregg Morris on Omnibus Amend. (Nov. 8, 2016), Docket No. NOAA-NMFS-2016-0139-0080, *available at* <http://bit.ly/2o09hJp> (same).

³⁶ E.g., Comment of N.C. Fisheries Ass'n on Omnibus Amend. (Nov. 7, 2016), Docket No. NOAA-NMFS-2016-0139-0082, *available at* <http://bit.ly/2oXBtAa> (raising due process concerns) ("There was no reasonable opportunity for [public hearings] down in the affected states of Maryland, Virginia, and North Carolina. Their involvement in the public hearings process was substantially truncate. [Those] whose stand to be severely impacted . . . have not been given a single public hearing reasonably close enough for them to be expected to attend."); *cf.* Brooke Constance White, *Stonington fishermen, first selectman: Camera proposal violates Fourth Amendment rights*, THE WESTERLY SUN (Apr. 7, 2017), <http://bit.ly/2o00maB>.

Detail

The National Marine Fisheries Service was investigating the death of two dolphins found washed ashore in San Diego. I hereby request that you provide copies of the following NOAA official records in any format available. Please consider this a formal Freedom of Information Law (FOIL) request for information regarding buildings, construction, and other facilities. AMENDED REQUEST 12/17 - I request all records of communications between any employee of the office of legislative and public affairs. CORRESPONDENCE LOG REQUEST - Any and all records of communication (including but not limited to letters, emails, and text messages).

ago County shortly after Navy ships used sonar in nearby waters. These were common bottle nose dolphins. Information was made or received under Federal Law or in connection with public business, including but not limited to: construction, chemical spills, underground storage tanks (USTs), monitoring wells, ground water sampling, and other environmental issues. This information is available to any employee, member or other representative of the House of Representatives. Requests for information may be made in written requests, reports, telephone records, electronic communication, complaints, investigations, violations, and other means.

Detail

REFERRAL FROM USACE: 1. All pre-construction notifications ("PCN") for which compliance with Section 404 of the

Clean Water Act, 33 U.S.C. § 1344, is/was sought pursuant to nationwide permits ("NWP"), generated since February 21, 2012 through the date of the agency's search for responsive records, in the following divisions of the U.S. Army Corps of Engineers ("ACOE"): North Atlantic; South Atlantic; South Pacific; Northwestern, Pacific Ocean; Headquarters;

2. All verification letters for NWPs, generated since February 21, 2012 through the date of the agency's search for responsive records, in the following divisions of the ACOE: North Atlantic; South Atlantic; South Pacific; Northwestern; Pacific Ocean; Headquarters;

3. All NWPs issued, approved, authorized, verified, and/or relied upon for specific activities or discharges by the North Atlantic, South Atlantic, South Pacific, Pacific Ocean; and Northwestern ACOE Divisions, and/or by ACOE Headquarters, in calendar years 2011 and 2012 through the date of the agency's search for responsive records;

4. All notices of intent to sue ACOE, dated within four years of the date of the agency's search for records, alleging violations of the Endangered Species Act and/or Clean Water Act in connection with the ACOE's NWP program;

5. All requests for reauthorization of activities pursuant to 2007 NWP 21 received by any ACOE division from Feb. 21, 2012 through the date of the agency's search for responsive records¹

6. All biological opinions, biological assessments, letters of concurrence, and letters reflecting determinations of "no effect", pursuant to Section 7(a)(2) of the Endangered Species Act, 16 U.S.C. § 1536(a)(2), for any projects covered under any NWPs, dated from February 21, 2012 through the date of the agency's search for responsive records;

Detail

Please see the attached Freedom of Information Act request submitted by Friends of Animals.

Unless otherwise specified, Requesters seek all documents for the time period starting January 26th, 2007 and ending January 26th, 2016. The total number of common bottlenose dolphins, *Tursiops truncatus*, being cared for by human beings in facilities in Astoria, Oregon. I respectfully request the following information: 1. The Port of Astoria's Surveillance Video from the East Mooring Basin. I request all the findings and reports regarding 2016 sea lion Scat samples taken in the East Mooring Basin in Astoria, Oregon for the public good.

Please see attached.

This is a request for records in the possession of the National Marine Fisheries Service (NMFS) of the National Oceanic and Atmospheric Administration (NOAA) relevant to DOCYA132315BU0023 we seek copies of the following information: 1. All Task Orders (TOs) [Reference FGI# 49336] relevant to DOCYA132315BU0023 we seek copies of the following information: 1. All Task Orders (TOs) [Reference FGI# 49271] relevant to DOCDG133E10CQ0031 / DG133E-10-CQ-0031 we seek copies of the following information: 1. All Task Orders (TOs) [Reference FGI# 49270] relevant to DOCDG133E10CQ0033 / DG133E-10-CQ-0033 we seek copies of the following information: 1. All Task Orders (TOs) [Reference FGI# 49269] relevant to DOCDG133E10CQ0034 / DG133E-10-CQ-0033 we seek copies of the following information: 1. All Task Orders (TOs) Any and all requests for technical assistance for projects or initiatives that would impact the Atlantic sturgeon in the Pacific Northwest. I request necropsies for the following animals: NOA0006292, NOA0001291, NOA0003051, NOA0004593, NOA0006292. We request a copy of the notice of forfeiture and any document that will show the basis for the forfeiture for the following animals: NOA0006292, NOA0001291, NOA0003051, NOA0004593, NOA0006292. After a review of the request and responsive records, FSC determined that one record contains equities related in part to the request.

ding April 11, 2016. Over the course of several years, NOAA has issued multiple Letters of Authorization across the 50 United States. In addition, I would also like to know how many of these dolphins are being basin from Friday 6:00pm on April 03 2015 through 9:00am Monday April 06,2015. ria, Oregon.

“Awareness” of FOIA requests

FOIAs of Interest.

1. Provide to the Office of Public Affairs (OPA) each Thursday afternoon weekly reports listing incoming FOIA requests of interest; Note, the reports would not contain any personnel related requests.
2. Hold weekly meetings between OPA and the Office of Privacy and Open Government (OPOG) to discuss FOIAs of interest.
3. Categories of interest:
 - Media;
 - Secretary of Commerce;
 - Public interest / special interest; and
 - Legal (submitted by an attorney).
4. Each report will contain the following information:
 - Request number;
 - Received date;
 - Requester name;
 - Requester organization;
 - Brief description;
 - Category (topic of interest); and
 - Comments (use to describe ‘Other’ category or provide information you believe is important for us to know).
5. Requests closed during the week with the following final dispositions are to be excluded from the report:
 - All records referred to another Agency;
 - Request withdrawn;
 - Fee-related reason;
 - Records not reasonably described;
 - Improper FOIA request for other reason;
 - Not an agency records; or
 - Duplicate request.
6. OPA will identify requests of interest warranting OPA review of response determinations.
7. OPOG or the lead bureau for a request will provide OPA appropriate information for awareness.

ACTION REQUIRED: Weekly FOIA Requests of Interest Report

1 message

Toland, Michael (Federal) <MToland@doc.gov>

Wed, May 24, 2017 at 10:50 AM

To: "Arnold, Josephine (Federal)" <jarnold@mbda.gov>, "Bogomolny, Michael (Federal)" <MBogomolny@doc.gov>, "Boston, Louis" <Louis.Boston@uspto.gov>, "Cheney, Stacy" <SCheney@ntia.doc.gov>, "Curry, Vernon E" <vernon.e.curry@census.gov>, "Fletcher, Catherine" <catherine.fletcher@nist.gov>, "Gioffre, Kathy (Federal)" <KGioffre@doc.gov>, "Graff, Mark (Federal)" <Mark.Graff@noaa.gov>, "Hagen, Don" <dahlen@ntis.gov>, "Heaton, John" <Ricou.Heaton@uspto.gov>, "Hitt, Lucas" <Lucas.Hitt@bea.gov>, "Kelton, Cindy (Federal)" <ckelton@doc.gov>, "Kong, Stephen (Federal)" <SKong@eda.gov>, "Kuo, Jennifer" <Jennifer.Kuo@bis.doc.gov>, "Main, Laura" <LMain@oig.doc.gov>, "Moulder, Pamela (Federal)" <pmoulder@doc.gov>, "Oliphant, Tashima (Federal)" <TOliphant@eda.gov>, "Parsons, Bobbie (Federal)" <bParsons@doc.gov>, "Piel, Jennifer" <JPiel@oig.doc.gov>, "Pilot, Adrienne" <Adrienne.Pilot@bea.gov>, "Powers, Victor" <Victor.Powers@trade.gov>, "Smith, Kathy" <KSmith@ntia.doc.gov>, "Staunton, Dondi" <Dondi.Staunton@bea.gov>, "Stith, Lola (Contractor)" <Lola.M.Stith@noaa.gov>, "Strickland, Wayne" <WayneS@ntis.gov>

FOIA Officers and Contacts:

My office has been asked to provide the Office of Public Affairs (OPA) an “awareness” of FOIA requests of interest on a weekly basis. I am aware that many of you have been submitting weekly reports to me, as well as other individuals within the Department. This requirement will replace those reports—you will only need to provide the “new” reports to me at mtoland@doc.gov with a cc to efoia@doc.gov, and you may discontinue any previous reports that you have been providing to the Department. Of course, you should continue to provide those reports internally, as needed. Additionally, if you have any concerns or questions about current reports, please feel free to contact me.

I have provided two (2) attachments to my email:

1. BOU Weekly FOIA Report template – please use this spreadsheet to submit your requests of interest. I will be compiling a master list to submit to OPA and senior leadership and the use of a template will make it easier to finalize the list, as well as ensure consistency.
2. BOU FOIA reports Word document – describes the parameters associated with the reports. For example, the document lists the categories of interest along with what request are not to be provided as part of a report.

Use the following guidelines:

- Reports are to be provided to my office by close of business on each Wednesday of a week via email to the email addresses identified in paragraph 1.
- A report should run from Wednesday of the previous week to Tuesday of the current week. As an example, this week’s report would have been for the week 5/17/17 – 5/23/17.

- If your bureau or operating unit (BOU) does not have any requests to report for a week, then submit a “No response for this week” email to the email addresses identified in paragraph 1.
- I will provide any additional guidance as needed.

Please be aware that this requirement is not an option. Submission of reports will start the week of May 29, 2017. So, I expect to receive reports that run from 5/24/17 – 5/30/17 from each FOIA Officer or Contact starting next week.

I realize that everyone may carry a heavy load in support of the Department’s FOIA program. Your support is greatly appreciated and does not go unnoticed.

Please feel free to contact me should you have any questions or need additional information.

Regards,

Mike

Michael J. Toland, Ph.D.

Detail

On behalf of People for the Ethical Treatment of Animals (PETA), and pursuant to the Freedom of Information Act, I request copies of all records regarding Permit No. 774, issued to SeaWorld on October 7, 1992, to import the orca Tilikum pursuant to the Marine Mammal Protection Act (MMPA), from July 7, 2014, to the present, excepting correspondence between the agency and PETA, the Animal Welfare Institute, and their representatives. This request includes, but is not limited to, memoranda, reports, notes, letters, emails, and other correspondence.

All correspondence (emails, letters, documents) dated between April 1, 2016 and May 27, 2017, composed or received by the National Marine Fisheries Service, West Coast Region, in which "Children's Pool" appears in the correspondence.

Pursuant to the FOIA, CoA Institute hereby requests access to the following records for the time period of October 31, 2016 to the present: 1. The processing notes for CoA Institute's FOIA request dated October 31, 2016, tracking number DOC-NOAA-2017-000168, and the NOAA Tasker memorandum regarding or related to this request. 2. The processing notes for CoA Institute's FOIA request dated October 31, 2016, tracking number DOC-NOAA-2017-000169, and the NOAA Tasker memorandum regarding or related to this request. 3. The processing notes for CoA Institute's FOIA request dated October 31, 2016, tracking number DOC-NOAA-2017-000170, and the NOAA Tasker memorandum regarding or related to this request. 4. All communications—including, but not limited to, e-mail, instant messaging, Google hangouts or Google chat messages, text messages, SMS messages, Blackberry messages, Skype messages, handwritten notes, or communications through any other media—between NOAA and the Office of the White House Counsel concerning or related to any of the above FOIA requests.

I'm writing in regards to a shark fin investigation originating in Puerto Rico where it's been reported that 54 shark fins were illegally transported to Florida during 2016. The information I'm requesting is any information regarding the case that can be made available without interfering with a successful prosecution or aren't confidential. Information requested included but isn't limited to: - Confirmed total number of fins seized - Shark species involved in case - Who are the individuals/company/companies being held responsible in the shark finning and transport? - Who and what penalties have been issued if any? (fines, etc) - Any other information available to the public

Conservación ConCiencia is a Puerto Rico registered non-profit organization dedicated to environmental research and conservation that promotes sustainable development by working in collaboration with communities, NGOs, governments, academia and the private sector. Within the next year, we're planning on launching Puerto Rico's first comprehensive Shark research and conservation program. An integral component of the program is collaboration with the commercial fishing industry. The information regarding this case will aid us to gauge the status and size of the current illegal shark trade in Puerto Rico, in addition to assisting us avoid partners that are involved with illegal fishing practices. Additionally, any information on any other shark fin or shark trafficking case originating in Puerto Rico would also be appreciated.

Detail

We request copies of all memoranda, studies, reports, data, correspondence, comments, conversation records, files, electronic mail records, or other documents, which were generated, received, kept, and/or considered by NMFS relating to the reopening of the red snapper season, between the dates of January 20, 2017 and June 19, 2017. This includes documents, records, and materials regarding:

1. extension or reopening of the private recreational red snapper season;
2. how or whether this action would affect progress toward rebuilding under the red snapper rebuilding plan;
3. how or whether this action may cause or contribute to overfishing; and
4. data, computations, or any other analysis used to determine the number of days the season would be open.

We request documents, records, and materials pertaining to the above enumerated subjects involving, but not limited to, the following people:

1. Wilbur Ross
2. Samuel Rauch
3. Alan Risenhoover
4. Roy Crabtree
5. Andy Strelcheck
6. George Kelly
7. Earl Comstock
8. Bonnie Ponwith
9. Patrick Lynch
10. Emily Menashes
11. Benjamin Friedman
12. Lindsey Kraatz

Through the Freedom of Information Act, I request the following documents: A summary of all complaints of violence, threats, or harassment against fisheries observers in US fisheries observer programs that occurred in calendar year 2013, 2014, 2015, and 2016, separated by: 1. Year; 2. Whether the complaint was initiated by the observer or by observer program staff; 3. Date of complaint; 4. Observer program from which the observer was deployed; 5. Nature of the complaint (e.g. assault, sexual assault, harassment, verbal abuse, intimidation, interference, lack of assistance, death, or other type of threat); 6. What, if any, outcomes stemmed from each complaint (e.g., arrest, conviction, ongoing investigation). If any portion is redacted, I request that at least the region be revealed.

Through the Freedom of Information Act, I request the following documents: 1. E-mails, photographs and possibly faxes and other communications before and after and relating to my observer trip on board the America No. 1, a US-flagged Patagonia Toothfish longline vessel then owned by Lawrence Lasarow, PacFish, Inc. I met the vessel in Spain September 28, 2003, sailed for the Southern Ocean to test CCAMLR seabird mitigation measures to be confirmed prior to entry into a CCAMLR Ross Sea experimental fishery. My time on board this vessel was from September 28, 2003 through approximately November 27, 2003. The time frame of communications I request is from August 1, 2003 until August 1, 2005. I request e-mails, faxes or other communications, from this time period, to and from myself to DOC employees - Chris Jones (SWFSC); Robin Tuttle; Teresa Turk; NOAA OLE; Paul Ortiz (Office of General Counsel); Frank Sptel (Deputy General Counsel); Mike Gonzales (OLE); Brett Schneider (OLE). E-mails pertaining to my deployment to and from NOAA and Lawrence Lasarow (Seaport Management Services, LLC; PacFish, Inc) , German Munoz (Chile), and any officials in Spain. 2. I request any investigation reports or communications relating to my harassment while on board, the data I collected, and the reports filed. Other potential names of persons involved are: Hennie Crous, Lawrence Lasarow, and Joe D'Alfio. 3. I request the 2003 consent decree between NOAA and Mr. Lawrence Lasarow's company, PacFish, Inc. and any other legal documents associated with this particular trip. 4. I request any documents relating to NOAA's presentations at the CCAMLR meeting, CCAMLR-XXII.

Public Interest/Special Interest	Records specifically are sought pertaining to named Bureau and Department leadership. This issue has been in the news multiplied times (http://www.newschannel10.com/story/35647812/federal-red-snapper-season-could-reopen-but-with-a-catch). See also http://www.sportfishingmag.com/gulf-red-snapper-federal-season-reopens .
----------------------------------	--

Public Interest/Special Interest	This is a repeat request, and we routinely receive similar requests seeking the same material. This organization is likely maintaining comparative trends, and historical data on this issue.
----------------------------------	---

This is a specific request for an incident of harassment. Because the requester is familiar with the incident, they also will likely have a more complete knowledge of locations where responsive records are likely to be found and are more prone to raise a search adequacy challenge if the search is deficient.

Public Interest/Special Interest

BOU Weekly FOIA Report
Wednesday 6/121-Tuesday 6/27

Detail

The center for biological diversity sought: 1. All records mentioning, including, and/or referencing the draft and/or final biological evaluation of chlorpyrifos under the Endangered Species Act, 16 U.S.C. §§ 1531-1544 ("ESA"); 2. All records mentioning, including, and/or referencing the draft and/or final biological evaluation of malathion under the ESA; 3. All records mentioning, including, and/or referencing the draft and/or final biological evaluation of diazinon under ESA; 4. All records mentioning, including, and/or referencing the draft and/or final biological opinion of chlorpyrifos under the ESA; 5. All records mentioning, including, and/or referencing the draft and/or final biological opinion of malathion under the ESA; and 6. All records mentioning, including, and/or referencing the draft and/or final biological opinion of diazinon under ESA. Please note that this request does not apply to documents found online or under the docket EPAHQ- OPP-2016-0167.

This is a referral from USACE--the original requester was the Southern Environmental Law Center, who sought records regarding the reauthorization of the Nationwide Permits.

The Center requests from the National Marine Fisheries Service ("NMFS") all records generated in connection with the issuance of incidental harassment authorizations for oil and gas seismic exploration in the Atlantic Ocean under the Marine Mammal Protection Act, 16 U.S.C. §§ 1361-1389 ("MMPA"), from January 20, 2017 to the date of the search.

All communications between any of the following Commerce officials—(a) all political appointees and any career SES staff in the Office of the Secretary; (b) all political appointees in the National Oceanic and Atmospheric Administration; and (c) all political appointees in the National Marine Fisheries Service—and any of a list of entities with agricultural interests or pesticide manufacturers.

Detail

Please provide all records generated in connection to complaints made to the Monterey Bay National Marine Sanctuary about wildlife being harassed or disturbed by drones or unmanned aerial vehicles. This request is limited to the time-frame between January 1, 2016 and the time this request is processed. For this request, the term “all records” refers to, but is not limited to, any and all complaints submitted to the Monterey Bay National Marine Sanctuary (via email, mail, fax, and phone) about wildlife being harassed or disturbed by drones or unmanned aerial vehicles, documents, correspondence (including, but not limited to, inter and/or intra-agency correspondence as well as correspondence with entities or individuals outside the federal government), emails, letters, notes, telephone records, telephone notes, minutes, memoranda, comments, files, presentations, consultations, biological opinions, assessments, evaluations, schedules, telephone logs, papers published and/or unpublished, reports, studies, photographs and other images, data (including raw data, GPS or GIS data, UTM, LiDAR, etc.), maps, and/or all other responsive records, in draft or final form. This request is not meant to exclude any other records that, although not specially requested, are reasonably related to the subject matter of this request. If you or your office have destroyed or determine to withhold any records that could be reasonably construed to be responsive to this request, I ask that you indicate this fact and the reasons therefore in your response. Under the FOIA Improvement Act of 2016, agencies are prohibited from denying requests for information under FOIA unless the agency reasonably believes release of the information will harm an interest that is protected by the exemption. FOIA Improvement Act of 2016 (Public Law No. 114-185), codified at 5 U.S.C. § 552(a)(8)(A).

TIRN requests from the National Oceanic & Atmospheric Administration (“NOAA”), National Marine Fisheries Services (“NMFS”) and any other divisions under NOAA; all “records” as defined in this Request, including without limitation all inter and intra agency communications, data and other information, used to prepare or otherwise responsive to the following:

1. Regarding the FY 2018-2022 Office of Law Enforcement Priorities (Draft) (“Report”)1 all records used, considered or referred to by NOAA to identify the “patrol, outreach, and investigation to deter and detect: illegal marine mammal and seabird takes, and incidental take reporting violations” in the West Coast Division as a priority for enforcement in the Report.

TIRN requests from the National Oceanic & Atmospheric Administration (“NOAA”), National Marine Fisheries Services (“NMFS”) and any other divisions under NOAA; all “records” as defined in this Request, including without limitation all inter and intra agency communications, data and other information, used to prepare or otherwise responsive to the following:

1. Regarding the FY 2018-2022 Office of Law Enforcement Priorities (Draft) (“Report”)1 all records used, considered or referred to by NOAA to identify the “patrol, outreach, and investigation to deter and detect: wasteful takes by authorized marine mammal harvesters” in the West Coast Division as a priority for enforcement in the Report.

("NOAA"), National Marine Fisheries Services ("NMFS") and any other divisions under NOAA; all "records" as defined in this Request, including without limitation all inter and intra agency communications, data and other information, used to prepare or otherwise responsive to the following:

(1) Regarding the FY 2018-2022 Office of Law Enforcement Priorities (Draft) ("Report")¹ all records used, considered or referred to by NOAA to identify the "patrol, outreach, and investigation to deter and detect: Illegal takes (e.g. Level A harassment, feeding, injuring, shooting, etc.) of ESA and MMPA listed species" in the West Coast Division as a priority for enforcement in the Report.

TIRN requests from the National Oceanic & Atmospheric Administration ("NOAA"), National Marine Fisheries Services ("NMFS") and any other divisions under NOAA; all "records" as defined in this Request, including without limitation all inter and intra agency communications, data and other information, used to prepare or otherwise responsive to the following:

Regarding the FY 2018-2022 Office of Law Enforcement Priorities (Draft) ("Report")¹, all records used, considered or referred to by NOAA to identify the "patrol, outreach, and investigation to deter and detect: violations involving commercial vessel incursions into closed areas or other Marine Protected Areas" in the West Coast Division as a priority for enforcement in the Report.

TIRN requests from the National Oceanic & Atmospheric Administration ("NOAA"), National Marine Fisheries Services ("NMFS") and any other divisions under NOAA; all "records" as defined in this Request, including without limitation all inter and intra agency communications, data and other information, used to prepare or otherwise responsive to the following:

1. Regarding the FY 2018-2022 Office of Law Enforcement Priorities (Draft) ("Report")¹ all records used, considered or referred to by NOAA to identify the "patrol, outreach, and investigation to deter and detect: Lethal takes, Level A harassment, with the potential to injure marine mammals or ESA listed sea turtles" in the Pacific Islands Division as a priority for enforcement in the Report.

TIRN requests from the National Oceanic & Atmospheric Administration ("NOAA"), National Marine Fisheries Services ("NMFS") and any other divisions under NOAA; all "records" as defined in this Request, including without limitation all inter and intra agency communications, data and other information, used to prepare or otherwise responsive to the following:

Regarding the FY 2018-2022 Office of Law Enforcement Priorities (Draft) ("Report")¹, all records used, considered or referred to by NOAA to identify the "patrol, outreach, and investigation to deter and detect: observer sexual assault, assault, harassment, observer safety, interference, and significant sample bias violations" in the Alaska, Northeast, Pacific Island, Southeast and West Coast Divisions as a priority for enforcement in the Report.

TIRN requests from the National Oceanic & Atmospheric Administration (“NOAA”), National Marine Fisheries Services (“NMFS”) and any other divisions under NOAA; all “records” as defined in this Request, including without limitation all inter and intra agency communications, data and other information, used to prepare or otherwise responsive to the following:

Regarding the FY 2018-2022 Office of Law Enforcement Priorities (Draft) (“Report”),¹ all records used, considered or referred to by NOAA to identify the “patrol, outreach, and investigation to deter and detect: destruction of listed salmon and steelhead critical habitat” in the West Coast Division as a priority for enforcement in the Report.

TIRN requests from the National Oceanic & Atmospheric Administration (“NOAA”), National Marine Fisheries Services (“NMFS”) and any other divisions under NOAA; all “records” as defined in this Request, including without limitation all inter and intra agency communications, data and other information, used to prepare or otherwise responsive to the following:

Regarding the FY 2018-2022 Office of Law Enforcement Priorities (Draft) (“Report”),¹ all records used, considered or referred to by NOAA to identify the “patrol, outreach, and investigation to deter and detect: reported violations by U.S. and/or International Observers on the high seas regarding U.S. vessels” in the Pacific Islands Division as a priority for enforcement in the Report.

TIRN requests from the National Oceanic & Atmospheric Administration (“NOAA”), National Marine Fisheries Services (“NMFS”) and any other divisions under NOAA; all “records” as defined in this Request, including without limitation all inter and intra agency communications, data and other information, used to prepare or otherwise responsive to the following:

Regarding the FY 2018-2022 Office of Law Enforcement Priorities (Draft) (“Report”),¹ all records used, considered or referred to by NOAA to identify the “patrol, outreach, and investigation to deter and detect: vessel on whale collisions” in the West Coast Division as a priority for enforcement in the Report.

TIRN requests from the National Oceanic & Atmospheric Administration (“NOAA”), National Marine Fisheries Services (“NMFS”) and any other divisions under NOAA; all “records” as defined in this Request, including without limitation all inter and intra agency communications, data and other information, used to prepare or otherwise responsive to the following:

Regarding the FY 2018-2022 Office of Law Enforcement Priorities (Draft) (“Report”),¹ all records used, considered or referred to by NOAA to identify the “patrol, outreach, and investigation to deter and detect: observer reported fishery management plan violations” in the Pacific Islands Division as a priority for enforcement in the Report.

Pursuant to the Freedom of Information Act, 5 U.S.C. § 552, I am requesting any and all documents, including, but not limited to, notes, e-mails, memos, or any other materials concerning pledges, oaths, requests or agreements, oral or written, not to disclose information or documents, or pledges, oaths, requests or agreements, oral or written, having to do with loyalty, allegiance, or similar concepts, made to the President, the Vice President, the Office of the President or the Office of the Vice President, or any individual working in the White House or the White House Compound by any and all current and former members of the NOAA's leadership team according to the NOAA's website, including, but not limited to, the Director, Acting Director, Deputy Directors, and Inspector General, along with the leadership team's senior staff, since Nov. 9, 2016. (If you need clarity about this request, I'm looking for analogs in your agency to the memos that former FBI Director James Comey wrote about a personal loyalty pledge that the President asked him to give.) Thank you very much for your assistance. If any of the material covered by this request has been destroyed or removed, please provide all surrounding documentation including, but not limited to, a description of the action taken regarding the materials and justification for those actions taken. For any documents or portions you deny due to a specific FOIA exemption, please provide a detailed justification of your grounds for claiming such exemption, explaining why the exemption is relevant to the document or portion of the document withheld.

I request any records and email communications relating to drafting the press release on the 2017 edition of NOAA's Annual Greenhouse Gas Index found here: <http://www.noaa.gov/news/noaa-s-greenhouse-gas-index-up-40-percent-since-1990> I would prefer to receive these in electronic format if possible. All documents relating to the mass stranding of nearly 100 false killer whales (*Pseudorca crassidens*) near Hog Key in southwest Florida in January 2017. This request includes documents generated and received by NMFS. In addition to documents which pertain to the incident itself, we are also seeking subsequent documents which relate to the cause of the mass beaching – including those which speculate as to cause. For reference, this incident has been the subject of a Miami Herald article, in which you were quoted, at the following URL: <http://www.miamiherald.com/news/local/environment/article127095479.html> I would prefer that these documents be transmitted to me as e-mail attachment(s) in PDF, Word, or WordPerfect format if the documents are maintained in any of these formats. We are therefore requesting that the Center provide COMPASS modeling of increases in spill to gas cap levels at the Snake River collector dams.

I request access to and copies of any and all documents in the possession of the National Oceanic and Atmospheric Administration concerning the 19.43-acre parcel located on the south side of SW 72nd Street (Sunset Drive) at SW 73rd Court (the "Property" sometimes also described as the "Christ Journey Church" property or parcel) as addressed in the May 25, 2017 letter from Roxanna Hinzman to Juan Mayol (attached). This request includes but is not limited to: 1. Any and all communications by and between Tom Jackson, Research Fisheries Biologist, Protected Resources Division (NOAA) and the U.S. Fish and Wildlife Service concerning the Property; 2. Any and all communications by and between Joan Browder, Research Ecologist (NOAA) and staff at the U.S. Fish and Wildlife Service concerning the Property; 3. Any and all surveys, Geographic Information System data or other documents pertaining to the presence of Miami tiger beetle, (*Cicindela floridana*) on the Property or in the immediate vicinity of the Property; 4. Any and all documents related to a site visit to the Property conducted by Tom Jackson and other NOAA staff on or around May 15, 2016 including any surveys, data, photos, notes on site visits, or other information related to the Property; 5. Any and all documents related to prior site visits to the Property by Mr. Jackson on or around April 2013 including any surveys, data, photos, notes on site visits, or other information related to the presence of Miami tiger beetle; 6. Any and all communications between NOAA and the Miami Dade Department of Environmental Resources Management (DERM) or other state or local government entities concerning the Property; 7. Any and all documents in the possession of Mr. Jackson evidencing permission to enter the Property prior to any site visits in 2017, 2013 or other time periods.

1. All records related to the effect on endangered winter-run chinook salmon, threatened spring-run chinook salmon, and their habitat, of water diversions by any or all Sacramento River Settlement Contractors from 2013 to the present. 2. All records related to the effect on endangered winter-run chinook salmon, threatened spring-run chinook salmon, and their habitat, of water operations and deliveries by the U.S. Bureau of Reclamation to meet the demands of the Sacramento River Settlement Contracts from 2013 to the present.

Comments

This request is a re-submission of a request that was previously submitted by the same individual through MuckRock

Each of these TIRN requests may be amenable to consolidation considering the overlap of the subject of the subject matter of the request.

This request is submitted on behalf of the South

Assignment Determination

Assignment Determination

I request copies of any records detailing plans for reorganization or layoffs in the regions covering Oregon and Washington, as well as any letters of reassignment to staff in Oregon or Washington. I am seeking records since March 1, 2017.

Please provide all records generated in connection to complaints made to the Monterey Bay National Marine Sanctuary about wildlife being harassed or disturbed by drones or unmanned aerial vehicles. This request is limited to the time-frame between January 1, 2016 and the time this request is processed. For this request, the term "all records" refers to, but is not limited to, any and all complaints submitted to the Monterey Bay National Marine Sanctuary (via email, mail, fax, and phone) about wildlife being harassed or disturbed by drones or unmanned aerial vehicles, documents, correspondence (including, but not limited to, inter and/or intra-agency correspondence as well as correspondence with entities or individuals outside the federal government), emails, letters, notes, telephone records, telephone notes, minutes, memoranda, comments, files, presentations, consultations, biological opinions, assessments, evaluations, schedules, telephone logs, papers published and/or unpublished, reports, studies, photographs and other images, data (including raw data, GPS or GIS data, UTM, LiDAR, etc.), maps, and/or all other responsive records, in draft or final form. This request is not meant to exclude any other records that, although not specially requested, are reasonably related to the subject matter of this request. If you or your office have destroyed or determine to withhold any records that could be reasonably construed to be responsive to this request, I ask that you indicate this fact and the reasons therefore in your

I'm looking for any documents which make reference to the fast-food chain McDonald's and its product known as either the 'Lobster Roll' or 'McLobster.' For context, the Canadian subsidiary recently said it would not sell the product this year due to high lobster prices in Canada - and there is speculation McDonald's may bring the product back using 'cheaper' American lobster. Please limit to records from June 1, 2017 to

I request copies of any records detailing plans for reorganization or layoffs in the regions covering Oregon and Washington, as well as any letters of reassignment to staff in Oregon or Washington. I am seeking records since March 1, 2017.

I, Lisa Conley am the complainant for DOC OIG Referral 17-0469-N. I was informed by DOC OIG (Briane Jones - Investigator) that my matter was closed with OIG and referred to NOAA for any action they deemed appropriate. DOC OIG informed me to contact NOAA FOIA to request more information into my complaint. I am requesting the management follow up records and the closing records regarding my complaint. I am requesting NOAA FOIA to provide me with the management follow up records and the closing records (resolution) for my complaint #17-0469-N. I have not been contacted by anyone in NOAA regarding the resolution of my complaint. I have had no contact from DOC OIG until I reached out for status of my complaint and DOC OIG referred me to NOAA FOIA. I have not been contacted or provided by NOAA with any resolution information regarding my complaint filed in April 2017. I am requesting for NOAA FOIA to provide me with any and all management follow up records and all closing records (resolution) regarding my complaint #17-0469-N. If there is any additional information needed from me for my NOAA FOIA request please let me know. Thank you

Comments

2016 Tuna catches have received moderate news coverage, including one notable article by The Pew Charitable Trusts, entitled "Netting Billions: A Valuation of Tuna in the Western and Central Pacific Ocean."

<http://www.pewtrusts.org/en/research-and-analysis/fact-sheets/2016/09/netting-billions-a-valuation-of-tuna-in-the-western-and-central-pacific-ocean>.

This touches on a recent Washington Post article referenced Secretary Ross' reversal of the non-compliance finding, and a discussion on the impact on conservation efforts. The article was published July 17, and was picked up by other news sources, including the AP/KTAR News, and other local news groups. One example is here: <http://ktar.com/story/1659851/group-trump-officials-fish-ruling-could-harm-conservation/>. This may require the Department to take the lead, deferring to OPOG on ownership.

Public Interest/Special Interest

Again, we routinely release MMIRs, however, the requester in this instance is a Special Interest group with a broad audience in the field.

Public Interest/Special Interest

This issue received some attention due to the publicity of the hunting of a humpback whale.

I request access to and copies of all email correspondence to and from Acting NOAA Administrator (and Under Secretary of Commerce for Oceans and Atmosphere) Ben Friedman, his senior advisor, special assistant, chief of staff, deputy chief of staff and policy director, between the dates of July 1, 2017, and the date this request is fulfilled with the following search terms:

“climate assessment”

“advisory committee”

I request that a search be conducted of the NWS offices and employee files and that a copy of records concerning the following subject be provided to me: ~ •Any and all communications, documents, spreadsheets, submissions, agreements, or other records concerning or related to Space Data's proposal to the NWS regarding Space Data's Stratospheric Nano Satellites (“SNS”) system and/or the NWS's radiosonde upper air observation system. • Any and all communications, documents, spreadsheets, submissions, agreements, or other records concerning or related to Space Data's proposal to use, or its use of, the NWS launching sites, Any and all communications, documents, spreadsheets, submissions, agreements, or other records concerning or related to Space Data's proposed modifications, or modifications, to the NWS's launching sites. • Any and all communications, documents, spreadsheets, submissions, agreements, or other records concerning or related to Space Data's proposal to use, or use of, the NWS's 1680 MHz frequency band. • Any and all communications, documents, spreadsheets, submissions, agreements, or other records concerning or related to data provided to the NWS by Space Data regarding records of balloon flights launched by Space Data. • Any and all communications, documents, spreadsheets, submissions, agreements, or other records concerning or related to weather and wind data provided to the NWS by Space Data. • Any and all communications, documents, spreadsheets, submissions, or other records concerning or related to the technical features or specifications of Space Data's products, equipment, and/or systems.

A copy of each email that includes the word CLIMATE or the word CHARTER or the phrase “ADVISORY COMMITTEE”. I limit this search to an electronic search of emails in the email accounts of the Acting Administrator Ben Friedman, and those of his Senior Advisor, Special Assistant, Chief of Staff, Deputy Chief of Staff and Policy Director. I limit this search to the dates July 1, 2017 to the present.

My request is for any and all documents, including internal emails, that discuss NOAA's decision to remove the magenta line from its navigational chart

I am seeking the database of the Marine Mammal Inventory Report compiled by the National Marine Fisheries Service for all years that are available in electronic form. I would like to receive this data in electronic form that is compatible with Excel or Access. Also, I would like to receive an electronic version of what is commonly called the data dictionary, which would explain the contents of each field of information.

ATTN - NAUTICAL DATA BRANCH: Requesting the following: (1) Latest Edition of All Volumes of the NAUTICAL CHART MANUAL (2) Any and all documents or files associated with the charting of oil and gas structures in Quarantine Bay, Louisiana, as depicted on NOAA/NOS/OCS Chart # 11364 and/or US Coast and Geodetic Survey Chart #1271 and/or NOAA Electronic Navigation Chart (ENC) US4LA35M for the years 1960-2016 (3) For the years 1960-2016, any and all copies of documents provided by the US Army Corps of Engineers to NOAA/NOS/OCS (and specifically the NOS Marine Charting Division) regarding any structures in Quarantine Bay, Louisiana, including without limitation permits for construction of structures in Quarantine Bay and/or establishment/erection of private aids to navigation in Quarantine Bay (4) For the years 1960-2016, any and all copies of documents relating to Well 149 or 149-D located in Quarantine Bay, Louisiana

1994 report by NOAA. Exact title unknown but referenced document indicates the following keywords: Terry Creek, Dupree Creek, Brunswick, GA sediment, *Ampelisca abdita*, amphipod, toxicity. Full quote regarding NOAA report to give context: In 1994, NOAA obtained sediment samples from estuarine settings in the Terry Creek and Back River areas and analyzed these samples for acute toxicity to the marine amphipod *Ampelisca abdita* (NOAA, 1994). Results indicated that sediments from Terry Creek exhibited sediment toxicity to *A. abdita* that was not observed in sediments from other areas of the Brunswick/St. Simon's estuary.

I would like copies of all emails including the word CLIMATE or the word CHARTER or the phrase "ADVISORY COMMITTEE". I limit this search to an electronic search of emails in the email accounts of the Acting Administrator Ben Friedman, and those of his Senior Advisor, Special Assistant, Chief of Staff, Deputy Chief of Staff and Policy Director. I limit this search to the dates July 1, 2017 to the present.

Detail

All records relating to the facts surrounding the Stranding, including how the event was discovered, the condition of the animals, any efforts made to assist the animals, and mortality data.

2. All records relating to any investigation, whether conducted by NMFS or other entities, of the possible cause of the Stranding. This request includes, but is not limited to, records regarding necropsies and/or any other analysis of samples reportedly taken from some of the dead animals.²

3. All records regarding any marine oil and gas activities, including both exploratory activities and active production, near the site of the Stranding from January 9, 2017 until January 14, 2017. For purposes of this request, "near the site of the Stranding" means within approximately 120 miles.

4. All records regarding any internal NMFS communications regarding the Stranding

5. All records regarding any communications between NMFS and the National Park Service, the United States Coast Guard (USCG), and/or the United States Navy (USN) regarding the Stranding. With respect to documents produced to or received from the USCG or USN, SSL requests records in NMFS' possession since January 14, 2017.

6. All records regarding any communications between NMFS and the Florida Fish and Wildlife Conservation Commission regarding the Stranding.

7. All records regarding any communications between NMFS and the Bureau of Ocean Energy Management regarding the Stranding.

8. All records regarding any communications between NMFS and any entities that conducted (or were suspected of conducting) any marine oil and gas activities, including both exploratory activities and active production, near the site of the Stranding from January 9, 2017 until January 14, 2017. For purposes of this request, "near the site of the Stranding" means within approximately 120 miles. Additionally, this request is limited to all communications concerning the Stranding.

All records mentioning, including and/or referencing timing for release of 4th National Climate Assessment, whether it will be issued in final form by the statutory deadline, obstacles for completing by the deadline, and whether the recent decision to terminate the 'Advisory Committee for Sustained National Climate Assessment' will impact the date for issuance of the final 4th National Climate Assessment.

Pursuant to the Freedom of Information Act, I request access to and copies of any bibliographies documenting public sources consulted in support of the designation or boundary proposals given to the Secretary of the Interior in advance of the following National Monument designations: • Papahānaumokuākea Marine National Monument • Pacific Remote Islands Marine National Monument • Marianas Trench Marine National Monument • Rose Atoll Marine National Monument • Northeast Canyons and Seamounts Marine National Monument

Category	Comments
Public Interest	All background documentation to Marine National Monument designations has come under significant scrutiny. We currently have several other requests, including a litigation risk with Cause of Action, seeking information about the NE Seamounts National Monument

Assignment Determination

Detail

Friends of the Earth requests all records pertaining to any applications for permits submitted to the National Oceanic and Atmospheric Administration (NOAA) for the authorization of offshore, marine aquaculture activities involving the culturing of finfish in net pens or cages, received from January 1, 2016 to present. These records should include, but not be limited to, any internal or external correspondence regarding the applications; any meetings or communications or other contact— including meeting minutes and scheduling notes—that any applicant arranged or attended with NOAA or that NOAA arranged or attended with any of the applicant; as well as any findings, conclusions, or actions taken in response to an application. For this request, the term “records” refers to, but is not limited to, correspondence of any kind, memoranda, letters, notes, schedules, electronic mail, telephone logs, minutes of meetings, work papers, reports, studies, or data.

Pursuant to the Freedom of Information Act, 5 U.S.C. Section 552 et seq. ("FOIA"), I request access to and copies of documents showing the number of people assigned to the National Oceanic and Atmospheric Administration (NOAA) from institutions of higher education under the Intergovernmental Personnel Act Mobility Program, as of two dates: September 14, 2017, and September 14, 2016 ("the First Request"). I also request access to and copies of documents showing the specific institutions of higher education with which those people were associated, and the number of people assigned to NOAA under the Intergovernmental Personnel Act Mobility Program from each participating institution of higher education, for both of the dates in question (the "Second Request"; together with the "First Request", the "Records"). The Office of Personnel Management states on its website (<https://www.opm.gov/policy-data-oversight/hiring-information/intergovernment-personnel-act/#url=Provisions>) that "It is imperative that agencies maintain accurate records of all Intergovernmental Personnel Act assignments." Accordingly, I am hoping that the Records will be easily accessible and your agency will be able to provide them to me in a timely manner. To the extent necessary, I would appreciate your sending me the documents on a rolling basis rather than waiting for a complete response. I am further requesting that the Records be provided to me on computer files or, if not maintained on computer files, in the same format as they are currently maintained at NOAA.

Category	Comments
Public Interest	<p>The Marine Aquaculture permits have been subject to significant publicity recently considering planned expansion of fish farms and accidental releases of farmed fish species.</p> <p>https://www.pccmarkets.com/images/sc/sc_2017_04.pdf.</p>
News Media	<p>IPAs are of significant media interest currently under the present administration's initiatives for FTE's to have temporary assignments in private industry, and in light of reduced staffing and funding within agencies.</p>

Assignment Determination

Detail

To the National Oceanic and Atmospheric Administration - National Hurricane Center FOIA Officer: This is a request under the Freedom of Information Act. I request that a copy of the following documents be provided to me: a list or log of all Freedom of Information Act requests received by the National Oceanic and Atmospheric Administration's National Hurricane Center from Jan 1, 2007 until Sept. 21, 2017. As part of this request, I would like to obtain the names of the persons or entities seeking information from the National Hurricane Center via the FOIA process, as well as their affiliations; a description of their requests; the dates when NHC received the requests; and if the requests have, to date, been satisfied.

PETA requests all MMPA emergency authorizations issued between September 1-11, 2017 for captive marine mammals.

Category	Comments
News Media	Although FOIA Logs are made publicly available, the topic of the recent Hurricanes, and those seeking information from the Hurricane Center, are of significant public interest.

Received	<p>To Whom It May Concern: I am seeking a copy of an October 2017 report to the White House from Commerce assessing the offshore oil and drilling potential in areas containing 11 protected marine monuments and sanctuaries. The report is required by the April 28, 2017 Executive Order 13795 – "Implementing an America-First Offshore Energy Strategy." The Commerce report includes a review of all designations and expansions of National Marine Sanctuaries and Marine National Monuments since April 28, 2007. Please send me this report and any other department correspondence related to it electronically in a PDF format. Thank you. Kellie Lunney</p>
Closed	<p>Pursuant to the Freedom of Information Act, I request access to and copies of all documents created for the purpose of informing the Department of Justice regarding the views of the Office of the General Counsel for the National Oceanic and Atmospheric Administration with respect to the President's authority to revoke or modify National Monuments.</p>
Received	<p>All records concerning the effect of Executive Order 13771, entitled "Reducing Regulation and Controlling Regulatory Costs" and associated guidance from the Office of Management and Budget (OMB Guidance) on the rulemaking entitled Designation of Critical Habitat for Threatened Indo-Pacific Reef-building Corals, including the timing and content of any such designation. All records concerning the effect of Executive Order 13771 and the OMB Guidance on the rulemaking entitled Designation of Critical Habitat for the Arctic Ringed Seal, including the timing and content of any such designation.</p>
Received	<p>We request a copy of whatever document reveals the amount of carry-over funding for the National Weather Service for Fiscal Year 2017,. itemized by PPA, as soon as it becomes available. In order to assist you in identifying the document we are requesting, I am enclosing a copy of that document covering Fiscal Year 2016 which the agency provided us last year in response to a similar FOIA request.</p>
Received	<p>Any and all records concerning the effect of Executive Order 13771, entitled "Reducing Regulation and Controlling Regulatory Costs" and associated guidance from the Office of Management and Budget (Guidance) on the critical habitat designation for main Hawaiian Islands insular false killer whales, including the timing and content of any such designation. On behalf of the Salinas Valley Water Coalition, this letter is a Freedom of Information Act ("FOIA") request made pursuant to 5 U.S.C. §552, et. seq. National Marine Fisheries Services ("NMFS") is requested to produce for inspection and copying any and all documents and records, including meeting notes, memoranda, electronic mails, presentations, minutes, agendas, and any other writing related to or associated with the meetings and telephone conferences with the Monterey County Water Resources Agency that occurred on or around the following dates: January- February 2014; April 1, 2014; April 7, 2014; May 22, 2014 May 27-May 30, 2015; July 6, 2015; and July 23, 2015.</p>

Status**Detail**

1. The most recent index for the administrative record of the Portland Harbor natural resource damage assessment. 2. All external correspondence (including letters, emails, and memoranda) created or received between January 1, 2007, and June 1, 2009, to or from the Yakama Nation, or its designated representatives and consultants (including Ridolfi Environmental), where the correspondence refers to Portland Harbor, the Lower Columbia River, the Multnomah Channel, or the Willamette River. For the Lower Columbia River, this request is limited to external correspondence that refers or pertains to environmental contamination, pollution, injuries to fish and / or fisheries, natural resource damages, or CERCLA. 3. All agreements (including contracts, settlements, memoranda of understanding, memoranda of agreement, administrative orders on consent, or consent decrees) dated on or after December 1, 2000, involving the Yakama Nation, where the agreement involves or relates to Portland Harbor, the Lower Columbia River, the Multnomah Channel, or the Willamette River. This includes agreements where the Yakama Nation is a named party, but not agreements between other parties that incidentally refer to or mention the Yakama Nation. This request should include any drafts of such agreements, as well as signed final agreements. This request is subject to the following definitions and limitations: *The "Lower Columbia River" as used herein means the Columbia River from river mile 0 to river mile 146—i.e., below the Bonneville Dam. *The "Willamette River" as used herein refers to the Willamette River from river mile 0 to river mile 28—i.e., below Willamette Falls. *This request excludes documents that relate to any of the following, unless the documents also refer to Portland Harbor: the Mosier oil spill, the Hanford Superfund site, the Astoria Marine cleanup, or the Bradford Island cleanup.

Detail

I am making this request under the Freedom of Information Act. I am requesting information for the area of Lake Huron. I request to receive a copy of any letters produced by Office of NOAA General Counsel and signed by NOAA to be held in custody by NOAA. I want to do a FOIA on Kenneth Joseph Roberts to see if he was seconded or special assignment to NOAA while he was in the United States Government and It's Army Corp of Engineers, NOAA, EPA, US Coast Guard and Department of the Interior. I am requesting the inventory of cetaceans held in captivity today. Cetaceans that are alive today. Held at any marine facility. 1) All MMIR notifications & verifications of transfer/transport related to mammals in the Navy's Marine Mammal Program. PLEASE SEE ATTACHMENT FOR FULL REQUEST: This letter is a request for records under the Freedom of Information Act.

Under the Freedom of Information Act I would like to request all documents and communications inter office (within NOAA) and intra-office (between NOAA and external sources/entities) pertaining to the email titled "FORMAL COMPLAINT: HARASSED yet again by HMMA volunteer" sent by Zeenat Mian. Period I request a list of all vacant positions that the NOAA is unable to fill as a result of the current federal hiring freeze, enacted by the President effective at noon on January 22, 2017. If a single list has not been compiled, I request the lists that have been generated by each office or department individually.

A copy of the most current Marine Mammal Inventory Report, listing all cetaceans both living and deceased. Appointees under Temporary Transition Schedule C (TTC) Authority and Temporary Transition SES Appointing Authorities (NC SES) hired between January 20, 2017 and present (the return of this request), as specified in this memo: <https://www.chcoc.gov/content/temporary-transition-schedule-c-authority-and-temporary-transition-senior-> I hereby request a copy of any records or communications, including but not limited to emails, between the Department of Commerce and the Trump Organization, including but not limited to those with the following company representatives: Donald J. Trump, Jr.; Eric Trump; Ivanka Trump, Allen Weisselberg, George Sorial,

Detail

Pursuant to the FOIA, CoA Institute hereby requests access to the following records for the time period of October 2015 to October 2016:

- I'm writing in regards to a shark fin investigation originating in Puerto Rico where it's been reported that 54 shark fins were found in the area.
- Transcript of NOAA public meeting September 8, 2016, 5:30-9:30 p.m. Kealahou High School Cafeteria, 74-5000 Kealahou Avenue, Honolulu, HI 96825.
- Peer review and conflict of interest reports for Tyne, J. A., Pollock, K. H., Johnston, D. W., & Bejder, L. (2014) "Shark Finning in the Pacific Ocean: A Review of the Evidence and Implications for Conservation." *Marine Biology*, 161(12), 3111-3121.
- We are requesting information under the Freedom of Information Act for NOAA SCITECH Contract DOCDG133E1 regarding the investigation of shark finning in the Pacific Ocean.
- We are requesting information under the Freedom of Information Act for NOAA SCITECH Contract DOCDG133E1 regarding the investigation of shark finning in the Pacific Ocean.
- REVISED REQUEST SCOPE: We are requesting information under the Freedom of Information Act for NOAA SCITECH Contract DOCDG133E1 regarding the investigation of shark finning in the Pacific Ocean.
- We are requesting information under the Freedom of Information Act for NOAA SCITECH Contract DOCDG133E1 regarding the investigation of shark finning in the Pacific Ocean.
- REVISED REQUEST SCOPE: We are requesting information under the Freedom of Information Act for NOAA SCITECH Contract DOCDG133E1 regarding the investigation of shark finning in the Pacific Ocean.
- We are requesting information under the Freedom of Information Act for NOAA SCITECH Contract DOCDG133E1 regarding the investigation of shark finning in the Pacific Ocean.
- REVISED REQUEST SCOPE: We are requesting information under the Freedom of Information Act for NOAA SCITECH Contract DOCDG133E1 regarding the investigation of shark finning in the Pacific Ocean.
- We are requesting information under the Freedom of Information Act for NOAA SCITECH Contract DOCDG133E1 regarding the investigation of shark finning in the Pacific Ocean.
- We are requesting information under the Freedom of Information Act for NOAA SCITECH Contract DOCDG133E1 regarding the investigation of shark finning in the Pacific Ocean.
- REVISED REQUEST SCOPE: We are requesting information under the Freedom of Information Act for NOAA SCITECH Contract DOCDG133E1 regarding the investigation of shark finning in the Pacific Ocean.
- Proposal titled "Archaeological oceanographic exploration of the Northern Black Sea and Eastern Aegean -- A Request for Proposals (RFP) for the National Marine Fisheries Service (NMFS) Office of National Marine Sanctuaries (ONMS) to conduct an archaeological oceanographic exploration of the Northern Black Sea and Eastern Aegean region. The project will focus on the identification and documentation of archaeological resources in the region, including shipwrecks, submerged structures, and other cultural heritage sites. The project will also include the collection and analysis of sediment samples for geochemical and geochronological dating. The project will be conducted in cooperation with the Turkish Ministry of Culture and Tourism and the National Institute of Undersea Archaeology (NIA) in Istanbul, Turkey. The project will be funded by the NMFS Office of National Marine Sanctuaries (ONMS) and the National Science Foundation (NSF). The project will be completed by the end of 2016.
- Please consider this a request pursuant to FOIA for any and all records requested by Judicial Watch and currently held by the NMFS Office of National Marine Sanctuaries (ONMS) and the National Science Foundation (NSF).
- Saving Seafood seeks any correspondence between staff of NOAA's office of National Marine Sanctuaries and staff of the NMFS Office of National Marine Sanctuaries (ONMS) and the National Science Foundation (NSF) regarding the investigation of shark finning in the Pacific Ocean.
- I would like some socio-economic data for a racial composition study. Please provide the racial/ethnicity of the population in the area.
- This request relates to the Vessel Monitoring System (VMS) that is maintained by the National Marine Fisheries Service (NMFS) Office of National Marine Sanctuaries (ONMS) and the National Science Foundation (NSF).
- I'd like to request information related to lobbying by the Western Pacific Regional Fishery Management Council (WPRMFC) and the National Marine Fisheries Service (NMFS) Office of National Marine Sanctuaries (ONMS) and the National Science Foundation (NSF).
- I'd like to request information related to the staff, consultants, and members of the Western Pacific Regional Fishery Management Council (WPRMFC) and the National Marine Fisheries Service (NMFS) Office of National Marine Sanctuaries (ONMS) and the National Science Foundation (NSF).
- I'd like to request information relating to special funds of the Western Pacific Regional Fishery Management Council (WPRMFC) and the National Marine Fisheries Service (NMFS) Office of National Marine Sanctuaries (ONMS) and the National Science Foundation (NSF).
- I'd like to request financial information concerning the Western Pacific Regional Fishery Management Council (WPRMFC) and the National Marine Fisheries Service (NMFS) Office of National Marine Sanctuaries (ONMS) and the National Science Foundation (NSF).

31, 2016 to the present: 1. The processing notes for CoA Institute's FOIA request dated October 31, 2016 were illegally transported to Florida during 2016. The information I'm requesting is any information regarding Puohulihuli St., Kailua-Kona, HI 96740

Comments

This request is seeking communications with, or directed to, President Trump regarding a list of National Monument designations. This request appears to be directly related to the Presidential Executive Order on April 26, 2017 Ordering the Review of Designations Under the Antiquities Act.

This request seeks copies of any information used to inform the development of the following national monument proclamations or expansions during the specified time periods: Northeast Canyons and Seamounts Marine National Monument (01/01/14 – 12/31/16) Papahānaumokuākea Marine National Monument Expansion (01/01/14 – 12/31/16) Pacific Remote Islands Marine National Monument Expansion (01/01/12 – 12/31/14) Marianas Trench Marine National Monument (01/01/2007 – 12/31/2009) Rose Atoll Marine National Monument (01/01/2007 – 12/31/2009)

This also seems to also be related to the Executive Order referenced above.

PETA is seeking copies of all records regarding Permit No. 774, issued to SeaWorld on October 7, 1992, to import the orca Tilikum pursuant to the Marine Mammal Protection Act (MMPA), from July 7, 2014, to the present. This is the same orca that was the subject of the film "Blackfish."

Detail

Friends of the Earth requests all records pertaining to any applications for permits submitted to the National Ocean and Atmospheric Administration (NOAA) from 2012 to the present. All correspondence (from 2012 - present) between staff/scientists at the National Hurricane Center and Josh Morgan, Friends of the Earth, regarding scientific references and correspondence used for NOAA contributions to a video production released in 2013. Dear NOAA: I request copies of records under the Freedom of Information Act (5 U.S.C. 552) containing data that were used in the production of the video. Pursuant to the Freedom of Information Act, 5 U.S.C. Section 552 et seq. ("FOIA"), I request access to :

Following information) that are in the possession or control of your agency. This request is subject to the following information: 1. The Maritime Museum of Norwalk's 2016: ELG for Community Resilience to Extreme Weather Event called the City of Gatlinburg letting them know to send out a warning to its residents. Apparently Gatlinburg was notified by NMFS-AR-2016-0003. The vacancy was for a GS-1340-2/13 Warning Coordination Meteorologist position at Gatlinburg, TN with Job Number 14-KDG-16-1721418. The vacancy was for a GS-1340-12/13 Meteorologist position at Honolulu Weather Station for the period January 1, 1972 through present, December 23rd, 2016. In all cases, the source of the information is the National Oceanic and Atmospheric Administration.

2. The California Department of Fish and Wildlife (CDFW) records for the Santa Monica Mountains National Monument and any other marine national monument records for the period 1972 through present with regard to NMFS Operating Personnel Management Board (OPMB) from NMFS Deputy Assistant Secretary for Biological Assessments, and all other documents related to the proposal by the California Department of Fish and Wildlife for the period 1972 through present.

I hope this information is helpful. If you have any questions regarding this request, please do not hesitate to reach out either via email or by phone. I will be away from my

Detail

Please see the attached Freedom of Information Act request submitted by Friends of Animals.

Unless otherwise specified, Requesters seek all documents for the time period starting January 26th, 2007 and ending January 26th, 2016. The total number of common bottlenose dolphins, *Tursiops truncatus*, being cared for by human beings in facilities in the Port of Astoria. I respectfully request the following information: 1. The Port of Astoria's Surveillance Video from the East Mooring Basin. I request all the findings and reports regarding 2016 sea lion Scat samples taken in the East Mooring Basin in Astoria for the public good.

Please see attached.

This is a request for records in the possession of the National Marine Fisheries Service (NMFS) of the National Oceanic and Atmospheric Administration (NOAA) relevant to DOCYA132315BU0023 we seek copies of the following information: 1. All Task Orders (TOs) [Reference FGI# 49336] relevant to DOCYA132315BU0023 we seek copies of the following information: 1. All Task Orders (TOs) [Reference FGI# 49271] relevant to DOCDG133E10CQ0031 / DG133E-10-CQ-0031 we seek copies of the following information: 1. All Task Orders (TOs) [Reference FGI# 49270] relevant to DOCDG133E10CQ0033 / DG133E-10-CQ-0033 we seek copies of the following information: 1. All Task Orders (TOs) [Reference FGI# 49269] relevant to DOCDG133E10CQ0034 / DG133E-10-CQ-0033 we seek copies of the following information: 1. All Task Orders (TOs) Any and all requests for technical assistance for projects or initiatives that would impact the Atlantic sturgeon in the Port of Astoria. I request necropsies for the following animals: NOA0006292, NOA0001291, NOA0003051, NOA0004593, NOA0006292. We request a copy of the notice of forfeiture and any document that will show the basis for the forfeiture for the following animals: NOA0006292, NOA0001291, NOA0003051, NOA0004593, NOA0006292. After a review of the request and responsive records, FSC determined that one record contains equities related in |

ding April 11, 2016. Over the course of several years, NOAA has issued multiple Letters of Authorization across the 50 United States. In addition, I would also like to know how many of these dolphins are being basin from Friday 6:00pm on April 03 2015 through 9:00am Monday April 06,2015.

“Awareness” of FOIA requests

FOIAs of Interest.

1. Provide to the Office of Public Affairs (OPA) each Thursday afternoon weekly reports listing incoming FOIA requests of interest; Note, the reports would not contain any personnel related requests.
2. Hold weekly meetings between OPA and the Office of Privacy and Open Government (OPOG) to discuss FOIAs of interest.
3. Categories of interest:
 - Media;
 - Secretary of Commerce;
 - Public interest / special interest; and
 - Legal (submitted by an attorney).
4. Each report will contain the following information:
 - Request number;
 - Received date;
 - Requester name;
 - Requester organization;
 - Brief description;
 - Category (topic of interest); and
 - Comments (use to describe ‘Other’ category or provide information you believe is important for us to know).
5. Requests closed during the week with the following final dispositions are to be excluded from the report:
 - All records referred to another Agency;
 - Request withdrawn;
 - Fee-related reason;
 - Records not reasonably described;
 - Improper FOIA request for other reason;
 - Not an agency records; or
 - Duplicate request.
6. OPA will identify requests of interest warranting OPA review of response determinations.
7. OPOG or the lead bureau for a request will provide OPA appropriate information for awareness.

FOIA Officers and Contacts:

My office has been asked to provide the Office of Public Affairs (OPA) an “awareness” of FOIA requests of interest on a weekly basis. I am aware that many of you have been submitting weekly reports to me, as well as other individuals within the Department. This requirement will replace those reports—you will only need to provide the “new” reports to me at mtoland@doc.gov with a cc to efoia@doc.gov, and you may discontinue any previous reports that you have been providing to the Department. Of course, you should continue to provide those reports internally, as needed. Additionally, if you have any concerns or questions about current reports, please feel free to contact me.

I have provided two (2) attachments to my email:

1. BOU Weekly FOIA Report template – please use this spreadsheet to submit your requests of interest. I will be compiling a master list to submit to OPA and senior leadership and the use of a template will make it easier to finalize the list, as well as ensure consistency.
2. BOU FOIA reports Word document – describes the parameters associated with the reports. For example, the document lists the categories of interest along with what request are not to be provided as part of a report.

Use the following guidelines:

- Reports are to be provided to my office by close of business on each Wednesday of a week via email to the email addresses identified in paragraph 1.
- A report should run from Wednesday of the previous week to Tuesday of the current week. As an example, this week’s report would have been for the week 5/17/17 – 5/23/17.

- If your bureau or operating unit (BOU) does not have any requests to report for a week, then submit a “No response for this week” email to the email addresses identified in paragraph 1.
- I will provide any additional guidance as needed.

Please be aware that this requirement is not an option. Submission of reports will start the week of May 29, 2017. So, I expect to receive reports that run from 5/24/17 – 5/30/17 from each FOIA Officer or Contact starting next week.

I realize that everyone may carry a heavy load in support of the Department’s FOIA program. Your support is greatly appreciated and does not go unnoticed.

Please feel free to contact me should you have any questions or need additional information.

Regards,

Mike

Detail

On behalf of People for the Ethical Treatment of Animals (PETA), and pursuant to the Freedom of Information Act, I request copies of all records regarding Permit No. 774, issued to SeaWorld on October 7, 1992, to import the orca Tilikum pursuant to the Marine Mammal Protection Act (MMPA), from July 7, 2014, to the present, excepting correspondence between the agency and PETA, the Animal Welfare Institute, and their representatives. This request includes, but is not limited to, memoranda, reports, notes, letters, emails, and other correspondence.

All correspondence (emails, letters, documents) dated between April 1, 2016 and May 27, 2017, composed or received by the National Marine Fisheries Service, West Coast Region, in which "Children's Pool" appears in the correspondence.

Pursuant to the FOIA, CoA Institute hereby requests access to the following records for the time period of October 31, 2016 to the present: 1. The processing notes for CoA Institute's FOIA request dated October 31, 2016, tracking number DOC-NOAA-2017-000168, and the NOAA Tasker memorandum regarding or related to this request. 2. The processing notes for CoA Institute's FOIA request dated October 31, 2016, tracking number DOC-NOAA-2017-000169, and the NOAA Tasker memorandum regarding or related to this request. 3. The processing notes for CoA Institute's FOIA request dated October 31, 2016, tracking number DOC-NOAA-2017-000170, and the NOAA Tasker memorandum regarding or related to this request. 4. All communications—including, but not limited to, e-mail,5 instant messaging, Google hangouts or Google chat messages, text messages, SMS messages, Blackberry messages, Skype messages, handwritten notes, or communications through any other media—between NOAA and the Office of the White House Counsel concerning or related to any of the above FOIA requests.

I'm writing in regards to a shark fin investigation originating in Puerto Rico where it's been reported that 54 shark fins were illegally transported to Florida during 2016. The information I'm requesting is any information regarding the case that can be made available without interfering with a successful prosecution or aren't confidential. Information requested included but isn't limited to: - Confirmed total number of fins seized - Shark species involved in case - Who are the individuals/company/companies being held responsible in the shark finning and transport? - Who and what penalties have been issued if any? (fines, etc) - Any other information available to the public

Conservación ConCiencia is a Puerto Rico registered non-profit organization dedicated to environmental research and conservation that promotes sustainable development by working in collaboration with communities, NGOs, governments, academia and the private sector. Within the next year, we're planning on launching Puerto Rico's first comprehensive Shark research and conservation program. An integral component of the program is collaboration with the commercial fishing industry. The information regarding this case will aid us to gauge the status and size of the current illegal shark trade in Puerto Rico, in addition to assisting us avoid partners that are involved with illegal fishing practices. Additionally, any information on any other shark fin or shark trafficking case originating in Puerto Rico would also be appreciated.

Detail

We request copies of all memoranda, studies, reports, data, correspondence, comments, conversation records, files, electronic mail records, or other documents, which were generated, received, kept, and/or considered by NMFS relating to the reopening of the red snapper season, between the dates of January 20, 2017 and June 19, 2017. This includes documents, records, and materials regarding:

1. extension or reopening of the private recreational red snapper season;
2. how or whether this action would affect progress toward rebuilding under the red snapper rebuilding plan;
3. how or whether this action may cause or contribute to overfishing; and
4. data, computations, or any other analysis used to determine the number of days the season would be open.

We request documents, records, and materials pertaining to the above enumerated subjects involving, but not limited to, the following people:

1. Wilbur Ross
2. Samuel Rauch
3. Alan Risenhoover
4. Roy Crabtree
5. Andy Strelcheck
6. George Kelly
7. Earl Comstock
8. Bonnie Ponwith
9. Patrick Lynch
10. Emily Menashes
11. Benjamin Friedman
12. Lindsey Kraatz

Through the Freedom of Information Act, I request the following documents: A summary of all complaints of violence, threats, or harassment against fisheries observers in US fisheries observer programs that occurred in calendar year 2013, 2014, 2015, and 2016, separated by: 1. Year; 2. Whether the complaint was initiated by the observer or by observer program staff; 3. Date of complaint; 4. Observer program from which the observer was deployed; 5. Nature of the complaint (e.g. assault, sexual assault, harassment, verbal abuse, intimidation, interference, lack of assistance, death, or other type of threat); 6. What, if any, outcomes stemmed from each complaint (e.g., arrest, conviction, ongoing investigation). If any portion is redacted, I request that at least the region be revealed.

Through the Freedom of Information Act, I request the following documents: 1. E-mails, photographs and possibly faxes and other communications before and after and relating to my observer trip on board the America No. 1, a US-flagged Patagonia Toothfish longline vessel then owned by Lawrence Lasarow, PacFish, Inc. I met the vessel in Spain September 28, 2003, sailed for the Southern Ocean to test CCAMLR seabird mitigation measures to be confirmed prior to entry into a CCAMLR Ross Sea experimental fishery. My time on board this vessel was from September 28, 2003 through approximately November 27, 2003. The time frame of communications I request is from August 1, 2003 until August 1, 2005. I request e-mails, faxes or other communications, from this time period, to and from myself to DOC employees - Chris Jones (SWFSC); Robin Tuttle; Teresa Turk; NOAA OLE; Paul Ortiz (Office of General Counsel); Frank Sptel (Deputy General Counsel); Mike Gonzales (OLE); Brett Schneider (OLE). E-mails pertaining to my deployment to and from NOAA and Lawrence Lasarow (Seaport Management Services, LLC; PacFish, Inc) , German Munoz (Chile), and any officials in Spain. 2. I request any investigation reports or communications relating to my harassment while on board, the data I collected, and the reports filed. Other potential names of persons involved are: Hennie Crous, Lawrence Lasarow, and Joe D'Alfio. 3. I request the 2003 consent decree between NOAA and Mr. Lawrence Lasarow's company, PacFish, Inc. and any other legal documents associated with this particular trip. 4. I request any documents relating to NOAA's presentations at the CCAMLR meeting, CCAMLR-XXII.

Public Interest/Special Interest	Records specifically are sought pertaining to named Bureau and Department leadership. This issue has been in the news multiplied times (http://www.newschannel10.com/story/35647812/federal-red-snapper-season-could-reopen-but-with-a-catch). See also http://www.sportfishingmag.com/gulf-red-snapper-federal-season-reopens .
----------------------------------	--

Public Interest/Special Interest	This is a repeat request, and we routinely receive similar requests seeking the same material. This organization is likely maintaining comparative trends, and historical data on this issue.
----------------------------------	---

This is a specific request for an incident of harassment. Because the requester is familiar with the incident, they also will likely have a more complete knowledge of locations where responsive records are likely to be found and are more prone to raise a search adequacy challenge if the search is deficient.

Public Interest/Special Interest

Detail

The center for biological diversity sought: 1. All records mentioning, including, and/or referencing the draft and/or final biological evaluation of chlorpyrifos under the Endangered Species Act, 16 U.S.C. §§ 1531-1544 ("ESA"); 2. All records mentioning, including, and/or referencing the draft and/or final biological evaluation of malathion under the ESA; 3. All records mentioning, including, and/or referencing the draft and/or final biological evaluation of diazinon under ESA; 4. All records mentioning, including, and/or referencing the draft and/or final biological opinion of chlorpyrifos under the ESA; 5. All records mentioning, including, and/or referencing the draft and/or final biological opinion of malathion under the ESA; and 6. All records mentioning, including, and/or referencing the draft and/or final biological opinion of diazinon under ESA. Please note that this request does not apply to documents found online or under the docket EPAHQ- OPP-2016-0167.

This is a referral from USACE--the original requester was the Southern Environmental Law Center, who sought records regarding the reauthorization of the Nationwide Permits.

The Center requests from the National Marine Fisheries Service ("NMFS") all records generated in connection with the issuance of incidental harassment authorizations for oil and gas seismic exploration in the Atlantic Ocean under the Marine Mammal Protection Act, 16 U.S.C. §§ 1361-1389 ("MMPA"), from January 20, 2017 to the date of the search.

All communications between any of the following Commerce officials—(a) all political appointees and any career SES staff in the Office of the Secretary; (b) all political appointees in the National Oceanic and Atmospheric Administration; and (c) all political appointees in the National Marine Fisheries Service—and any of a list of entities with agricultural interests or pesticide manufacturers.

Detail

Please provide all records generated in connection to complaints made to the Monterey Bay National Marine Sanctuary about wildlife being harassed or disturbed by drones or unmanned aerial vehicles. This request is limited to the time-frame between January 1, 2016 and the time this request is processed. For this request, the term “all records” refers to, but is not limited to, any and all complaints submitted to the Monterey Bay National Marine Sanctuary (via email, mail, fax, and phone) about wildlife being harassed or disturbed by drones or unmanned aerial vehicles, documents, correspondence (including, but not limited to, inter and/or intra-agency correspondence as well as correspondence with entities or individuals outside the federal government), emails, letters, notes, telephone records, telephone notes, minutes, memoranda, comments, files, presentations, consultations, biological opinions, assessments, evaluations, schedules, telephone logs, papers published and/or unpublished, reports, studies, photographs and other images, data (including raw data, GPS or GIS data, UTM, LiDAR, etc.), maps, and/or all other responsive records, in draft or final form. This request is not meant to exclude any other records that, although not specially requested, are reasonably related to the subject matter of this request. If you or your office have destroyed or determine to withhold any records that could be reasonably construed to be responsive to this request, I ask that you indicate this fact and the reasons therefore in your response. Under the FOIA Improvement Act of 2016, agencies are prohibited from denying requests for information under FOIA unless the agency reasonably believes release of the information will harm an interest that is protected by the exemption. FOIA Improvement Act of 2016 (Public Law No. 114-185), codified at 5 U.S.C. § 552(a)(8)(A).

TIRN requests from the National Oceanic & Atmospheric Administration (“NOAA”), National Marine Fisheries Services (“NMFS”) and any other divisions under NOAA; all “records” as defined in this Request, including without limitation all inter and intra agency communications, data and other information, used to prepare or otherwise responsive to the following:

1. Regarding the FY 2018-2022 Office of Law Enforcement Priorities (Draft) (“Report”)1 all records used, considered or referred to by NOAA to identify the “patrol, outreach, and investigation to deter and detect: illegal marine mammal and seabird takes, and incidental take reporting violations” in the West Coast Division as a priority for enforcement in the Report.

TIRN requests from the National Oceanic & Atmospheric Administration (“NOAA”), National Marine Fisheries Services (“NMFS”) and any other divisions under NOAA; all “records” as defined in this Request, including without limitation all inter and intra agency communications, data and other information, used to prepare or otherwise responsive to the following:

1. Regarding the FY 2018-2022 Office of Law Enforcement Priorities (Draft) (“Report”)1 all records used, considered or referred to by NOAA to identify the “patrol, outreach, and investigation to deter and detect: wasteful takes by authorized marine mammal harvesters” in the West Coast Division as a priority for enforcement in the Report.

("NOAA"), National Marine Fisheries Services ("NMFS") and any other divisions under NOAA; all "records" as defined in this Request, including without limitation all inter and intra agency communications, data and other information, used to prepare or otherwise responsive to the following:

(1) Regarding the FY 2018-2022 Office of Law Enforcement Priorities (Draft) ("Report")¹ all records used, considered or referred to by NOAA to identify the "patrol, outreach, and investigation to deter and detect: Illegal takes (e.g. Level A harassment, feeding, injuring, shooting, etc.) of ESA and MMPA listed species" in the West Coast Division as a priority for enforcement in the Report.

TIRN requests from the National Oceanic & Atmospheric Administration ("NOAA"), National Marine Fisheries Services ("NMFS") and any other divisions under NOAA; all "records" as defined in this Request, including without limitation all inter and intra agency communications, data and other information, used to prepare or otherwise responsive to the following:

Regarding the FY 2018-2022 Office of Law Enforcement Priorities (Draft) ("Report")¹, all records used, considered or referred to by NOAA to identify the "patrol, outreach, and investigation to deter and detect: violations involving commercial vessel incursions into closed areas or other Marine Protected Areas" in the West Coast Division as a priority for enforcement in the Report.

TIRN requests from the National Oceanic & Atmospheric Administration ("NOAA"), National Marine Fisheries Services ("NMFS") and any other divisions under NOAA; all "records" as defined in this Request, including without limitation all inter and intra agency communications, data and other information, used to prepare or otherwise responsive to the following:

1. Regarding the FY 2018-2022 Office of Law Enforcement Priorities (Draft) ("Report")¹ all records used, considered or referred to by NOAA to identify the "patrol, outreach, and investigation to deter and detect: Lethal takes, Level A harassment, with the potential to injure marine mammals or ESA listed sea turtles" in the Pacific Islands Division as a priority for enforcement in the Report.

TIRN requests from the National Oceanic & Atmospheric Administration ("NOAA"), National Marine Fisheries Services ("NMFS") and any other divisions under NOAA; all "records" as defined in this Request, including without limitation all inter and intra agency communications, data and other information, used to prepare or otherwise responsive to the following:

Regarding the FY 2018-2022 Office of Law Enforcement Priorities (Draft) ("Report")¹, all records used, considered or referred to by NOAA to identify the "patrol, outreach, and investigation to deter and detect: observer sexual assault, assault, harassment, observer safety, interference, and significant sample bias violations" in the Alaska, Northeast, Pacific Island, Southeast and West Coast Divisions as a priority for enforcement in the Report.

TIRN requests from the National Oceanic & Atmospheric Administration (“NOAA”), National Marine Fisheries Services (“NMFS”) and any other divisions under NOAA; all “records” as defined in this Request, including without limitation all inter and intra agency communications, data and other information, used to prepare or otherwise responsive to the following:

Regarding the FY 2018-2022 Office of Law Enforcement Priorities (Draft) (“Report”),¹ all records used, considered or referred to by NOAA to identify the “patrol, outreach, and investigation to deter and detect: destruction of listed salmon and steelhead critical habitat” in the West Coast Division as a priority for enforcement in the Report.

TIRN requests from the National Oceanic & Atmospheric Administration (“NOAA”), National Marine Fisheries Services (“NMFS”) and any other divisions under NOAA; all “records” as defined in this Request, including without limitation all inter and intra agency communications, data and other information, used to prepare or otherwise responsive to the following:

Regarding the FY 2018-2022 Office of Law Enforcement Priorities (Draft) (“Report”),¹ all records used, considered or referred to by NOAA to identify the “patrol, outreach, and investigation to deter and detect: reported violations by U.S. and/or International Observers on the high seas regarding U.S. vessels” in the Pacific Islands Division as a priority for enforcement in the Report.

TIRN requests from the National Oceanic & Atmospheric Administration (“NOAA”), National Marine Fisheries Services (“NMFS”) and any other divisions under NOAA; all “records” as defined in this Request, including without limitation all inter and intra agency communications, data and other information, used to prepare or otherwise responsive to the following:

Regarding the FY 2018-2022 Office of Law Enforcement Priorities (Draft) (“Report”),¹ all records used, considered or referred to by NOAA to identify the “patrol, outreach, and investigation to deter and detect: vessel on whale collisions” in the West Coast Division as a priority for enforcement in the Report.

TIRN requests from the National Oceanic & Atmospheric Administration (“NOAA”), National Marine Fisheries Services (“NMFS”) and any other divisions under NOAA; all “records” as defined in this Request, including without limitation all inter and intra agency communications, data and other information, used to prepare or otherwise responsive to the following:

Regarding the FY 2018-2022 Office of Law Enforcement Priorities (Draft) (“Report”),¹ all records used, considered or referred to by NOAA to identify the “patrol, outreach, and investigation to deter and detect: observer reported fishery management plan violations” in the Pacific Islands Division as a priority for enforcement in the Report.

Pursuant to the Freedom of Information Act, 5 U.S.C. § 552, I am requesting any and all documents, including, but not limited to, notes, e-mails, memos, or any other materials concerning pledges, oaths, requests or agreements, oral or written, not to disclose information or documents, or pledges, oaths, requests or agreements, oral or written, having to do with loyalty, allegiance, or similar concepts, made to the President, the Vice President, the Office of the President or the Office of the Vice President, or any individual working in the White House or the White House Compound by any and all current and former members of the NOAA's leadership team according to the NOAA's website, including, but not limited to, the Director, Acting Director, Deputy Directors, and Inspector General, along with the leadership team's senior staff, since Nov. 9, 2016. (If you need clarity about this request, I'm looking for analogs in your agency to the memos that former FBI Director James Comey wrote about a personal loyalty pledge that the President asked him to give.) Thank you very much for your assistance. If any of the material covered by this request has been destroyed or removed, please provide all surrounding documentation including, but not limited to, a description of the action taken regarding the materials and justification for those actions taken. For any documents or portions you deny due to a specific FOIA exemption, please provide a detailed justification of your grounds for claiming such exemption, explaining why the exemption is relevant to the document or portion of the document withheld.

I request any records and email communications relating to drafting the press release on the 2017 edition of NOAA's Annual Greenhouse Gas Index found here: <http://www.noaa.gov/news/noaa-s-greenhouse-gas-index-up-40-percent-since-1990> I would prefer to receive these in electronic format if possible. All documents relating to the mass stranding of nearly 100 false killer whales (*Pseudorca crassidens*) near Hog Key in southwest Florida in January 2017. This request includes documents generated and received by NMFS. In addition to documents which pertain to the incident itself, we are also seeking subsequent documents which relate to the cause of the mass beaching – including those which speculate as to cause. For reference, this incident has been the subject of a Miami Herald article, in which you were quoted, at the following URL: <http://www.miamiherald.com/news/local/environment/article127095479.html> I would prefer that these documents be transmitted to me as e-mail attachment(s) in PDF, Word, or WordPerfect format if the documents are maintained in any of these formats. We are therefore requesting that the Center provide COMPASS modeling of increases in spill to gas cap levels at the Snake River collector dams.

I request access to and copies of any and all documents in the possession of the National Oceanic and Atmospheric Administration concerning the 19.43-acre parcel located on the south side of SW 72nd Street (Sunset Drive) at SW 73rd Court (the "Property"; sometimes also described as the "Christ Journey Church"; property or parcel) as addressed in the May 25, 2017 letter from Roxanna Hinzman to Juan Mayol (attached). This request includes but is not limited to: 1. Any and all communications by and between Tom Jackson, Research Fisheries Biologist, Protected Resources Division (NOAA) and the U.S. Fish and Wildlife Service concerning the Property; 2. Any and all communications by and between Joan Browder, Research Ecologist (NOAA) and staff at the U.S. Fish and Wildlife Service concerning the Property; 3. Any and all surveys, Geographic Information System data or other documents pertaining to the presence of Miami tiger beetle, (*Cicindela floridana*) on the Property or in the immediate vicinity of the Property; 4. Any and all documents related to a site visit to the Property conducted by Tom Jackson and other NOAA staff on or around May 15, 2016 including any surveys, data, photos, notes on site visits, or other information related to the Property; 5. Any and all documents related to prior site visits to the Property by Mr. Jackson on or around April 2013 including any surveys, data, photos, notes on site visits, or other information related to the presence of Miami tiger beetle; 6. Any and all communications between NOAA and the Miami Dade Department of Environmental Resources Management (DERM) or other state or local government entities concerning the Property; 7. Any and all documents in the possession of Mr. Jackson evidencing permission to enter the Property prior to any site visits in 2017, 2013 or other time periods.

1. All records related to the effect on endangered winter-run chinook salmon, threatened spring-run chinook salmon, and their habitat, of water diversions by any or all Sacramento River Settlement Contractors from 2013 to the present. 2. All records related to the effect on endangered winter-run chinook salmon, threatened spring-run chinook salmon, and their habitat, of water operations and deliveries by the U.S. Bureau of Reclamation to meet the demands of the Sacramento River Settlement Contracts from 2013 to the present.

Comments

This request is a re-submission of a request that was previously submitted by the same individual through MuckRock

Each of these TIRN requests may be amenable to consolidation considering the overlap of the subject of the subject matter of the request.

Assignment Determination

Assignment Determination

I request copies of any records detailing plans for reorganization or layoffs in the regions covering Oregon and Washington, as well as any letters of reassignment to staff in Oregon or Washington. I am seeking records since March 1, 2017.

Please provide all records generated in connection to complaints made to the Monterey Bay National Marine Sanctuary about wildlife being harassed or disturbed by drones or unmanned aerial vehicles. This request is limited to the time-frame between January 1, 2016 and the time this request is processed. For this request, the term "all records" refers to, but is not limited to, any and all complaints submitted to the Monterey Bay National Marine Sanctuary (via email, mail, fax, and phone) about wildlife being harassed or disturbed by drones or unmanned aerial vehicles, documents, correspondence (including, but not limited to, inter and/or intra-agency correspondence as well as correspondence with entities or individuals outside the federal government), emails, letters, notes, telephone records, telephone notes, minutes, memoranda, comments, files, presentations, consultations, biological opinions, assessments, evaluations, schedules, telephone logs, papers published and/or unpublished, reports, studies, photographs and other images, data (including raw data, GPS or GIS data, UTM, LiDAR, etc.), maps, and/or all other responsive records, in draft or final form. This request is not meant to exclude any other records that, although not specially requested, are reasonably related to the subject matter of this request. If you or your office have destroyed or determine to withhold any records that could be reasonably construed to be responsive to this request, I ask that you indicate this fact and the reasons therefore in your

I'm looking for any documents which make reference to the fast-food chain McDonald's and its product known as either the 'Lobster Roll' or 'McLobster.' For context, the Canadian subsidiary recently said it would not sell the product this year due to high lobster prices in Canada - and there is speculation McDonald's may bring the product back using 'cheaper' American lobster. Please limit to records from June 1, 2017 to

I request copies of any records detailing plans for reorganization or layoffs in the regions covering Oregon and Washington, as well as any letters of reassignment to staff in Oregon or Washington. I am seeking records since March 1, 2017.

I, Lisa Conley am the complainant for DOC OIG Referral 17-0469-N. I was informed by DOC OIG (Briane Jones - Investigator) that my matter was closed with OIG and referred to NOAA for any action they deemed appropriate. DOC OIG informed me to contact NOAA FOIA to request more information into my complaint. I am requesting the management follow up records and the closing records regarding my complaint. I am requesting NOAA FOIA to provide me with the management follow up records and the closing records (resolution) for my complaint #17-0469-N. I have not been contacted by anyone in NOAA regarding the resolution of my complaint. I have had no contact from DOC OIG until I reached out for status of my complaint and DOC OIG referred me to NOAA FOIA. I have not been contacted or provided by NOAA with any resolution information regarding my complaint filed in April 2017. I am requesting for NOAA FOIA to provide me with any and all management follow up records and all closing records (resolution) regarding my complaint #17-0469-N. If there is any additional information needed from me for my NOAA FOIA request please let me know. Thank you

Scientific research or studies that support or explain the Secretary's decision. <p>The temporal scope of this request is limited to records created or obtained on or after February 2, 2017.</p>	Public Interest/Special Interest

Comments

2016 Tuna catches have received moderate news coverage, including one notable article by The Pew Charitable Trusts, entitled "Netting Billions: A Valuation of Tuna in the Western and Central Pacific Ocean."

<http://www.pewtrusts.org/en/research-and-analysis/fact-sheets/2016/09/netting-billions-a-valuation-of-tuna-in-the-western-and-central-pacific-ocean>.

This touches on a recent Washington Post article referenced Secretary Ross' reversal of the non-compliance finding, and a discussion on the impact on conservation efforts. The article was published July 17, and was picked up by other news sources, including the AP/KTAR News, and other local news groups. One example is here: <http://ktar.com/story/1659851/group-trump-officials-fish-ruling-could-harm-conservation/>. This may require the Department to take the lead, deferring to OPOG on ownership.

I request access to and copies of all email correspondence to and from Acting NOAA Administrator (and Under Secretary of Commerce for Oceans and Atmosphere) Ben Friedman, his senior advisor, special assistant, chief of staff, deputy chief of staff and policy director, between the dates of July 1, 2017, and the date this request is fulfilled with the following search terms:

“climate assessment”

“advisory committee”

I request that a search be conducted of the NWS offices and employee files and that a copy of records concerning the following subject be provided to me: ~ •Any and all communications, documents, spreadsheets, submissions, agreements, or other records concerning or related to Space Data's proposal to the NWS regarding Space Data's Stratospheric Nano Satellites (“SNS”) system and/or the NWS's radiosonde upper air observation system. • Any and all communications, documents, spreadsheets, submissions, agreements, or other records concerning or related to Space Data's proposal to use, or its use of, the NWS launching sites, Any and all communications, documents, spreadsheets, submissions, agreements, or other records concerning or related to Space Data's proposed modifications, or modifications, to the NWS's launching sites. • Any and all communications, documents, spreadsheets, submissions, agreements, or other records concerning or related to Space Data's proposal to use, or use of, the NWS's 1680 MHz frequency band. • Any and all communications, documents, spreadsheets, submissions, agreements, or other records concerning or related to data provided to the NWS by Space Data regarding records of balloon flights launched by Space Data. • Any and all communications, documents, spreadsheets, submissions, agreements, or other records concerning or related to weather and wind data provided to the NWS by Space Data. • Any and all communications, documents, spreadsheets, submissions, or other records concerning or related to the technical features or specifications of Space Data's products, equipment, and/or systems.

A copy of each email that includes the word CLIMATE or the word CHARTER or the phrase “ADVISORY COMMITTEE”. I limit this search to an electronic search of emails in the email accounts of the Acting Administrator Ben Friedman, and those of his Senior Advisor, Special Assistant, Chief of Staff, Deputy Chief of Staff and Policy Director. I limit this search to the dates July 1, 2017 to the present.

Assignment Determination

Detail

All records relating to the facts surrounding the Stranding, including how the event was discovered, the condition of the animals, any efforts made to assist the animals, and mortality data.

2. All records relating to any investigation, whether conducted by NMFS or other entities, of the possible cause of the Stranding. This request includes, but is not limited to, records regarding necropsies and/or any other analysis of samples reportedly taken from some of the dead animals.²

3. All records regarding any marine oil and gas activities, including both exploratory activities and active production, near the site of the Stranding from January 9, 2017 until January 14, 2017. For purposes of this request, "near the site of the Stranding" means within approximately 120 miles.

4. All records regarding any internal NMFS communications regarding the Stranding

5. All records regarding any communications between NMFS and the National Park Service, the United States Coast Guard (USCG), and/or the United States Navy (USN) regarding the Stranding. With respect to documents produced to or received from the USCG or USN, SSL requests records in NMFS' possession since January 14, 2017.

6. All records regarding any communications between NMFS and the Florida Fish and Wildlife Conservation Commission regarding the Stranding.

7. All records regarding any communications between NMFS and the Bureau of Ocean Energy Management regarding the Stranding.

8. All records regarding any communications between NMFS and any entities that conducted (or were suspected of conducting) any marine oil and gas activities, including both exploratory activities and active production, near the site of the Stranding from January 9, 2017 until January 14, 2017. For purposes of this request, "near the site of the Stranding" means within approximately 120 miles. Additionally, this request is limited to all communications concerning the Stranding.

All records mentioning, including and/or referencing timing for release of 4th National Climate Assessment, whether it will be issued in final form by the statutory deadline, obstacles for completing by the deadline, and whether the recent decision to terminate the 'Advisory Committee for Sustained National Climate Assessment' will impact the date for issuance of the final 4th National Climate Assessment.

Detail

Friends of the Earth requests all records pertaining to any applications for permits submitted to the National Oceanic and Atmospheric Administration (NOAA) for the authorization of offshore, marine aquaculture activities involving the culturing of finfish in net pens or cages, received from January 1, 2016 to present. These records should include, but not be limited to, any internal or external correspondence regarding the applications; any meetings or communications or other contact— including meeting minutes and scheduling notes—that any applicant arranged or attended with NOAA or that NOAA arranged or attended with any of the applicant; as well as any findings, conclusions, or actions taken in response to an application. For this request, the term “records” refers to, but is not limited to, correspondence of any kind, memoranda, letters, notes, schedules, electronic mail, telephone logs, minutes of meetings, work papers, reports, studies, or data.

Pursuant to the Freedom of Information Act, 5 U.S.C. Section 552 et seq. ("FOIA"), I request access to and copies of documents showing the number of people assigned to the National Oceanic and Atmospheric Administration (NOAA) from institutions of higher education under the Intergovernmental Personnel Act Mobility Program, as of two dates: September 14, 2017, and September 14, 2016 ("the First Request"). I also request access to and copies of documents showing the specific institutions of higher education with which those people were associated, and the number of people assigned to NOAA under the Intergovernmental Personnel Act Mobility Program from each participating institution of higher education, for both of the dates in question (the "Second Request"; together with the "First Request", the "Records"). The Office of Personnel Management states on its website (<https://www.opm.gov/policy-data-oversight/hiring-information/intergovernment-personnel-act/#url=Provisions>) that "It is imperative that agencies maintain accurate records of all Intergovernmental Personnel Act assignments." Accordingly, I am hoping that the Records will be easily accessible and your agency will be able to provide them to me in a timely manner. To the extent necessary, I would appreciate your sending me the documents on a rolling basis rather than waiting for a complete response. I am further requesting that the Records be provided to me on computer files or, if not maintained on computer files, in the same format as they are currently maintained at NOAA.

Assignment Determination

Detail

To the National Oceanic and Atmospheric Administration - National Hurricane Center FOIA Officer: This is a request under the Freedom of Information Act. I request that a copy of the following documents be provided to me: a list or log of all Freedom of Information Act requests received by the National Oceanic and Atmospheric Administration's National Hurricane Center from Jan 1, 2007 until Sept. 21, 2017. As part of this request, I would like to obtain the names of the persons or entities seeking information from the National Hurricane Center via the FOIA process, as well as their affiliations; a description of their requests; the dates when NHC received the requests; and if the requests have, to date, been satisfied.

PETA requests all MMPA emergency authorizations issued between September 1-11, 2017 for captive marine mammals.

Category	Comments
News Media	Although FOIA Logs are made publicly available, the topic of the recent Hurricanes, and those seeking information from the Hurricane Center, are of significant public interest.

Status	Detail
Received	<p>To Whom It May Concern: I am seeking a copy of an October 2017 report to the White House from Commerce assessing the offshore oil and drilling potential in areas containing 11 protected marine monuments and sanctuaries. The report is required by the April 28, 2017 Executive Order 13795 – "Implementing an America-First Offshore Energy Strategy." The Commerce report includes a review of all designations and expansions of National Marine Sanctuaries and Marine National Monuments since April 28, 2007. Please send me this report and any other department correspondence related to it electronically in a PDF format. Thank you. Kellie Lunney</p>
Closed	<p>Pursuant to the Freedom of Information Act, I request access to and copies of all documents created for the purpose of informing the Department of Justice regarding the views of the Office of the General Counsel for the National Oceanic and Atmospheric Administration with respect to the President's authority to revoke or modify National Monuments.</p>
Received	<p>All records concerning the effect of Executive Order 13771, entitled "Reducing Regulation and Controlling Regulatory Costs" and associated guidance from the Office of Management and Budget (OMB Guidance) on the rulemaking entitled Designation of Critical Habitat for Threatened Indo-Pacific Reef-building Corals, including the timing and content of any such designation. All records concerning the effect of Executive Order 13771 and the OMB Guidance on the rulemaking entitled Designation of Critical Habitat for the Arctic Ringed Seal, including the timing and content of any such designation.</p>
Received	<p>We request a copy of whatever document reveals the amount of carry-over funding for the National Weather Service for Fiscal Year 2017, itemized by PPA, as soon as it becomes available. In order to assist you in identifying the document we are requesting, I am enclosing a copy of that document covering Fiscal Year 2016 which the agency provided us last year in response to a similar FOIA request.</p>
Received	<p>Any and all records concerning the effect of Executive Order 13771, entitled "Reducing Regulation and Controlling Regulatory Costs" and associated guidance from the Office of Management and Budget (Guidance) on the critical habitat designation for main Hawaiian Islands insular false killer whales, including the timing and content of any such designation. On behalf of the Salinas Valley Water Coalition, this letter is a Freedom of Information Act ("FOIA") request made pursuant to 5 U.S.C. §552, et. seq. National Marine Fisheries Services ("NMFS") is requested to produce for inspection and copying any and all documents and records, including meeting notes, memoranda, electronic mails, presentations, minutes, agendas, and any other writing related to or associated with the meetings and telephone conferences with the Monterey County Water Resources Agency that occurred on or around the following dates: January- February 2014; April 1, 2014; April 7, 2014; May 22, 2014 May 27-May 30, 2015; July 6, 2015; and July 23, 2015.</p>

DOC-NOAA-2018-000202	11/1/2017	Marshall R. Morales	Beveridge & Diamond
----------------------	-----------	---------------------	---------------------

Status**Detail**

1. The most recent index for the administrative record of the Portland Harbor natural resource damage assessment. 2. All external correspondence (including letters, emails, and memoranda) created or received between January 1, 2007, and June 1, 2009, to or from the Yakama Nation, or its designated representatives and consultants (including Ridolfi Environmental), where the correspondence refers to Portland Harbor, the Lower Columbia River, the Multnomah Channel, or the Willamette River. For the Lower Columbia River, this request is limited to external correspondence that refers or pertains to environmental contamination, pollution, injuries to fish and / or fisheries, natural resource damages, or CERCLA. 3. All agreements (including contracts, settlements, memoranda of understanding, memoranda of agreement, administrative orders on consent, or consent decrees) dated on or after December 1, 2000, involving the Yakama Nation, where the agreement involves or relates to Portland Harbor, the Lower Columbia River, the Multnomah Channel, or the Willamette River. This includes agreements where the Yakama Nation is a named party, but not agreements between other parties that incidentally refer to or mention the Yakama Nation. This request should include any drafts of such agreements, as well as signed final agreements. This request is subject to the following definitions and limitations: *The "Lower Columbia River" as used herein means the Columbia River from river mile 0 to river mile 146—i.e., below the Bonneville Dam. *The "Willamette River" as used herein refers to the Willamette River from river mile 0 to river mile 28—i.e., below Willamette Falls. *This request excludes documents that relate to any of the following, unless the documents also refer to Portland Harbor: the Mosier oil spill, the Hanford Superfund site, the Astoria Marine cleanup, or the Bradford Island cleanup.

Detail

I am making this request under the Freedom of Information Act. I am requesting information for the area of Lake Huron. I request to receive a copy of any letters produced by Office of NOAA General Counsel and signed by NOAA to be held in custody by NOAA. I want to do a FOIA on Kenneth Joseph Roberts to see if he was seconded or special assignment to NOAA while he was in the United States Government and It's Army Corp of Engineers, NOAA, EPA, US Coast Guard and Department of the Interior. I am requesting the inventory of cetaceans held in captivity today. Cetaceans that are alive today. Held at any marine facility. 1) All MMIR notifications & verifications of transfer/transport related to mammals in the Navy's Marine Mammal Program. PLEASE SEE ATTACHMENT FOR FULL REQUEST: This letter is a request for records under the Freedom of Information Act.

Under the Freedom of Information Act I would like to request all documents and communications inter office (within NOAA) and intra-office (between NOAA and external sources/entities) pertaining to the email titled "FORMAL COMPLAINT: HARASSED yet again by HMMA volunteer" sent by Zeenat Mian. Period I request a list of all vacant positions that the NOAA is unable to fill as a result of the current federal hiring freeze, enacted by the President effective at noon on January 22, 2017. If a single list has not been compiled, I request the lists that have been generated by each office or department individually.

A copy of the most current Marine Mammal Inventory Report, listing all cetaceans both living and deceased. Appointees under Temporary Transition Schedule C (TTC) Authority and Temporary Transition SES Appointing Authorities (NC SES) hired between January 20, 2017 and present (the return of this request), as specified in this memo: <https://www.chcoc.gov/content/temporary-transition-schedule-c-authority-and-temporary-transition-senior-> I hereby request a copy of any records or communications, including but not limited to emails, between the Department of Commerce and the Trump Organization, including but not limited to those with the following company representatives: Donald J. Trump, Jr.; Eric Trump; Ivanka Trump, Allen Weisselberg, George Sorial,

Detail

On behalf of People for the Ethical Treatment of Animals (PETA), and pursuant to the Freedom of Information Act, This is a request under the Freedom of Information Act (5 U.S.C. 552). I request that a copy of the following documents be provided. All correspondence (emails, letters, documents) dated between April 1, 2016 and May 27, 2017, composed or received by NOAA. Pursuant to the FOIA, CoA Institute hereby requests access to the following records for the time period of October 2016 to May 2017. We could not find any investigation on the subject in 2016 but we have found an incident that looks like the information requested. Transcript of NOAA public meeting September 8, 2016, 5:30-9:30 p.m. Kealahou High School Cafeteria, 74-5000 Kealahou Avenue, Honolulu, HI 96825. Peer review and conflict of interest reports for Tyne, J. A., Pollock, K. H., Johnston, D. W., & Bejder, L. (2014). We are requesting information under the Freedom of Information Act for NOAA SCITECH Contract DOCDG133E1. We are requesting information under the Freedom of Information Act for NOAA SCITECH Contract DOCDG133E1. REVISED REQUEST SCOPE: We are requesting information under the Freedom of Information Act for NOAA SCITECH Contract DOCDG133E1. We are requesting information under the Freedom of Information Act for NOAA SCITECH Contract DOCDG133E1. REVISED REQUEST SCOPE: We are requesting information under the Freedom of Information Act for NOAA SCITECH Contract DOCDG133E1. Comments

This request is seeking communications with, or directed to, President Trump regarding a list of National Monument designations. This request appears to be directly related to the Presidential Executive Order on April 26, 2017 Ordering the Review of Designations Under the Antiquities Act.

This request seeks copies of any information used to inform the development of the following national monument proclamations or expansions during the specified time periods: Northeast Canyons and Seamounts Marine National Monument (01/01/14 – 12/31/16) Papahānaumokuākea Marine National Monument Expansion (01/01/14 – 12/31/16) Pacific Remote Islands Marine National Monument Expansion (01/01/12 – 12/31/14) Marianas Trench Marine National Monument (01/01/2007 – 12/31/2009) Rose Atoll Marine National Monument (01/01/2007 – 12/31/2009)

This also seems to also be related to the Executive Order referenced above.

PETA is seeking copies of all records regarding Permit No. 774, issued to SeaWorld on October 7, 1992, to import the orca Tilikum pursuant to the Marine Mammal Protection Act (MMPA), from July 7, 2014, to the present. This is the same orca that was the subject of the film "Blackfish."

Friends of the River requests all biological opinions issued by NMFS since January 2000 for dams that block anadromous fish passage. (1.) All email correspondence (including attachments and photos) between John D. Kelly, observer program manager and NOAA. Re: Freedom of Information Act Request – NOAA Office of Science and Technology – Vessel Documentation Information. The NOAA's Office of Ocean and Coastal Resource Management participated in the "Delaware Bay Benthic Monitoring Program". I am requesting materials in your possession such as: Any and all requests for technical assistance for projects or reports. Copies of all documents maintained by NOAA/NMFS pertaining to the removal of two fisheries observers from vessels. I would like copies of the following documents: - A complete necropsy report of Makapuu (NOA0000187), False Killer whale. All wild capture permits for whales and dolphins by Dr. Jay Sweeney, for the period January 1, 1960 through April 30, 1999. Request is being made to learn the dollar amount and line items associated with the dollar amounts of contracts # 01-99-01 Coastal Change Analysis Program (C-CAP) / National Oceanic and Atmospheric Administration Request Description. I respectfully request a digital/electronic copy of the catalogue/database for the International Tsunami Information Center.

To: Mark Graff NOAA Federal
Subject: DOC NOAA 2018 000437
Attachments: PPaper FOIA Request DOC NOAA 2018 000437AT.docx; 2018 000437 No Records Found Close Response AT.pdf

Good Morning Mark:

(b)(5)

Thanks, Annie

(b) (5)

For your appeal to be complete, it must include the following items:

- a copy of the original request,
- our response to your request,
- a statement explaining why the withheld records should be made available, and why the denial of the records was in error.
- “Freedom of Information Act Appeal” must appear on your appeal letter. It should also be written on your envelope, e-mail subject line, or your fax cover sheet.

FOIA appeals posted to the e-mail box, FOIAonline, or Office after normal business hours will be deemed received on the next business day. If the 90th calendar day for submitting an appeal falls on a Saturday, Sunday or legal public holiday, an appeal received by 5:00 p.m., Eastern Time, the next business day will be deemed timely.

FOIA grants requesters the right to challenge an agency's final action in federal court. Before doing so, an adjudication of an administrative appeal is ordinarily required.

The Office of Government Information Services (OGIS), an office created within the National Archives and Records Administration, offers free mediation services to FOIA requesters. They may be contacted in any of the following ways:

Office of Government Information Services
National Archives and Records Administration
Room 2510
8601 Adelphi Road
College Park, MD 20740-6001
Email: ogis@nara.gov
Phone: 301-837-1996
Toll-free: 1-877-684-6448

If you have questions regarding this correspondence please contact Annie Thomson at annie.thomson@noaa.gov or by phone at (301) 734-1106, or the NOAA FOIA Public Liaison Robert Swisher at (301) 628-5755. Please refer to your FOIA request tracking number DOC-NOAA-2018-000453 when contacting us.

Sincerely,

Mark H. Graff

UNITED STATES DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration
Silver Spring, MD 20910

Mr. Paul Lannus
1850 Mt. Diablo Boulevard
Suite 600
Walnut Creek, CA 94596

Re: FOIA Request DOC-NOAA-2018-000437

Dear Paul Lannus,

This letter is in response to your Freedom of Information Act (FOIA) request which was received by our office on December 18, 2017, in which you requested:

REVISED DESCRIPTION: Under Title 5 of the United States Code Section 552 and the California Public Records Act, I hereby request an opportunity to inspect or obtain copies of the following records that pertain to the ship, USC&GSS Pioneer (OSS-31). · Ship/captain's logs for the USC&GSS Pioneer (OSS-31). · Documents concerning the presence or remediation (including abatement) of asbestos containing materials aboard or from the USC&GSS Pioneer (OSS-31). · Documents concerning the repair, overhaul or maintenance of the USC&GSS Pioneer (OSS-31). · Photographs of the interior of the USC&GSS Pioneer (OSS-31). · Photographs of the exterior of the USC&GSS Pioneer (OSS-31). Documents identifying the commanding officer, officers, sailors and those aboard the USC&GSS Pioneer (OSS-31) during the relevant time period of 1956-1958. · Ship/captain's logs for the USS Mobjack (AGP-7), the predecessor to the USC&GSS Pioneer (OSS-31).

After searching our files we were unable to locate any records that are responsive to your request.

Although no records were located during our search, you have the right to appeal a “no document found” response. All appeals should include a statement of the reasons why you believe the FOIA response was not satisfactory. An appeal based on documents in this release must be received within 90 calendar days of the date of this response letter at the following address:

Assistant General Counsel for Litigation, Employment, and Oversight
U.S. Department of Commerce
Office of General Counsel
Room 5875
14th and Constitution Avenue, N.W.
Washington, D.C. 20230

An appeal may also be sent by e-mail to FOIAAppeals@doc.gov or by FOIAonline at <https://foiaonline.regulations.gov/foia/action/public/home#>.

For your appeal to be complete, it must include the following items:

- a copy of the original request,
- our response to your request,
- a statement explaining why the withheld records should be made available, and why the denial of the records was in error.
- “Freedom of Information Act Appeal” must appear on your appeal letter. It should also be written on your envelope, e-mail subject line, or your fax cover sheet.

FOIA appeals posted to the e-mail box, FOIAonline, or Office after normal business hours will be deemed received on the next business day. If the 90th calendar day for submitting an appeal falls on a Saturday, Sunday or legal public holiday, an appeal received by 5:00 p.m., Eastern Time, the next business day will be deemed timely.

FOIA grants requesters the right to challenge an agency's final action in federal court. Before doing so, an adjudication of an administrative appeal is ordinarily required.

The Office of Government Information Services (OGIS), an office created within the National Archives and Records Administration, offers free mediation services to FOIA requesters. They may be contacted in any of the following ways:

FROM: Michael J. Toland, Ph.D.
 Deputy Chief Freedom of Information Act (FOIA) Officer

SUBJECT: FOIA Request Kenzi Abou-Sabe DOC-OS-2018-000718

The U.S. Department of Commerce’s FOIA Office, Office of Privacy and Open Government, received a request seeking:

“...record of all employee and contractor expenses that include payment to the Trump International Hotel Washington D.C. since September 1, 2016, as well as all expenditures made by the Department of Commerce to the Trump International Hotel Washington D.C. since September 1, 2016. The expense records we are seeking should include but not be limited to: the date of purchase at the hotel, the total amount paid, the good/service description of each line item, and if the expense is due to an employee of a sub agency incurring the charge, please note which sub agency. In credit card transactions, expenditures made at the Trump International Hotel in Washington D.C. may be noted as payments to a business alias, so I am listing several aliases that I am aware of below. Any payment made to these business aliases should be included in the record we are seeking. • TRUMP INTL HOTEL DC REST • TRUMP INTL HOTEL • BLT PRIME WASHINGTON • BENJAMIN BAR & LOUNGE WASHINGTON • TRUMP INTL HOTEL WASHINGTON • TRUMP OLD POST OFFICE WASHINGTON.”

I am sending this FOIA request to you for your attention, since your office has been identified as possibly having records that may be responsive to the request. Please take the following actions:

- Please notify our office if you know of any other bureau/office that may also have responsive documents.
- Conduct a search for responsive records.
 - You must search every place that could reasonably be expected to have responsive documents.
 - The date range for records that may be responsive to this request is September 1, 2016 to present (February 22, 2018); records created after February 22, 2018, are not responsive to the request.
- If you identify any records:
 - Please provide electronic copies of the records to me within ten (10) business days of the date of this letter—on or before March 8, 2018.

- Upload documents in FOIAonline following the instructions in the attachment entitled “Instructions for uploading documents into FOIAonline.”
- Identify whether you believe the records, or any portions thereof, should be withheld from disclosure.
 - Attached is a copy of FOIA Exemptions to assist you with making withholding determinations.
 - Harriette Boyd is also available to answer any questions you may have about FOIA Exemptions or the FOIA request by phone at 202-482-1485, or by email at hboyd1@doc.gov .
- Sign and date the attached Certification of Search.
- Return the completed Certification of Search along with the responsive records to my office.
- If you do not identify any responsive records:
 - Check the box “My Office has found no responsive document” on the attached Certification of Search.
 - Sign and date the Certification of Search.
 - Return the completed Certification of Search to my office.

Attachments

1. Instructions for uploading documents into FOIAonline
2. Certification of Search
3. FOIA Exemptions

Instructions for uploading documents into FOIAonline

A signed Certification of Search should be uploaded separately in Case File/Correspondence/Other. Only the Certification of Search signed by the FOIA Officer/Senior Official from the Bureau should be uploaded. Please do not upload Sub-Agency Taskers.

Responsive documents are to be uploaded in Case File/Records. Please identify whether you believe the document, or any portion of it, should be withheld from disclosure. You must include the FOIA exemption next to any information you identify as protected from disclosure.

- A clean copy and redacted copy shall be uploaded on FOIAonline.
- The clean copy will be uploaded with an UU (Unredacted – Unreleaseable) Publish Option.
- Redacted copy will be uploaded and grouped by exemptions applied, i.e., RR (Redacted-Releaseable) - (b)6, (b)5 (please include the privilege used).
- The format to be used for “Title” of uploaded documents: ITA - 24 documents, RR, (b)4, (b)6. (Bureau [not sub agency] - number of documents - Publish Options – exemptions).
- For documents that are completely withheld UU-Unredacted – Unreleaseable; and RU-Redacted-Unreleaseable (you must apply an Exemption in the Action Column).
- For referred documents use the following format for “Title:” 15 documents refer to NTIA.

FOIA Exemptions

Exemption 1: classified national defense and foreign relations information;

Exemption 2: internal agency personnel rules and practices;

Exemption 3: information that is prohibited from disclosure by another federal law;

Exemption 4: trade secrets and other confidential or privileged commercial or financial information;

Exemption 5: inter-agency or intra-agency communications that are protected by legal privileges, including the deliberative process, attorney-client and attorney work-product privileges;

Exemption 6: information involving matters of personal privacy;

Exemption 7: records or information compiled for law enforcement purposes, to the extent that the production of those records:

Exemption (7)(A) could reasonably be expected to interfere with enforcement proceedings,

Exemption (7)(B) would deprive a person of a right to a fair trial or an impartial adjudication,

Exemption (7)(C) could reasonably be expected to constitute an unwarranted invasion of personal privacy,

Exemption (7)(D) could reasonably be expected to disclose the identity of and/or information provided by a confidential source,

Exemption (7)(E) would disclose techniques and procedures for law enforcement investigations or prosecutions, or would disclose guidelines for law enforcement investigations or prosecutions, or

Exemption (7)(F) could reasonably be expected to endanger the life or physical safety of any individual;

Exemption 8: information relating to the supervision of financial institutions; and

Exemption 9: geological information on wells.

Good Afternoon,

Attached is the weekly report.

One request was received from NBC News seeking all employee or contractor expenses that include payment to Trump International Hotel D.C. since September 1, 2016. (DOC NOAA 2018 000821). This request has been granted Expedited Processing as it met the criteria for 15 CFR 4.6(f)(iv).

In litigation, NOAA completed its production in the *AWI v. NOAA* lawsuit (b)(5)

The original request sought all records regarding the Orca Tilikum, (which was known for its portrayal in the movie *Blackfish*). A copy of the original request and Complaint are attached for your reference.

(b)(5)

The underlying request sought information regarding the determination that the State of New Jersey was in compliance regarding the management of its recreational Summer Flounder fishery under the Atlantic Coastal Fisheries Cooperative Management Act (ACFCMA). A copy of the original request and Complaint are attached.

COMPLAINT FOR DECLARATORY AND INJUNCTIVE RELIEF

1. The Animal Welfare Institute brings this action against defendants National Oceanic and Atmospheric Administration and National Marine Fisheries Service for violations of the Freedom of Information Act, 5 U.S.C. § 552 (“FOIA”).

PARTIES

2. Plaintiff Animal Welfare Institute (“AWI”) is a 501(c)(3) non-profit organization that seeks to protect animals from human inflicted suffering. In particular, AWI has advocated for the protection of whales and other marine life from life from human activities such as harmful fishing practices, hunting, underwater noise production, and inhumane practices resulting from captive maintenance for purposes of public display and scientific research. AWI is the requester of the records at issue.

3. Defendant National Oceanic and Atmospheric Administration (“NOAA”) is an agency of the federal government within the U.S. Department of Commerce that focuses on the conditions of the oceans and the atmosphere, including marine wildlife.

4. Defendant National Marine Fisheries Service (“NMFS”) is an agency of the federal government within NOAA that has jurisdiction over whales under the Marine Mammal Protection Act (“MMPA”), 16 U.S.C. §§ 1361 - 1423h, and is in possession of the records requested by AWI.

JURISDICTION AND VENUE

5. This Court has jurisdiction pursuant to 5 U.S.C. § 552(a)(4)(B).

6. Venue is proper in this Court pursuant to 5 U.S.C. § 552(a)(4)(B).

FACTS GIVING RISE TO PLAINTIFF’S CLAIM

A. FOIA Requirements

7. The purpose of FOIA is to “pierce the veil of administrative secrecy and to open agency action to the light of public scrutiny.” *Public Citizen, Inc. v. Office of Management and Budget*, 598 F.3d 865, 869 (D.C. Cir. 2010) (quotations omitted). In enacting FOIA, Congress intended the primary objective of the Act to be the full disclosure of federal agency records so long as information is not exempted by clearly delineated statutory language. *Id.*

8. FOIA establishes a broad right of public access to federal agency records, subject only to nine delineated exemptions. 5 U.S.C. § 552(b). “Each agency, upon any request” for enumerated records must “determine within 20 days (excepting Saturdays, Sundays, and legal holidays) after the receipt of any such request whether to comply with such request and shall immediately notify the person making such a request” of the “determination and the reasons therefor” *Id.* § 552(a)(6)(A)(i). A requester “shall be deemed to have exhausted [its]

administrative remedies” and hence may file suit under the Act’s citizen suit provision “with respect to [a] request if the agency fails to comply with the . . . time limit” set forth in the statute for a substantive response. *Id.* § 552(a)(6)(C)(i).

9. The federal regulations implementing FOIA for NOAA and NMFS are located at 15 C.F.R. § 4.1, *et seq.* 15 C.F.R. § 4.6 codifies the requirement that NOAA/NMFS respond within 20 working days of receiving a FOIA request with a determination of compliance.

B. The Public Interest Need for the Documents Subject to the FOIA Request

10. In 2013, the documentary film *Blackfish* drew public attention to the plight of Tilikum, an orca held in captivity by SeaWorld Parks & Entertainment (“SeaWorld”), and other orcas now maintained in aquariums and theme parks around the world. *Blackfish* set off a strong negative public reaction to SeaWorld and the conditions under which orcas are held in captivity.

11. On March 8, 2016, SeaWorld released a video on its website describing Tilikum’s declining health and indicating that he was not expected to survive.

12. Beginning in October 2016, the People for the Ethical Treatment of Animals (“PETA”) initiated the first of what would be several meetings and communications with NOAA/NMFS regarding Tilikum. AWI joined this effort by December 2016. In anticipation of Tilikum’s death, NOAA/NMFS was presented with a draft legal opinion explaining why the 1992 MMPA permit authorizing the importation of Tilikum requires SeaWorld to submit to NOAA/NMFS the necropsy report and clinical history for Tilikum in the event of his death. In these meetings and communications, and through the draft legal opinion, AWI (with PETA) sought NOAA/NMFS input and comments on the applicability of the necropsy and clinical history permit requirement.

13. In the following months, AWI also presented its views on the necropsy and clinical history requirements of MMPA permits to the other federal agencies with jurisdiction over marine mammals — the U.S. Fish and Wildlife Service (“FWS”), the Marine Mammal Commission (“MMC”), and the U.S. Department of Agriculture’s Animal and Plant Health Inspection Service (“APHIS”).¹

14. In these agency meetings and communications, AWI repeatedly stressed the importance of necropsy reports and clinical histories for purposes of scientific research, medical care (including for free-ranging, stranded individuals), animal husbandry, and public education, and demonstrated that the benefits resulting from this information applied to whales held both in captivity and in the wild.

15. In these meetings and communications, NOAA/NMFS never took a position on whether SeaWorld had to comply with the necropsy and clinical history requirements of Tilikum’s permit.

16. Tilikum died on January 6, 2017 at SeaWorld’s Orlando facility. AWI and other animal welfare organizations immediately notified NOAA/NMFS that Tilikum’s MMPA permit required SeaWorld to submit the necropsy and clinical history report within 30 days. Based on information and belief, SeaWorld never submitted the necropsy and clinical history report required by the permit to NOAA/NMFS.

17. On March 10, 2017, NOAA/NMFS responded to the animal welfare organizations’ notice with an email stating that it was willing to meet to discuss the issue but that it had concluded that the necropsy and clinical history provisions of Tilikum’s permit had been

¹ Under the MMPA, NOAA/NMFS has jurisdiction over whales, dolphins and seals. FWS has jurisdiction over polar bears, manatees, walrus and sea otters. 16 U.S.C. § 1362(12)(A). The MMC serves in an independent advisory and oversight role. *Id.* §§ 1401-1407. APHIS jurisdiction is not under the MMPA but applies to marine mammals in certain captive maintenance facilities under the Animal Welfare Act. 7 U.S.C. §§ 2131-2159.

extinguished by amendments to the MMPA in 1994 and that “the legal analysis supporting this determination is exempt from disclosure under the attorney-client privilege, and we will not be discussing it in any detail at the meeting.” Thus, after months of effort to engage NOAA/NMFS in a collaborative dialogue regarding the permit requirements for SeaWorld to release Tilikum’s health records, AWI and the other organizations had no explanation from NOAA/NMFS for the legal conclusion, contrary to the plain language of the permit, that the necropsy and clinical history requirement did not apply and were told that none would be provided.

18. AWI contacted SeaWorld directly by email on March 25, 2017 asking for voluntary release of Tilikum’s records. SeaWorld refused to do so in an April 13, 2017 email. Five animal welfare organizations sent a letter to SeaWorld on August 8, 2017, again asking for voluntary compliance. SeaWorld has not replied and continues to withhold the documents.

19. On July 24, 2017, Tilikum’s granddaughter Kyara died at SeaWorld’s San Antonio facility. The draft legal opinion previously provided to NOAA/NMFS confirmed that Kyara was covered by the necropsy and clinical history provision of Tilikum’s permit.

20. On July 31, 2017, AWI and other animal welfare organizations wrote to NOAA/NMFS asking for enforcement of the necropsy and clinical history provision of Tilikum’s permit for Kyara’s records. Counsel to AWI submitted a revised version of the draft legal opinion supporting this conclusion to NOAA/NMFS on August 14, 2017.

21. NOAA/NMFS responded on September 7, 2017, simply restating its March 10, 2017 email message that the permit had been extinguished by the 1994 MMPA amendments.

22. On August 15, 2017, Kasatka, an orca held at SeaWorld’s San Diego facility, was euthanized due to a bacterial infection. Kasatka’s 1978 MMPA permit included a necropsy and clinical history requirement. AWI, and the other organizations promptly requested

NOAA/NMFS to enforce the permit, by letter dated August 25, 2017, and by an updated version of the legal opinion, by letter from counsel dated August 30, 2017.

23. By letter dated October 18, 2017, NOAA/NMFS issued the same response as in its March 10, 2017 email on Tilikum's death and its September 7, 2017 letter on Kyara's death, stating that the necropsy and clinical history requirement in Kasatka's permit had been extinguished. Again, NOAA/NMFS provided no explanation for its legal conclusion.

24. After the death of three SeaWorld orcas over a seven-month period, NOAA/NMFS has refused to release or disclose the legal rationale for its conclusion that SeaWorld can ignore clearly stated permit requirements and withhold information that would shed light on the cause of death and medical condition of these whales during their lives in captivity and benefit science and marine mammal husbandry, stranding response, and medical care. SeaWorld refuses to release the whales' clinical histories or necropsy reports.

C. The AWI FOIA Request

25. By letters sent by email on September 29, 2017, AWI submitted FOIA requests to NOAA/NMFS, FWS, and MMC for all documents from January 1, 2017 to May 1, 2017 regarding NMFS' March 10, 2017 determination that the necropsy and clinical history requirements of Public Display Permit No. 774 for Tilikum were extinguished by the 1994 MMPA amendments. Exhibit 1, Declaration of Donald C. Baur, dated January 8, 2018 ("Baur Decl.") at ¶ 2, Attachment A. On the same date, AWI submitted a FOIA request to APHIS, asking for "all requests that APHIS has submitted since January 1, 1994 under 9 C.F.R. § 3.110(g) requesting necropsy records for marine mammals that have died in captivity, and all necropsy records that APHIS has received in response to those requests."

26. Under FOIA, the deadline for agency response to the requests was October 30, 2017.

27. By letter to AWI dated October 5, 2017, APHIS's FOIA Director confirmed receipt of the FOIA request. The letter identified an anticipated response date of October 30, 2017. On December 8, 2017, APHIS responded to AWI's FOIA request.²

28. By voice message on October 4, 2017, the MMC confirmed receipt of AWI's FOIA request. In a letter sent by email, dated December 18, 2017, Michael L. Gosliner, MMC General Counsel, responded to the FOIA request with a partial release of documents. In the MMC response letter, Mr. Gosliner stated:

I am sympathetic to the position that your organization finds itself in — the responsible agency (NMFS) has given you its legal conclusion that the 1994 amendments to the MMPA extinguished the permit terms and conditions related to necropsies and clinical histories, but has declined to provide you with its rationale for this conclusion. I can see where that agency would not want to share its draft legal analysis outside of the government, but once a conclusion has been reached, its final position no longer is pre-decisional.³

The MMC also stated that it could not release its own documents that would shed light on the NOAA/NMFS legal position without concurrence from NOAA/NMFS.⁴

² APHIS confirmed that, since 1994, it has not required licensees to submit necropsy reports for any marine mammals. As a result, it had no documents to release.

³ The MMC's FOIA response indicates that NOAA/NMFS had not completed its consultation with its sister agencies on the legal question at the time it announced its conclusion on March 10, 2017.

⁴ The MMC request revealed the limited nature of the AWI request, by identifying only nine responsive documents withheld based on the NOAA/NMFS position. The MMC letter also confirmed that it had coordinated its response "with the other agencies," indicating that NOAA/NMFS is aware of the FOIA request.

29. By email on September 29, 2017, FWS's Headquarters FOIA Office acknowledged receipt of the FOIA request. The email stated that the request was forwarded to the Division of Management Authority for processing.

30. The initial FOIA request letter to NMFS was confirmed delivered to NOAA/NMFS by AWI email on September 29, 2017. A follow-up letter was also sent by email to NMFS on December 4, 2017, asking for a response by December 15, 2017. Baur Decl. ¶ 3, Attachment B. Finally, on December 22, 2017, a copy of the December 4 letter was sent again by email, with a specific request that NMFS acknowledge receipt. *Id.* ¶ 4, Attachment C.

31. As of the date of this complaint, NOAA/NMFS has never even acknowledged receipt of the September 29, 2017 request, the December 4, 2017 follow-up letter, or the December 22, 2017 email confirmation request.

32. To date, more than three months after AWI's initial letter, and more than two months after the statutory deadline, NOAA/NMFS has not responded in any way to the September 29, 2017 AWI FOIA request. Nor has the Agency provided AWI with any explanation for the ongoing delay. The other agencies have either responded in full (APHIS and MMC) or acknowledged receipt and confirmed that review is underway (FWS).

CLAIM FOR RELIEF

33. AWI has a statutory right to the requested records. NOAA/NMFS, in violation of FOIA and AWI's rights under FOIA, has failed to provide the records, or any substantive determination regarding them, by the mandatory deadline set forth in 5 U.S.C. § 552(a)(6)(A)(i).

REQUESTED RELIEF

34. AWI respectfully requests that the Court grant the following relief:

- a. Declare that NMFS is in violation of FOIA;

- b. Enjoin NMFS from continuing to withhold the requested records and order NMFS immediately to release the records in full to AWI;
- c. Make a written finding pursuant to 5 U.S.C. § 552(a)(4)(F)(i) that the “circumstances surrounding the withholding raise questions whether agency personnel acted arbitrarily or capriciously with respect to the withholding”;
- d. Award Plaintiff its attorneys’ fees and costs pursuant to 5 U.S.C. § 552(a)(4)(E);
- e. Award any other relief this Court finds just and proper.

Dated this 9th day of January, 2018

Respectfully submitted,

/s/Donald C. Baur

Re: Freedom of Information Act Request

Dear FOIA Officer:

Pursuant to the Freedom of Information Act ("FOIA"), 5 U.S.C. § 552, *et seq.*, and the regulations of the Department of Commerce, 15 C.F.R., Part 4; the regulations of the Department of the Interior, 43 C.F.R., Part 2; and the regulations of the Marine Mammal Commission, 50 C.F.R., Part 520; I am writing on behalf of the Animal Welfare Institute ("AWI") to request from the National Oceanic and Atmospheric Administration ("NOAA"), the National Marine Fisheries Service ("NMFS"), the Fish and Wildlife Service ("FWS"), and the Marine Mammal Commission ("MMC"), certain documents related to the Public Display Permit that NMFS issued under the Marine Mammal Protection Act ("MMPA") for Tilikum the orca whale (Permit No. 774).

September 29, 2017

Page 2

Specifically, I request all documents from each of the aforementioned agencies between January 1, 2017 and May 1, 2017 related to NMFS' March 10, 2017 determination that the necropsy/clinical history requirements of Permit No. 774 were effectively extinguished by the 1994 amendments to the MMPA.

For purposes of this FOIA request, "all documents" encompass: (i) any written, printed, or typed material of any kind, including without limitation to all correspondence, memoranda, notes, meeting minutes, emails from or to official or personal e-mail accounts, spreadsheets, reports, calendars; (ii) any electronically, magnetically, or mechanically stored records, such as materials stored on a compact disk, digital video disk, microfiche, regardless of form; (iii) any audio, visual, aural, or video records, including but not limited to photographs, videotapes, microfilm; and (iv) any other records preserved by any other means for documenting thought or expression.

In the event that the requested documents cannot be disclosed in their entirety, AWI requests that you release any material that can be reasonably segregated. Should any documents or portions thereof be withheld, AWI requests that the agency state with specificity the description of the withheld document or portions thereof, and the legal and factual grounds for doing so.

AWI requests that any fees associated with responding to this FOIA request be waived. *See* 15 C.F.R. § 4.11; 43 C.F.R. § 2.45; 50 C.F.R. § 520.7. AWI is a non-profit, charitable institution that was founded over 50 years ago and is dedicated to protecting animals from suffering caused by human action. The documents that AWI is requesting concern the terms of Public Display Permit No. 774, the agencies' interpretation of those terms, and the level of input that NMFS received from other agencies to interpret those terms. Releasing the documents covered by this request will significantly enhance the public's understanding of the necropsy and clinical history requirements of MMPA public display permits issued before 1994 and the agencies' procedures for evaluating those permits. This information will help the public determine whether additional changes to the MMPA permitting processes are needed in order to achieve the goals of the statute.

Disclosure of the requested documents will benefit a broad audience of people interested in the MMPA and public display permits. AWI is an institute with significant expertise in marine mammals and animal welfare and is well suited to convey the information learned from the documents to the public. As a non-profit organization, AWI's primary goal is to increase awareness of human mistreatment of animals and releasing the documents it obtains in response to this FOIA request will further that goal. The documents AWI is requesting are not yet publicly available and thus the release of these documents will significantly enhance the public's understanding of the public display permits at issue.

AWI does not have any commercial interest that will be furthered by releasing the requested documents.

Please contact me if you have any questions.

Re: FOIA Request for Records Regarding Department of Commerce Determination of Compliance for New Jersey Summer Flounder Fishery

Dear FOIA Officer:

I write on behalf of the Natural Resources Defense Council (NRDC) to request disclosure of records pursuant to the Freedom of Information Act (FOIA), 5 U.S.C. § 552 (2012), and applicable Department of Commerce (Department) regulations at 15 C.F.R. §§ 4.1-4.11 (2017).

I. Description of Records Sought

Please produce all records¹ in the Department's possession, custody, or control that support, explain, or otherwise relate to the Secretary of Commerce's (Secretary's) decision dated July 10, 2017, and final notice published on July 20, 2017,² determining that the state of New Jersey was in compliance with regard to management of its recreational summer flounder fishery under the Atlantic Coastal Fisheries Cooperative Management Act (ACFCMA), 16 U.S.C. §§ 5101-5108 (2012). Requested records include, but are not limited to, any of the following:

¹ "Records" means anything denoted by the use of that word or its singular form in the text of FOIA and includes correspondence, minutes of meetings, memoranda, notes, emails, notices, facsimiles, charts, tables, presentations, orders, filings, and other writings (handwritten, typed, electronic, or otherwise produced, reproduced, or stored). This request seeks responsive records in the custody of any Department of Commerce office, including, but not limited to, Department of Commerce Headquarters offices, the Office of the Secretary, the Office of General Counsel, the National Oceanic and Atmospheric Administration ("NOAA"), and all of NOAA's subsidiary offices.

² National Marine Fisheries Service (NMFS), Dept. of Commerce, *Atlantic Coastal Fisheries Cooperative Management Act Provisions; Summer Flounder Fishery, Notice of Determination of Compliance for the State of New Jersey*, 82 Fed. Reg. 33,481 (July 20, 2017).

1. Decision memoranda, letters, emails, situation summaries, discussion documents, or briefing documents that discuss summer flounder and New Jersey's 2017 recreational season;
2. Communications pertaining to New Jersey's recreational management of summer flounder during the 2017 season, including communications within the Department or any of its subdivisions, and communications between Department staff (or staff of any Department subdivision) and any outside entity;
3. Proposals, recommendations, or factual information submitted to the Department or any of its subdivisions regarding New Jersey's recreational management of summer flounder during the 2017 season;
4. Technical analysis, including projections or estimates of harvest, discard mortality, overages, and "conservation equivalency," submitted to or produced by the Department or any of its subdivisions, regarding New Jersey's recreational management of summer flounder during the 2017 season; and
5. Scientific research or studies that support or explain the Secretary's decision.

The temporal scope of this request is limited to records created or obtained on or after February 2, 2017.

II. Request for a Fee Waiver

NRDC requests that the Department waive any fee it would otherwise charge for search and production of the records described above. FOIA dictates that requested records be provided without charge "if disclosure of the information is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of the government and is not primarily in the commercial interest of the requester." 5 U.S.C. § 552(a)(4)(A)(iii); *see also* 15 C.F.R. § 4.11(l)(1). The requested disclosure would meet both of these requirements. In addition, NRDC qualifies as "a representative of the news media" entitled to a reduction of fees under FOIA. 5 U.S.C. § 552(a)(4)(A)(ii)(II); *see also* 15 C.F.R. §§ 4.11 (b)(6), (d)(1).

A. NRDC Satisfies the First Fee Waiver Requirement

The disclosure requested here would be "likely to contribute significantly to public understanding of the operations or activities of the government." 5 U.S.C. § 552(a)(4)(A)(iii); 15 C.F.R. § 4.11(l)(1)(i). Each of the four factors used by the Department to evaluate the first fee waiver requirement indicates that a fee waiver is appropriate for this request. *See* 15 C.F.R. § 4.11(l)(2)(i)-(iv).

1. Subject of the request

The records requested here relate to an issue of regional and national impact: conservation and management of the summer flounder fishery, one of the most recreationally and commercially important fisheries along the Atlantic coast. Summer flounder is currently subject to overfishing and at risk of becoming overfished if effective catch limits are not implemented. The records also relate to the Department's understanding of what actions are needed to conserve summer flounder, and the Department's role in carrying out the cooperative management duties of the ACFCMA, *see* 16 U.S.C. § 5106. The Department of Commerce (including its subdivisions) is a government

agency. The requested records thus directly concern “the operations or activities of the [g]overnment.” 15 C.F.R. § 4.11(l)(2)(i).

2. *Informative value of the information to be disclosed*

The requested records are “likely to contribute to” the public’s understanding of government operations and activities, *id.* § 4.11(l)(2)(ii). The public does not currently possess comprehensive information regarding the Department’s evaluation of compliance for New Jersey’s management of summer flounder, or the Department’s ultimate decision that New Jersey was in compliance pursuant to the ACFCMA. As noted above, the Department’s decision has regional and national impacts. The issue of summer flounder management has been elevated to a point of broad public interest, as demonstrated by extensive media coverage in state, regional, and national media outlets. Thus, there is more than a reasonable likelihood that records regarding the Department’s decision have informative value to the public. *See Citizens for Responsibility & Ethics in Washington v. U.S. Dep’t of Health & Human Servs.*, 481 F. Supp. 2d 99, 109 (D.D.C. 2006).

To the best of our knowledge, the records requested are not currently in the public domain. Their disclosure would thus meaningfully inform public understanding with respect to the Department’s actions and understanding of what actions are needed to conserve summer flounder, as further discussed below. However, if the Department were to conclude that some of the requested records are publicly available, NRDC would like to discuss that conclusion and might agree to exclude such records from this request.

3. *Contribution to an understanding of the subject by the public is likely to result from disclosure.*

Because NRDC is a “representative of the news media,” as explained in Part II.C below, the Department must presume that this disclosure is likely to contribute to public understanding of its subject. *See* 15 C.F.R. § 4.11(l)(2)(iii). However, even if NRDC were not a media requester, NRDC’s expertise in fisheries management and marine conservation, extensive communications capabilities, and proven history of dissemination of information of public interest—including information obtained from FOIA records requests—indicate that NRDC has the ability and will to use disclosed records to reach a broad audience of interested persons with any relevant and newsworthy information the records reveal. There is a strong likelihood that disclosure of the requested records will increase public understanding of the subject matter. *See Judicial Watch, Inc. v. Rossotti*, 326 F.3d 1309, 1314 (D.C. Cir. 2003) (finding that a requester that specified multiple channels of dissemination and estimated viewership numbers demonstrated a likelihood of contributing to public understanding of government operations and activities).

NRDC intends to disseminate any newsworthy information in the released records and its analysis of such records to its member base and to the broader public, through one or more of the many communications channels referenced below. NRDC has frequently disseminated newsworthy information to the public for free, and does not intend to resell the information requested here. NRDC’s more than two million members and online activists are “a broad audience of persons interested in the subject[s]” of preventing overfishing and protecting marine resources, and when combined with NRDC’s communications to the public at large, the likely audience of interested persons to be reached is certainly “reasonably broad.” 15 C.F.R. § 4.11(l)(2)(iii). As NRDC’s long

history of incorporating information obtained through FOIA into reports, articles, and other communications illustrates, NRDC is well prepared to convey to the public any relevant information it obtains through this records request.

NRDC has the ability to disseminate information collected from this FOIA request through many channels. As of June 2016, these include, but are not limited to the following:

- NRDC's website, available at <http://www.nrdc.org> (homepage at Att. 1), is updated daily and draws approximately 1.3 million page views and 510,000 unique visitors per month. The new NRDC.org launched in late March 2016 and features NRDC staff blogs, original reporting of environmental news stories, and more.
- NRDC's Activist email list includes more than 2.5 million members and online activists who receive regular communications on urgent environmental issues (sample email at Att. 2). This information is also made available through NRDC's online Action Center at <https://www.nrdc.org/actions> (Att. 3).
- *NRDC This Week* is a weekly electronic environmental newsletter distributed by email to more than 86,700 subscribers, at <http://www.nrdc.org/newsletter> (Att. 4).
- NRDC updates and maintains several social media accounts: Facebook (565,530 followers) (Att. 5), Twitter (195,426 followers) (Att. 6), Instagram (37,868 followers) (Att. 7), YouTube (19,518 subscribers) (Att. 8), and LinkedIn (9,108 followers) (Att. 9). We also use Medium as another distribution channel for our content (1,478 followers).

NRDC issues press releases, issue papers, and reports; directs and produces movies, such as *Sonic Sea*, *Stories from the Gulf*, and *Acid Test*, narrated by Rachel McAdams, Robert Redford, and Sigourney Weaver, respectively; participates in press conferences and interviews with reporters and editorial writers; distributes content on Huffington Post (Att. 10); and has more than fifty staff members dedicated to communications work.

NRDC employees provide Congressional testimony; appear on television, radio, and web broadcasts and at conferences; and contribute to numerous national newspapers, magazines, academic journals, other periodicals, and books. A few examples are provided below:

- Research article, "The requirement to rebuild US fish stocks: Is it working?" *Marine Policy*, July 2014 (co-authored by NRDC Oceans Program Senior Scientist Lisa Suatoni and Senior Attorney Brad Sewell) (Att. 11);
- Issue brief, "The Untapped Potential of California's Water Supply: Efficiency, Reuse, and Stormwater," June 2014 (co-authored by NRDC Water Program Senior Attorney Kate Poole and Senior Policy Analyst Ed Osann) (Att. 12); *see also* "Saving Water in California," *N.Y. Times*, July 9, 2014 (discussing the report's estimates) (Att. 13);
- Article, "Waves of phony charges over new clean water safeguards," *The Hill*, June 17, 2014 (by NRDC Executive Director Peter Lehner) (Att. 14);
- Article, "Don't Buy the Smear of the EPA," *L.A. Times*, June 3, 2014 (by NRDC President Frances Beinecke) (Att. 15);
- Transcript, "Conservationists Call For Quiet: The Ocean Is Too Loud!" Nat'l Pub. Radio, *All Things Considered*, July 28, 2013 (featuring NRDC Marine Mammal Protection Program Director Michael Jasny) (Att. 16);

- Testimony of David Doniger, NRDC Climate and Air Program Policy Director and Senior Attorney, before the United States House Subcommittee on Energy and Power, June 19, 2012 (Att. 17);
- Article, “Pollution Still a Hazard to U.S. Beaches,” CBS, *CBS NEWS*, July 29, 2009 (featuring former NRDC Water Program Co-Director Nancy Stoner) (Att. 18);
- Conference brochure, “World Business Summit on Climate Change,” May 24-26, 2009 (featuring former NRDC Director for Market Innovation Rick Duke at 9) (Att. 19);
- Article, “Is there a ‘proper level’ of compliance with environmental law?” *Trends: ABA Section of Environment, Energy, and Resources Newsletter*, Jan./Feb. 2008 (authored by NRDC Senior Attorney Michael Wall) (Att. 20);
- NRDC Document Bank, <http://docs.nrdc.org/> (Att. 21).

NRDC routinely uses FOIA to obtain information from federal agencies that NRDC legal and scientific experts analyze in order to inform the public about a variety of issues, including energy policy, climate change, wildlife protection, nuclear weapons, pesticides, drinking water safety, and air quality. Some specific examples are provided below:

- (1) In April 2014, NRDC relied on FOIA documents for a report on potentially unsafe chemicals added to food, without the safety oversight of the Food and Drug Administration or the notification of the public. The report, titled *Generally Recognized as Secret: Chemicals Added to Food in the United States*, reveals concerns within the agency about several chemicals used as ingredients in food that manufacturers claim are “generally recognized as safe” (Att. 22). *See also* Kimberly Kindy, “Are secret, dangerous ingredients in your food?” *Wash. Post*, Apr. 7, 2014 (discussing NRDC’s report) (Att. 23).
- (2) NRDC obtained, through FOIA, FDA review documents on the nontherapeutic use of antibiotic additives in livestock and poultry feed. In January 2014, NRDC published a report, titled *Playing Chicken with Antibiotics*, which is based on the documents obtained, and reveals decades of hesitancy on FDA’s part to ensure the safety of these drug additives (Att. 24). *See also* P.J. Huffstutter and Brian Grow, “Drug critic slams FDA over antibiotic oversight in meat production,” *Reuters*, Jan. 27, 2014 (discussing NRDC’s report) (Att. 25).
- (3) NRDC has used White House documents obtained through FOIA and from other sources to inform the public about EPA’s decision not to protect wildlife and workers from the pesticide atrazine in the face of industry pressure to keep atrazine on the market. *See Still Poisoning the Well: Atrazine Continues to Contaminate Surface Water and Drinking Water in the United States*, <http://www.nrdc.org/health/atrazine/files/atrazine10.pdf> (Apr. 2010) (update to 2009 report) (Att. 26); *see also* William Souder, “It’s Not Easy Being Green: Are Weed-Killers Turning Frogs Into Hermaphrodites?” *Harper’s Bazaar*, Aug. 1, 2006 (referencing documents obtained and posted online by NRDC) (Att. 27).
- (4) NRDC incorporated information obtained through FOIA into a report, available at <http://www.nrdc.org/wildlife/marine/sound/contents.asp>, on the impacts of

military sonar and other industrial noise pollution on marine life. *See Sounding the Depths II: The Rising Toll of Sonar, Shipping and Industrial Ocean Noise on Marine Life* (Nov. 2005) (update to 1999 report) (Att. 28). The report also relied upon and synthesized information from other sources. Since the report's publication, the sonar issue has continued to attract widespread public attention. *See, e.g.*, "Protest Raised over New Tests of Naval Sonar," Nat'l Pub. Radio, *All Things Considered*, July 24, 2007 (transcript at Att. 29).

- (5) NRDC scientists have used information obtained through FOIA to publish analyses of the United States' and other nations' nuclear weapons programs. In 2004, for example, NRDC scientists incorporated information obtained through FOIA into a feature article on the United States' plans to deploy a ballistic missile system and the implications for global security. *See* Hans M. Kristensen, Matthew G. McKinzie, and Robert S. Norris, "The Protection Paradox," *Bulletin of Atomic Scientists*, Mar./Apr. 2004 (Att. 30).
- (6) NRDC obtained through FOIA, and made public, records of the operations of the Bush administration's Energy Task Force, along with analysis of selected excerpts and links to the administration's index of withheld documents (Att. 31). NRDC's efforts cast light on an issue of considerable public interest. *See, e.g.*, Elizabeth Shogren, "Bush Gets One-Two Punch on Energy," *L.A. Times*, Mar. 28, 2002, at A22 (Att. 32).
- (7) Through FOIA, NRDC obtained a memorandum by ExxonMobil, advocating the replacement of the sitting head of the Intergovernmental Panel on Climate Change, and used the document to help inform the public about what may have been behind the Bush administration's decision to replace Dr. Robert Watson. *See* NRDC Press Release and attached Exxon memorandum, "Confidential Papers Show Exxon Hand in White House Move to Oust Top Scientist from International Global Warming Panel," Apr. 3, 2002 (Att. 33); Elizabeth Shogren, "Charges Fly Over Science Panel Pick," *L.A. Times*, Apr. 4, 2002, at A19 (Att. 34).
- (8) Through FOIA and other sources, NRDC obtained information on nationwide levels of arsenic in drinking water and used it in a report, *Arsenic and Old Laws* (2000), available in print and online at <http://www.nrdc.org/water/drinking/arsenic/aolinx.asp> (Att. 35). The report guided interested members of the public on how to learn more about arsenic in their own drinking water supplies. *Id.*; *see also* Steve LaRue, "EPA Aims to Cut Levels of Arsenic in Well Water," *San Diego Union-Tribune*, June 5, 2000, at B1 (referencing NRDC report) (Att. 36).³

³ There are numerous other examples of national news articles that were based in part on documents NRDC obtained through FOIA. *See, e.g.*, Felicity Barringer, "Science Panel Issues Report on Exposure to Pollutant," *N.Y. Times*, Jan. 11, 2005 (Att. 37); Katharine Q. Seelye, "Draft of Air Rule is Said to Exempt Many Old Plants," *N.Y. Times*, Aug. 22, 2003 (Att. 38); Don Van Natta, Jr., "E Mail Suggests Energy Official Encouraged Lobbyist on Policy," *N.Y. Times*, Apr. 27, 2002 (Att. 39).

As these examples demonstrate, NRDC has a proven ability to digest, synthesize, and quickly disseminate information gleaned from FOIA requests to a broad audience of interested persons. Therefore, the requested records disclosure is likely to contribute to the public's understanding of the subject.

4. *Significance of the contribution to public understanding*

The records requested shed light on a matter of considerable public interest and concern: conservation and management of the summer flounder fishery, and agency views on what management measures are necessary to achieve conservation of this important species. Recent overfishing of the summer flounder stock, and subsequent coastwide catch reductions implemented by NOAA and the Department of Commerce have received significant media coverage in 2016 and 2017. In recent weeks, the Atlantic States Marine Fisheries Commission's (ASMFC) noncompliance finding for the State of New Jersey, and the Department's determination of compliance, have also received significant coverage regional and national media outlets and other public forums. Examples of recent media coverage on this issue include:

- (1) Staff Report, *Recreational summer flounder season runs through Sept. 5*, NJToday.Net (July 21, 2017) (Exhibit A).
- (2) Dave Monti, *Fishing Report: U.S., fisheries panel disagrees on flounder targets*, Providence Journal (July 20, 2017) (Exhibit B).
- (3) *ASMFC Blasts Secretary Ross Decision on Summer Flounder in Favor of New Jersey's Recreational Sector, Saving Seafood* (Republished from Seafood News) (July 18, 2017) (Exhibit C).
- (4) Blog: Charles Witek, *Commerce Department's Summer Flounder Decision Undermines ASMFC's Authority To Manage Fish Stocks*, Marine Fish Conservation Network (July 18, 2017) (Exhibit D).
- (5) Associated Press, *Group: Trump Official's Fish Ruling Could Harm Conservation*, New York Times (July 17, 2017) (Exhibit E).
- (6) Associated Press, *Fish fight: managers say NJ flounder flap harms conservation*, Washington Post (July 17, 2017) (Exhibit F).
- (7) David Madden, *NJ Prevails In Fish Fight with Federal Government*, CBS Philly (July 15, 2017) (Exhibit G).
- (8) Press Release, *Department of Commerce Decision May Impact ASMFC's Ability to Conserve Atlantic Coastal Fisheries*, Atlantic States Marine Fisheries Commission (July 14, 2017) (Exhibit H).
- (9) Kate King, *New Jersey Wins in Effort to Ease Summer Flounder Quotas*, Wall Street Journal (July 12, 2017) (Exhibit I).
- (10) Daniel Radel, *NJ's fluke season saved after US secretary approves regulations*, App.com (part of USA Today Network) (July 11, 2017) (Exhibit J).
- (11) Claire Lowe, *New Jersey ruled out of compliance on summer flounder, moratorium possible*, Press of Atlantic City (June 2, 2017) (Exhibit K).
- (12) Daniel Hampton, *Summer flounder season begins in N.J., but there's a catch this year*, NJ.com (May 25, 2017) (Exhibit L).
- (13) Blog: John McMurray, *The Hard Truth About Summer Flounder*, Marine Fish Conservation Network (Exhibit M).

Public understanding of the Department's opinion of what actions are needed to conserve summer flounder and its role in carrying out the cooperative management duties of the ACFCMA, would be significantly enhanced by disclosure of the requested records concerning the Secretary's compliance decision. *See* 15 C.F.R. § 4.11(l)(2)(iv). Disclosure would help the public to more effectively evaluate the Department's conclusion that the management measures New Jersey declined to implement are not necessary for conservation of the summer flounder fishery. Disclosure would also help the public to better understand and evaluate the Department's actions on summer flounder conservation and management, particularly with respect to its decision that a moratorium in New Jersey state waters was not warranted.

B. NRDC Satisfies the Second Fee Waiver Requirement

Disclosure in this case would also satisfy the second prerequisite of a fee waiver request because NRDC does not have any commercial interest that would be furthered by the requested disclosure. 5 U.S.C. § 552(a)(4)(A)(iii); 15 C.F.R. § 4.11(l)(3). NRDC is a not-for-profit organization and does not act as a middleman to resell information obtained under FOIA. "Congress amended FOIA to ensure that it be liberally construed in favor of waivers for noncommercial requesters." *Rossotti*, 326 F.3d at 1312 (internal citation omitted); *see Natural Res. Def. Council v. United States Emvtl. Prot. Agency*, 581 F. Supp. 2d 491, 498 (S.D.N.Y. 2008). NRDC wishes to serve the public by reviewing, analyzing, and disclosing newsworthy and presently non-public information about conservation and management of the summer flounder fishery. As noted at Part II.A, any work done by the Department on summer flounder management relates to a matter of considerable public interest and concern. Disclosure of the requested records will contribute significantly to public understanding of summer flounder management and associated implications for marine conservation.

C. NRDC Is a Media Requester

Even if the Department denies a public interest waiver of all costs and fees, NRDC is a representative of the news media entitled to a reduction of fees under FOIA, 5 U.S.C. § 552(a)(4)(A)(ii), and the Department's FOIA regulations, 15 C.F.R. § 4.11(d)(1); *see also* 15 C.F.R. § 4.11(b)(6) (defining "[r]epresentative of the news media"). A representative of the news media is "any person or entity that gathers information of potential interest to a segment of the public, uses its editorial skills to turn the raw materials into a distinct work, and distributes that work to an audience." 5 U.S.C. § 552(a)(4)(A)(ii); *see also Elec. Privacy Info. Ctr. v. Dep't of Def.*, 241 F. Supp. 2d 5, 6, 11-15 (D.D.C. 2003) (a "non-profit public interest organization" qualifies as a representative of the news media under FOIA where it publishes books and newsletters on issues of current interest to the public); Letter from Alexander C. Morris, FOIA Officer, United States Dep't of Energy, to Joshua Berman, NRDC (Feb. 10, 2011) (Att. 40) (granting NRDC media requester status).

NRDC is in part organized and operated to gather and publish or transmit news to the public. As described earlier in this request, NRDC publishes original reporting of environmental news stories on its website, <http://www.nrdc.org>. Previously, NRDC published stories like these in its magazine, *OnEarth*, which has won numerous news media awards, including the Independent Press Award for Best Environmental Coverage and for General Excellence, a Gold Eddie Award for editorial excellence among magazines, and the Phillip D. Reed Memorial Award for Outstanding Writing on the Southern Environment. NRDC also publishes a regular newsletter for its more than

two million members and online activists; issues other electronic newsletters, action alerts, public reports and analyses; and maintains free online libraries of these publications. *See* 15 C.F.R. § 4.11(b)(6) (“Examples of news-media entities are . . . publishers of periodicals.”). NRDC maintains a significant additional communications presence on the internet through its staff blogs on <http://www.nrdc.org>, which are updated regularly and feature writing about current environmental issues, through daily news messaging on “Twitter” and “Facebook,” and through content distributed to outlets such as Medium. *See* 5 U.S.C. § 552(a)(4)(A)(ii) (clarifying that “as methods of news delivery evolve . . . such alternative media shall be considered to be news-media entities”). The aforementioned publications and media sources routinely include information about current events of interest to the readership and the public. To publish and transmit this news content, NRDC employs more than fifty staff members dedicated full-time to communications with the public, including accomplished journalists and editors. These staff members rely on information acquired under FOIA and through other means. Public interest organizations meeting the requirements “are regularly granted news representative status.” *Serv. Women’s Action Network v. Dep’t of Def.*, 888 F. Supp. 2d 282, 287-88 (D. Conn. 2012) (accorded media requester status to the American Civil Liberties Union).⁴

Information obtained as a result of this request will, if appropriately newsworthy, be synthesized with information from other sources and used by NRDC to create and disseminate unique articles, reports, analyses, blogs, tweets, emails, and/or other distinct informational works through one or more of NRDC’s publications or other suitable media channels. NRDC staff gather information from a variety of sources—including documents provided pursuant to FOIA requests—to write original articles and reports that are featured on its website, in its newsletters and blogs, and on other media outlets. *See Cause of Action v. Fed. Trade Comm’n*, 961 F. Supp. 2d 142, 163 (D.D.C. 2013) (explaining that an organization can qualify for media-requester status if it “distributes work to an audience and is especially organized around doing so”). NRDC seeks the requested records to aid its own news-disseminating activities by obtaining, analyzing, and distributing information likely to contribute significantly to public understanding, not to resell the information to other media organizations.

III. Request for Expedited Processing

NRDC requests expedited processing of this request. FOIA and relevant Department regulations allow for an expedited response, of less than 20 days, in cases where the requester is “primarily engaged in disseminating information” and demonstrates that there is an “urgency to inform the public concerning actual or alleged Federal Government activity.” 5 U.S.C. § 552(a)(6)(E)(v)(I), (II); 15 C.F.R. § 4.6(f)(1)(iv). The following explains NRDC’s basis for requesting expedited processing, based on information that we certify to be true and correct, to the best of our knowledge and belief.

As explained in Part II.C above, NRDC is a “representative of the news media,” *see* 5 U.S.C. § 552(a)(4)(A)(ii); 15 C.F.R. § 4.11(b)(6), and a key purpose of the organization’s work is to gather

⁴ To be a representative of the news media, an organization need not *exclusively* perform news gathering functions. If that were required, major news and entertainment entities like the National Broadcasting Company (NBC) would not qualify as representatives of the news media. This country has a long history, dating back to its founding, of news organizations engaging in public advocacy.

and publish or transmit current and accurate news to the public. *See Leadership Conference on Civil Rights v. Gonzales*, 404 F. Supp. 2d 246, 260 (D.D.C. 2005) (holding that organization was “primarily engaged in disseminating information” where its mission involved serving as site of record for relevant and up-to-the minute civil rights news and information). Information obtained as a result of this request will, if appropriately newsworthy, be synthesized with information from other sources and used by NRDC to create and disseminate unique articles, reports, analyses, blogs, tweets, emails, and/or other distinct informational works through one or more of NRDC’s publications or other suitable media channels. Further, as discussed in Part II.A.3 above, NRDC has the ability and will to use disclosed records to reach a broad audience of interested persons with any relevant and newsworthy information the records reveal. Dissemination of information need not be an organization’s “sole occupation” in order to meet this first requirement. 15 C.F.R. § 4.6(f)(1)(iv). Thus, it is appropriate to conclude that NRDC is “primarily engaged in disseminating information” with regard to this request.

This is also a case that presents an urgency to inform the public regarding activities of the Federal Government. *See* 15 C.F.R. § 4.6(f)(1)(iv). The Secretary’s July 2017 decision is unprecedented in that it is the first time in the existence of the ACFCMA that the Department of Commerce has rejected a noncompliance finding by the ASMFC. By allowing New Jersey to use management measures that are noncompliant with the coastal management plan, the decision is likely to result in the fishery exceeding its coastwide recreational harvest limit and increase the risk of the summer flounder stock becoming overfished. Importantly, the Secretary’s final decision was not accompanied with any publicly available technical analysis or projections that support the conclusion that the management measures New Jersey failed to implement were not necessary for the conservation of summer flounder. Given that the recreational summer flounder season is currently underway and will end in just over one month (on September 5, 2017), it is critical that the public be informed about the Department’s opinion of what actions are (or are not) needed to achieve conservation of summer flounder in the 2017 fishing season. This information has important implications for the conservation of the summer flounder stock and management approaches in other states. As discussed in Part II.A.4 above, significant public attention and media coverage of the initial noncompliance finding for New Jersey, and the Secretary’s determination of compliance, indicates the public is closely following this issue and wants to better understand the basis for the Secretary’s decision. *See infra* p. 7; Exhibits A-M.

IV. Willingness to Pay Fees Under Protest

Please provide the records requested above regardless of your fee waiver decision. In order to expedite a response, NRDC will, if necessary and under protest, pay fees in accordance with the Department’s FOIA regulations at 15 C.F.R. § 4.11(c) for all or a portion of the requested records. *See* 15 C.F.R. §4.11(l)(4). Please contact me before doing anything that would cause the fee to exceed \$500. NRDC reserves its rights to seek administrative or judicial review of any fee waiver denial.

IV. Conclusion

Please email or (if it is not possible to email) mail the requested records to me at the NRDC office address listed below. Please send them on a rolling basis; the Department’s search for—or deliberations concerning—certain records should not delay the production of others that the

Department has already retrieved and elected to produce. *See generally* 15 C.F.R. § 4.6. If the Department concludes that any of the records requested here are publicly available, please let me know.

Please do not hesitate to call or email with questions.

Thank you.

Sincerely,

A handwritten signature in purple ink that reads "Molly A. Masterton". The signature is written in a cursive style and is positioned above the typed name.

COMPLAINT FOR DECLARATORY AND INJUNCTIVE RELIEF

INTRODUCTION

1. Defendant United States Department of Commerce (Commerce) has violated the Freedom of Information Act (FOIA), 5 U.S.C. § 552, by failing to fully disclose records relating to a July 2017 determination by the Secretary of Commerce that New Jersey had complied with its obligation to implement management measures aimed at conserving summer flounder. Plaintiff Natural Resources Defense Council (NRDC) requested these records from Commerce six months ago.

2. Commerce's National Oceanic and Atmospheric Administration (NOAA), regional fishery management councils, and the interstate Atlantic States Marine Fisheries Commission (the Fisheries Commission or Commission) work together to conserve and manage various fish populations along the Atlantic coast. As part of these efforts, the Fisheries Commission adopts management plans to protect certain fish species against depletion. Under Federal law, the Commission

identifies Atlantic coastal states to be included in its various management plans and then works to ensure that those states implement and enforce the plans.

3. In June 2017, the Fisheries Commission determined that New Jersey was out of compliance with the Commission's management plan for summer flounder, a fish species that is currently subject to overfishing. In July 2017, contrary to the Commission's determination, the Secretary of Commerce found that the summer flounder management measures New Jersey had failed to implement were not necessary for the conservation of summer flounder. The Secretary's determination allowed New Jersey's recreational summer flounder fishing season to proceed.

4. On July 26, 2017, NRDC submitted a FOIA request to Commerce for documents related to the Secretary's finding that the summer flounder management plan measures New Jersey had failed to implement were unnecessary for conserving summer flounder.

5. In October and November, Commerce via NOAA (a component of Commerce) provided NRDC with two "interim" releases of responsive documents. These interim releases consisted solely of documents from NOAA's files, and nothing from other Commerce components or the Office of the Secretary.

6. After the most recent interim release, Commerce informed NRDC that there were no more responsive documents in NOAA's files. Commerce further informed NRDC that it was unable to provide an update regarding the status of its

search for additional responsive documents outside of NOAA, other than noting a “significant logjam” due to the volume of Commerce FOIA requests.

7. Although Commerce has had six months to search for and produce responsive documents, it has not provided NRDC with any records from components of Commerce other than NOAA. Nor has Commerce provided NRDC with a final determination as to whether it will comply with NRDC’s request. The statutory deadline for such a final determination was, at the latest, September 11, 2017, with the final production of documents due promptly thereafter.

8. It is important that NRDC receives these documents in a timely manner. The Commission has already begun setting management measures for the 2018 summer flounder recreational fishing season, and the Commission and individual states will make key management decisions over the next four months prior to the opening of the season in May 2018. Particularly if New Jersey or other states choose not to comply with the relevant management plan for the 2018 fishing season, the requested documents could provide critical information to NRDC and the public in making advocacy decisions.

9. NRDC seeks a declaration that Commerce has violated FOIA by failing to provide a final determination as to whether it will comply with NRDC’s request, and by failing to produce all non-exempt responsive records, by the statutory deadline. NRDC seeks an injunction ordering Commerce to disclose at no cost and without further delay all non-exempt, responsive records to NRDC.

THE PARTIES

10. Plaintiff NRDC is a national, non-profit environmental and public health membership organization with hundreds of thousands of members nationwide. NRDC engages in research, advocacy, public education, and litigation related to protecting public health and the environment. The organization's work includes efforts to end overfishing and promote the long-term sustainability of fishing practices in the United States.

11. Defendant Commerce is a federal agency within the meaning of FOIA, 5 U.S.C. § 551(1), and has possession or control of the records that NRDC seeks.

JURISDICTION AND VENUE

12. This Court has jurisdiction over this action pursuant to 28 U.S.C. § 1331 and 5 U.S.C. § 552(a)(4)(B).

13. Venue is proper in this court because plaintiff NRDC resides and has its principal place of business in this judicial district. 5 U.S.C. § 552(a)(4)(B).

STATUTORY AND REGULATORY FRAMEWORK

14. FOIA requires that federal agencies release, upon request, information to the public, 5 U.S.C. § 552(a)(3), unless one of nine statutory exemptions applies, *id.* § 552(b).

15. Within 20 business days of an agency's receipt of a FOIA request, the agency must "determine . . . whether to comply with such request," *id.* § 552(a)(6)(A)(i); *see also* 15 C.F.R. § 4.6(b) (Commerce FOIA regulation), and "immediately notify the person making such request of . . . such determination and

the reasons therefor,” 5 U.S.C. § 552(a)(6)(A)(i). If the agency determines that it will comply with the request, it must “promptly” release responsive, non-exempt records to the requester. *Id.* § 552(a)(6)(C)(i); *see also* 15 C.F.R. § 4.7(c).

16. In “unusual circumstances,” an agency may extend the time limit for responding to a FOIA request by up to 10 business days. 5 U.S.C. § 552(a)(6)(B)(i).

17. If the agency fails to comply with the statutory time limits, the requester is deemed to have exhausted her administrative remedies and may immediately file suit “to enjoin the agency from withholding agency records and to order the production of any agency records improperly withheld.” 5 U.S.C. §§ 552(a)(4)(B), 552(a)(6)(C)(i).

FACTUAL BACKGROUND

18. Summer flounder is an important fish for commercial and recreational fishing industries along the Mid-Atlantic coast, and is found in waters from Nova Scotia, Canada, to the east coast of Florida. Despite conservation efforts, the summer flounder population is below target levels and is currently subject to overfishing.

19. Summer flounder and the fishing of summer flounder collectively known as the summer flounder fishery are jointly managed by NOAA (a component of Commerce), the Mid-Atlantic Fishery Management Council, and the Fisheries Commission. Together, these entities seek to conserve summer flounder and prevent depletion of the species.

20. Under the Atlantic Coastal Fisheries Cooperative Management Act (Atlantic Coastal Act), 16 U.S.C. §§ 5101-5108, the Fisheries Commission is tasked with developing management plans to conserve summer flounder (as well as other fish species in the Atlantic coastal region), *see id.* § 5104(a). The Atlantic Coastal Act provides that, for each management plan, the Commission must identify the states that are required to implement and enforce the plan. *Id.* § 5104(a)(1). Under some management plans, the Commission allows states to implement their own management measures, so long as the state's measures achieve the same level of conservation as the Commission's plan.

21. If the Fisheries Commission finds that a state has failed to implement or enforce measures in compliance with the Commission's management plan for a particular fish species, the Atlantic Coastal Act requires the Commission to make a formal non-compliance determination. *Id.* § 5105(a). This determination is subject to review by the Secretary of Commerce, who makes an independent compliance determination. *Id.* § 5106(a)(1). If the Secretary agrees that the state has failed to implement and enforce the measures contained in the management plan, and also that such measures are "necessary for the conservation of the fishery," the Secretary must declare a moratorium on fishing that species in the waters of the non-complying state. *Id.* § 5106(a), (c)(1).

22. In February 2017, in response to new science indicating the declining population status of summer flounder, the Fisheries Commission tightened measures in its summer flounder management plan applicable to recreational

fishing. These stricter measures included increased minimum size requirements and a reduction in the maximum number of summer flounder allowed to be caught and kept by any one person.

23. State officials from New Jersey—one of several states required to implement and enforce the Commission’s summer flounder management plan—vocally opposed these stricter measures. Soon after the Fisheries Commission voted on the new restrictions, the New Jersey Department of Environmental Protection Commissioner wrote a letter to the Secretary of Commerce, asking the Secretary to stop them from going into effect, claiming the restrictions would lead to the “destruction of” New Jersey’s recreational summer flounder industry.

24. New Jersey ultimately proposed its own summer flounder recreational management measures, instead of implementing the new measures adopted by the Commission. Although the Commission’s summer flounder management plan allowed New Jersey to do so if the measures would achieve the same level of conservation as the Commission’s plan, after reviewing the measures proposed by New Jersey, the Commission found that the measures would not sufficiently protect summer flounder and were therefore inconsistent with the Commission’s plan.

25. New Jersey nonetheless implemented its own measures, prompting a formal non-compliance determination by the Fisheries Commission on June 1, 2017.

26. In July 2017, for the first time in the twenty-four-year history of the Atlantic Coastal Act, the Secretary of Commerce made a finding contrary to the Commission’s non-compliance determination, allowing New Jersey’s recreational

summer flounder season to proceed. Specifically, the Secretary found that the measures New Jersey failed to implement were “not necessary for the conservation of summer flounder.” 82 Fed. Reg. 33,481 (July 20, 2017). The notice announcing the Secretary’s compliance determination was brief and devoid of any substantive explanation. *See id.*

27. On July 26, 2017, NRDC served a FOIA request on Commerce, seeking records supporting, explaining, or otherwise relating to the Secretary’s finding that the summer flounder management measures New Jersey failed to implement were not necessary for the conservation of summer flounder. NRDC also requested a fee waiver.

28. NRDC received an email notification indicating that the request would be processed by NOAA, a component of Commerce. NRDC also received a letter from NOAA on August 4, 2017, acknowledging receipt of the request and stating that the agency was invoking the statutory ten-day extension applicable in “unusual circumstances.” In its letter, NOAA stated that it anticipated completing NRDC’s request by September 7, 2017.

29. On August 23, NRDC received a letter from NOAA recommending that NRDC narrow the scope of its request. After a phone call with NRDC on August 24 and an additional email from NRDC on August 25, NOAA agreed to move forward with the request. Around the same time, Commerce granted NRDC’s fee waiver request.

30. NOAA provided NRDC with two “interim releases” of responsive documents in October and November, but did not provide a final date for Commerce’s completion of NRDC’s request. The interim releases consisted solely of documents from NOAA’s files, and a NOAA representative confirmed that NOAA itself has no other responsive documents. NOAA further informed NRDC that it was unable to provide more information regarding the status of Commerce’s search for additional responsive documents, other than noting a “significant logjam” due to the volume of Commerce FOIA requests.

31. It has been six months since NRDC served its FOIA request on Commerce, and more than four months since the statutory deadline passed, yet Commerce has failed to provide NRDC with a final response to its request.

CLAIM FOR RELIEF

32. Plaintiff incorporates by reference all preceding paragraphs.

33. NRDC has a statutory right under FOIA to obtain without further delay all records responsive to its request that are not exempt from disclosure.

34. Commerce violated its duty under FOIA, 5 U.S.C. § 552(a), to release by the statutory deadline all non-exempt, responsive records to NRDC.

REQUEST FOR RELIEF

Plaintiff respectfully requests that this Court enter judgment against Commerce as follows:

A. Declaring that Commerce has violated FOIA by failing to produce all non-exempt records responsive to NRDC’s FOIA request by the statutory deadline;

- B. Ordering that Commerce disclose the remaining requested records to NRDC at no cost and without further delay;
- C. Ordering that Commerce produce an index identifying any documents or parts thereof that it withholds and the basis for the withholdings, in the event Commerce determines that certain responsive records are exempt from disclosure;
- D. Retaining jurisdiction over this case to rule on any challenged assertions by Commerce that certain responsive records are exempt from disclosure;
- E. Awarding NRDC its costs and reasonable attorneys' fees; and
- F. Granting such other relief that the Court considers just and proper.

Respectfully submitted,

/s/ Catherine Marlantes Rahm

Your message to cholmes@doc.gov couldn't be delivered.

cholmes wasn't found at doc.gov.

Mark.Graff	Office 365	cholmes
Action Required		Recipient
Unknown To address		

How to Fix It

The address may be misspelled or may not exist. Try one or more of the following:

- Send the message again following these steps: In Outlook, open this non-delivery report (NDR) and choose **Send Again** from the Report ribbon. In Outlook on the web, select this NDR, then select the link "**To send this message again, click here.**" Then delete and retype the entire recipient address. If prompted with an Auto-Complete List suggestion don't select it. After typing the complete address, click **Send**.
- Contact the recipient (by phone, for example) to check that the address exists and is correct.
- The recipient may have set up email forwarding to an incorrect address. Ask them to check that any forwarding they've set up is working correctly.
- Clear the recipient Auto-Complete List in Outlook or Outlook on the web by following the steps in this article: [Fix email delivery issues for error code 5.1.10 in Office 365](#), and then send the message again. Retype the entire recipient address before selecting **Send**.

If the problem continues, forward this message to your email admin. If you're an email admin, refer to the **More Info for Email Admins** section below.

Was this helpful? [Send feedback to Microsoft.](#)

More Info for Email Admins

Status code: 550 5.1.10

This error occurs because the sender sent a message to an email address hosted by Office 365 but the address is incorrect or doesn't exist at the destination domain. The error is reported by the recipient domain's email server, but most often it must be fixed by the person who sent the message. If the steps in the **How to Fix It** section above don't fix the problem, and you're the email admin for the recipient, try one or more of the following:

The email address exists and is correct Confirm that the recipient address exists, is correct, and is accepting messages.

Synchronize your directories If you have a hybrid environment and are using directory synchronization make sure the recipient's email address is synced correctly in both Office 365 and in your on premises directory.

Errant forwarding rule Check for forwarding rules that aren't behaving as expected. Forwarding can be set up by an admin via mail flow rules or mailbox forwarding address settings, or by the recipient via the Inbox Rules feature.

Recipient has a valid license Make sure the recipient has an Office 365 license assigned to them. The recipient's email admin can use the Office 365 admin center to assign a license (Users > Active Users > select the recipient > Assigned License > Edit).

Mail flow settings and MX records are not correct Misconfigured mail flow or MX record settings can cause this error. Check your Office 365 mail flow settings to make sure your domain and any mail flow connectors are set up correctly. Also, work with your domain registrar to make sure the MX records for your domain are configured correctly.

For more information and additional tips to fix this issue, see [Fix email delivery issues for error code 5.1.10 in Office 365](#).

[Weekly FOIA Incoming and High Visibility Requests 2.21.18 to 2.27.18.xls](#)

Good Afternoon,
Attached is the weekly report.

One request was received from NBC News seeking all employee or contractor expenses that include payment to Trump International Hotel D.C. since September 1, 2016. (DOC-NOAA-2018-000821). This request has been granted Expedited Processing as it met the criteria for 15 CFR 4.6(f)(iv).

In litigation, NOAA completed its production in the *AWI v. NOAA* lawsuit. (b)(5)

The original request sought all records regarding the Orca Tilikum, (which was known for its portrayal in the movie *Blackfish*). A copy of the original request and Complaint are attached for your reference.

(b)(5) The underlying request sought information regarding the determination that the State of New Jersey was in compliance regarding the management of its recreational Summer Flounder fishery under the Atlantic Coastal Fisheries Cooperative Management Act (ACFCMA). A copy of the original request and Complaint are attached.

Re: FOIA Request for Records Regarding Department of Commerce Determination of Compliance for New Jersey Summer Flounder Fishery

Dear FOIA Officer:

I write on behalf of the Natural Resources Defense Council (NRDC) to request disclosure of records pursuant to the Freedom of Information Act (FOIA), 5 U.S.C. § 552 (2012), and applicable Department of Commerce (Department) regulations at 15 C.F.R. §§ 4.1-4.11 (2017).

I. Description of Records Sought

Please produce all records¹ in the Department's possession, custody, or control that support, explain, or otherwise relate to the Secretary of Commerce's (Secretary's) decision dated July 10, 2017, and final notice published on July 20, 2017,² determining that the state of New Jersey was in compliance with regard to management of its recreational summer flounder fishery under the Atlantic Coastal Fisheries Cooperative Management Act (ACFCMA), 16 U.S.C. §§ 5101-5108 (2012). Requested records include, but are not limited to, any of the following:

¹ "Records" means anything denoted by the use of that word or its singular form in the text of FOIA and includes correspondence, minutes of meetings, memoranda, notes, emails, notices, facsimiles, charts, tables, presentations, orders, filings, and other writings (handwritten, typed, electronic, or otherwise produced, reproduced, or stored). This request seeks responsive records in the custody of any Department of Commerce office, including, but not limited to, Department of Commerce Headquarters offices, the Office of the Secretary, the Office of General Counsel, the National Oceanic and Atmospheric Administration ("NOAA"), and all of NOAA's subsidiary offices.

² National Marine Fisheries Service (NMFS), Dept. of Commerce, *Atlantic Coastal Fisheries Cooperative Management Act Provisions; Summer Flounder Fishery, Notice of Determination of Compliance for the State of New Jersey*, 82 Fed. Reg. 33,481 (July 20, 2017).

1. Decision memoranda, letters, emails, situation summaries, discussion documents, or briefing documents that discuss summer flounder and New Jersey's 2017 recreational season;
2. Communications pertaining to New Jersey's recreational management of summer flounder during the 2017 season, including communications within the Department or any of its subdivisions, and communications between Department staff (or staff of any Department subdivision) and any outside entity;
3. Proposals, recommendations, or factual information submitted to the Department or any of its subdivisions regarding New Jersey's recreational management of summer flounder during the 2017 season;
4. Technical analysis, including projections or estimates of harvest, discard mortality, overages, and "conservation equivalency," submitted to or produced by the Department or any of its subdivisions, regarding New Jersey's recreational management of summer flounder during the 2017 season; and
5. Scientific research or studies that support or explain the Secretary's decision.

The temporal scope of this request is limited to records created or obtained on or after February 2, 2017.

II. Request for a Fee Waiver

NRDC requests that the Department waive any fee it would otherwise charge for search and production of the records described above. FOIA dictates that requested records be provided without charge "if disclosure of the information is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of the government and is not primarily in the commercial interest of the requester." 5 U.S.C. § 552(a)(4)(A)(iii); *see also* 15 C.F.R. § 4.11(l)(1). The requested disclosure would meet both of these requirements. In addition, NRDC qualifies as "a representative of the news media" entitled to a reduction of fees under FOIA. 5 U.S.C. § 552(a)(4)(A)(ii)(II); *see also* 15 C.F.R. §§ 4.11 (b)(6), (d)(1).

A. NRDC Satisfies the First Fee Waiver Requirement

The disclosure requested here would be "likely to contribute significantly to public understanding of the operations or activities of the government." 5 U.S.C. § 552(a)(4)(A)(iii); 15 C.F.R. § 4.11(l)(1)(i). Each of the four factors used by the Department to evaluate the first fee waiver requirement indicates that a fee waiver is appropriate for this request. *See* 15 C.F.R. § 4.11(l)(2)(i)-(iv).

1. Subject of the request

The records requested here relate to an issue of regional and national impact: conservation and management of the summer flounder fishery, one of the most recreationally and commercially important fisheries along the Atlantic coast. Summer flounder is currently subject to overfishing and at risk of becoming overfished if effective catch limits are not implemented. The records also relate to the Department's understanding of what actions are needed to conserve summer flounder, and the Department's role in carrying out the cooperative management duties of the ACFCMA, *see* 16 U.S.C. § 5106. The Department of Commerce (including its subdivisions) is a government

agency. The requested records thus directly concern “the operations or activities of the [g]overnment.” 15 C.F.R. § 4.11(l)(2)(i).

2. *Informative value of the information to be disclosed*

The requested records are “likely to contribute to” the public’s understanding of government operations and activities, *id.* § 4.11(l)(2)(ii). The public does not currently possess comprehensive information regarding the Department’s evaluation of compliance for New Jersey’s management of summer flounder, or the Department’s ultimate decision that New Jersey was in compliance pursuant to the ACFCMA. As noted above, the Department’s decision has regional and national impacts. The issue of summer flounder management has been elevated to a point of broad public interest, as demonstrated by extensive media coverage in state, regional, and national media outlets. Thus, there is more than a reasonable likelihood that records regarding the Department’s decision have informative value to the public. *See Citizens for Responsibility & Ethics in Washington v. U.S. Dep’t of Health & Human Servs.*, 481 F. Supp. 2d 99, 109 (D.D.C. 2006).

To the best of our knowledge, the records requested are not currently in the public domain. Their disclosure would thus meaningfully inform public understanding with respect to the Department’s actions and understanding of what actions are needed to conserve summer flounder, as further discussed below. However, if the Department were to conclude that some of the requested records are publicly available, NRDC would like to discuss that conclusion and might agree to exclude such records from this request.

3. *Contribution to an understanding of the subject by the public is likely to result from disclosure.*

Because NRDC is a “representative of the news media,” as explained in Part II.C below, the Department must presume that this disclosure is likely to contribute to public understanding of its subject. *See* 15 C.F.R. § 4.11(l)(2)(iii). However, even if NRDC were not a media requester, NRDC’s expertise in fisheries management and marine conservation, extensive communications capabilities, and proven history of dissemination of information of public interest—including information obtained from FOIA records requests—indicate that NRDC has the ability and will to use disclosed records to reach a broad audience of interested persons with any relevant and newsworthy information the records reveal. There is a strong likelihood that disclosure of the requested records will increase public understanding of the subject matter. *See Judicial Watch, Inc. v. Rossotti*, 326 F.3d 1309, 1314 (D.C. Cir. 2003) (finding that a requester that specified multiple channels of dissemination and estimated viewership numbers demonstrated a likelihood of contributing to public understanding of government operations and activities).

NRDC intends to disseminate any newsworthy information in the released records and its analysis of such records to its member base and to the broader public, through one or more of the many communications channels referenced below. NRDC has frequently disseminated newsworthy information to the public for free, and does not intend to resell the information requested here. NRDC’s more than two million members and online activists are “a broad audience of persons interested in the subject[s]” of preventing overfishing and protecting marine resources, and when combined with NRDC’s communications to the public at large, the likely audience of interested persons to be reached is certainly “reasonably broad.” 15 C.F.R. § 4.11(l)(2)(iii). As NRDC’s long

history of incorporating information obtained through FOIA into reports, articles, and other communications illustrates, NRDC is well prepared to convey to the public any relevant information it obtains through this records request.

NRDC has the ability to disseminate information collected from this FOIA request through many channels. As of June 2016, these include, but are not limited to the following:

- NRDC's website, available at <http://www.nrdc.org> (homepage at Att. 1), is updated daily and draws approximately 1.3 million page views and 510,000 unique visitors per month. The new NRDC.org launched in late March 2016 and features NRDC staff blogs, original reporting of environmental news stories, and more.
- NRDC's Activist email list includes more than 2.5 million members and online activists who receive regular communications on urgent environmental issues (sample email at Att. 2). This information is also made available through NRDC's online Action Center at <https://www.nrdc.org/actions> (Att. 3).
- *NRDC This Week* is a weekly electronic environmental newsletter distributed by email to more than 86,700 subscribers, at <http://www.nrdc.org/newsletter> (Att. 4).
- NRDC updates and maintains several social media accounts: Facebook (565,530 followers) (Att. 5), Twitter (195,426 followers) (Att. 6), Instagram (37,868 followers) (Att. 7), YouTube (19,518 subscribers) (Att. 8), and LinkedIn (9,108 followers) (Att. 9). We also use Medium as another distribution channel for our content (1,478 followers).

NRDC issues press releases, issue papers, and reports; directs and produces movies, such as *Sonic Sea*, *Stories from the Gulf*, and *Acid Test*, narrated by Rachel McAdams, Robert Redford, and Sigourney Weaver, respectively; participates in press conferences and interviews with reporters and editorial writers; distributes content on Huffington Post (Att. 10); and has more than fifty staff members dedicated to communications work.

NRDC employees provide Congressional testimony; appear on television, radio, and web broadcasts and at conferences; and contribute to numerous national newspapers, magazines, academic journals, other periodicals, and books. A few examples are provided below:

- Research article, "The requirement to rebuild US fish stocks: Is it working?" *Marine Policy*, July 2014 (co-authored by NRDC Oceans Program Senior Scientist Lisa Suatoni and Senior Attorney Brad Sewell) (Att. 11);
- Issue brief, "The Untapped Potential of California's Water Supply: Efficiency, Reuse, and Stormwater," June 2014 (co-authored by NRDC Water Program Senior Attorney Kate Poole and Senior Policy Analyst Ed Osann) (Att. 12); *see also* "Saving Water in California," *N.Y. Times*, July 9, 2014 (discussing the report's estimates) (Att. 13);
- Article, "Waves of phony charges over new clean water safeguards," *The Hill*, June 17, 2014 (by NRDC Executive Director Peter Lehner) (Att. 14);
- Article, "Don't Buy the Smear of the EPA," *L.A. Times*, June 3, 2014 (by NRDC President Frances Beinecke) (Att. 15);
- Transcript, "Conservationists Call For Quiet: The Ocean Is Too Loud!" Nat'l Pub. Radio, *All Things Considered*, July 28, 2013 (featuring NRDC Marine Mammal Protection Program Director Michael Jasny) (Att. 16);

- Testimony of David Doniger, NRDC Climate and Air Program Policy Director and Senior Attorney, before the United States House Subcommittee on Energy and Power, June 19, 2012 (Att. 17);
- Article, “Pollution Still a Hazard to U.S. Beaches,” CBS, *CBS NEWS*, July 29, 2009 (featuring former NRDC Water Program Co-Director Nancy Stoner) (Att. 18);
- Conference brochure, “World Business Summit on Climate Change,” May 24-26, 2009 (featuring former NRDC Director for Market Innovation Rick Duke at 9) (Att. 19);
- Article, “Is there a ‘proper level’ of compliance with environmental law?” *Trends: ABA Section of Environment, Energy, and Resources Newsletter*, Jan./Feb. 2008 (authored by NRDC Senior Attorney Michael Wall) (Att. 20);
- NRDC Document Bank, <http://docs.nrdc.org/> (Att. 21).

NRDC routinely uses FOIA to obtain information from federal agencies that NRDC legal and scientific experts analyze in order to inform the public about a variety of issues, including energy policy, climate change, wildlife protection, nuclear weapons, pesticides, drinking water safety, and air quality. Some specific examples are provided below:

- (1) In April 2014, NRDC relied on FOIA documents for a report on potentially unsafe chemicals added to food, without the safety oversight of the Food and Drug Administration or the notification of the public. The report, titled *Generally Recognized as Secret: Chemicals Added to Food in the United States*, reveals concerns within the agency about several chemicals used as ingredients in food that manufacturers claim are “generally recognized as safe” (Att. 22). *See also* Kimberly Kindy, “Are secret, dangerous ingredients in your food?” *Wash. Post*, Apr. 7, 2014 (discussing NRDC’s report) (Att. 23).
- (2) NRDC obtained, through FOIA, FDA review documents on the nontherapeutic use of antibiotic additives in livestock and poultry feed. In January 2014, NRDC published a report, titled *Playing Chicken with Antibiotics*, which is based on the documents obtained, and reveals decades of hesitancy on FDA’s part to ensure the safety of these drug additives (Att. 24). *See also* P.J. Huffstutter and Brian Grow, “Drug critic slams FDA over antibiotic oversight in meat production,” *Reuters*, Jan. 27, 2014 (discussing NRDC’s report) (Att. 25).
- (3) NRDC has used White House documents obtained through FOIA and from other sources to inform the public about EPA’s decision not to protect wildlife and workers from the pesticide atrazine in the face of industry pressure to keep atrazine on the market. *See Still Poisoning the Well: Atrazine Continues to Contaminate Surface Water and Drinking Water in the United States*, <http://www.nrdc.org/health/atrazine/files/atrazine10.pdf> (Apr. 2010) (update to 2009 report) (Att. 26); *see also* William Souder, “It’s Not Easy Being Green: Are Weed-Killers Turning Frogs Into Hermaphrodites?” *Harper’s Bazaar*, Aug. 1, 2006 (referencing documents obtained and posted online by NRDC) (Att. 27).
- (4) NRDC incorporated information obtained through FOIA into a report, available at <http://www.nrdc.org/wildlife/marine/sound/contents.asp>, on the impacts of

military sonar and other industrial noise pollution on marine life. *See Sounding the Depths II: The Rising Toll of Sonar, Shipping and Industrial Ocean Noise on Marine Life* (Nov. 2005) (update to 1999 report) (Att. 28). The report also relied upon and synthesized information from other sources. Since the report's publication, the sonar issue has continued to attract widespread public attention. *See, e.g.*, "Protest Raised over New Tests of Naval Sonar," Nat'l Pub. Radio, *All Things Considered*, July 24, 2007 (transcript at Att. 29).

- (5) NRDC scientists have used information obtained through FOIA to publish analyses of the United States' and other nations' nuclear weapons programs. In 2004, for example, NRDC scientists incorporated information obtained through FOIA into a feature article on the United States' plans to deploy a ballistic missile system and the implications for global security. *See* Hans M. Kristensen, Matthew G. McKinzie, and Robert S. Norris, "The Protection Paradox," *Bulletin of Atomic Scientists*, Mar./Apr. 2004 (Att. 30).
- (6) NRDC obtained through FOIA, and made public, records of the operations of the Bush administration's Energy Task Force, along with analysis of selected excerpts and links to the administration's index of withheld documents (Att. 31). NRDC's efforts cast light on an issue of considerable public interest. *See, e.g.*, Elizabeth Shogren, "Bush Gets One-Two Punch on Energy," *L.A. Times*, Mar. 28, 2002, at A22 (Att. 32).
- (7) Through FOIA, NRDC obtained a memorandum by ExxonMobil, advocating the replacement of the sitting head of the Intergovernmental Panel on Climate Change, and used the document to help inform the public about what may have been behind the Bush administration's decision to replace Dr. Robert Watson. *See* NRDC Press Release and attached Exxon memorandum, "Confidential Papers Show Exxon Hand in White House Move to Oust Top Scientist from International Global Warming Panel," Apr. 3, 2002 (Att. 33); Elizabeth Shogren, "Charges Fly Over Science Panel Pick," *L.A. Times*, Apr. 4, 2002, at A19 (Att. 34).
- (8) Through FOIA and other sources, NRDC obtained information on nationwide levels of arsenic in drinking water and used it in a report, *Arsenic and Old Laws* (2000), available in print and online at <http://www.nrdc.org/water/drinking/arsenic/aolinx.asp> (Att. 35). The report guided interested members of the public on how to learn more about arsenic in their own drinking water supplies. *Id.*; *see also* Steve LaRue, "EPA Aims to Cut Levels of Arsenic in Well Water," *San Diego Union-Tribune*, June 5, 2000, at B1 (referencing NRDC report) (Att. 36).³

³ There are numerous other examples of national news articles that were based in part on documents NRDC obtained through FOIA. *See, e.g.*, Felicity Barringer, "Science Panel Issues Report on Exposure to Pollutant," *N.Y. Times*, Jan. 11, 2005 (Att. 37); Katharine Q. Seelye, "Draft of Air Rule is Said to Exempt Many Old Plants," *N.Y. Times*, Aug. 22, 2003 (Att. 38); Don Van Natta, Jr., "E Mail Suggests Energy Official Encouraged Lobbyist on Policy," *N.Y. Times*, Apr. 27, 2002 (Att. 39).

As these examples demonstrate, NRDC has a proven ability to digest, synthesize, and quickly disseminate information gleaned from FOIA requests to a broad audience of interested persons. Therefore, the requested records disclosure is likely to contribute to the public's understanding of the subject.

4. *Significance of the contribution to public understanding*

The records requested shed light on a matter of considerable public interest and concern: conservation and management of the summer flounder fishery, and agency views on what management measures are necessary to achieve conservation of this important species. Recent overfishing of the summer flounder stock, and subsequent coastwide catch reductions implemented by NOAA and the Department of Commerce have received significant media coverage in 2016 and 2017. In recent weeks, the Atlantic States Marine Fisheries Commission's (ASMFC) noncompliance finding for the State of New Jersey, and the Department's determination of compliance, have also received significant coverage regional and national media outlets and other public forums. Examples of recent media coverage on this issue include:

- (1) Staff Report, *Recreational summer flounder season runs through Sept. 5*, NJToday.Net (July 21, 2017) (Exhibit A).
- (2) Dave Monti, *Fishing Report: U.S., fisheries panel disagrees on flounder targets*, Providence Journal (July 20, 2017) (Exhibit B).
- (3) *ASMFC Blasts Secretary Ross Decision on Summer Flounder in Favor of New Jersey's Recreational Sector, Saving Seafood* (Republished from Seafood News) (July 18, 2017) (Exhibit C).
- (4) Blog: Charles Witek, *Commerce Department's Summer Flounder Decision Undermines ASMFC's Authority To Manage Fish Stocks*, Marine Fish Conservation Network (July 18, 2017) (Exhibit D).
- (5) Associated Press, *Group: Trump Official's Fish Ruling Could Harm Conservation*, New York Times (July 17, 2017) (Exhibit E).
- (6) Associated Press, *Fish fight: managers say NJ flounder flap harms conservation*, Washington Post (July 17, 2017) (Exhibit F).
- (7) David Madden, *NJ Prevails In Fish Fight with Federal Government*, CBS Philly (July 15, 2017) (Exhibit G).
- (8) Press Release, *Department of Commerce Decision May Impact ASMFC's Ability to Conserve Atlantic Coastal Fisheries*, Atlantic States Marine Fisheries Commission (July 14, 2017) (Exhibit H).
- (9) Kate King, *New Jersey Wins in Effort to Ease Summer Flounder Quotas*, Wall Street Journal (July 12, 2017) (Exhibit I).
- (10) Daniel Radel, *NJ's fluke season saved after US secretary approves regulations*, App.com (part of USA Today Network) (July 11, 2017) (Exhibit J).
- (11) Claire Lowe, *New Jersey ruled out of compliance on summer flounder, moratorium possible*, Press of Atlantic City (June 2, 2017) (Exhibit K).
- (12) Daniel Hampton, *Summer flounder season begins in N.J., but there's a catch this year*, NJ.com (May 25, 2017) (Exhibit L).
- (13) Blog: John McMurray, *The Hard Truth About Summer Flounder*, Marine Fish Conservation Network (Exhibit M).

Public understanding of the Department's opinion of what actions are needed to conserve summer flounder and its role in carrying out the cooperative management duties of the ACFCMA, would be significantly enhanced by disclosure of the requested records concerning the Secretary's compliance decision. *See* 15 C.F.R. § 4.11(l)(2)(iv). Disclosure would help the public to more effectively evaluate the Department's conclusion that the management measures New Jersey declined to implement are not necessary for conservation of the summer flounder fishery. Disclosure would also help the public to better understand and evaluate the Department's actions on summer flounder conservation and management, particularly with respect to its decision that a moratorium in New Jersey state waters was not warranted.

B. NRDC Satisfies the Second Fee Waiver Requirement

Disclosure in this case would also satisfy the second prerequisite of a fee waiver request because NRDC does not have any commercial interest that would be furthered by the requested disclosure. 5 U.S.C. § 552(a)(4)(A)(iii); 15 C.F.R. § 4.11(l)(3). NRDC is a not-for-profit organization and does not act as a middleman to resell information obtained under FOIA. "Congress amended FOIA to ensure that it be liberally construed in favor of waivers for noncommercial requesters." *Rossotti*, 326 F.3d at 1312 (internal citation omitted); *see Natural Res. Def. Council v. United States Emvtl. Prot. Agency*, 581 F. Supp. 2d 491, 498 (S.D.N.Y. 2008). NRDC wishes to serve the public by reviewing, analyzing, and disclosing newsworthy and presently non-public information about conservation and management of the summer flounder fishery. As noted at Part II.A, any work done by the Department on summer flounder management relates to a matter of considerable public interest and concern. Disclosure of the requested records will contribute significantly to public understanding of summer flounder management and associated implications for marine conservation.

C. NRDC Is a Media Requester

Even if the Department denies a public interest waiver of all costs and fees, NRDC is a representative of the news media entitled to a reduction of fees under FOIA, 5 U.S.C. § 552(a)(4)(A)(ii), and the Department's FOIA regulations, 15 C.F.R. § 4.11(d)(1); *see also* 15 C.F.R. § 4.11(b)(6) (defining "[r]epresentative of the news media"). A representative of the news media is "any person or entity that gathers information of potential interest to a segment of the public, uses its editorial skills to turn the raw materials into a distinct work, and distributes that work to an audience." 5 U.S.C. § 552(a)(4)(A)(ii); *see also Elec. Privacy Info. Ctr. v. Dep't of Def.*, 241 F. Supp. 2d 5, 6, 11-15 (D.D.C. 2003) (a "non-profit public interest organization" qualifies as a representative of the news media under FOIA where it publishes books and newsletters on issues of current interest to the public); Letter from Alexander C. Morris, FOIA Officer, United States Dep't of Energy, to Joshua Berman, NRDC (Feb. 10, 2011) (Att. 40) (granting NRDC media requester status).

NRDC is in part organized and operated to gather and publish or transmit news to the public. As described earlier in this request, NRDC publishes original reporting of environmental news stories on its website, <http://www.nrdc.org>. Previously, NRDC published stories like these in its magazine, *OnEarth*, which has won numerous news media awards, including the Independent Press Award for Best Environmental Coverage and for General Excellence, a Gold Eddie Award for editorial excellence among magazines, and the Phillip D. Reed Memorial Award for Outstanding Writing on the Southern Environment. NRDC also publishes a regular newsletter for its more than

two million members and online activists; issues other electronic newsletters, action alerts, public reports and analyses; and maintains free online libraries of these publications. *See* 15 C.F.R. § 4.11(b)(6) (“Examples of news-media entities are . . . publishers of periodicals.”). NRDC maintains a significant additional communications presence on the internet through its staff blogs on <http://www.nrdc.org>, which are updated regularly and feature writing about current environmental issues, through daily news messaging on “Twitter” and “Facebook,” and through content distributed to outlets such as Medium. *See* 5 U.S.C. § 552(a)(4)(A)(ii) (clarifying that “as methods of news delivery evolve . . . such alternative media shall be considered to be news-media entities”). The aforementioned publications and media sources routinely include information about current events of interest to the readership and the public. To publish and transmit this news content, NRDC employs more than fifty staff members dedicated full-time to communications with the public, including accomplished journalists and editors. These staff members rely on information acquired under FOIA and through other means. Public interest organizations meeting the requirements “are regularly granted news representative status.” *Serv. Women’s Action Network v. Dep’t of Def.*, 888 F. Supp. 2d 282, 287-88 (D. Conn. 2012) (accorded media requester status to the American Civil Liberties Union).⁴

Information obtained as a result of this request will, if appropriately newsworthy, be synthesized with information from other sources and used by NRDC to create and disseminate unique articles, reports, analyses, blogs, tweets, emails, and/or other distinct informational works through one or more of NRDC’s publications or other suitable media channels. NRDC staff gather information from a variety of sources—including documents provided pursuant to FOIA requests—to write original articles and reports that are featured on its website, in its newsletters and blogs, and on other media outlets. *See Cause of Action v. Fed. Trade Comm’n*, 961 F. Supp. 2d 142, 163 (D.D.C. 2013) (explaining that an organization can qualify for media-requester status if it “distributes work to an audience and is especially organized around doing so”). NRDC seeks the requested records to aid its own news-disseminating activities by obtaining, analyzing, and distributing information likely to contribute significantly to public understanding, not to resell the information to other media organizations.

III. Request for Expedited Processing

NRDC requests expedited processing of this request. FOIA and relevant Department regulations allow for an expedited response, of less than 20 days, in cases where the requester is “primarily engaged in disseminating information” and demonstrates that there is an “urgency to inform the public concerning actual or alleged Federal Government activity.” 5 U.S.C. § 552(a)(6)(E)(v)(I), (II); 15 C.F.R. § 4.6(f)(1)(iv). The following explains NRDC’s basis for requesting expedited processing, based on information that we certify to be true and correct, to the best of our knowledge and belief.

As explained in Part II.C above, NRDC is a “representative of the news media,” *see* 5 U.S.C. § 552(a)(4)(A)(ii); 15 C.F.R. § 4.11(b)(6), and a key purpose of the organization’s work is to gather

⁴ To be a representative of the news media, an organization need not *exclusively* perform news gathering functions. If that were required, major news and entertainment entities like the National Broadcasting Company (NBC) would not qualify as representatives of the news media. This country has a long history, dating back to its founding, of news organizations engaging in public advocacy.

and publish or transmit current and accurate news to the public. *See Leadership Conference on Civil Rights v. Gonzales*, 404 F. Supp. 2d 246, 260 (D.D.C. 2005) (holding that organization was “primarily engaged in disseminating information” where its mission involved serving as site of record for relevant and up-to-the minute civil rights news and information). Information obtained as a result of this request will, if appropriately newsworthy, be synthesized with information from other sources and used by NRDC to create and disseminate unique articles, reports, analyses, blogs, tweets, emails, and/or other distinct informational works through one or more of NRDC’s publications or other suitable media channels. Further, as discussed in Part II.A.3 above, NRDC has the ability and will to use disclosed records to reach a broad audience of interested persons with any relevant and newsworthy information the records reveal. Dissemination of information need not be an organization’s “sole occupation” in order to meet this first requirement. 15 C.F.R. § 4.6(f)(1)(iv). Thus, it is appropriate to conclude that NRDC is “primarily engaged in disseminating information” with regard to this request.

This is also a case that presents an urgency to inform the public regarding activities of the Federal Government. *See* 15 C.F.R. § 4.6(f)(1)(iv). The Secretary’s July 2017 decision is unprecedented in that it is the first time in the existence of the ACFCMA that the Department of Commerce has rejected a noncompliance finding by the ASMFC. By allowing New Jersey to use management measures that are noncompliant with the coastal management plan, the decision is likely to result in the fishery exceeding its coastwide recreational harvest limit and increase the risk of the summer flounder stock becoming overfished. Importantly, the Secretary’s final decision was not accompanied with any publicly available technical analysis or projections that support the conclusion that the management measures New Jersey failed to implement were not necessary for the conservation of summer flounder. Given that the recreational summer flounder season is currently underway and will end in just over one month (on September 5, 2017), it is critical that the public be informed about the Department’s opinion of what actions are (or are not) needed to achieve conservation of summer flounder in the 2017 fishing season. This information has important implications for the conservation of the summer flounder stock and management approaches in other states. As discussed in Part II.A.4 above, significant public attention and media coverage of the initial noncompliance finding for New Jersey, and the Secretary’s determination of compliance, indicates the public is closely following this issue and wants to better understand the basis for the Secretary’s decision. *See infra* p. 7; Exhibits A-M.

IV. Willingness to Pay Fees Under Protest

Please provide the records requested above regardless of your fee waiver decision. In order to expedite a response, NRDC will, if necessary and under protest, pay fees in accordance with the Department’s FOIA regulations at 15 C.F.R. § 4.11(c) for all or a portion of the requested records. *See* 15 C.F.R. §4.11(l)(4). Please contact me before doing anything that would cause the fee to exceed \$500. NRDC reserves its rights to seek administrative or judicial review of any fee waiver denial.

IV. Conclusion

Please email or (if it is not possible to email) mail the requested records to me at the NRDC office address listed below. Please send them on a rolling basis; the Department’s search for—or deliberations concerning—certain records should not delay the production of others that the

Department has already retrieved and elected to produce. *See generally* 15 C.F.R. § 4.6. If the Department concludes that any of the records requested here are publicly available, please let me know.

Please do not hesitate to call or email with questions.

Thank you.

Sincerely,

A handwritten signature in purple ink that reads "Molly A. Masterton". The signature is written in a cursive style and is positioned above the typed name.

COMPLAINT FOR DECLARATORY AND INJUNCTIVE RELIEF

INTRODUCTION

1. Defendant United States Department of Commerce (Commerce) has violated the Freedom of Information Act (FOIA), 5 U.S.C. § 552, by failing to fully disclose records relating to a July 2017 determination by the Secretary of Commerce that New Jersey had complied with its obligation to implement management measures aimed at conserving summer flounder. Plaintiff Natural Resources Defense Council (NRDC) requested these records from Commerce six months ago.

2. Commerce’s National Oceanic and Atmospheric Administration (NOAA), regional fishery management councils, and the interstate Atlantic States Marine Fisheries Commission (the Fisheries Commission or Commission) work together to conserve and manage various fish populations along the Atlantic coast. As part of these efforts, the Fisheries Commission adopts management plans to protect certain fish species against depletion. Under Federal law, the Commission

identifies Atlantic coastal states to be included in its various management plans and then works to ensure that those states implement and enforce the plans.

3. In June 2017, the Fisheries Commission determined that New Jersey was out of compliance with the Commission's management plan for summer flounder, a fish species that is currently subject to overfishing. In July 2017, contrary to the Commission's determination, the Secretary of Commerce found that the summer flounder management measures New Jersey had failed to implement were not necessary for the conservation of summer flounder. The Secretary's determination allowed New Jersey's recreational summer flounder fishing season to proceed.

4. On July 26, 2017, NRDC submitted a FOIA request to Commerce for documents related to the Secretary's finding that the summer flounder management plan measures New Jersey had failed to implement were unnecessary for conserving summer flounder.

5. In October and November, Commerce via NOAA (a component of Commerce) provided NRDC with two "interim" releases of responsive documents. These interim releases consisted solely of documents from NOAA's files, and nothing from other Commerce components or the Office of the Secretary.

6. After the most recent interim release, Commerce informed NRDC that there were no more responsive documents in NOAA's files. Commerce further informed NRDC that it was unable to provide an update regarding the status of its

search for additional responsive documents outside of NOAA, other than noting a “significant logjam” due to the volume of Commerce FOIA requests.

7. Although Commerce has had six months to search for and produce responsive documents, it has not provided NRDC with any records from components of Commerce other than NOAA. Nor has Commerce provided NRDC with a final determination as to whether it will comply with NRDC’s request. The statutory deadline for such a final determination was, at the latest, September 11, 2017, with the final production of documents due promptly thereafter.

8. It is important that NRDC receives these documents in a timely manner. The Commission has already begun setting management measures for the 2018 summer flounder recreational fishing season, and the Commission and individual states will make key management decisions over the next four months prior to the opening of the season in May 2018. Particularly if New Jersey or other states choose not to comply with the relevant management plan for the 2018 fishing season, the requested documents could provide critical information to NRDC and the public in making advocacy decisions.

9. NRDC seeks a declaration that Commerce has violated FOIA by failing to provide a final determination as to whether it will comply with NRDC’s request, and by failing to produce all non-exempt responsive records, by the statutory deadline. NRDC seeks an injunction ordering Commerce to disclose at no cost and without further delay all non-exempt, responsive records to NRDC.

THE PARTIES

10. Plaintiff NRDC is a national, non-profit environmental and public health membership organization with hundreds of thousands of members nationwide. NRDC engages in research, advocacy, public education, and litigation related to protecting public health and the environment. The organization's work includes efforts to end overfishing and promote the long-term sustainability of fishing practices in the United States.

11. Defendant Commerce is a federal agency within the meaning of FOIA, 5 U.S.C. § 551(1), and has possession or control of the records that NRDC seeks.

JURISDICTION AND VENUE

12. This Court has jurisdiction over this action pursuant to 28 U.S.C. § 1331 and 5 U.S.C. § 552(a)(4)(B).

13. Venue is proper in this court because plaintiff NRDC resides and has its principal place of business in this judicial district. 5 U.S.C. § 552(a)(4)(B).

STATUTORY AND REGULATORY FRAMEWORK

14. FOIA requires that federal agencies release, upon request, information to the public, 5 U.S.C. § 552(a)(3), unless one of nine statutory exemptions applies, *id.* § 552(b).

15. Within 20 business days of an agency's receipt of a FOIA request, the agency must "determine . . . whether to comply with such request," *id.* § 552(a)(6)(A)(i); *see also* 15 C.F.R. § 4.6(b) (Commerce FOIA regulation), and "immediately notify the person making such request of . . . such determination and

the reasons therefor,” 5 U.S.C. § 552(a)(6)(A)(i). If the agency determines that it will comply with the request, it must “promptly” release responsive, non-exempt records to the requester. *Id.* § 552(a)(6)(C)(i); *see also* 15 C.F.R. § 4.7(c).

16. In “unusual circumstances,” an agency may extend the time limit for responding to a FOIA request by up to 10 business days. 5 U.S.C. § 552(a)(6)(B)(i).

17. If the agency fails to comply with the statutory time limits, the requester is deemed to have exhausted her administrative remedies and may immediately file suit “to enjoin the agency from withholding agency records and to order the production of any agency records improperly withheld.” 5 U.S.C. §§ 552(a)(4)(B), 552(a)(6)(C)(i).

FACTUAL BACKGROUND

18. Summer flounder is an important fish for commercial and recreational fishing industries along the Mid-Atlantic coast, and is found in waters from Nova Scotia, Canada, to the east coast of Florida. Despite conservation efforts, the summer flounder population is below target levels and is currently subject to overfishing.

19. Summer flounder and the fishing of summer flounder collectively known as the summer flounder fishery are jointly managed by NOAA (a component of Commerce), the Mid-Atlantic Fishery Management Council, and the Fisheries Commission. Together, these entities seek to conserve summer flounder and prevent depletion of the species.

20. Under the Atlantic Coastal Fisheries Cooperative Management Act (Atlantic Coastal Act), 16 U.S.C. §§ 5101-5108, the Fisheries Commission is tasked with developing management plans to conserve summer flounder (as well as other fish species in the Atlantic coastal region), *see id.* § 5104(a). The Atlantic Coastal Act provides that, for each management plan, the Commission must identify the states that are required to implement and enforce the plan. *Id.* § 5104(a)(1). Under some management plans, the Commission allows states to implement their own management measures, so long as the state's measures achieve the same level of conservation as the Commission's plan.

21. If the Fisheries Commission finds that a state has failed to implement or enforce measures in compliance with the Commission's management plan for a particular fish species, the Atlantic Coastal Act requires the Commission to make a formal non-compliance determination. *Id.* § 5105(a). This determination is subject to review by the Secretary of Commerce, who makes an independent compliance determination. *Id.* § 5106(a)(1). If the Secretary agrees that the state has failed to implement and enforce the measures contained in the management plan, and also that such measures are "necessary for the conservation of the fishery," the Secretary must declare a moratorium on fishing that species in the waters of the non-complying state. *Id.* § 5106(a), (c)(1).

22. In February 2017, in response to new science indicating the declining population status of summer flounder, the Fisheries Commission tightened measures in its summer flounder management plan applicable to recreational

fishing. These stricter measures included increased minimum size requirements and a reduction in the maximum number of summer flounder allowed to be caught and kept by any one person.

23. State officials from New Jersey—one of several states required to implement and enforce the Commission’s summer flounder management plan—vocally opposed these stricter measures. Soon after the Fisheries Commission voted on the new restrictions, the New Jersey Department of Environmental Protection Commissioner wrote a letter to the Secretary of Commerce, asking the Secretary to stop them from going into effect, claiming the restrictions would lead to the “destruction of” New Jersey’s recreational summer flounder industry.

24. New Jersey ultimately proposed its own summer flounder recreational management measures, instead of implementing the new measures adopted by the Commission. Although the Commission’s summer flounder management plan allowed New Jersey to do so if the measures would achieve the same level of conservation as the Commission’s plan, after reviewing the measures proposed by New Jersey, the Commission found that the measures would not sufficiently protect summer flounder and were therefore inconsistent with the Commission’s plan.

25. New Jersey nonetheless implemented its own measures, prompting a formal non-compliance determination by the Fisheries Commission on June 1, 2017.

26. In July 2017, for the first time in the twenty-four-year history of the Atlantic Coastal Act, the Secretary of Commerce made a finding contrary to the Commission’s non-compliance determination, allowing New Jersey’s recreational

summer flounder season to proceed. Specifically, the Secretary found that the measures New Jersey failed to implement were “not necessary for the conservation of summer flounder.” 82 Fed. Reg. 33,481 (July 20, 2017). The notice announcing the Secretary’s compliance determination was brief and devoid of any substantive explanation. *See id.*

27. On July 26, 2017, NRDC served a FOIA request on Commerce, seeking records supporting, explaining, or otherwise relating to the Secretary’s finding that the summer flounder management measures New Jersey failed to implement were not necessary for the conservation of summer flounder. NRDC also requested a fee waiver.

28. NRDC received an email notification indicating that the request would be processed by NOAA, a component of Commerce. NRDC also received a letter from NOAA on August 4, 2017, acknowledging receipt of the request and stating that the agency was invoking the statutory ten-day extension applicable in “unusual circumstances.” In its letter, NOAA stated that it anticipated completing NRDC’s request by September 7, 2017.

29. On August 23, NRDC received a letter from NOAA recommending that NRDC narrow the scope of its request. After a phone call with NRDC on August 24 and an additional email from NRDC on August 25, NOAA agreed to move forward with the request. Around the same time, Commerce granted NRDC’s fee waiver request.

30. NOAA provided NRDC with two “interim releases” of responsive documents in October and November, but did not provide a final date for Commerce’s completion of NRDC’s request. The interim releases consisted solely of documents from NOAA’s files, and a NOAA representative confirmed that NOAA itself has no other responsive documents. NOAA further informed NRDC that it was unable to provide more information regarding the status of Commerce’s search for additional responsive documents, other than noting a “significant logjam” due to the volume of Commerce FOIA requests.

31. It has been six months since NRDC served its FOIA request on Commerce, and more than four months since the statutory deadline passed, yet Commerce has failed to provide NRDC with a final response to its request.

CLAIM FOR RELIEF

32. Plaintiff incorporates by reference all preceding paragraphs.

33. NRDC has a statutory right under FOIA to obtain without further delay all records responsive to its request that are not exempt from disclosure.

34. Commerce violated its duty under FOIA, 5 U.S.C. § 552(a), to release by the statutory deadline all non-exempt, responsive records to NRDC.

REQUEST FOR RELIEF

Plaintiff respectfully requests that this Court enter judgment against Commerce as follows:

A. Declaring that Commerce has violated FOIA by failing to produce all non-exempt records responsive to NRDC’s FOIA request by the statutory deadline;

- B. Ordering that Commerce disclose the remaining requested records to NRDC at no cost and without further delay;
- C. Ordering that Commerce produce an index identifying any documents or parts thereof that it withholds and the basis for the withholdings, in the event Commerce determines that certain responsive records are exempt from disclosure;
- D. Retaining jurisdiction over this case to rule on any challenged assertions by Commerce that certain responsive records are exempt from disclosure;
- E. Awarding NRDC its costs and reasonable attorneys' fees; and
- F. Granting such other relief that the Court considers just and proper.

Respectfully submitted,

COMPLAINT FOR DECLARATORY AND INJUNCTIVE RELIEF

1. The Animal Welfare Institute brings this action against defendants National Oceanic and Atmospheric Administration and National Marine Fisheries Service for violations of the Freedom of Information Act, 5 U.S.C. § 552 (“FOIA”).

PARTIES

2. Plaintiff Animal Welfare Institute (“AWI”) is a 501(c)(3) non-profit organization that seeks to protect animals from human inflicted suffering. In particular, AWI has advocated for the protection of whales and other marine life from life from human activities such as harmful fishing practices, hunting, underwater noise production, and inhumane practices resulting from captive maintenance for purposes of public display and scientific research. AWI is the requester of the records at issue.

3. Defendant National Oceanic and Atmospheric Administration (“NOAA”) is an agency of the federal government within the U.S. Department of Commerce that focuses on the conditions of the oceans and the atmosphere, including marine wildlife.

4. Defendant National Marine Fisheries Service (“NMFS”) is an agency of the federal government within NOAA that has jurisdiction over whales under the Marine Mammal Protection Act (“MMPA”), 16 U.S.C. §§ 1361 - 1423h, and is in possession of the records requested by AWI.

JURISDICTION AND VENUE

5. This Court has jurisdiction pursuant to 5 U.S.C. § 552(a)(4)(B).

6. Venue is proper in this Court pursuant to 5 U.S.C. § 552(a)(4)(B).

FACTS GIVING RISE TO PLAINTIFF’S CLAIM

A. FOIA Requirements

7. The purpose of FOIA is to “pierce the veil of administrative secrecy and to open agency action to the light of public scrutiny.” *Public Citizen, Inc. v. Office of Management and Budget*, 598 F.3d 865, 869 (D.C. Cir. 2010) (quotations omitted). In enacting FOIA, Congress intended the primary objective of the Act to be the full disclosure of federal agency records so long as information is not exempted by clearly delineated statutory language. *Id.*

8. FOIA establishes a broad right of public access to federal agency records, subject only to nine delineated exemptions. 5 U.S.C. § 552(b). “Each agency, upon any request” for enumerated records must “determine within 20 days (excepting Saturdays, Sundays, and legal holidays) after the receipt of any such request whether to comply with such request and shall immediately notify the person making such a request” of the “determination and the reasons therefor” *Id.* § 552(a)(6)(A)(i). A requester “shall be deemed to have exhausted [its]

administrative remedies” and hence may file suit under the Act’s citizen suit provision “with respect to [a] request if the agency fails to comply with the . . . time limit” set forth in the statute for a substantive response. *Id.* § 552(a)(6)(C)(i).

9. The federal regulations implementing FOIA for NOAA and NMFS are located at 15 C.F.R. § 4.1, *et seq.* 15 C.F.R. § 4.6 codifies the requirement that NOAA/NMFS respond within 20 working days of receiving a FOIA request with a determination of compliance.

B. The Public Interest Need for the Documents Subject to the FOIA Request

10. In 2013, the documentary film *Blackfish* drew public attention to the plight of Tilikum, an orca held in captivity by SeaWorld Parks & Entertainment (“SeaWorld”), and other orcas now maintained in aquariums and theme parks around the world. *Blackfish* set off a strong negative public reaction to SeaWorld and the conditions under which orcas are held in captivity.

11. On March 8, 2016, SeaWorld released a video on its website describing Tilikum’s declining health and indicating that he was not expected to survive.

12. Beginning in October 2016, the People for the Ethical Treatment of Animals (“PETA”) initiated the first of what would be several meetings and communications with NOAA/NMFS regarding Tilikum. AWI joined this effort by December 2016. In anticipation of Tilikum’s death, NOAA/NMFS was presented with a draft legal opinion explaining why the 1992 MMPA permit authorizing the importation of Tilikum requires SeaWorld to submit to NOAA/NMFS the necropsy report and clinical history for Tilikum in the event of his death. In these meetings and communications, and through the draft legal opinion, AWI (with PETA) sought NOAA/NMFS input and comments on the applicability of the necropsy and clinical history permit requirement.

13. In the following months, AWI also presented its views on the necropsy and clinical history requirements of MMPA permits to the other federal agencies with jurisdiction over marine mammals — the U.S. Fish and Wildlife Service (“FWS”), the Marine Mammal Commission (“MMC”), and the U.S. Department of Agriculture’s Animal and Plant Health Inspection Service (“APHIS”).¹

14. In these agency meetings and communications, AWI repeatedly stressed the importance of necropsy reports and clinical histories for purposes of scientific research, medical care (including for free-ranging, stranded individuals), animal husbandry, and public education, and demonstrated that the benefits resulting from this information applied to whales held both in captivity and in the wild.

15. In these meetings and communications, NOAA/NMFS never took a position on whether SeaWorld had to comply with the necropsy and clinical history requirements of Tilikum’s permit.

16. Tilikum died on January 6, 2017 at SeaWorld’s Orlando facility. AWI and other animal welfare organizations immediately notified NOAA/NMFS that Tilikum’s MMPA permit required SeaWorld to submit the necropsy and clinical history report within 30 days. Based on information and belief, SeaWorld never submitted the necropsy and clinical history report required by the permit to NOAA/NMFS.

17. On March 10, 2017, NOAA/NMFS responded to the animal welfare organizations’ notice with an email stating that it was willing to meet to discuss the issue but that it had concluded that the necropsy and clinical history provisions of Tilikum’s permit had been

¹ Under the MMPA, NOAA/NMFS has jurisdiction over whales, dolphins and seals. FWS has jurisdiction over polar bears, manatees, walrus and sea otters. 16 U.S.C. § 1362(12)(A). The MMC serves in an independent advisory and oversight role. *Id.* §§ 1401-1407. APHIS jurisdiction is not under the MMPA but applies to marine mammals in certain captive maintenance facilities under the Animal Welfare Act. 7 U.S.C. §§ 2131-2159.

extinguished by amendments to the MMPA in 1994 and that “the legal analysis supporting this determination is exempt from disclosure under the attorney-client privilege, and we will not be discussing it in any detail at the meeting.” Thus, after months of effort to engage NOAA/NMFS in a collaborative dialogue regarding the permit requirements for SeaWorld to release Tilikum’s health records, AWI and the other organizations had no explanation from NOAA/NMFS for the legal conclusion, contrary to the plain language of the permit, that the necropsy and clinical history requirement did not apply and were told that none would be provided.

18. AWI contacted SeaWorld directly by email on March 25, 2017 asking for voluntary release of Tilikum’s records. SeaWorld refused to do so in an April 13, 2017 email. Five animal welfare organizations sent a letter to SeaWorld on August 8, 2017, again asking for voluntary compliance. SeaWorld has not replied and continues to withhold the documents.

19. On July 24, 2017, Tilikum’s granddaughter Kyara died at SeaWorld’s San Antonio facility. The draft legal opinion previously provided to NOAA/NMFS confirmed that Kyara was covered by the necropsy and clinical history provision of Tilikum’s permit.

20. On July 31, 2017, AWI and other animal welfare organizations wrote to NOAA/NMFS asking for enforcement of the necropsy and clinical history provision of Tilikum’s permit for Kyara’s records. Counsel to AWI submitted a revised version of the draft legal opinion supporting this conclusion to NOAA/NMFS on August 14, 2017.

21. NOAA/NMFS responded on September 7, 2017, simply restating its March 10, 2017 email message that the permit had been extinguished by the 1994 MMPA amendments.

22. On August 15, 2017, Kasatka, an orca held at SeaWorld’s San Diego facility, was euthanized due to a bacterial infection. Kasatka’s 1978 MMPA permit included a necropsy and clinical history requirement. AWI, and the other organizations promptly requested

NOAA/NMFS to enforce the permit, by letter dated August 25, 2017, and by an updated version of the legal opinion, by letter from counsel dated August 30, 2017.

23. By letter dated October 18, 2017, NOAA/NMFS issued the same response as in its March 10, 2017 email on Tilikum's death and its September 7, 2017 letter on Kyara's death, stating that the necropsy and clinical history requirement in Kasatka's permit had been extinguished. Again, NOAA/NMFS provided no explanation for its legal conclusion.

24. After the death of three SeaWorld orcas over a seven-month period, NOAA/NMFS has refused to release or disclose the legal rationale for its conclusion that SeaWorld can ignore clearly stated permit requirements and withhold information that would shed light on the cause of death and medical condition of these whales during their lives in captivity and benefit science and marine mammal husbandry, stranding response, and medical care. SeaWorld refuses to release the whales' clinical histories or necropsy reports.

C. The AWI FOIA Request

25. By letters sent by email on September 29, 2017, AWI submitted FOIA requests to NOAA/NMFS, FWS, and MMC for all documents from January 1, 2017 to May 1, 2017 regarding NMFS' March 10, 2017 determination that the necropsy and clinical history requirements of Public Display Permit No. 774 for Tilikum were extinguished by the 1994 MMPA amendments. Exhibit 1, Declaration of Donald C. Baur, dated January 8, 2018 ("Baur Decl.") at ¶ 2, Attachment A. On the same date, AWI submitted a FOIA request to APHIS, asking for "all requests that APHIS has submitted since January 1, 1994 under 9 C.F.R. § 3.110(g) requesting necropsy records for marine mammals that have died in captivity, and all necropsy records that APHIS has received in response to those requests."

26. Under FOIA, the deadline for agency response to the requests was October 30, 2017.

27. By letter to AWI dated October 5, 2017, APHIS's FOIA Director confirmed receipt of the FOIA request. The letter identified an anticipated response date of October 30, 2017. On December 8, 2017, APHIS responded to AWI's FOIA request.²

28. By voice message on October 4, 2017, the MMC confirmed receipt of AWI's FOIA request. In a letter sent by email, dated December 18, 2017, Michael L. Gosliner, MMC General Counsel, responded to the FOIA request with a partial release of documents. In the MMC response letter, Mr. Gosliner stated:

I am sympathetic to the position that your organization finds itself in — the responsible agency (NMFS) has given you its legal conclusion that the 1994 amendments to the MMPA extinguished the permit terms and conditions related to necropsies and clinical histories, but has declined to provide you with its rationale for this conclusion. I can see where that agency would not want to share its draft legal analysis outside of the government, but once a conclusion has been reached, its final position no longer is pre-decisional.³

The MMC also stated that it could not release its own documents that would shed light on the NOAA/NMFS legal position without concurrence from NOAA/NMFS.⁴

² APHIS confirmed that, since 1994, it has not required licensees to submit necropsy reports for any marine mammals. As a result, it had no documents to release.

³ The MMC's FOIA response indicates that NOAA/NMFS had not completed its consultation with its sister agencies on the legal question at the time it announced its conclusion on March 10, 2017.

⁴ The MMC request revealed the limited nature of the AWI request, by identifying only nine responsive documents withheld based on the NOAA/NMFS position. The MMC letter also confirmed that it had coordinated its response "with the other agencies," indicating that NOAA/NMFS is aware of the FOIA request.

29. By email on September 29, 2017, FWS's Headquarters FOIA Office acknowledged receipt of the FOIA request. The email stated that the request was forwarded to the Division of Management Authority for processing.

30. The initial FOIA request letter to NMFS was confirmed delivered to NOAA/NMFS by AWI email on September 29, 2017. A follow-up letter was also sent by email to NMFS on December 4, 2017, asking for a response by December 15, 2017. Baur Decl. ¶ 3, Attachment B. Finally, on December 22, 2017, a copy of the December 4 letter was sent again by email, with a specific request that NMFS acknowledge receipt. *Id.* ¶ 4, Attachment C.

31. As of the date of this complaint, NOAA/NMFS has never even acknowledged receipt of the September 29, 2017 request, the December 4, 2017 follow-up letter, or the December 22, 2017 email confirmation request.

32. To date, more than three months after AWI's initial letter, and more than two months after the statutory deadline, NOAA/NMFS has not responded in any way to the September 29, 2017 AWI FOIA request. Nor has the Agency provided AWI with any explanation for the ongoing delay. The other agencies have either responded in full (APHIS and MMC) or acknowledged receipt and confirmed that review is underway (FWS).

CLAIM FOR RELIEF

33. AWI has a statutory right to the requested records. NOAA/NMFS, in violation of FOIA and AWI's rights under FOIA, has failed to provide the records, or any substantive determination regarding them, by the mandatory deadline set forth in 5 U.S.C. § 552(a)(6)(A)(i).

REQUESTED RELIEF

34. AWI respectfully requests that the Court grant the following relief:

- a. Declare that NMFS is in violation of FOIA;

- b. Enjoin NMFS from continuing to withhold the requested records and order NMFS immediately to release the records in full to AWI;
- c. Make a written finding pursuant to 5 U.S.C. § 552(a)(4)(F)(i) that the “circumstances surrounding the withholding raise questions whether agency personnel acted arbitrarily or capriciously with respect to the withholding”;
- d. Award Plaintiff its attorneys’ fees and costs pursuant to 5 U.S.C. § 552(a)(4)(E);
- e. Award any other relief this Court finds just and proper.

Dated this 9th day of January, 2018

Respectfully submitted,

/s/Donald C. Baur

Re: Freedom of Information Act Request

Dear FOIA Officer:

Pursuant to the Freedom of Information Act ("FOIA"), 5 U.S.C. § 552, *et seq.*, and the regulations of the Department of Commerce, 15 C.F.R., Part 4; the regulations of the Department of the Interior, 43 C.F.R., Part 2; and the regulations of the Marine Mammal Commission, 50 C.F.R., Part 520; I am writing on behalf of the Animal Welfare Institute ("AWI") to request from the National Oceanic and Atmospheric Administration ("NOAA"), the National Marine Fisheries Service ("NMFS"), the Fish and Wildlife Service ("FWS"), and the Marine Mammal Commission ("MMC"), certain documents related to the Public Display Permit that NMFS issued under the Marine Mammal Protection Act ("MMPA") for Tilikum the orca whale (Permit No. 774).

September 29, 2017

Page 2

Specifically, I request all documents from each of the aforementioned agencies between January 1, 2017 and May 1, 2017 related to NMFS' March 10, 2017 determination that the necropsy/clinical history requirements of Permit No. 774 were effectively extinguished by the 1994 amendments to the MMPA.

For purposes of this FOIA request, "all documents" encompass: (i) any written, printed, or typed material of any kind, including without limitation to all correspondence, memoranda, notes, meeting minutes, emails from or to official or personal e-mail accounts, spreadsheets, reports, calendars; (ii) any electronically, magnetically, or mechanically stored records, such as materials stored on a compact disk, digital video disk, microfiche, regardless of form; (iii) any audio, visual, aural, or video records, including but not limited to photographs, videotapes, microfilm; and (iv) any other records preserved by any other means for documenting thought or expression.

In the event that the requested documents cannot be disclosed in their entirety, AWI requests that you release any material that can be reasonably segregated. Should any documents or portions thereof be withheld, AWI requests that the agency state with specificity the description of the withheld document or portions thereof, and the legal and factual grounds for doing so.

AWI requests that any fees associated with responding to this FOIA request be waived. *See* 15 C.F.R. § 4.11; 43 C.F.R. § 2.45; 50 C.F.R. § 520.7. AWI is a non-profit, charitable institution that was founded over 50 years ago and is dedicated to protecting animals from suffering caused by human action. The documents that AWI is requesting concern the terms of Public Display Permit No. 774, the agencies' interpretation of those terms, and the level of input that NMFS received from other agencies to interpret those terms. Releasing the documents covered by this request will significantly enhance the public's understanding of the necropsy and clinical history requirements of MMPA public display permits issued before 1994 and the agencies' procedures for evaluating those permits. This information will help the public determine whether additional changes to the MMPA permitting processes are needed in order to achieve the goals of the statute.

Disclosure of the requested documents will benefit a broad audience of people interested in the MMPA and public display permits. AWI is an institute with significant expertise in marine mammals and animal welfare and is well suited to convey the information learned from the documents to the public. As a non-profit organization, AWI's primary goal is to increase awareness of human mistreatment of animals and releasing the documents it obtains in response to this FOIA request will further that goal. The documents AWI is requesting are not yet publicly available and thus the release of these documents will significantly enhance the public's understanding of the public display permits at issue.

AWI does not have any commercial interest that will be furthered by releasing the requested documents.

Please contact me if you have any questions.

Re: Request No. DOC-NOAA-2017-001101

Dear Mr. Mulvey,

This letter is in response to your Freedom of Information Act (FOIA) request received by our office on May 18, 2017, in which you requested:

“access to any final guidance concerning the retention of instant messaging sessions created or received through the “Google Chat” or “Google Hangouts” feature of the National Oceanic and Atmospheric Administration’s (“NOAA”) Unified Messaging System (i.e., NOAA’s Google-hosted agency e-mail platform). According to a March 2012 handbook, “[p]er the decision of NOAA General Counsel,” communications through Google Chat (or Google Hangouts) “will be considered ‘off the record’ and will not be recorded in anyway.” Records concerning the Office of General Counsel’s (“OGC”) “decision,” in this respect, are responsive to CoA Institute’s request, as are other records reflecting agency-wide guidance on the retention of chat/instant or text messages created or received through NOAA’s Google-hosted e-mail platform.”

We have located 74 documents responsive to your request. You are granted full access to those records, and a copy is enclosed. Your request is now completed.

Although we do not consider this to be a denial of your request, and although we are aware you have already commenced litigation on this matter, you have the right to file an administrative appeal if you are not satisfied with our response to your FOIA request. All appeals should include a statement of the reasons why you believe the FOIA response was not satisfactory. An appeal based on documents in this release must be received within 90 calendar days of the date of this response letter at the following address:

Assistant General Counsel for Litigation, Employment, and Oversight
U.S. Department of Commerce
Office of General Counsel
Room 5875
14th and Constitution Avenue, N.W.
Washington, D.C. 20230

An appeal may also be sent by e-mail to FOIAAppeals@doc.gov, or by FOIAonline at <https://foiaonline.regulations.gov/foia/action/public/home#>.

For your appeal to be complete, it must include the following items:

- a copy of the original request,
- our response to your request,
- a statement explaining why the withheld records should be made available, and why the denial of the records was in error.
- “Freedom of Information Act Appeal” must appear on your appeal letter. It should also be written on your envelope, or e-mail subject line.

FOIA appeals posted to the e-mail box, FOIAonline, or Office after normal business hours will be deemed received on the next business day. If the 90th calendar day for submitting an appeal falls on a Saturday, Sunday or legal public holiday, an appeal received by 5:00 p.m., Eastern Time, the next business day will be deemed timely.

FOIA grants requesters the right to challenge an agency's final action in federal court. Before doing so, an adjudication of an administrative appeal is ordinarily required.

The Office of Government Information Services (OGIS), an office created within the National Archives and Records Administration, offers free mediation services to FOIA requesters. They may be contacted in any of the following ways:

 FOIA Request: DOC-NOAA-2018-000377

Dear Ms. Cate:

This is in reference to the above-captioned FOIA request #DOC-NOAA-2018-000377. This is an update regarding your request.

We have commenced a records search. The NOAA Office of General Counsel, Southeast Section, has completed its searches and has been assigned to review their records for release determinations. Due to the holidays, we expect that review to be completed on or about January 9, 2018.

We anticipate providing you with interim responses due to the large volume of records.

If you have any questions regarding this communication, please contact me via e-mail at beverly.smith@noaa.gov or by phone at 727-551-5762, or the NOAA FOIA Public Liaison Robert Swisher at (301) 628-5755.

Sincerely,

Beverly J. Smith, Southeast Region FOIA Coordinator

FOIA REQUEST #DOC-NOAA-2018-000377 CATE - REQUEST ACKNOWLEDGEMENT & CONFIRM E-MAIL RECEIPT	Ron L. Aldrich	Alicia Cate	12/13/2017

 FOIA Request: DOC-NOAA-2018-000377

Ms. Alicia Cate,

This letter acknowledges receipt of your Freedom of Information Act (FOIA) request. Your request was entered into FOIAonline, our request tracking database, dated on 12/1/2017. Your request tracking number is DOC-NOAA-2018-000377.

Please acknowledge receipt of this email message by responding to nmfs.sero.foia1@noaa.gov, which will indicate FOIAonline is compatible with your browser.

In addition, your request has been assigned to Beverly J. Smith, Southeast Region FOIA Coordinator, [727-551-5762](tel:727-551-5762) or beverly.smith@noaa.gov.

Sincerely,
 Ron Aldrich
 FOIA Clerk (Contractor)

Request Description

Short Description :

On June 29, 2017, the National Oceanic and Atmospheric Administration ("NOAA") and National Marine Fisheries Service ("NMFS"), through the Department of Commerce, submitted a Final Rule to the Office of Management and Budget ("OMB") for review. The Final Rule is entitled "Regulation to Reduce Incidental Bycatch and Mortality of Sea Turtles in the Southeastern U.S. Shrimp Fisheries." This matter has been assigned Regulation Identifier Number ("RIN") 0648-BG45. The status of the Final Rule is listed as "Pending [Executive Order ("EO")] 12866 Regulatory Review," per the Office of Information and Regulatory Affairs website. Oceana requests copies of all documents, records, and materials, including but not limited to all memoranda, studies, reports, data, correspondence, comments, conversation records, meeting notes, files, electronic mail records, or other documents, which have been generated, received, kept, and/or considered by the Department relating to OMB's review of the Final Rule with RIN 0648-BG45.

U.S. Department of Commerce Privacy Threshold Analysis

Office of Satellite and Product and Operations (OSPO)

Unique Project Identifier: NOAA5032

Introduction: This Privacy Threshold Analysis (PTA) is a questionnaire to assist with determining if a Privacy Impact Assessment (PIA) is necessary for this IT system. This PTA is primarily based from the Office of Management and Budget (OMB) privacy guidance and the Department of Commerce (DOC) IT security/privacy policy. If questions arise or further guidance is needed in order to complete this PTA, please contact your Bureau Chief Privacy Officer (BCPO).

Description of the information system and its purpose:

(a) The Wallops Command and Data Acquisition Station (WCDAS) Administrative LAN (NOAA5032) is a General Support, office automation system that (b) is located within the WCDAS computer facility in Wallops Island, VA. (c) NOAA5032 relies on the NOAA NOC (NOAA 0200) for e-mail, and VPN access to NSOF (NOAA5044) for Internet connectivity. (d) The WCDAS Administrative LAN supports the NESDIS mission by providing IT resources to WCDAS personnel. Specifically, it is used to support electronic mail, purchasing, logistics, facility management, inventory, human resource, contract administration, general management functions and office automation functions (e) The WCDAS Administration LAN enables communication among OSPO and various NOAA groups to conduct administrative functions which include daily, weekly, monthly, and annual reports. The WCDAS Administration LAN is used to support electronic mail (GMAIL) through the use of Google, purchasing, logistics, facility management, inventory, human resource, contracts administration, general management functions, and office automation functions. (f) Types of data transiting thru or residing on the WCDAS Administration LAN include administrative email messages, data concerning time and attendance reports, status reports, travel orders, Federal grants, environmental monitoring, budget and capital planning, contingency planning, facilities management, workplace policy, human resources, goods acquisition, and IT infrastructure management. Data transiting or resident on the WCDAS Administrative LAN are typically in the form of e-mail messages, Excel spreadsheets, word processing documents, CAD drawings and simple databases resident on individual workstations. (g) The Users community of the WCDAS Administration LAN include management, technical, operations and administrative staff located at the Wallops Command and Data Acquisition Station. (h) Workstations located in the users' offices are used by the operational personnel, to log into their own user accounts on the WCDAS Domain where they can perform various administrative functions, and print to local and / or network printers. (i) A

CUI/ISVI

dedicated DS-3 link provides the Wide Area Network (WAN) access from WCDAS Administration LAN to and from the Internet through the NOAA NOC.

The E-Government Act of 2002 defines “information system” by reference to the definition section of Title 44 of the United States Code. The following is a summary of the definition: “Information system” means a discrete set of information resources organized for the collection, processing, maintenance, use, sharing, dissemination, or disposition of information. See: 44. U.S.C. § 3502(8).

Questionnaire:

1. What is the status of this information system?

This is a new information system. *Continue to answer questions and complete certification.*

This is an existing information system with changes that create new privacy risks. *Complete chart below, continue to answer questions, and complete certification.*

Changes That Create New Privacy Risks (CTCNPR)					
a. Conversions		d. Significant Merging		g. New Interagency Uses	
b. Anonymous to Non-Anonymous		e. New Public Access		h. Internal Flow or Collection	
c. Significant System Management Changes		f. Commercial Sources		i. Alteration in Character of Data	
j. Other changes that create new privacy risks (specify):					

This is an existing information system in which changes do not create new privacy risks, and there is not a SAOP approved Privacy Impact Assessment. *Continue to answer questions and complete certification.*

This is an existing information system in which changes do not create new privacy risks, and there is a SAOP approved Privacy Impact Assessment (version 01-2015 or later). *Continue to answer questions and complete certification.*

2. Is the IT system or its information used to support any activity which may raise privacy concerns?

NIST Special Publication 800-53 Revision 4, Appendix J, states “Organizations may also engage in activities that do not involve the collection and use of PII, but may nevertheless raise privacy concerns and associated risk. The privacy controls are equally applicable to those activities and can be used to analyze the privacy risk and mitigate such risk when necessary.” Examples include, but are not limited to, audio recordings, video surveillance, building entry readers, and electronic purchase transactions.

Yes. *Please describe the activities which may raise privacy concerns.*

No

CUI/ISVI

3. Does the IT system collect, maintain, or disseminate business identifiable information (BII)?

As per DOC Privacy Policy: "For the purpose of this policy, business identifiable information consists of (a) information that is defined in the Freedom of Information Act (FOIA) as "trade secrets and commercial or financial information obtained from a person [that is] privileged or confidential." (5 U.S.C.552(b)(4)). This information is exempt from automatic release under the (b)(4) FOIA exemption. "Commercial" is not confined to records that reveal basic commercial operations" but includes any records [or information] in which the submitter has a commercial interest" and can include information submitted by a nonprofit entity, or (b) commercial or other information that, although it may not be exempt from release under FOIA, is exempt from disclosure by law (e.g., 13 U.S.C.)."

Yes, the IT system collects, maintains, or disseminates BII about: *(Check all that apply.)*

- Companies
- Other business entities

No, this IT system does not collect any BII.

4. Personally Identifiable Information

4a. Does the IT system collect, maintain, or disseminate personally identifiable information (PII)?

As per OMB 07-16, Footnote 1: "The term 'personally identifiable information' refers to information which can be used to distinguish or trace an individual's identity, such as their name, social security number, biometric records, etc... alone, or when combined with other personal or identifying information which is linked or linkable to a specific individual, such as date and place of birth, mother's maiden name, etc..."

Yes, the IT system collects, maintains, or disseminates PII about: *(Check all that apply.)*

- DOC employees
- Contractors working on behalf of DOC
- Members of the public

No, this IT system does not collect any PII.

If the answer is "yes" to question 4a, please respond to the following questions.

4b. Does the IT system collect, maintain, or disseminate PII other than user ID?

Yes, the IT system collects, maintains, or disseminates PII other than user ID.

No, the user ID is the only PII collected, maintained, or disseminated by the IT system.

CUI/ISVI

4c. Will the purpose for which the PII is collected, stored, used, processed, disclosed, or disseminated (context of use) cause the assignment of a higher PII confidentiality impact level?

Examples of context of use include, but are not limited to, law enforcement investigations, administration of benefits, contagious disease treatments, etc.

Yes, the context of use will cause the assignment of a higher PII confidentiality impact level.

No, the context of use will not cause the assignment of a higher PII confidentiality impact level.

If any of the answers to questions 2, 3, 4b, and/or 4c are “Yes,” a Privacy Impact Assessment (PIA) must be completed for the IT system. This PTA and the approved PIA must be a part of the IT system’s Assessment and Authorization Package.

CUI/ISVI

CERTIFICATION

X I certify the criteria implied by one or more of the questions above **apply** to the Wallops Command and Data Acquisition Station Administrative Local Area Network and as a consequence of this applicability, I will perform and document a PIA for this IT system.

I certify the criteria implied by the questions above **do not apply** to the Wallops Command and Data Acquisition Station Administrative Local Area Network and as a consequence of this non-applicability, a PIA for this IT system is not necessary.

I am writing on behalf of Sea Shepherd Legal ("SSL") with a request for records maintained by the National Marine Fisheries Service ("NMFS"). As discussed 24 Jan 2018, for now we'll limit this request to the Level A reports for stranded or deceased whales (1). Please produce records of the following types in the possession, custody, or control of the National Oceanic and Atmospheric Administration ("NOAA") under the Endangered Species Act Section 7 Consultation Programmatic Biological Opinion of the US EPA's Issuance and Implementation of the Marine Mammal Protection Act. Please find attached a FOIA request from the Natural Resources Defense Council (NRDC) for records regarding the implementation of the Marine Mammal Protection Act. The Center requests the following records from the U.S. Department of Commerce ("DOC") from April 1, 2017 to the present: All documents, including intra-agency discussions and communications with outside parties, related to (1) NOAA's 2013 SCOPE CLARIFICATION: Ask that NOAA prioritize review and release of NOAA's April 14, 2017 and January 14, 2017. The Center requests from the National Marine Fisheries Service ("NMFS") all records generated in connection with the implementation of the Marine Mammal Protection Act, including copies of all memoranda, studies, reports, data, correspondence, comments, conversation records, files, electronic communications, and other documents. On 28 June 2017, via email, the requester clarified the search scope of the request to: "I would like both foreign and domestic records." REVISED SCOPE 6/20: For the time period of May 8, 2015 through May 8, 2017 all text messages, facsimiles and other electronic communications. SCOPE REVISION 6/20 - To exclude the following information: out-of-office replies, duplicates of the same emails, and information related to lobbying by the Western Pacific Regional Fishery Management Council (WPRFMC). I'd like to request information related to the staff, consultants, and members of the Western Pacific Regional Fishery Management Council (WPRFMC). I'd like to request financial information concerning the Western Pacific Regional Fishery Management Council (WPRFMC). I am writing with a request for records maintained by the National Marine Fisheries Service ("NMFS") regarding the implementation of the Marine Mammal Protection Act. Pursuant to the Freedom of Information Act, 5 U.S.C. § 552 ("FOIA"), Cause of Action Institute hereby requests access to records maintained by the National Marine Fisheries Service ("NMFS") regarding the implementation of the Marine Mammal Protection Act. We request copies of all memoranda, studies, reports, data, correspondence, comments, conversation records, files, electronic communications, and other documents. We request copies of all memoranda, studies, reports, data, correspondence, comments, conversation records, files, electronic communications, and other documents. We request copies of all memoranda, studies, reports, data, correspondence, comments, conversation records, files, electronic communications, and other documents. Any and all records concerning implementation of Executive Order 13771, entitled "Reducing Regulation and Controlling Regulatory Costs." REVISED SCOPE: PART 1: You request the following information for the HI SSSL Fishery from 2014 to 2017 (Priority 1). Please find attached a public records act request from Cause of Action Institute. As detailed in our letter, we are seeking information regarding the necropsy of a dead sea lion found on the beach at Children's Pool San Diego, CA 93037. It was sighted on the morning Feb 21, a dead sea lion was found on the beach at Children's Pool San Diego, CA 93037. It was sighted on the morning Feb 21, a dead sea lion was found on the beach at Children's Pool San Diego, CA 93037. I am requesting a copy of permit #884 filed in 1994 or 1993 for the public display or import of a killer whale at Sea Shepherd. Any and all requests for technical assistance for projects or initiatives that would impact the Atlantic sturgeon in the Pacific Northwest. I am a doctoral student at Seton Hall University. I am also a career law enforcement officer. I am conducting a dissertation on the topic of violence against NOAA employees. A summary of all incidents of violence, threats, or harassment against NOAA employees that occurred in calendar year 2017. I want all written and verbal communications (text, images, pictures, etc) between Conrad Newell (conrad.newell@setonhall.edu) and NOAA employees. 1. All records or documents, electronic, written, or otherwise, related or referring to Deer Creek, Mill Creek, Antek Creek, and other creeks in the Pacific Northwest. Request full investigative file and any other documents related to an investigation of my clients Alexander Kompothier and Alexander Kompothier. Emails or other communications between the National Oceanic and Atmospheric Administration ("NOAA") and Sea Shepherd. A copy of Marine Mammal Rescue Nantucket (MMRACK) Stranding Agreement application. Please produce records in the National Marine Fisheries Service's possession, custody, or control pertaining to the implementation of the Marine Mammal Protection Act. I would like information on the granting of an ESA permit for TULALIP TRIBES REGULATION NO: 2017-214-104 (Priority 1). A paper was recently published by J. Laake titled California sea lions: Environmental impacts on population status and trends. Pursuant to the Freedom of Information Act (FOIA), 5 U.S.C. § 552, Friends of the Earth requests all records maintained by the National Marine Fisheries Service ("NMFS") regarding the implementation of the Marine Mammal Protection Act. I am requesting any marine mammal necropsy reports or necropsy-related information reported from Dolphin Quest, Sea Shepherd, or other organizations. I am requesting any marine mammal necropsy reports or necropsy-related information reported by Sea Life Park Hawaii. As set out fully in the attached letter, this request is for records possessed by the National Marine Fisheries Service ("NMFS") regarding the implementation of the Marine Mammal Protection Act. As set out fully in the attached letter, this request is for records possessed by the National Marine Fisheries Service ("NMFS") regarding the implementation of the Marine Mammal Protection Act. As set out fully in the attached letter, this request is for records possessed by the National Marine Fisheries Service ("NMFS") regarding the implementation of the Marine Mammal Protection Act. I request a copy of the following categories of documents relating to Florida Power and Light's ("FPL") Turkey Point Nuclear Generating Station. Pursuant to the Freedom of Information Act (FOIA), 5 U.S.C. § 552, Friends of the Earth requests all records maintained by the National Marine Fisheries Service ("NMFS") regarding the implementation of the Marine Mammal Protection Act. The request seeks all records and documents subject to disclosure under FOIA within the following nine categories: 1. All records and documents, electronic, written, or otherwise, related or referring to Turkey Point Nuclear Generating Station. Request directed to National Marine Fisheries Service, Pacific Islands Regional Office. Please see attached files. I am writing to request the official records for an incident that was investigated by NOAA's Cyber Security Center. The incident occurred on 1/11/2017. 1. All weekly reports, charts, and transmittal e-mails that identify "high visibility" or otherwise "sensitive" FOIA requests. Pursuant to the federal Freedom of Information Act, 5 U.S.C. § 552, a copy of the agency's FOIA log for the period of 1/11/2017 to the present. Under the Freedom of Information Act, 5 U.S.C. § 552, I am requesting copies of the following information: The

Re: FOIA Request

To Whom It May Concern,

Pursuant to the Freedom of Information Act, 5 U.S.C. § 552, and relevant Department of Commerce, National Marine Fisheries Service (“NMFS”) regulations, Ecological Rights Foundation (EcoRights’) (via counsel), hereby requests that NMFS provide all responsive records (“documents”) that are in the files maintained by NMFS personnel or offices on the date that NMFS staff conducts their searches for the documents responsive to this request.¹

Definitions

¹ See *McGehee v. CIA*, 697 F.2d 1095 (D.C. Cir. 1983); *Pub. Citizen v. Dep't of State*, 276 F.3d 634 (D.C. Cir. 2002); *Oregon Natural Desert Ass'n v. Gutierrez*, 419 F. Supp. 2d 1284, 1288 (D. Or. 2006) (federal agencies must release all documents in their possession through the date they conduct the review of their files for documents responsive to FOIA requests).

1. The term "You" or "Your" as used herein refers to the NATIONAL MARINE FISHERIES SERVICE ("NMFS"), PENNY PRITZKER, as Secretary of Commerce, and/or any person acting or purporting to act on their behalf.
2. The term "document" or "documents" as used herein means all written, typewritten, drawn or printed material or record of any type or description and all information kept or recorded on magnetic or electronic media, including, without limitation, correspondence, letters, agreements, contracts, memoranda of agreement or understanding, electronic mail (including both messages sent and received from NMFS personnel), telegrams, inter- and intra-office communications, forms, reports, studies, working papers, handwritten or other notes, phone records, logs, diaries, minutes, spreadsheets, computation sheets, data sheets, transcripts, drawings, sketches, plans, leases, invoices, index cards, checks, check registers, maps, charts, graphs, bulletins, circulars, pamphlets, notices, summaries, books, photographs, sound recordings, videotapes, rules, photocopied or computer-related materials, and every other means of recording upon any tangible thing, any form of communication or representation, including letters, words, pictures, sounds, or symbols, or combinations of them, and all forms of written or recorded matter to which You have access or of which You have any knowledge, or copies of such documents where originals are not available. The terms "document" or "documents" includes all matter that relates in whole or in part to the subject referred to in this request. Where a document has been prepared in several copies that are not identical, or where, by reason of subsequent modification, addition or notation, they are no longer identical, each non-identical copy shall be considered a separate document. Handwritten or other notations of any kind on a copy render it a non-identical copy.
3. The term "related to" as used herein includes comprising, constituting, containing, evidencing, setting forth, summarizing, alluding to, responding to, commenting upon, discussing, supporting, refuting, showing, disclosing, explaining, mentioning, analyzing, recording, reflecting upon, or characterizing, either directly or indirectly, in whole or in part.
4. The term "Stockdale Memo" means the June 11, 2013 Memorandum, subject ESA Guidance, from Corps Chief Counsel, Earl Stockdale, to all Corps counsel, HQ, Dist, Center, Lab, and FOA Offices [attached as Exhibit 1 for your reference].
5. The term "Chris Yates email" refers to the July 24, 2014 email from Chris Yates, NOAA Federal, subject: Fwd:Response to COE Stockdale memo [attached as Exhibit 2 for your reference]..
6. The term "draft Englebright concurrence letter" refers to the draft letter to the Corps entitled "Endangered Species Act Section 7(a)(2) Concurrence Letter for the U.S. Army Corps of Engineers' (Corps) Ongoing Operation and Maintenance of Englebright Dam and Reservoir on the Yuba River" [attached as Exhibit 3 for your reference].
7. The term "unauthorized take" means take that is prohibited by section 9 of the Endangered Species Act.

The foregoing definitions, used below in quotation marks, refer to the terms as defined above.

Requests for Documents

EcoRights requests that "You" please provide the following "documents":

1. Any and all "documents" "related to" the "Chris Yates email" concerning input he, and any NMFS West Coast Region staff provided to NOAA HQ on the impact of the "Stockdale Memo." This request is only for the input on the impact of the "Stockdale Memo" that Chris Yates provided to NOAA HQ and the input on the impact of the "Stockdale Memo" the NMFS West Coast Region staff provided to NOAA HQ and is not a broader request for other documents related to the "Stockdale memo." This request is only for "documents" generated on or prior to July 24, 2014.
2. Any documents to or from NMFS staff Chris Kiefer "related to" the "draft Englebright concurrence letter."
3. Any and all NOAA Fisheries "documents" from January 1, 2000 to the present, in the possession of any NOAA Fisheries Office, Department, and/or Division, including any NOAA law enforcement division, "related to" whether any entities or individuals may have caused or did cause, or may be causing, or are causing "unauthorized take" of threatened or endangered anadromous fish in the Yuba River at, or in the vicinity of, Englebright Dam, Narrows 1 and 2 powerhouses, Daguerre Point Dam, and the Hallwood-Cordua Diversion including but not limited to any and all "documents" generated by, sent by, or received by NMFS Law Enforcement agent, Don Tanner.

15 C.F.R. section 4.6(b) requires NMFS to issue a written determination to EcoRights within twenty working days that this request was received and logged in by NMFS stating which of the requested records will, and which will not, be released and the reason for any denial of any portion of this request. As provided by 15 C.F.R. section 4.6(c), NMFS may extend this obligation by furnishing written notice to the requestor as soon as practicable stating the reasons for such extension and the date by which the office expects to be able to issue a determination. The period may be so extended only when absolutely necessary, only for the period required, and only when one or more of the following unusual circumstances require the extension: (1) there is a need to search for and collect the requested records from field facilities or other establishments that are separate from the office processing the request; (2) there is a need to search for, collect, and appropriately examine a voluminous amount of separate and distinct records which are demanded in a single request; or (3) there is a need for consultation, which shall be conducted with all practicable speed, with another agency having a substantial interest in the determination of the request or among two or more components of NMFS.

EcoRights requests that to the extent that NMFS can do so, EcoRights be furnished with electronic copies of the above documents in lieu of paper copies (to minimize the expense and burden of copying). EcoRights points out that FOIA requires NMFS to provide copies of requested documents "in any form or format requested by the person if the record is readily reproducible by the agency in that form or format." 5 U.S.C. § 552(a)(3)(B).

We request that NMFS provide electronic copies of its response to this request, as well as any responsive documents that NMFS is able to transmit via e-mail, to Christopher Hudak and Christopher Sproul and I at the following e-mail addresses:

Christopher Hudak: christopherwhudak@gmail.com
Christopher Sproul: csroul@enviroadvocates.com

Please send any documents that must be sent via regular mail to the following address:

2 **INTRODUCTION**

3 1. EcoRights brings this action under the Freedom of Information Act ("FOIA"), which allows
4 an aggrieved party to seek relief when documents are unlawfully withheld, and authorizes a reviewing
5 court to enjoin the agency from withholding records and to order the production of any agency records
6 improperly withheld from the complainant. 5 U.S.C. § 552(a)(4)(B). EcoRights seeks declaratory and
7 injunctive relief for FOIA violations by the National Marine Fisheries Service ("NMFS"). At issue in
8 this case is a FOIA request to NMFS seeking documents related to NMFS West Coast Region's
9 Endangered Species Act ("ESA") Section 7 consultations with the Army Corps of Engineers ("Corps")
10 and NMFS's regulatory oversight of Corps operations and infrastructure on the Yuba River that
11 adversely impact spring run Chinook salmon, steelhead trout, and green sturgeon which are listed as a
12 threatened species under the ESA. EcoRights alleges that NMFS: 1) failed to provide a final
13 determination for EcoRights' administrative appeal within statutory time limits; 2) improperly withheld
14 information not subject to specific, enumerated exemptions; 3) failed to provide legally adequate
15 explanations for the withholding of requested information; 4) failed to promptly release non-exempt
16 information responsive to EcoRight's FOIA request; 5) failed to segregate and release non-exempt
17 information; and 6) failed to perform a reasonable, legally adequate search for responsive records.

18 **JURISDICTION**

19 2. This Court has subject matter jurisdiction under 5 U.S.C. section 552(a)(4)(B), which allows an
20 aggrieved party to seek relief when records are unlawfully withheld, and authorizes a reviewing court to
21 enjoin the agency from withholding records and to order the production of any agency records
22 improperly withheld from the complainant.

23 3. This Court has personal jurisdiction over NMFS and its officials because NMFS, a branch of
24 the National Oceanic and Atmospheric Administration ("NOAA"), is an agency of the federal
25 government operating within the United States.

1 **VENUE**

2 4. Venue in the United States District for the Northern District of California is proper under
3 5 U.S.C. section 552(a)(4)(B) because the complainant has its principal place of business in the Northern
4 District, and many of the records sought by complainants are most likely situated in the NMFS and
5 NOAA offices located within the Northern District.

6 **INTRADISTRICT ASSIGNMENT**

7 5. Intradistrict assignment of this matter to the San Francisco Division of the Court is appropriate
8 pursuant to Civil Local Rule 3-2(d) because EcoRights’ principal place of business is located in
9 Garberville, California.

10 **THE PARTIES**

11 6. Ecological Rights Foundation ("EcoRights") is a non-profit, public benefit corporation,
12 organized under the laws of the State of California, devoted to furthering the rights of all people to a
13 clean, healthful and biologically diverse environment. To further its environmental advocacy goals,
14 EcoRights actively seeks federal and state agency implementation of state and federal wildlife-related
15 laws, and as necessary, directly initiates enforcement actions on behalf of itself and its members.

16 7. Defendant NMFS, a division of the Department of Commerce, is the agency of the United
17 States Government responsible for administering and implementing the ESA for anadromous fisheries
18 and generally is responsible for the stewardship of the nation's living marine resources and their habitat.

19 **STATUTORY BACKGROUND**

20 8. FOIA requires that an agency disclose records to any person except where the records fall
21 under a specifically enumerated exemption. 5 U.S.C. § 552. The courts have emphasized the narrow
22 scope of these exemptions and “the strong policy of the FOIA that the public is entitled to know what its
23 government is doing and why.” *Coastal States Gas Corp. v. Dep’t of Energy*, 617 F.2d 854, 868 (D.C.
24 Cir. 1980).

25 9. FOIA requires that an agency, upon any request for records, shall make the records available
26 promptly. 5 U.S.C. § 552(a)(3)(A). An agency shall make a determination whether to comply with a
27 request within twenty (20) business days after the receipt of the request and shall immediately notify the

1 party making the request of such determination, the reasons for the determination, and the party's right
2 to appeal. 5 U.S.C. § 552(a)(6)(A)(i). In unusual circumstances, the agency may extend the time for the
3 determination, for no more than ten (10) days, by written notice to the party, specifying the reasons for
4 the extension and the date on which the determination is expected to be sent. 5 U.S.C. § 552(a)(6)(B)(i).

5 10. Federal agencies are under a duty to conduct a reasonable search for records responsive to a
6 party's request using methods that can be reasonably expected to produce the information requested to
7 the extent they exist. 5 U.S.C. § 522(a)(3)(C).

8 11. When an agency decides to withhold records under a claim of exemption it must notify the
9 person making such request of such determination and the reasons therefor. 5 U.S.C. § 552(a)(6)(A)(i).
10 Government agencies bear the burden of proof to show that any withheld documents are exempt from
11 the duty to disclose. 5 U.S.C. § 522(a)(4)(B).

12 12. A party may appeal to the head of the agency any adverse determination. 5 U.S.C. §
13 552(a)(6)(A)(i). An agency shall make a determination with respect to any appeal within twenty (20)
14 business days after the receipt of such appeal. 5 U.S.C. § 552(a)(6)(A)(ii). If an agency does not respond
15 within the FOIA time limits, a party will be deemed to have exhausted its administrative remedies.
16 5 U.S.C. § 552(a)(6)(C)(i).

17 13. On June 30, 2016, President Obama signed into law the FOIA Improvement Act of 2016. The
18 Act made significant amendments to FOIA, effective as of enactment on June 30, 2016. 5 U.S.C. § 522,
19 § 6; OIP Summary of the FOIA Improvement Act of 2016. The amendments include changes to the
20 standard by which NMFS must evaluate withholdings. The FOIA Improvement Act of 2016 dictates that
21 agencies shall withhold information only if disclosure would harm an interest protected by an exemption
22 what is referred to as the "foreseeable harm standard." 5 U.S.C. § 552(a)(8)(A)(i); OIP Summary of
23 the FOIA Improvement Act of 2016.

24 14. Additionally, FOIA requires an agency to consider partial disclosure whenever the agency
25 determines that a full disclosure of a requested record is not possible and to take reasonable steps
26 necessary to segregate and release nonexempt information. 5 U.S.C. § 552(a)(8)(A).

1 15. An agency's process for dealing with FOIA requests constitutes "withholding" if its net effect
2 is significantly to impair the requester's ability to obtain the records or significantly increase the amount
3 of time he or she must wait to obtain them. *McGehee, III v. Central Intelligence Agency*, 697 F.2d 1095,
4 1110 (D.C. Cir. 1983), *vacated in part on other grounds*, 711 F.2d 1076 (1983).

5 FACTUAL BACKGROUND

6 **NMFS's Response to EcoRights' December 6, 2016 FOIA Request**

7 16. On December 6, 2016 EcoRights, via counsel, sent a FOIA request to NMFS seeking three
8 categories of documents: 1) documents containing input NMFS West Coast Region staff provided to
9 NOAA headquarters detailing the impacts of an Army Corps of Engineers ("Corps") memo known as
10 the Stockdale Memo. The Stockdale Memo laid out strict guidelines limiting Corps ESA Section 7
11 consultations with NMFS and the U.S. Fish and Wildlife Service; 2) documents to or from NMFS
12 counsel Chris Kiefer related to a draft letter from NMFS to the Corps entitled "Endangered Species Act
13 Section 7(a)(2) Concurrence Letter for the U.S. Army Corps of Engineers' (Corps) Ongoing Operation
14 and Maintenance of Englebright Dam and Reservoir on the Yuba River;" and 3) documents in the
15 possession of any NOAA Fisheries Office, Department and/or Division, including any NOAA law
16 enforcement division, related to whether any entities or individuals are causing or have caused
17 unauthorized take of threatened or endangered fish species in the Yuba River in the vicinity of
18 Englebright Dam and Daguerre Point Dam.

19 17. On December 14, 2016 NMFS sent a letter to EcoRights counsel, Christopher Hudak,
20 acknowledging receipt of the request on December 12, 2016 and assigning it tracking number DOC-
21 NOAA-2017-000257. The acknowledgement letter stated that NMFS was extending the time for its
22 response by ten business days because the agency needed to search for and collect the requested records
23 from field facilities or other establishments separate from the office processing the request.

24 18. On February 13, 2017 NMFS sent EcoRights its final determination partially granting and
25 partially denying EcoRights' request. NMFS stated it had located 309 documents responsive to the
26 request and had released 239 of these documents in their entirety, via FOIAonline. Fifty-four documents
27

1 were partially withheld under attorney work product, attorney client privilege, deliberative process
2 exemptions pursuant to 5 U.S.C. 552(b)(5) ("Exemption 5") and the right to privacy exemption pursuant
3 to 5 U.S.C. § 552(b)(6) ("Exemption 6"). The final determination also stated that 16 documents that had
4 originated from other agencies were referred to those agencies for release determination and direct
5 response to EcoRights.

6 19. On March 10, 2017 EcoRights timely appealed NMFS's final determination to the Office of
7 the General Counsel of the Department of Commerce ("DOC Counsel"). EcoRights' administrative
8 appeal contended that NMFS: 1) had failed to make a reasonable search for responsive documents; 2)
9 had improperly withheld documents under vague and unjustified claims of deliberative process and
10 attorney-client privilege exemptions; 3) had withheld information with no exemption claim; 4) had not
11 shown the existence of foreseeable harm to an interest protected by Exemptions 5 and 6 that would
12 permit the agency to withhold information under these exemptions; and 5) had failed to segregate factual
13 material and make partial disclosures where possible.

14 20. EcoRights' appeal contended NMFS's search was inadequate because none of the documents
15 NMFS had released were from the NOAA Office of Law Enforcement ("OLE") although EcoRights had
16 specifically asked for OLE documents and EcoRights had reason to know that at least one OLE agent
17 had responsive documents.

18 21. The 20 business days deadline for NMFS to provide its final determination for EcoRights'
19 appeal was April 7, 2017.

20 22. On July 18, 2017 NMFS posted to FOIAonline two redacted emails, apparently from the
21 OLE. EcoRights was not notified that NMFS had released these two OLE documents on FOIAonline.
22 The two emails had information redacted pursuant to Exemption 6 and Exemption 7 (5 U.S.C. §
23 552(b)(7)(C)).

24 23. On October 2, 2017 EcoRights' counsel sent an email to NMFS FOIA officers and the DOC
25 Counsel's office requesting an update on the status of the appeal. The DOC Counsel and NMFS did not
26 respond.
27

1 24. On October 25, 2017 EcoRights' counsel sent another email to NMFS FOIA officers and the
2 DOC Counsel's office which requested that NMFS provide the final appeal determination by November
3 3, 2017 and warned that if the determination was not provided by that date EcoRights might seek
4 judicial relief.

5 25. On October 30, 2017 Michael Bogomolny, Acting Chief, Information Law Division, of the
6 DOC Counsel's Office responded to EcoRights' October 25, 2017 request and stated that he expected
7 EcoRights would have the appeal determination "this week." However, the DOC Counsel's office did
8 not provide the appeal determination that week.

9 26. On January 31, 2018 Ecorights' counsel sent another email to the DOC Counsel's office
10 requesting a status update. Mr. Bogomolny responded that same day and stated he would provide "a full
11 status update before the end of the week." However, he did not. Instead, on February 2, 2018 he sent yet
12 another email stating he was "committing to releasing a final determination of the appeal in this matter
13 next week." However he did not release the determination that week.

14 27. As of the date of this Complaint the DOC Counsel has not released the appeal final
15 determination and it is 309 days overdue.

16 **FIRST CLAIM FOR RELIEF**
17 **NMFS Violation of FOIA**
18 **5 U.S.C. §§ 552(a)(6)(ii) and 552(a)(3)(A)**
19 **Request for Declaratory Relief**

20 28. EcoRights reasserts and realleges paragraphs 1 through 27 above.

21 29. NMFS has violated 5 U.S.C. § 552(a)(6)(A)(ii) by failing to provide a final determination
22 for EcoRights' appeal within 20 business days after receipt of the appeal. EcoRights timely submitted
23 the appeal on March 10, 2017. FOIA required NMFS to provide its appeal determination by April 7,
24 2017. However, NMFS did not provide the determination by April 7, 2017 and as of the date of this
25 Complaint the appeal determination is 309 days overdue.

26 30. EcoRights has constructively exhausted its administrative remedies given NMFS's failure to
27 provide its appeal determination within FOIA's statutory time limits. 5 U.S.C. § 552(a)(6)(C)(i).

SECOND CLAIM FOR RELIEF

NMFS Violation of FOIA

5 U.S.C. §§ 552(a)(8)(A), 552(a)(6)(A)(i) and 552(a)(3)(A)

Request for Declaratory Relief and Injunction to Compel NMFS to Comply with FOIA Requirement to Release Documents Unless a Valid Exemption Applies

31. EcoRights reasserts and realleges paragraphs 1 through 30 above.

32. NMFS has violated 5 U.S.C. §§ 552(a)(8)(A) by withholding documents under invalid and unjustified claims of exemption under 5 U.S.C. §§ 552(b)(5), (b)(6), and b(7)(C). NMFS may not withhold documents unless foreseeable harm will occur to an interest protected by an enumerated exemption. 5 U.S.C. §§ 552(a)(8)(A)(i). NMFS has not shown that such foreseeable harm exists. NMFS has also violated 5 U.S.C. §§ 552(a)(8)(A)'s mandate that NMFS segregate and release non-exempt information. NMFS has redacted the entire substantive contents of 67 pages of information under attorney-client privilege and deliberative process exemptions without an adequate showing that NMFS attempted to segregate and release the non-exempt information in these pages.

33. NMFS has also violated FOIA by failing to comply with the 5 U.S.C. § 552(a)(6)(A)(i) requirement that the agency provide enough information, presented with sufficient detail, clarity, and verification, so that the requester can fairly determine what has not been produced and why. Exemptions are read narrowly and NMFS bears the burden of proving exemptions apply, which it has failed to do. 5 U.S.C. § 552(a)(4)(b). NMFS has failed to identify the specific exemption claimed for several documents that were redacted. Several documents identify Exemption 5 as the exemption claimed. However Exemption 5 could mean attorney work product, attorney-client privilege, or deliberative process. One document is redacted without any basis for the withholding identified.

34. NMFS's improper withholding of nonexempt documents also violates 5 U.S.C. § 552(a)(3)(A)'s mandate that requested records be promptly released unless they fall within one of FOIA's specifically enumerated disclosure exemptions. It has been eleven months since EcoRights submitted its appeal. Except for two redacted emails released 18 weeks after the appeal (not promptly), NMFS continues to withhold documents, without justifying they are exempt from disclosure.

THIRD CLAIM FOR RELIEF

NMFS Violation of FOIA

5 U.S.C. §§ 552(a)(3)(c)

Request for Declaratory Relief and Injunction to Compel NMFS to Perform a Reasonable Search

35. EcoRights reasserts and realleges paragraphs 1 through 34 above.

36. NMFS has violated 5 U.S.C. § 552(a)(3)(C) by failing to conduct a reasonable, legally adequate search for records responsive to EcoRights request. NMFS's search was inadequate because none of the documents NMFS initially released were from the OLE although EcoRights had specifically asked for OLE documents and EcoRights had reason to know that at least one OLE agent had responsive documents. After EcoRights submitted its appeal, NMFS released two emails, one apparently to an OLE agent and one apparently from an OLE agent. EcoRights makes these assumptions because the names of the sender and recipient have been redacted under Exemptions 6 and 7. The emails concern take of listed salmon and steelhead in the Yuba River. One of the emails indicates the OLE is likely to have more documents responsive to EcoRights' request, but NMFS failed to locate them because of its inadequate search.

PRAYER FOR RELIEF

WHEREFORE, EcoRights seeks the following relief:

a. A declaratory judgment pursuant to 5 U.S.C. § 552 declaring that NMFS violated FOIA by failing to provide the final determination for EcoRights' appeal in accordance with FOIA's statutory deadline;

b. A declaratory judgment that NMFS' failure to provide the appeal determination within the statutory deadline and produce non-exempt records promptly as required by FOIA constitutes illegal withholding of records;

c. A declaratory judgment pursuant to 5 U.S.C. § 552 that NMFS violated FOIA by: improperly withholding records that are not exempt from disclosure; failing to adequately explain how and why withheld information falls within a particular exemption; failing to adequately explain how disclosure would foreseeably harm interests protected by claimed exemptions; and failing to segregate and disclose non-exempt requested information;

1 d. A declaratory judgment that NMFS failed to perform a reasonable, legally adequate search for
2 documents responsive to EcoRight's request;

3 e. An injunction pursuant to 5 U.S.C. § 552(a)(4)(B) ordering NMFS to: 1) conduct a
4 reasonable, legally adequate search for records responsive to EcoRights' FOIA request within 20 days;
5 2) produce all non-exempt records in NMFS' possession responsive to EcoRights FOIA request within
6 30 days; and 3) provide EcoRights with a detailed, legally adequate explanation for the withholding of
7 any information responsive to Ecorights FOIA request within 30 days;

8 f. An award of attorneys fees and costs to EcoRights pursuant to 5 U.S.C. § 552(a)(4)(E); and

9 g. Such other and further relief as this Court deems just and proper.

10 **DISCLOSURE OF NON-PARTY INTERESTED ENTITIES OR PERSONS**

11 Based on EcoRights' knowledge to date, pursuant to Civil Local Rule 3-15, the undersigned
12 certifies that, as of this date, other than the named parties, there is no such interest to report.

Re: FOIA Request DOC-NOAA-2018-000437

Dear Paul Lannus,

This letter is in response to your Freedom of Information Act (FOIA) request which was received by our office on December 18, 2017, in which you requested:

REVISED DESCRIPTION: Under Title 5 of the United States Code Section 552 and the California Public Records Act, I hereby request an opportunity to inspect or obtain copies of the following records that pertain to the ship, USC&GSS Pioneer (OSS-31). · Ship/captain's logs for the USC&GSS Pioneer (OSS-31). · Documents concerning the presence or remediation (including abatement) of asbestos containing materials aboard or from the USC&GSS Pioneer (OSS-31). · Documents concerning the repair, overhaul or maintenance of the USC&GSS Pioneer (OSS- 31). · Photographs of the interior of the USC&GSS Pioneer (OSS-31). · Photographs of the exterior of the USC&GSS Pioneer (OSS-31). Documents identifying the commanding officer, officers, sailors and those aboard the USC&GSS Pioneer (OSS-31) during the relevant time period of 1956-1958. · Ship/captain's logs for the USS Mobjack (AGP-7), the predecessor to the USC&GSS Pioneer (OSS-31).

After searching our files we were unable to locate any records that are responsive to your request.

Although no records were located during our search, you have the right to appeal a “no document found” response. All appeals should include a statement of the reasons why you believe the FOIA response was not satisfactory. An appeal based on documents in this release must be received within 90 calendar days of the date of this response letter at the following address:

Assistant General Counsel for Litigation, Employment, and Oversight
U.S. Department of Commerce
Office of General Counsel
Room 5875
14th and Constitution Avenue, N.W.
Washington, D.C. 20230

An appeal may also be sent by e-mail to FOIAAppeals@doc.gov or by FOIAonline at <https://foiaonline.regulations.gov/foia/action/public/home#>.

For your appeal to be complete, it must include the following items:

- a copy of the original request,
- our response to your request,
- a statement explaining why the withheld records should be made available, and why the denial of the records was in error.
- “Freedom of Information Act Appeal” must appear on your appeal letter. It should also be written on your envelope, e-mail subject line, or your fax cover sheet.

FOIA appeals posted to the e-mail box, FOIAonline, or Office after normal business hours will be deemed received on the next business day. If the 90th calendar day for submitting an appeal falls on a Saturday, Sunday or legal public holiday, an appeal received by 5:00 p.m., Eastern Time, the next business day will be deemed timely.

FOIA grants requesters the right to challenge an agency's final action in federal court. Before doing so, an adjudication of an administrative appeal is ordinarily required.

The Office of Government Information Services (OGIS), an office created within the National Archives and Records Administration, offers free mediation services to FOIA requesters. They may be contacted in any of the following ways:

Office of Government Information Services
National Archives and Records Administration
Room 2510
8601 Adelphi Road

Washington, DC 20015

Re: FOIA Request DOC-NOAA-2018-000453

Dear Hallie G. Templeton,

This letter is in response to your Freedom of Information Act (FOIA) request which was received by our office on December 19, 2017, in which you requested:

REVISED DESCRIPTION: This request pertains specifically to any ESA Section 7 consultations, and NEPA categorical exclusion justifications, NEPA environmental assessments, and NEPA environmental impact statements, including any records related to the preparation of such documents and the documents themselves. These records should include, but not be limited to, any internal or external correspondence regarding the application of the aforementioned laws and preparation of assessments, statements, and consultations; any meetings or communications or other contact—including meeting minutes and scheduling notes—that involve the application of the aforementioned laws and preparation of assessments, statements, and consultations; as well as any findings, conclusions, recommendations, or actions taken.

After searching our files we were unable to locate any records that are responsive to your request but can provide some information. In releasing this Federal Funding Opportunity (FFO) for aquaculture research, the National Sea Grant Office included language that requires applicants to provide information to allow for a detailed environmental compliance assessment under National Environmental Policy Act (NEPA).

Proposals for this Federal Funding Opportunity are due on March 30th, 2018 and environmental compliance review of these projects will not begin until after applications have been received and subjected to a selection panel. Final review of NEPA compliance for each selected project will adhere to the requirements and guidance in the NOAA Companion Manual for NOAA Administrative Order 216-6A.

Although no records were located during our search, you have the right to appeal a “no document found” response. All appeals should include a statement of the reasons why you believe the FOIA response was not satisfactory. An appeal based on documents in this release must be received within 90 calendar days of the date of this response letter at the following address:

Assistant General Counsel for Litigation, Employment, and Oversight
U.S. Department of Commerce
Office of General Counsel

Room 5875
14th and Constitution Avenue, N.W.
Washington, D.C. 20230

An appeal may also be sent by e-mail to FOIAAppeals@doc.gov or by FOIAonline at <https://foiaonline.regulations.gov/foia/action/public/home#>.

For your appeal to be complete, it must include the following items:

- a copy of the original request,
- our response to your request,
- a statement explaining why the withheld records should be made available, and why the denial of the records was in error.
- “Freedom of Information Act Appeal” must appear on your appeal letter. It should also be written on your envelope, e-mail subject line, or your fax cover sheet.

FOIA appeals posted to the e-mail box, FOIAonline, or Office after normal business hours will be deemed received on the next business day. If the 90th calendar day for submitting an appeal falls on a Saturday, Sunday or legal public holiday, an appeal received by 5:00 p.m., Eastern Time, the next business day will be deemed timely.

FOIA grants requesters the right to challenge an agency's final action in federal court. Before doing so, an adjudication of an administrative appeal is ordinarily required.

Re: FOIA Request DOC-NOAA-2018-000572

Dear Mr. Ruch,

This letter is in response to your Freedom of Information Act (FOIA) request which was received by our office on January 24, 2018, in which you requested:

Pursuant to the Freedom of Information Act, 5 U.S.C. 552, as amended, Public Employees for Environmental Responsibility (PEER), requests information concerning recent actions to comply with the requirements of the Animal Welfare Act by two components of the National Oceanic & Atmospheric Administration (NOAA): the Oceanic & Atmospheric Research (OAR) and the National Ocean Service (NOS). Specifically, we request the following:

1. The roster for the IACUC members for OAR and NOS;
2. Minutes of the IACUC meetings for OAR and NOS;
3. Actions that OAR and NOS have taken to ensure that their in-house animal research is compliant with the Animal Welfare Act; and
4. Actions that OAR and NOS have taken to ensure that any grant or contract animal research that either fund search is compliant with the Animal Welfare Act.

This request is limited to records created or describing activities, such as IACUC meetings, during the time-period between January 1, 2015 and the present.

After searching our files we were unable to locate any records that are responsive to your request.

Although no records were located during our search, you have the right to appeal a “no document found” response. All appeals should include a statement of the reasons why you believe the FOIA response was not satisfactory. An appeal based on documents in this release must be received within 90 calendar days of the date of this response letter at the following address:

Assistant General Counsel for Litigation, Employment, and Oversight
U.S. Department of Commerce
Office of General Counsel

Room 5875
14th and Constitution Avenue, N.W.
Washington, D.C. 20230

An appeal may also be sent by e-mail to FOIAAppeals@doc.gov or by FOIAonline at <https://foiaonline.regulations.gov/foia/action/public/home#>.

For your appeal to be complete, it must include the following items:

- a copy of the original request,
- our response to your request,
- a statement explaining why the withheld records should be made available, and why the denial of the records was in error.
- “Freedom of Information Act Appeal” must appear on your appeal letter. It should also be written on your envelope, e-mail subject line, or your fax cover sheet.

FOIA appeals posted to the e-mail box, FOIAonline, or Office after normal business hours will be deemed received on the next business day. If the 90th calendar day for submitting an appeal falls on a Saturday, Sunday or legal public holiday, an appeal received by 5:00 p.m., Eastern Time, the next business day will be deemed timely.

FOIA grants requesters the right to challenge an agency's final action in federal court. Before doing so, an adjudication of an administrative appeal is ordinarily required.

The Office of Government Information Services (OGIS), an office created within the National Archives and Records Administration, offers free mediation services to FOIA requesters. They may be contacted in any of the following ways:

**Re: Freedom of Information Act Request
Fee Waiver Requested**

Dear Sir/Madam,

Records Requested

Pursuant to the Freedom of Information Act, through this office Stop Geoengineering Minnesota (“SGM”), requests all records¹ from January 1, 2015 to the present discussing, documenting, memorializing, or otherwise concerning:

- (1) weather modification within the Weather Service Organization Workforce Analysis;
- (2) the reason for adoption of the confidentiality provision of the “Operations and Workforce Analysis (OWA) Project: Charter for All Workstream Core Teams” a copy of which is attached hereto;

Fee Waiver Requested

Stop Geoengineering Minnesota (“SGM”) requests that the Department of Commerce waive any applicable fees because disclosure meets the statutory standard for waiver of fees in that it is “in the public interest because furnishing the information can be considered as primarily benefitting the general public,” 5 U.S.C. § 552(a)(4)(A). SGM is a project of the non-profit Minnesota Natural Health Coalition. SGM is itself a non-profit entity whose purpose is to

¹ “Records,” includes all documents, correspondence, including email; agency guidelines and policies; memoranda; agency Memoranda of Understanding; notices, comments, and responses to comments; biological, scientific, and other studies; reports; environmental analyses; surveys; timelines; charts; graphs; maps; analyses; data; meeting minutes and agendas; distribution lists; notes and transcripts of meetings and conversations; and any other relevant information, **whether in hard copy or electronic/computer format.**

educate the public about how geoengineering and weather modification can impact public health. SGM has no intention to use the information sought in furtherance of any commercial interest.

(1) The Subject of the Request. The requested records concern the activities of the Department of Commerce and other government agencies regarding weather modification. The subject matter of this request therefore involves information that will significantly contribute to the public's understanding of the government's operations and activities in regards to weather modification.

(2) The Informative Value of the Information to Be Disclosed. The requested records are likely to contribute to an understanding of government operations or activities. The Department of Commerce is involved in weather modification activities and research. The requested records will provide insight into the Department of Commerce's process for implementing and regulating weather modification. Many of the requested records may contain information that is not currently available to the general public; therefore, release of the requested records would represent a significant new contribution to the public domain. For these reasons, the requested records will be highly informative in relation to the subject matter of the request, and will further public understanding.

(3) Contribution to General Public Understanding. SGM's mission is to educate the public about how geoengineering and weather modification can impact public health. SGM makes this request for the purposes of providing information about governmental activities and standards, including those of Department of Commerce, to concerned members of the public. SGM is interested in the requested records because they will likely help SGM and the public better understand the methods and procedures which the Department of Commerce has for implementing and regulating weather modification.

(4) The Significance of the Contribution to Public Understanding. The requested records are likely to contribute significantly to public understanding of government operations or activities. SGM will disseminate the disclosed records to a reasonably broad audience of persons interested in the subject. SGM regularly informs, educates and counsels the public regarding weather modification and government involvement in implementing and regulating weather modification. The subject of this FOIA request will be used to contribute to one or more of the following: public presentations, news stories contributed to or written by SGM volunteers and/or members, and/or websites (<http://www.minnesotanaturalhealth.org/stopgeoengineeringmn.html> and <http://stopgeoengineeringmn.squarespace.com>). Exactly which of these uses of the information addressed in this FOIA request will be determined after complete review of the requested material. SGM's members, volunteers, and counsel bring a broad range of expertise, skills, and familiarity with weather modification that will enable SGM to review and understand the responsive records and to supply this information in a coherent and understandable way to the general public and the media. SGM can draw on scientists, attorneys, and others to review and summarize this information. SGM certainly has the necessary qualifications relevant to any use of the records that may come about upon reviewing them. SGM's contribution to the public understanding, as compared to the level of understanding prior to disclosure, as well as SGM's

intent to inform the public, are well established. Moreover, many of the records requested may not have been publicly released to date. A requester is likely to contribute significantly to the public understanding if the information disclosed is new; supports public oversight of agency operations; or otherwise confirms or clarifies data on past or present operations of the government. 132 Cong. Rec. H9464 (Reps. English and Kindness).

(5) The Existence and Magnitude of a Commercial Interest. SGM has no commercial interest that would be furthered by the requested disclosure. SGM is a non-profit entity and requests the information to further its scientific, legal, and educational efforts. The FOIA fee waiver amendments of 1986 were designed specifically to allow nonprofit, public interest groups, such as SGM, access to government records without the payment of fees. FOIA's fee waiver provision is to be liberally construed in favor of waivers for noncommercial requesters.

Department of Commerce Response

Please submit responsive records, along with an index for any records withheld that clearly identifies the basis for withholding, to the letterhead address above. Please segregate any records you determine are exempt and provide the remainder and the reasons for not providing all of the responsive records.

The basic time limit for responding to FOIA requests is twenty work days. See 5 U.S.C. § 552(a)(6)(A). This time limit can be extended under certain limited circumstances for at most an additional ten working days. *See id.* at § 552(a)(6)(B).

Please provide all responsive documents that are in the files maintained by Department of Commerce personnel or offices on the date that Department of Commerce staff conducts their searches for the documents responsive to this request.¹ **SGM requests that to the extent that the Department of Commerce can do so, it furnish electronic copies of the above documents in lieu of paper copies (to minimize the expense and burden of copying).** 5 U.S.C. § 552(a)(3)(B) (note, as amended in 1996 FOIA mandates that "an agency shall provide the record in any form or format requested by the person if the record is readily reproducible by the agency in that form or format.")

Please contact this office if you have any questions regarding the scope of this request, the nature of the records sought, or any other aspect of this request. I look forward to hearing from you.

By signing below, I certify that the reasons provided for a fee waiver are true and correct.

Sincerely,

Brian Gaffney

Or. 2006) (federal agencies must release all documents in their possession through the date they conduct the review of their files for documents responsive to FOIA requests).

Operations and Workforce Analysis (OWA) Project: Charter for All Workstream Core Teams

The National Weather Service (NWS) Operations and Workforce Analysis (OWA) project is supported by four “Core Teams” that are each focused on one of the following topics:

- Communications and stakeholder engagement
- Organizational structure
- Operating model (including Impact-based Decision Support Services or IDSS)
- Workforce analysis

The membership of the Core Teams include NWS employees from across the organization who were approved for participation by NWS leadership. They also include National Weather Service Employees Organization (NWSEO) bargaining unit members who were recommended by NWSEO for each workstream. McKinsey & Company, which is working as an independent third-party consultant for NWS, is also participating on the teams. The Core Teams will provide essential support to the overall OWA project. This charter will establish the scope of activities and responsibilities of the Core Teams.

The main activities of the Core Teams are to:

1. **Support the Operations and Workforce Committee (OWC)**¹ in reviewing project analyses, developing and assessing options for the OWA, and answering questions or replying to requests for additional information.
2. **Assist and collaborate** with NWS OWA project leadership and McKinsey as they conduct their assessment of the NWS to ensure a collaborative and customized approach while preserving objectivity and independence. This collaboration could include participation in data calls, working groups, and/or research, and through providing guidance on action steps to take leading up to OWC² meetings.
3. **Augment and support** the data, information, perspectives, and ideas collected through application of individual expertise, experience, and insights (e.g., adding the perspective of Weather Forecast Offices, recommending subject matter experts (SME) for specific topics).
4. **Review and engage** on McKinsey's methodologies, insights, results and recommendations for accuracy and suggest changes if needed. To ensure an unbiased assessment, McKinsey will have final determination on the content presented to the OWC but it will be developed in a joint and collaborative effort with the Core Teams and subject matter experts.

Expectations for each member of the Core Teams include the following (may be adapted as needed, and notice will be given to ensure awareness and agreement with any changes):

- **Confidentiality: Core Team members, consultants, and SMEs are expected to maintain at all times the highest level of privacy and confidentiality regarding all information and materials shared as part of the OWA project, including initial findings and of all Core Team discussions, unless otherwise indicated (e.g., to share an approved project update that is intended to reach all NWS staff). Any interim reports or materials are considered to be**

¹ The National Weather Service (NWS) Executive Council (EC) established the NWS Operations and Workforce Committee (OWC) for the purposes of providing guidance to and making decisions on the OWA project.

drafts and are not to be shared beyond the Core Team and any consultants or SMEs who are providing independent advice. Core Team members will indicate their understanding of this requirement by signing this Charter. Consultants and SMEs will be covered as appropriate by separate non-disclosure agreements.

- **Commitment:** Core Team members are expected to fully participate in regular team meetings (in person or as conference calls, depending on location); in addition they are responsible for completing document reviews, communication steps. and other actions between meetings.
- **Role:** Core Team members are critical to the OWA in contributing insights in their areas of expertise, conducting analyses of surveys and interviews and generating input / data / that can inform the options and reports that McKinsey provides to the OWC.
- **Scope:** The Core Team activities are pre-decisional, only. In this capacity Core Team members provide input / data / guidance, serving a critical role as action-oriented groups such that when decisions are made (e.g., the approval of language for a survey or information for the website), the teams will be responsible for next steps.
- **Support:** The Core Teams will call on and engage with a cohort of Subject Matter Experts (SMEs) within the organization when needed to address specific questions, analyses or provide other expert insight
- **Duration:** The Core Teams will be in place through Phase II of the OWA project and will be considered for extended participation Phase III based on availability, interest and relevance to their area of expertise. Phase II will extend through approximately mid-October of 2015.

If you, or another Core Team member, have any questions or concerns about the Core Team Charter or other aspects of your participation, please contact Joanne Swanson Kagan, NWS OWA Project leader, at joanne.swanson@noaa.gov; Direct: 301-427-9066 or Cell: 240-393-0415. Thank you for your service to this project.

I have reviewed the Operations and Workforce Analysis (OWA) Project: Charter for All Workstream Core Teams, and I confirm that I will strictly maintain the confidentiality of all information in accordance with the Charter.

Good Morning,

(b)(5)

1. Absolutely any and all logs, reports, spreadsheets, databases, or other materials* detailing all settlements or similar dispute resolutions to which this agency, or any division thereof, was a party, including, but not limited to:
 - a. all conciliatory agreements related to complaints or court or legal proceedings against any representative of or office of this agency.
2. Please include all available segregable data, including:
 - a. the entities involved
 - b. the date on which the initial complaint or court action was brought
 - c. the nature of the charge or complaint
 - d. the nature of the dispute resolution (i.e. in-court, out-of-court, in-agency mediation, third-party, etc.)
 - e. any financial agreements associated with the settlement
 - f. the date on which the case was closed.
3. Please provide all available materials from January 1, 2010 through October 31, 2017.
4. CLARIFICATION: Requester clarified that she is seeking, "a list or log with certain more specific information (the date, the nature of the claim or case, the amount paid in settlement, etc.), rather than *all materials*, but I would like any such logs capturing all settlements or similar dispute resolutions within the temporal scope."

(b)(5)

(b)(5)

If you have any questions or would like to discuss further, please feel free to contact me at skhalid@doc.gov or x7432.

Regards,

Sulma Khalid

FOIA/PA Analyst (Contractor)

U.S. Department of Commerce

Office of Privacy and Open Government

3. Please provide all available materials from January 1, 2010 through October 31, 2017.
4. CLARIFICATION: Requester clarified that she is seeking, "a list or log with certain more specific information (the date, the nature of the claim or case, the amount paid in settlement, etc.), rather than *all materials*, but I would like any such logs capturing all settlements or similar dispute resolutions within the temporal scope."

- ***Please note that if your bureau does not maintain a list, log, spreadsheet, or any other sort of database listing the type of information sought by the requester, you may return to us a “no records” response. The FOIA does not require the Department to create records not already in existence in response to FOIA requests.**
- You must search every place that could reasonably be expected to have responsive documents.
- The date range for records that may be responsive to this request is January 1, 2010 through October 31, 2017. Records created before January 1, 2010 or after October 31, 2017 are not responsive to the request.
- If you identify any records:
 - Please provide electronic copies of the records to me within ten (10) business days of the date of this letter—on or before January 3, 2017.
 - Upload documents in FOIAonline following the instructions in the attachment entitled “Instructions for uploading documents into FOIAonline.”
 - Identify whether you believe the records, or any portions thereof, should be withheld from disclosure.
 - Attached is a copy of FOIA Exemptions to assist you with making withholding determinations.
 - Sulma Khalid is also available to answer any questions you may have about FOIA Exemptions or the FOIA request by phone at 202-482-7432, or by email at skhalid@doc.gov.
 - Sign and date the attached Certification of Search.
 - Return the completed Certification of Search along with the responsive records to my office.
- If you do not identify any responsive records:
 - Check the box “My Office has found no responsive document” on the attached Certification of Search.
 - Sign and date the Certification of Search.
 - Return the completed Certification of Search to my office.

Attachments

1. Instructions for uploading documents into FOIAonline
2. Certification of Search
3. FOIA Exemptions

Instructions for uploading documents into FOIAonline

A signed Certification of Search should be uploaded separately in Case File/Correspondence/Other. Only the Certification of Search signed by the FOIA Officer/Senior Official from the Bureau should be uploaded. Please do not upload Sub-Agency Taskers.

Responsive documents are to be uploaded in Case File/Records. Please identify whether you believe the document, or any portion of it, should be withheld from disclosure. You must include the FOIA exemption next to any information you identify as protected from disclosure.

- A clean copy and redacted copy shall be uploaded on FOIAonline.
- The clean copy will be uploaded with an UU (Unredacted – Unreleaseable) Publish Option.
- Redacted copy will be uploaded and grouped by exemptions applied, i.e., RR (Redacted-Releaseable) - (b)6, (b)5 (please include the privilege used).
- The format to be used for “Title” of uploaded documents: ITA - 24 documents, RR, (b)4, (b)6. (Bureau [not sub agency] - number of documents - Publish Options – exemptions).
- For documents that are completely withheld UU-Unredacted – Unreleaseable; and RU-Redacted-Unreleaseable (you must apply an Exemption in the Action Column).
- For referred documents use the following format for “Title:” 15 documents refer to NTIA.

Certification of Search for FOIA Request No. DOC-OS-2017-000225

THIS RESPONSE MUST BE SIGNED BY A SENIOR OFFICIAL IN YOUR OFFICE.

Please contact me if you have any questions about the scope of this request or the FOIA exemptions, at 202-482-3842.

Please sign this sheet of paper and check all of the appropriate boxes

- Uploaded in FOIAonline are all documents in the possession of my office which are responsive and can be released in entirety.
- Uploaded in FOIAonline are all documents within the possession of my office which are responsive and we have found reason to partially withhold. One clean copy and one redacted copy have been uploaded.
- Uploaded in FOIAonline are all documents within the possession of my office which are responsive and we have found reason to withhold entirely, each document to be withheld entirely has been noted.
- Uploaded in FOIAonline are all documents within the possession of my office which are responsive and must be referred to the originating office, bureau, or federal agency for disclosure determinations.
- My office has found no responsive documents.
- All disclosure determinations have been made by the Commerce Office that originated or has control of the documents
- A foreseeable harm review and analysis has been completed for all withheld documents and portions of documents and it has been determined that disclosure of the withheld material would result in harm to an interest protected by the asserted exemption or that disclosure is prohibited by law. Name of person most knowledgeable with the issue of foreseeable harm:

FOIA Exemptions

Exemption 1: classified national defense and foreign relations information;

Exemption 2: internal agency personnel rules and practices;

Exemption 3: information that is prohibited from disclosure by another federal law;

Exemption 4: trade secrets and other confidential or privileged commercial or financial information;

Exemption 5: inter-agency or intra-agency communications that are protected by legal privileges, including the deliberative process, attorney-client and attorney work-product privileges;

Exemption 6: information involving matters of personal privacy;

Exemption 7: records or information compiled for law enforcement purposes, to the extent that the production of those records:

Exemption (7)(A) could reasonably be expected to interfere with enforcement proceedings,

Exemption (7)(B) would deprive a person of a right to a fair trial or an impartial adjudication,

Exemption (7)(C) could reasonably be expected to constitute an unwarranted invasion of personal privacy,

Exemption (7)(D) could reasonably be expected to disclose the identity of and/or information provided by a confidential source,

Exemption (7)(E) would disclose techniques and procedures for law enforcement investigations or prosecutions, or would disclose guidelines for law enforcement investigations or prosecutions, or

Exemption (7)(F) could reasonably be expected to endanger the life or physical safety of any individual;

Exemption 8: information relating to the supervision of financial institutions; and

Exemption 9: geological information on wells.

Subject: February Monthly FOIA Report
Attachments: ERF, Complaint.pdf; ERF Summons.pdf; FOIA Monthly Status Report 02 28 2018.pdf; FOIA Monthly Status Report 02 28 2018.xlsx

Good Morning,

The February 2018 Monthly FOIA Report is attached. Several highlights include:

- The backlog has continued to move higher. With a backlog currently at 91, our backlog is 44% higher than our all time low hit in April of last year. The higher backlog is a result of several factors, including increased FOIA submissions across the Department, and delays in FOIAOnline processing. It is imperative that we renew the push to drive down the backlog and improve NOAA's overall compliance with timely response and production requirements.
- Several offices, including AGO, OAR, and CAO, are facing increased submission rates, and as a result, their backlog is much higher than ordinarily seen in those offices. Average closure rates in those offices have been difficult to improve with their limited resources.

DOC/GC has indicated that FOIA lawsuits currently are being filed at a rate 550% of the rate seen from FY

2013 2016 across the department. Other scientific and environmental agencies are seeing similar spikes in FOIA lawsuits. For example, as of February, year over year, EPA has seen a 311% increase in FOIA lawsuits, and DOI has seen a 600% increase in FOIA lawsuits.

A new FOIA complaint was filed by the Ecological Rights Foundation in the Northern District of California. NOAA completed production on February, 2017, and the requester appealed NOAA's final response. The Plaintiff is challenging the constructive denial on the response to their administrative appeal to DOC, the Exemption applicability, and NOAA's search adequacy. A copy of the original request and the complaint filed in California are attached.

AO 440 (Rev. 06/12) Summons in a Civil Action

UNITED STATES DISTRICT COURT

for the

Northern District of California

Ecological Rights Foundation

Plaintiff(s)

v.

National Marine Fisheries Service

Defendant(s)

Civil Action No. 3:18-cv-00888

SUMMONS IN A CIVIL ACTION

To: (Defendant's name and address)

National Marine Fisheries Service c/o
Chris Oliver
Director of NOAA Fisheries
1315 East West Highway, Suite 14743
Silver Spring, MD 20910

A lawsuit has been filed against you.

Within 21 days after service of this summons on you (not counting the day you received it) — or 60 days if you are the United States or a United States agency, or an officer or employee of the United States described in Fed. R. Civ. P. 12 (a)(2) or (3) — you must serve on the plaintiff an answer to the attached complaint or a motion under Rule 12 of the Federal Rules of Civil Procedure. The answer or motion must be served on the plaintiff or plaintiff's attorney, whose name and address are:

Patricia Linn
Law Office of Patricia Linn
115 Oakdale Ave.
Mill Valley, CA
94941

If you fail to respond, judgment by default will be entered against you for the relief demanded in the complaint. You also must file your answer or motion with the court.

Civil Case No.

**COMPLAINT FOR DECLARATORY
AND INJUNCTIVE RELIEF**

25
26
27
28

1 Ecological Rights Foundation (“EcoRights”) alleges as follows:

2 **INTRODUCTION**

3 1. EcoRights brings this action under the Freedom of Information Act ("FOIA"), which allows
4 an aggrieved party to seek relief when documents are unlawfully withheld, and authorizes a reviewing
5 court to enjoin the agency from withholding records and to order the production of any agency records
6 improperly withheld from the complainant. 5 U.S.C. § 552(a)(4)(B). EcoRights seeks declaratory and
7 injunctive relief for FOIA violations by the National Marine Fisheries Service ("NMFS"). At issue in
8 this case is a FOIA request to NMFS seeking documents related to NMFS West Coast Region's
9 Endangered Species Act ("ESA") Section 7 consultations with the Army Corps of Engineers ("Corps")
10 and NMFS's regulatory oversight of Corps operations and infrastructure on the Yuba River that
11 adversely impact spring run Chinook salmon, steelhead trout, and green sturgeon which are listed as a
12 threatened species under the ESA. EcoRights alleges that NMFS: 1) failed to provide a final
13 determination for EcoRights' administrative appeal within statutory time limits; 2) improperly withheld
14 information not subject to specific, enumerated exemptions; 3) failed to provide legally adequate
15 explanations for the withholding of requested information; 4) failed to promptly release non-exempt
16 information responsive to EcoRight's FOIA request; 5) failed to segregate and release non-exempt
17 information; and 6) failed to perform a reasonable, legally adequate search for responsive records.

18 **JURISDICTION**

19 2. This Court has subject matter jurisdiction under 5 U.S.C. section 552(a)(4)(B), which allows an
20 aggrieved party to seek relief when records are unlawfully withheld, and authorizes a reviewing court to
21 enjoin the agency from withholding records and to order the production of any agency records
22 improperly withheld from the complainant.

23 3. This Court has personal jurisdiction over NMFS and its officials because NMFS, a branch of
24 the National Oceanic and Atmospheric Administration ("NOAA"), is an agency of the federal
25 government operating within the United States.

1 **VENUE**

2 4. Venue in the United States District for the Northern District of California is proper under
3 5 U.S.C. section 552(a)(4)(B) because the complainant has its principal place of business in the Northern
4 District, and many of the records sought by complainants are most likely situated in the NMFS and
5 NOAA offices located within the Northern District.

6 **INTRADISTRICT ASSIGNMENT**

7 5. Intradistrict assignment of this matter to the San Francisco Division of the Court is appropriate
8 pursuant to Civil Local Rule 3-2(d) because EcoRights’ principal place of business is located in
9 Garberville, California.

10 **THE PARTIES**

11 6. Ecological Rights Foundation ("EcoRights") is a non-profit, public benefit corporation,
12 organized under the laws of the State of California, devoted to furthering the rights of all people to a
13 clean, healthful and biologically diverse environment. To further its environmental advocacy goals,
14 EcoRights actively seeks federal and state agency implementation of state and federal wildlife-related
15 laws, and as necessary, directly initiates enforcement actions on behalf of itself and its members.

16 7. Defendant NMFS, a division of the Department of Commerce, is the agency of the United
17 States Government responsible for administering and implementing the ESA for anadromous fisheries
18 and generally is responsible for the stewardship of the nation's living marine resources and their habitat.

19 **STATUTORY BACKGROUND**

20 8. FOIA requires that an agency disclose records to any person except where the records fall
21 under a specifically enumerated exemption. 5 U.S.C. § 552. The courts have emphasized the narrow
22 scope of these exemptions and “the strong policy of the FOIA that the public is entitled to know what its
23 government is doing and why.” *Coastal States Gas Corp. v. Dep’t of Energy*, 617 F.2d 854, 868 (D.C.
24 Cir. 1980).

25 9. FOIA requires that an agency, upon any request for records, shall make the records available
26 promptly. 5 U.S.C. § 552(a)(3)(A). An agency shall make a determination whether to comply with a
27 request within twenty (20) business days after the receipt of the request and shall immediately notify the

1 party making the request of such determination, the reasons for the determination, and the party's right
2 to appeal. 5 U.S.C. § 552(a)(6)(A)(i). In unusual circumstances, the agency may extend the time for the
3 determination, for no more than ten (10) days, by written notice to the party, specifying the reasons for
4 the extension and the date on which the determination is expected to be sent. 5 U.S.C. § 552(a)(6)(B)(i).

5 10. Federal agencies are under a duty to conduct a reasonable search for records responsive to a
6 party's request using methods that can be reasonably expected to produce the information requested to
7 the extent they exist. 5 U.S.C. § 522(a)(3)(C).

8 11. When an agency decides to withhold records under a claim of exemption it must notify the
9 person making such request of such determination and the reasons therefor. 5 U.S.C. § 552(a)(6)(A)(i).
10 Government agencies bear the burden of proof to show that any withheld documents are exempt from
11 the duty to disclose. 5 U.S.C. § 522(a)(4)(B).

12 12. A party may appeal to the head of the agency any adverse determination. 5 U.S.C. §
13 552(a)(6)(A)(i). An agency shall make a determination with respect to any appeal within twenty (20)
14 business days after the receipt of such appeal. 5 U.S.C. § 552(a)(6)(A)(ii). If an agency does not respond
15 within the FOIA time limits, a party will be deemed to have exhausted its administrative remedies.
16 5 U.S.C. § 552(a)(6)(C)(i).

17 13. On June 30, 2016, President Obama signed into law the FOIA Improvement Act of 2016. The
18 Act made significant amendments to FOIA, effective as of enactment on June 30, 2016. 5 U.S.C. § 522,
19 § 6; OIP Summary of the FOIA Improvement Act of 2016. The amendments include changes to the
20 standard by which NMFS must evaluate withholdings. The FOIA Improvement Act of 2016 dictates that
21 agencies shall withhold information only if disclosure would harm an interest protected by an exemption
22 what is referred to as the "foreseeable harm standard." 5 U.S.C. § 552(a)(8)(A)(i); OIP Summary of
23 the FOIA Improvement Act of 2016.

24 14. Additionally, FOIA requires an agency to consider partial disclosure whenever the agency
25 determines that a full disclosure of a requested record is not possible and to take reasonable steps
26 necessary to segregate and release nonexempt information. 5 U.S.C. § 552(a)(8)(A).

1 15. An agency's process for dealing with FOIA requests constitutes "withholding" if its net effect
2 is significantly to impair the requester's ability to obtain the records or significantly increase the amount
3 of time he or she must wait to obtain them. *McGehee, III v. Central Intelligence Agency*, 697 F.2d 1095,
4 1110 (D.C. Cir. 1983), *vacated in part on other grounds*, 711 F.2d 1076 (1983).

5 FACTUAL BACKGROUND

6 **NMFS's Response to EcoRights' December 6, 2016 FOIA Request**

7 16. On December 6, 2016 EcoRights, via counsel, sent a FOIA request to NMFS seeking three
8 categories of documents: 1) documents containing input NMFS West Coast Region staff provided to
9 NOAA headquarters detailing the impacts of an Army Corps of Engineers ("Corps") memo known as
10 the Stockdale Memo. The Stockdale Memo laid out strict guidelines limiting Corps ESA Section 7
11 consultations with NMFS and the U.S. Fish and Wildlife Service; 2) documents to or from NMFS
12 counsel Chris Kiefer related to a draft letter from NMFS to the Corps entitled "Endangered Species Act
13 Section 7(a)(2) Concurrence Letter for the U.S. Army Corps of Engineers' (Corps) Ongoing Operation
14 and Maintenance of Englebright Dam and Reservoir on the Yuba River;" and 3) documents in the
15 possession of any NOAA Fisheries Office, Department and/or Division, including any NOAA law
16 enforcement division, related to whether any entities or individuals are causing or have caused
17 unauthorized take of threatened or endangered fish species in the Yuba River in the vicinity of
18 Englebright Dam and Daguerre Point Dam.

19 17. On December 14, 2016 NMFS sent a letter to EcoRights counsel, Christopher Hudak,
20 acknowledging receipt of the request on December 12, 2016 and assigning it tracking number DOC-
21 NOAA-2017-000257. The acknowledgement letter stated that NMFS was extending the time for its
22 response by ten business days because the agency needed to search for and collect the requested records
23 from field facilities or other establishments separate from the office processing the request.

24 18. On February 13, 2017 NMFS sent EcoRights its final determination partially granting and
25 partially denying EcoRights' request. NMFS stated it had located 309 documents responsive to the
26 request and had released 239 of these documents in their entirety, via FOIAonline. Fifty-four documents
27

1 were partially withheld under attorney work product, attorney client privilege, deliberative process
2 exemptions pursuant to 5 U.S.C. 552(b)(5) ("Exemption 5") and the right to privacy exemption pursuant
3 to 5 U.S.C. § 552(b)(6) ("Exemption 6"). The final determination also stated that 16 documents that had
4 originated from other agencies were referred to those agencies for release determination and direct
5 response to EcoRights.

6 19. On March 10, 2017 EcoRights timely appealed NMFS's final determination to the Office of
7 the General Counsel of the Department of Commerce ("DOC Counsel"). EcoRights' administrative
8 appeal contended that NMFS: 1) had failed to make a reasonable search for responsive documents; 2)
9 had improperly withheld documents under vague and unjustified claims of deliberative process and
10 attorney-client privilege exemptions; 3) had withheld information with no exemption claim; 4) had not
11 shown the existence of foreseeable harm to an interest protected by Exemptions 5 and 6 that would
12 permit the agency to withhold information under these exemptions; and 5) had failed to segregate factual
13 material and make partial disclosures where possible.

14 20. EcoRights' appeal contended NMFS's search was inadequate because none of the documents
15 NMFS had released were from the NOAA Office of Law Enforcement ("OLE") although EcoRights had
16 specifically asked for OLE documents and EcoRights had reason to know that at least one OLE agent
17 had responsive documents.

18 21. The 20 business days deadline for NMFS to provide its final determination for EcoRights'
19 appeal was April 7, 2017.

20 22. On July 18, 2017 NMFS posted to FOIAonline two redacted emails, apparently from the
21 OLE. EcoRights was not notified that NMFS had released these two OLE documents on FOIAonline.
22 The two emails had information redacted pursuant to Exemption 6 and Exemption 7 (5 U.S.C. §
23 552(b)(7)(C)).

24 23. On October 2, 2017 EcoRights' counsel sent an email to NMFS FOIA officers and the DOC
25 Counsel's office requesting an update on the status of the appeal. The DOC Counsel and NMFS did not
26 respond.
27

1 24. On October 25, 2017 EcoRights' counsel sent another email to NMFS FOIA officers and the
2 DOC Counsel's office which requested that NMFS provide the final appeal determination by November
3 3, 2017 and warned that if the determination was not provided by that date EcoRights might seek
4 judicial relief.

5 25. On October 30, 2017 Michael Bogomolny, Acting Chief, Information Law Division, of the
6 DOC Counsel's Office responded to EcoRights' October 25, 2017 request and stated that he expected
7 EcoRights would have the appeal determination "this week." However, the DOC Counsel's office did
8 not provide the appeal determination that week.

9 26. On January 31, 2018 Ecorights' counsel sent another email to the DOC Counsel's office
10 requesting a status update. Mr. Bogomolny responded that same day and stated he would provide "a full
11 status update before the end of the week." However, he did not. Instead, on February 2, 2018 he sent yet
12 another email stating he was "committing to releasing a final determination of the appeal in this matter
13 next week." However he did not release the determination that week.

14 27. As of the date of this Complaint the DOC Counsel has not released the appeal final
15 determination and it is 309 days overdue.

16 **FIRST CLAIM FOR RELIEF**
17 **NMFS Violation of FOIA**
18 **5 U.S.C. §§ 552(a)(6)(ii) and 552(a)(3)(A)**
19 **Request for Declaratory Relief**

20 28. EcoRights reasserts and realleges paragraphs 1 through 27 above.

21 29. NMFS has violated 5 U.S.C. § 552(a)(6)(A)(ii) by failing to provide a final determination
22 for EcoRights' appeal within 20 business days after receipt of the appeal. EcoRights timely submitted
23 the appeal on March 10, 2017. FOIA required NMFS to provide its appeal determination by April 7,
24 2017. However, NMFS did not provide the determination by April 7, 2017 and as of the date of this
25 Complaint the appeal determination is 309 days overdue.

26 30. EcoRights has constructively exhausted its administrative remedies given NMFS's failure to
27 provide its appeal determination within FOIA's statutory time limits. 5 U.S.C. § 552(a)(6)(C)(i).

SECOND CLAIM FOR RELIEF

NMFS Violation of FOIA

5 U.S.C. §§ 552(a)(8)(A), 552(a)(6)(A)(i) and 552(a)(3)(A)

Request for Declaratory Relief and Injunction to Compel NMFS to Comply with FOIA Requirement to Release Documents Unless a Valid Exemption Applies

31. EcoRights reasserts and realleges paragraphs 1 through 30 above.

32. NMFS has violated 5 U.S.C. §§ 552(a)(8)(A) by withholding documents under invalid and unjustified claims of exemption under 5 U.S.C. §§ 552(b)(5), (b)(6), and b(7)(C). NMFS may not withhold documents unless foreseeable harm will occur to an interest protected by an enumerated exemption. 5 U.S.C. §§ 552(a)(8)(A)(i). NMFS has not shown that such foreseeable harm exists. NMFS has also violated 5 U.S.C. §§ 552(a)(8)(A)'s mandate that NMFS segregate and release non-exempt information. NMFS has redacted the entire substantive contents of 67 pages of information under attorney-client privilege and deliberative process exemptions without an adequate showing that NMFS attempted to segregate and release the non-exempt information in these pages.

33. NMFS has also violated FOIA by failing to comply with the 5 U.S.C. § 552(a)(6)(A)(i) requirement that the agency provide enough information, presented with sufficient detail, clarity, and verification, so that the requester can fairly determine what has not been produced and why. Exemptions are read narrowly and NMFS bears the burden of proving exemptions apply, which it has failed to do. 5 U.S.C. § 552(a)(4)(b). NMFS has failed to identify the specific exemption claimed for several documents that were redacted. Several documents identify Exemption 5 as the exemption claimed. However Exemption 5 could mean attorney work product, attorney-client privilege, or deliberative process. One document is redacted without any basis for the withholding identified.

34. NMFS's improper withholding of nonexempt documents also violates 5 U.S.C. § 552(a)(3)(A)'s mandate that requested records be promptly released unless they fall within one of FOIA's specifically enumerated disclosure exemptions. It has been eleven months since EcoRights submitted its appeal. Except for two redacted emails released 18 weeks after the appeal (not promptly), NMFS continues to withhold documents, without justifying they are exempt from disclosure.

THIRD CLAIM FOR RELIEF

NMFS Violation of FOIA

5 U.S.C. §§ 552(a)(3)(c)

Request for Declaratory Relief and Injunction to Compel NMFS to Perform a Reasonable Search

35. EcoRights reasserts and realleges paragraphs 1 through 34 above.

36. NMFS has violated 5 U.S.C. § 552(a)(3)(C) by failing to conduct a reasonable, legally adequate search for records responsive to EcoRights request. NMFS's search was inadequate because none of the documents NMFS initially released were from the OLE although EcoRights had specifically asked for OLE documents and EcoRights had reason to know that at least one OLE agent had responsive documents. After EcoRights submitted its appeal, NMFS released two emails, one apparently to an OLE agent and one apparently from an OLE agent. EcoRights makes these assumptions because the names of the sender and recipient have been redacted under Exemptions 6 and 7. The emails concern take of listed salmon and steelhead in the Yuba River. One of the emails indicates the OLE is likely to have more documents responsive to EcoRights' request, but NMFS failed to locate them because of its inadequate search.

PRAYER FOR RELIEF

WHEREFORE, EcoRights seeks the following relief:

a. A declaratory judgment pursuant to 5 U.S.C. § 552 declaring that NMFS violated FOIA by failing to provide the final determination for EcoRights' appeal in accordance with FOIA's statutory deadline;

b. A declaratory judgment that NMFS' failure to provide the appeal determination within the statutory deadline and produce non-exempt records promptly as required by FOIA constitutes illegal withholding of records;

c. A declaratory judgment pursuant to 5 U.S.C. § 552 that NMFS violated FOIA by: improperly withholding records that are not exempt from disclosure; failing to adequately explain how and why withheld information falls within a particular exemption; failing to adequately explain how disclosure would foreseeably harm interests protected by claimed exemptions; and failing to segregate and disclose non-exempt requested information;

1 d. A declaratory judgment that NMFS failed to perform a reasonable, legally adequate search for
2 documents responsive to EcoRight's request;

3 e. An injunction pursuant to 5 U.S.C. § 552(a)(4)(B) ordering NMFS to: 1) conduct a
4 reasonable, legally adequate search for records responsive to EcoRights' FOIA request within 20 days;
5 2) produce all non-exempt records in NMFS' possession responsive to EcoRights FOIA request within
6 30 days; and 3) provide EcoRights with a detailed, legally adequate explanation for the withholding of
7 any information responsive to Ecorights FOIA request within 30 days;

8 f. An award of attorneys fees and costs to EcoRights pursuant to 5 U.S.C. § 552(a)(4)(E); and

9 g. Such other and further relief as this Court deems just and proper.

10 **DISCLOSURE OF NON-PARTY INTERESTED ENTITIES OR PERSONS**

11 Based on EcoRights' knowledge to date, pursuant to Civil Local Rule 3-15, the undersigned
12 certifies that, as of this date, other than the named parties, there is no such interest to report.

Your message to cholmes@doc.gov couldn't be delivered.

cholmes wasn't found at **doc.gov**.

Mark.Graff	Office 365	cholmes
Action Required		Recipient
Unknown To address		

How to Fix It

The address may be misspelled or may not exist. Try one or more of the following:

- Send the message again following these steps: In Outlook, open this non-delivery report (NDR) and choose **Send Again** from the Report ribbon. In Outlook on the web, select this NDR, then select the link "**To send this message again, click here.**" Then delete and retype the entire recipient address. If prompted with an Auto-Complete List suggestion don't select it. After typing the complete address, click **Send**.
- Contact the recipient (by phone, for example) to check that the address exists and is correct.
- The recipient may have set up email forwarding to an incorrect address. Ask them to check that any forwarding they've set up is working correctly.
- Clear the recipient Auto-Complete List in Outlook or Outlook on the web by following the steps in this article: [Fix email delivery issues for error code 5.1.10 in Office 365](#), and then send the message again. Retype the entire recipient address before selecting **Send**.

If the problem continues, forward this message to your email admin. If you're an email admin, refer to the **More Info for Email Admins** section below.

Was this helpful? [Send feedback to Microsoft](#).

More Info for Email Admins

Status code: 550 5.1.10

This error occurs because the sender sent a message to an email address hosted by Office 365 but the address is incorrect or doesn't exist at the destination domain. The error is reported by the recipient domain's email server, but most often it must be fixed by the person who sent the message. If the steps in the **How to Fix It** section above don't fix the problem, and you're the email admin for the recipient, try one or more of the following:

The email address exists and is correct Confirm that the recipient address exists, is correct, and is accepting messages.

Synchronize your directories If you have a hybrid environment and are using directory synchronization make sure the recipient's email address is synced correctly in both Office 365 and in your on premises directory.

Errant forwarding rule Check for forwarding rules that aren't behaving as expected.

Forwarding can be set up by an admin via mail flow rules or mailbox forwarding address settings, or by the recipient via the Inbox Rules feature.

Recipient has a valid license Make sure the recipient has an Office 365 license assigned to them. The recipient's email admin can use the Office 365 admin center to assign a license (Users > Active Users > select the recipient > Assigned License > Edit).

Mail flow settings and MX records are not correct Misconfigured mail flow or MX record settings can cause this error. Check your Office 365 mail flow settings to make sure your domain and any mail flow connectors are set up correctly. Also, work with your domain registrar to make sure the MX records for your domain are configured correctly.

For more information and additional tips to fix this issue, see [Fix email delivery issues for error code 5.1.10 in Office 365](#).

[FOIA Monthly Status Report 02-28-2018.pdf](#)

[FOIA Monthly Status Report 02-28-2018.xlsx](#)

Good Morning,

The February 2018 Monthly FOIA Report is attached. Several highlights include:

- The backlog has continued to move higher. With a backlog currently at 91, our backlog is 44% higher than our all-time low hit in April of last year. The higher backlog is a result of several factors, including increased FOIA submissions across the Department, and delays in FOIAOnline processing. It is imperative that we renew the push to drive down the backlog and improve NOAA's overall compliance with timely response and production requirements.
- Several offices, including AGO, OAR, and CAO, are facing increased submission rates, and as a result, their backlog is much higher than ordinarily seen in those offices. Average closure rates in those offices have been difficult to improve with their limited resources.

DOC/GC has indicated that FOIA lawsuits currently are being filed at a rate 550% of the rate seen from FY 2013-2016 across the department. Other scientific and environmental agencies are seeing similar spikes in FOIA lawsuits. For example, as of February, year over year, EPA has seen a 311% increase in FOIA lawsuits, and DOI has seen a 600% increase in FOIA lawsuits.

A new FOIA complaint was filed by the Ecological Rights Foundation in the Northern District of California. NOAA completed production on February, 2017, and the requester appealed NOAA's final response. The Plaintiff is challenging the constructive denial on the response to their administrative appeal to DOC, the Exemption applicability, and NOAA's search adequacy. A copy of the original request and the complaint filed in California are attached.

24

Civil Case No.

**COMPLAINT FOR DECLARATORY
AND INJUNCTIVE RELIEF**

25
26
27
28

1 Ecological Rights Foundation (“EcoRights”) alleges as follows:

2 **INTRODUCTION**

3 1. EcoRights brings this action under the Freedom of Information Act ("FOIA"), which allows
4 an aggrieved party to seek relief when documents are unlawfully withheld, and authorizes a reviewing
5 court to enjoin the agency from withholding records and to order the production of any agency records
6 improperly withheld from the complainant. 5 U.S.C. § 552(a)(4)(B). EcoRights seeks declaratory and
7 injunctive relief for FOIA violations by the National Marine Fisheries Service ("NMFS"). At issue in
8 this case is a FOIA request to NMFS seeking documents related to NMFS West Coast Region's
9 Endangered Species Act ("ESA") Section 7 consultations with the Army Corps of Engineers ("Corps")
10 and NMFS's regulatory oversight of Corps operations and infrastructure on the Yuba River that
11 adversely impact spring run Chinook salmon, steelhead trout, and green sturgeon which are listed as a
12 threatened species under the ESA. EcoRights alleges that NMFS: 1) failed to provide a final
13 determination for EcoRights' administrative appeal within statutory time limits; 2) improperly withheld
14 information not subject to specific, enumerated exemptions; 3) failed to provide legally adequate
15 explanations for the withholding of requested information; 4) failed to promptly release non-exempt
16 information responsive to EcoRight's FOIA request; 5) failed to segregate and release non-exempt
17 information; and 6) failed to perform a reasonable, legally adequate search for responsive records.

18 **JURISDICTION**

19 2. This Court has subject matter jurisdiction under 5 U.S.C. section 552(a)(4)(B), which allows an
20 aggrieved party to seek relief when records are unlawfully withheld, and authorizes a reviewing court to
21 enjoin the agency from withholding records and to order the production of any agency records
22 improperly withheld from the complainant.

23 3. This Court has personal jurisdiction over NMFS and its officials because NMFS, a branch of
24 the National Oceanic and Atmospheric Administration ("NOAA"), is an agency of the federal
25 government operating within the United States.

1 **VENUE**

2 4. Venue in the United States District for the Northern District of California is proper under
3 5 U.S.C. section 552(a)(4)(B) because the complainant has its principal place of business in the Northern
4 District, and many of the records sought by complainants are most likely situated in the NMFS and
5 NOAA offices located within the Northern District.

6 **INTRADISTRICT ASSIGNMENT**

7 5. Intradistrict assignment of this matter to the San Francisco Division of the Court is appropriate
8 pursuant to Civil Local Rule 3-2(d) because EcoRights’ principal place of business is located in
9 Garberville, California.

10 **THE PARTIES**

11 6. Ecological Rights Foundation ("EcoRights") is a non-profit, public benefit corporation,
12 organized under the laws of the State of California, devoted to furthering the rights of all people to a
13 clean, healthful and biologically diverse environment. To further its environmental advocacy goals,
14 EcoRights actively seeks federal and state agency implementation of state and federal wildlife-related
15 laws, and as necessary, directly initiates enforcement actions on behalf of itself and its members.

16 7. Defendant NMFS, a division of the Department of Commerce, is the agency of the United
17 States Government responsible for administering and implementing the ESA for anadromous fisheries
18 and generally is responsible for the stewardship of the nation's living marine resources and their habitat.

19 **STATUTORY BACKGROUND**

20 8. FOIA requires that an agency disclose records to any person except where the records fall
21 under a specifically enumerated exemption. 5 U.S.C. § 552. The courts have emphasized the narrow
22 scope of these exemptions and “the strong policy of the FOIA that the public is entitled to know what its
23 government is doing and why.” *Coastal States Gas Corp. v. Dep’t of Energy*, 617 F.2d 854, 868 (D.C.
24 Cir. 1980).

25 9. FOIA requires that an agency, upon any request for records, shall make the records available
26 promptly. 5 U.S.C. § 552(a)(3)(A). An agency shall make a determination whether to comply with a
27 request within twenty (20) business days after the receipt of the request and shall immediately notify the

1 party making the request of such determination, the reasons for the determination, and the party's right
2 to appeal. 5 U.S.C. § 552(a)(6)(A)(i). In unusual circumstances, the agency may extend the time for the
3 determination, for no more than ten (10) days, by written notice to the party, specifying the reasons for
4 the extension and the date on which the determination is expected to be sent. 5 U.S.C. § 552(a)(6)(B)(i).

5 10. Federal agencies are under a duty to conduct a reasonable search for records responsive to a
6 party's request using methods that can be reasonably expected to produce the information requested to
7 the extent they exist. 5 U.S.C. § 522(a)(3)(C).

8 11. When an agency decides to withhold records under a claim of exemption it must notify the
9 person making such request of such determination and the reasons therefor. 5 U.S.C. § 552(a)(6)(A)(i).
10 Government agencies bear the burden of proof to show that any withheld documents are exempt from
11 the duty to disclose. 5 U.S.C. § 522(a)(4)(B).

12 12. A party may appeal to the head of the agency any adverse determination. 5 U.S.C. §
13 552(a)(6)(A)(i). An agency shall make a determination with respect to any appeal within twenty (20)
14 business days after the receipt of such appeal. 5 U.S.C. § 552(a)(6)(A)(ii). If an agency does not respond
15 within the FOIA time limits, a party will be deemed to have exhausted its administrative remedies.
16 5 U.S.C. § 552(a)(6)(C)(i).

17 13. On June 30, 2016, President Obama signed into law the FOIA Improvement Act of 2016. The
18 Act made significant amendments to FOIA, effective as of enactment on June 30, 2016. 5 U.S.C. § 522,
19 § 6; OIP Summary of the FOIA Improvement Act of 2016. The amendments include changes to the
20 standard by which NMFS must evaluate withholdings. The FOIA Improvement Act of 2016 dictates that
21 agencies shall withhold information only if disclosure would harm an interest protected by an exemption
22 what is referred to as the "foreseeable harm standard." 5 U.S.C. § 552(a)(8)(A)(i); OIP Summary of
23 the FOIA Improvement Act of 2016.

24 14. Additionally, FOIA requires an agency to consider partial disclosure whenever the agency
25 determines that a full disclosure of a requested record is not possible and to take reasonable steps
26 necessary to segregate and release nonexempt information. 5 U.S.C. § 552(a)(8)(A).

1 15. An agency's process for dealing with FOIA requests constitutes "withholding" if its net effect
2 is significantly to impair the requester's ability to obtain the records or significantly increase the amount
3 of time he or she must wait to obtain them. *McGehee, III v. Central Intelligence Agency*, 697 F.2d 1095,
4 1110 (D.C. Cir. 1983), *vacated in part on other grounds*, 711 F.2d 1076 (1983).

5 FACTUAL BACKGROUND

6 **NMFS's Response to EcoRights' December 6, 2016 FOIA Request**

7 16. On December 6, 2016 EcoRights, via counsel, sent a FOIA request to NMFS seeking three
8 categories of documents: 1) documents containing input NMFS West Coast Region staff provided to
9 NOAA headquarters detailing the impacts of an Army Corps of Engineers ("Corps") memo known as
10 the Stockdale Memo. The Stockdale Memo laid out strict guidelines limiting Corps ESA Section 7
11 consultations with NMFS and the U.S. Fish and Wildlife Service; 2) documents to or from NMFS
12 counsel Chris Kiefer related to a draft letter from NMFS to the Corps entitled "Endangered Species Act
13 Section 7(a)(2) Concurrence Letter for the U.S. Army Corps of Engineers' (Corps) Ongoing Operation
14 and Maintenance of Englebright Dam and Reservoir on the Yuba River;" and 3) documents in the
15 possession of any NOAA Fisheries Office, Department and/or Division, including any NOAA law
16 enforcement division, related to whether any entities or individuals are causing or have caused
17 unauthorized take of threatened or endangered fish species in the Yuba River in the vicinity of
18 Englebright Dam and Daguerre Point Dam.

19 17. On December 14, 2016 NMFS sent a letter to EcoRights counsel, Christopher Hudak,
20 acknowledging receipt of the request on December 12, 2016 and assigning it tracking number DOC-
21 NOAA-2017-000257. The acknowledgement letter stated that NMFS was extending the time for its
22 response by ten business days because the agency needed to search for and collect the requested records
23 from field facilities or other establishments separate from the office processing the request.

24 18. On February 13, 2017 NMFS sent EcoRights its final determination partially granting and
25 partially denying EcoRights' request. NMFS stated it had located 309 documents responsive to the
26 request and had released 239 of these documents in their entirety, via FOIAonline. Fifty-four documents
27

1 were partially withheld under attorney work product, attorney client privilege, deliberative process
2 exemptions pursuant to 5 U.S.C. 552(b)(5) ("Exemption 5") and the right to privacy exemption pursuant
3 to 5 U.S.C. § 552(b)(6) ("Exemption 6"). The final determination also stated that 16 documents that had
4 originated from other agencies were referred to those agencies for release determination and direct
5 response to EcoRights.

6 19. On March 10, 2017 EcoRights timely appealed NMFS's final determination to the Office of
7 the General Counsel of the Department of Commerce ("DOC Counsel"). EcoRights' administrative
8 appeal contended that NMFS: 1) had failed to make a reasonable search for responsive documents; 2)
9 had improperly withheld documents under vague and unjustified claims of deliberative process and
10 attorney-client privilege exemptions; 3) had withheld information with no exemption claim; 4) had not
11 shown the existence of foreseeable harm to an interest protected by Exemptions 5 and 6 that would
12 permit the agency to withhold information under these exemptions; and 5) had failed to segregate factual
13 material and make partial disclosures where possible.

14 20. EcoRights' appeal contended NMFS's search was inadequate because none of the documents
15 NMFS had released were from the NOAA Office of Law Enforcement ("OLE") although EcoRights had
16 specifically asked for OLE documents and EcoRights had reason to know that at least one OLE agent
17 had responsive documents.

18 21. The 20 business days deadline for NMFS to provide its final determination for EcoRights'
19 appeal was April 7, 2017.

20 22. On July 18, 2017 NMFS posted to FOIAonline two redacted emails, apparently from the
21 OLE. EcoRights was not notified that NMFS had released these two OLE documents on FOIAonline.
22 The two emails had information redacted pursuant to Exemption 6 and Exemption 7 (5 U.S.C. §
23 552(b)(7)(C)).

24 23. On October 2, 2017 EcoRights' counsel sent an email to NMFS FOIA officers and the DOC
25 Counsel's office requesting an update on the status of the appeal. The DOC Counsel and NMFS did not
26 respond.
27

1 24. On October 25, 2017 EcoRights' counsel sent another email to NMFS FOIA officers and the
2 DOC Counsel's office which requested that NMFS provide the final appeal determination by November
3 3, 2017 and warned that if the determination was not provided by that date EcoRights might seek
4 judicial relief.

5 25. On October 30, 2017 Michael Bogomolny, Acting Chief, Information Law Division, of the
6 DOC Counsel's Office responded to EcoRights' October 25, 2017 request and stated that he expected
7 EcoRights would have the appeal determination "this week." However, the DOC Counsel's office did
8 not provide the appeal determination that week.

9 26. On January 31, 2018 Ecorights' counsel sent another email to the DOC Counsel's office
10 requesting a status update. Mr. Bogomolny responded that same day and stated he would provide "a full
11 status update before the end of the week." However, he did not. Instead, on February 2, 2018 he sent yet
12 another email stating he was "committing to releasing a final determination of the appeal in this matter
13 next week." However he did not release the determination that week.

14 27. As of the date of this Complaint the DOC Counsel has not released the appeal final
15 determination and it is 309 days overdue.

16 **FIRST CLAIM FOR RELIEF**
17 **NMFS Violation of FOIA**
18 **5 U.S.C. §§ 552(a)(6)(ii) and 552(a)(3)(A)**
19 **Request for Declaratory Relief**

20 28. EcoRights reasserts and realleges paragraphs 1 through 27 above.

21 29. NMFS has violated 5 U.S.C. § 552(a)(6)(A)(ii) by failing to provide a final determination
22 for EcoRights' appeal within 20 business days after receipt of the appeal. EcoRights timely submitted
23 the appeal on March 10, 2017. FOIA required NMFS to provide its appeal determination by April 7,
24 2017. However, NMFS did not provide the determination by April 7, 2017 and as of the date of this
25 Complaint the appeal determination is 309 days overdue.

26 30. EcoRights has constructively exhausted its administrative remedies given NMFS's failure to
27 provide its appeal determination within FOIA's statutory time limits. 5 U.S.C. § 552(a)(6)(C)(i).

SECOND CLAIM FOR RELIEF

NMFS Violation of FOIA

5 U.S.C. §§ 552(a)(8)(A), 552(a)(6)(A)(i) and 552(a)(3)(A)

Request for Declaratory Relief and Injunction to Compel NMFS to Comply with FOIA Requirement to Release Documents Unless a Valid Exemption Applies

31. EcoRights reasserts and realleges paragraphs 1 through 30 above.

32. NMFS has violated 5 U.S.C. §§ 552(a)(8)(A) by withholding documents under invalid and unjustified claims of exemption under 5 U.S.C. §§ 552(b)(5), (b)(6), and b(7)(C). NMFS may not withhold documents unless foreseeable harm will occur to an interest protected by an enumerated exemption. 5 U.S.C. §§ 552(a)(8)(A)(i). NMFS has not shown that such foreseeable harm exists. NMFS has also violated 5 U.S.C. §§ 552(a)(8)(A)'s mandate that NMFS segregate and release non-exempt information. NMFS has redacted the entire substantive contents of 67 pages of information under attorney-client privilege and deliberative process exemptions without an adequate showing that NMFS attempted to segregate and release the non-exempt information in these pages.

33. NMFS has also violated FOIA by failing to comply with the 5 U.S.C. § 552(a)(6)(A)(i) requirement that the agency provide enough information, presented with sufficient detail, clarity, and verification, so that the requester can fairly determine what has not been produced and why. Exemptions are read narrowly and NMFS bears the burden of proving exemptions apply, which it has failed to do. 5 U.S.C. § 552(a)(4)(b). NMFS has failed to identify the specific exemption claimed for several documents that were redacted. Several documents identify Exemption 5 as the exemption claimed. However Exemption 5 could mean attorney work product, attorney-client privilege, or deliberative process. One document is redacted without any basis for the withholding identified.

34. NMFS's improper withholding of nonexempt documents also violates 5 U.S.C. § 552(a)(3)(A)'s mandate that requested records be promptly released unless they fall within one of FOIA's specifically enumerated disclosure exemptions. It has been eleven months since EcoRights submitted its appeal. Except for two redacted emails released 18 weeks after the appeal (not promptly), NMFS continues to withhold documents, without justifying they are exempt from disclosure.

THIRD CLAIM FOR RELIEF

NMFS Violation of FOIA

5 U.S.C. §§ 552(a)(3)(c)

Request for Declaratory Relief and Injunction to Compel NMFS to Perform a Reasonable Search

35. EcoRights reasserts and realleges paragraphs 1 through 34 above.

36. NMFS has violated 5 U.S.C. § 552(a)(3)(C) by failing to conduct a reasonable, legally adequate search for records responsive to EcoRights request. NMFS's search was inadequate because none of the documents NMFS initially released were from the OLE although EcoRights had specifically asked for OLE documents and EcoRights had reason to know that at least one OLE agent had responsive documents. After EcoRights submitted its appeal, NMFS released two emails, one apparently to an OLE agent and one apparently from an OLE agent. EcoRights makes these assumptions because the names of the sender and recipient have been redacted under Exemptions 6 and 7. The emails concern take of listed salmon and steelhead in the Yuba River. One of the emails indicates the OLE is likely to have more documents responsive to EcoRights' request, but NMFS failed to locate them because of its inadequate search.

PRAYER FOR RELIEF

WHEREFORE, EcoRights seeks the following relief:

a. A declaratory judgment pursuant to 5 U.S.C. § 552 declaring that NMFS violated FOIA by failing to provide the final determination for EcoRights' appeal in accordance with FOIA's statutory deadline;

b. A declaratory judgment that NMFS' failure to provide the appeal determination within the statutory deadline and produce non-exempt records promptly as required by FOIA constitutes illegal withholding of records;

c. A declaratory judgment pursuant to 5 U.S.C. § 552 that NMFS violated FOIA by: improperly withholding records that are not exempt from disclosure; failing to adequately explain how and why withheld information falls within a particular exemption; failing to adequately explain how disclosure would foreseeably harm interests protected by claimed exemptions; and failing to segregate and disclose non-exempt requested information;

1 d. A declaratory judgment that NMFS failed to perform a reasonable, legally adequate search for
2 documents responsive to EcoRight's request;

3 e. An injunction pursuant to 5 U.S.C. § 552(a)(4)(B) ordering NMFS to: 1) conduct a
4 reasonable, legally adequate search for records responsive to EcoRights' FOIA request within 20 days;
5 2) produce all non-exempt records in NMFS' possession responsive to EcoRights FOIA request within
6 30 days; and 3) provide EcoRights with a detailed, legally adequate explanation for the withholding of
7 any information responsive to Ecorights FOIA request within 30 days;

8 f. An award of attorneys fees and costs to EcoRights pursuant to 5 U.S.C. § 552(a)(4)(E); and

9 g. Such other and further relief as this Court deems just and proper.

10 **DISCLOSURE OF NON-PARTY INTERESTED ENTITIES OR PERSONS**

11 Based on EcoRights' knowledge to date, pursuant to Civil Local Rule 3-15, the undersigned
12 certifies that, as of this date, other than the named parties, there is no such interest to report.

AO 440 (Rev. 06/12) Summons in a Civil Action

UNITED STATES DISTRICT COURT

for the

Northern District of California

Ecological Rights Foundation

Plaintiff(s)

v.

National Marine Fisheries Service

Defendant(s)

Civil Action No. 3:18-cv-00888

SUMMONS IN A CIVIL ACTION

To: (Defendant's name and address)

National Marine Fisheries Service c/o
Chris Oliver
Director of NOAA Fisheries
1315 East West Highway, Suite 14743
Silver Spring, MD 20910

A lawsuit has been filed against you.

Within 21 days after service of this summons on you (not counting the day you received it) — or 60 days if you are the United States or a United States agency, or an officer or employee of the United States described in Fed. R. Civ. P. 12 (a)(2) or (3) — you must serve on the plaintiff an answer to the attached complaint or a motion under Rule 12 of the Federal Rules of Civil Procedure. The answer or motion must be served on the plaintiff or plaintiff's attorney, whose name and address are:

Patricia Linn
Law Office of Patricia Linn
115 Oakdale Ave.
Mill Valley, CA
94941

If you fail to respond, judgment by default will be entered against you for the relief demanded in the complaint. You also must file your answer or motion with the court.

Good Morning,

The February 2018 Monthly FOIA Report is attached. Several highlights include:

- The backlog has continued to move higher. With a backlog currently at 91, our backlog is 44% higher than our all time low hit in April of last year. The higher backlog is a result of several factors, including increased FOIA submissions across the Department, and delays in FOIAOnline processing. It is imperative that we renew the push to drive down the backlog and improve NOAA's overall compliance with timely response and production requirements.
- Several offices, including AGO, OAR, and CAO, are facing increased submission rates, and as a result, their backlog is much higher than ordinarily seen in those offices. Average closure rates in those offices have been difficult to improve with their limited resources.

DOC/GC has indicated that FOIA lawsuits currently are being filed at a rate 550% of the rate seen from FY 2013 2016 across the department. Other scientific and environmental agencies are seeing similar spikes in FOIA lawsuits. For example, as of February, year over year, EPA has seen a 311% increase in FOIA lawsuits, and DOI has seen a 600% increase in FOIA lawsuits.

A new FOIA complaint was filed by the Ecological Rights Foundation in the Northern District of California. NOAA completed production on February, 2017, and the requester appealed NOAA's final response. The Plaintiff is challenging the constructive denial on the response to their administrative appeal to DOC, the Exemption applicability, and NOAA's search adequacy. A copy of the original request and the complaint filed in California are attached.

AO 440 (Rev. 06/12) Summons in a Civil Action

UNITED STATES DISTRICT COURT

for the

Northern District of California

Ecological Rights Foundation

Plaintiff(s)

v.

National Marine Fisheries Service

Defendant(s)

Civil Action No. 3:18-cv-00888

SUMMONS IN A CIVIL ACTION

To: (Defendant's name and address)

National Marine Fisheries Service c/o
Chris Oliver
Director of NOAA Fisheries
1315 East West Highway, Suite 14743
Silver Spring, MD 20910

A lawsuit has been filed against you.

Within 21 days after service of this summons on you (not counting the day you received it) — or 60 days if you are the United States or a United States agency, or an officer or employee of the United States described in Fed. R. Civ. P. 12 (a)(2) or (3) — you must serve on the plaintiff an answer to the attached complaint or a motion under Rule 12 of the Federal Rules of Civil Procedure. The answer or motion must be served on the plaintiff or plaintiff's attorney, whose name and address are:

Patricia Linn
Law Office of Patricia Linn
115 Oakdale Ave.
Mill Valley, CA
94941

If you fail to respond, judgment by default will be entered against you for the relief demanded in the complaint. You also must file your answer or motion with the court.

CLERK OF COURT

Date: 02/12/2018

Signature of Clerk or Deputy Clerk

AO 440 (Rev. 06/12) Summons in a Civil Action (Page 2)

Civil Action No. _____

PROOF OF SERVICE

(This section should not be filed with the court unless required by Fed. R. Civ. P. 4 (l))

This summons for *(name of individual and title, if any)* _____
was received by me on *(date)* _____.

I personally served the summons on the individual at *(place)* _____
_____ on *(date)* _____; or

I left the summons at the individual's residence or usual place of abode with *(name)* _____
_____, a person of suitable age and discretion who resides there,
on *(date)* _____, and mailed a copy to the individual's last known address; or

I served the summons on *(name of individual)* _____, who is
designated by law to accept service of process on behalf of *(name of organization)* _____
_____ on *(date)* _____; or

I returned the summons unexecuted because _____; or

Other *(specify)*: _____
_____.

My fees are \$ _____ for travel and \$ _____ for services, for a total of \$ _____.

I declare under penalty of perjury that this information is true.

Civil Case No.

**COMPLAINT FOR DECLARATORY
AND INJUNCTIVE RELIEF**

25
26
27
28

1 Ecological Rights Foundation (“EcoRights”) alleges as follows:

2 **INTRODUCTION**

3 1. EcoRights brings this action under the Freedom of Information Act ("FOIA"), which allows
4 an aggrieved party to seek relief when documents are unlawfully withheld, and authorizes a reviewing
5 court to enjoin the agency from withholding records and to order the production of any agency records
6 improperly withheld from the complainant. 5 U.S.C. § 552(a)(4)(B). EcoRights seeks declaratory and
7 injunctive relief for FOIA violations by the National Marine Fisheries Service ("NMFS"). At issue in
8 this case is a FOIA request to NMFS seeking documents related to NMFS West Coast Region's
9 Endangered Species Act ("ESA") Section 7 consultations with the Army Corps of Engineers ("Corps")
10 and NMFS's regulatory oversight of Corps operations and infrastructure on the Yuba River that
11 adversely impact spring run Chinook salmon, steelhead trout, and green sturgeon which are listed as a
12 threatened species under the ESA. EcoRights alleges that NMFS: 1) failed to provide a final
13 determination for EcoRights' administrative appeal within statutory time limits; 2) improperly withheld
14 information not subject to specific, enumerated exemptions; 3) failed to provide legally adequate
15 explanations for the withholding of requested information; 4) failed to promptly release non-exempt
16 information responsive to EcoRight's FOIA request; 5) failed to segregate and release non-exempt
17 information; and 6) failed to perform a reasonable, legally adequate search for responsive records.

18 **JURISDICTION**

19 2. This Court has subject matter jurisdiction under 5 U.S.C. section 552(a)(4)(B), which allows an
20 aggrieved party to seek relief when records are unlawfully withheld, and authorizes a reviewing court to
21 enjoin the agency from withholding records and to order the production of any agency records
22 improperly withheld from the complainant.

23 3. This Court has personal jurisdiction over NMFS and its officials because NMFS, a branch of
24 the National Oceanic and Atmospheric Administration ("NOAA"), is an agency of the federal
25 government operating within the United States.

1 **VENUE**

2 4. Venue in the United States District for the Northern District of California is proper under
3 5 U.S.C. section 552(a)(4)(B) because the complainant has its principal place of business in the Northern
4 District, and many of the records sought by complainants are most likely situated in the NMFS and
5 NOAA offices located within the Northern District.

6 **INTRADISTRICT ASSIGNMENT**

7 5. Intradistrict assignment of this matter to the San Francisco Division of the Court is appropriate
8 pursuant to Civil Local Rule 3-2(d) because EcoRights’ principal place of business is located in
9 Garberville, California.

10 **THE PARTIES**

11 6. Ecological Rights Foundation ("EcoRights") is a non-profit, public benefit corporation,
12 organized under the laws of the State of California, devoted to furthering the rights of all people to a
13 clean, healthful and biologically diverse environment. To further its environmental advocacy goals,
14 EcoRights actively seeks federal and state agency implementation of state and federal wildlife-related
15 laws, and as necessary, directly initiates enforcement actions on behalf of itself and its members.

16 7. Defendant NMFS, a division of the Department of Commerce, is the agency of the United
17 States Government responsible for administering and implementing the ESA for anadromous fisheries
18 and generally is responsible for the stewardship of the nation's living marine resources and their habitat.

19 **STATUTORY BACKGROUND**

20 8. FOIA requires that an agency disclose records to any person except where the records fall
21 under a specifically enumerated exemption. 5 U.S.C. § 552. The courts have emphasized the narrow
22 scope of these exemptions and “the strong policy of the FOIA that the public is entitled to know what its
23 government is doing and why.” *Coastal States Gas Corp. v. Dep’t of Energy*, 617 F.2d 854, 868 (D.C.
24 Cir. 1980).

25 9. FOIA requires that an agency, upon any request for records, shall make the records available
26 promptly. 5 U.S.C. § 552(a)(3)(A). An agency shall make a determination whether to comply with a
27 request within twenty (20) business days after the receipt of the request and shall immediately notify the

1 party making the request of such determination, the reasons for the determination, and the party's right
2 to appeal. 5 U.S.C. § 552(a)(6)(A)(i). In unusual circumstances, the agency may extend the time for the
3 determination, for no more than ten (10) days, by written notice to the party, specifying the reasons for
4 the extension and the date on which the determination is expected to be sent. 5 U.S.C. § 552(a)(6)(B)(i).

5 10. Federal agencies are under a duty to conduct a reasonable search for records responsive to a
6 party's request using methods that can be reasonably expected to produce the information requested to
7 the extent they exist. 5 U.S.C. § 522(a)(3)(C).

8 11. When an agency decides to withhold records under a claim of exemption it must notify the
9 person making such request of such determination and the reasons therefor. 5 U.S.C. § 552(a)(6)(A)(i).
10 Government agencies bear the burden of proof to show that any withheld documents are exempt from
11 the duty to disclose. 5 U.S.C. § 522(a)(4)(B).

12 12. A party may appeal to the head of the agency any adverse determination. 5 U.S.C. §
13 552(a)(6)(A)(i). An agency shall make a determination with respect to any appeal within twenty (20)
14 business days after the receipt of such appeal. 5 U.S.C. § 552(a)(6)(A)(ii). If an agency does not respond
15 within the FOIA time limits, a party will be deemed to have exhausted its administrative remedies.
16 5 U.S.C. § 552(a)(6)(C)(i).

17 13. On June 30, 2016, President Obama signed into law the FOIA Improvement Act of 2016. The
18 Act made significant amendments to FOIA, effective as of enactment on June 30, 2016. 5 U.S.C. § 522,
19 § 6; OIP Summary of the FOIA Improvement Act of 2016. The amendments include changes to the
20 standard by which NMFS must evaluate withholdings. The FOIA Improvement Act of 2016 dictates that
21 agencies shall withhold information only if disclosure would harm an interest protected by an exemption
22 what is referred to as the "foreseeable harm standard." 5 U.S.C. § 552(a)(8)(A)(i); OIP Summary of
23 the FOIA Improvement Act of 2016.

24 14. Additionally, FOIA requires an agency to consider partial disclosure whenever the agency
25 determines that a full disclosure of a requested record is not possible and to take reasonable steps
26 necessary to segregate and release nonexempt information. 5 U.S.C. § 552(a)(8)(A).

1 15. An agency's process for dealing with FOIA requests constitutes "withholding" if its net effect
2 is significantly to impair the requester's ability to obtain the records or significantly increase the amount
3 of time he or she must wait to obtain them. *McGehee, III v. Central Intelligence Agency*, 697 F.2d 1095,
4 1110 (D.C. Cir. 1983), *vacated in part on other grounds*, 711 F.2d 1076 (1983).

5 FACTUAL BACKGROUND

6 **NMFS's Response to EcoRights' December 6, 2016 FOIA Request**

7 16. On December 6, 2016 EcoRights, via counsel, sent a FOIA request to NMFS seeking three
8 categories of documents: 1) documents containing input NMFS West Coast Region staff provided to
9 NOAA headquarters detailing the impacts of an Army Corps of Engineers ("Corps") memo known as
10 the Stockdale Memo. The Stockdale Memo laid out strict guidelines limiting Corps ESA Section 7
11 consultations with NMFS and the U.S. Fish and Wildlife Service; 2) documents to or from NMFS
12 counsel Chris Kiefer related to a draft letter from NMFS to the Corps entitled "Endangered Species Act
13 Section 7(a)(2) Concurrence Letter for the U.S. Army Corps of Engineers' (Corps) Ongoing Operation
14 and Maintenance of Englebright Dam and Reservoir on the Yuba River;" and 3) documents in the
15 possession of any NOAA Fisheries Office, Department and/or Division, including any NOAA law
16 enforcement division, related to whether any entities or individuals are causing or have caused
17 unauthorized take of threatened or endangered fish species in the Yuba River in the vicinity of
18 Englebright Dam and Daguerre Point Dam.

19 17. On December 14, 2016 NMFS sent a letter to EcoRights counsel, Christopher Hudak,
20 acknowledging receipt of the request on December 12, 2016 and assigning it tracking number DOC-
21 NOAA-2017-000257. The acknowledgement letter stated that NMFS was extending the time for its
22 response by ten business days because the agency needed to search for and collect the requested records
23 from field facilities or other establishments separate from the office processing the request.

24 18. On February 13, 2017 NMFS sent EcoRights its final determination partially granting and
25 partially denying EcoRights' request. NMFS stated it had located 309 documents responsive to the
26 request and had released 239 of these documents in their entirety, via FOIAonline. Fifty-four documents
27

1 were partially withheld under attorney work product, attorney client privilege, deliberative process
2 exemptions pursuant to 5 U.S.C. 552(b)(5) ("Exemption 5") and the right to privacy exemption pursuant
3 to 5 U.S.C. § 552(b)(6) ("Exemption 6"). The final determination also stated that 16 documents that had
4 originated from other agencies were referred to those agencies for release determination and direct
5 response to EcoRights.

6 19. On March 10, 2017 EcoRights timely appealed NMFS's final determination to the Office of
7 the General Counsel of the Department of Commerce ("DOC Counsel"). EcoRights' administrative
8 appeal contended that NMFS: 1) had failed to make a reasonable search for responsive documents; 2)
9 had improperly withheld documents under vague and unjustified claims of deliberative process and
10 attorney-client privilege exemptions; 3) had withheld information with no exemption claim; 4) had not
11 shown the existence of foreseeable harm to an interest protected by Exemptions 5 and 6 that would
12 permit the agency to withhold information under these exemptions; and 5) had failed to segregate factual
13 material and make partial disclosures where possible.

14 20. EcoRights' appeal contended NMFS's search was inadequate because none of the documents
15 NMFS had released were from the NOAA Office of Law Enforcement ("OLE") although EcoRights had
16 specifically asked for OLE documents and EcoRights had reason to know that at least one OLE agent
17 had responsive documents.

18 21. The 20 business days deadline for NMFS to provide its final determination for EcoRights'
19 appeal was April 7, 2017.

20 22. On July 18, 2017 NMFS posted to FOIAonline two redacted emails, apparently from the
21 OLE. EcoRights was not notified that NMFS had released these two OLE documents on FOIAonline.
22 The two emails had information redacted pursuant to Exemption 6 and Exemption 7 (5 U.S.C. §
23 552(b)(7)(C)).

24 23. On October 2, 2017 EcoRights' counsel sent an email to NMFS FOIA officers and the DOC
25 Counsel's office requesting an update on the status of the appeal. The DOC Counsel and NMFS did not
26 respond.
27

1 24. On October 25, 2017 EcoRights' counsel sent another email to NMFS FOIA officers and the
2 DOC Counsel's office which requested that NMFS provide the final appeal determination by November
3 3, 2017 and warned that if the determination was not provided by that date EcoRights might seek
4 judicial relief.

5 25. On October 30, 2017 Michael Bogomolny, Acting Chief, Information Law Division, of the
6 DOC Counsel's Office responded to EcoRights' October 25, 2017 request and stated that he expected
7 EcoRights would have the appeal determination "this week." However, the DOC Counsel's office did
8 not provide the appeal determination that week.

9 26. On January 31, 2018 Ecorights' counsel sent another email to the DOC Counsel's office
10 requesting a status update. Mr. Bogomolny responded that same day and stated he would provide "a full
11 status update before the end of the week." However, he did not. Instead, on February 2, 2018 he sent yet
12 another email stating he was "committing to releasing a final determination of the appeal in this matter
13 next week." However he did not release the determination that week.

14 27. As of the date of this Complaint the DOC Counsel has not released the appeal final
15 determination and it is 309 days overdue.

16 **FIRST CLAIM FOR RELIEF**
17 **NMFS Violation of FOIA**
18 **5 U.S.C. §§ 552(a)(6)(ii) and 552(a)(3)(A)**
19 **Request for Declaratory Relief**

20 28. EcoRights reasserts and realleges paragraphs 1 through 27 above.

21 29. NMFS has violated 5 U.S.C. § 552(a)(6)(A)(ii) by failing to provide a final determination
22 for EcoRights' appeal within 20 business days after receipt of the appeal. EcoRights timely submitted
23 the appeal on March 10, 2017. FOIA required NMFS to provide its appeal determination by April 7,
24 2017. However, NMFS did not provide the determination by April 7, 2017 and as of the date of this
25 Complaint the appeal determination is 309 days overdue.

26 30. EcoRights has constructively exhausted its administrative remedies given NMFS's failure to
27 provide its appeal determination within FOIA's statutory time limits. 5 U.S.C. § 552(a)(6)(C)(i).

SECOND CLAIM FOR RELIEF

NMFS Violation of FOIA

5 U.S.C. §§ 552(a)(8)(A), 552(a)(6)(A)(i) and 552(a)(3)(A)

Request for Declaratory Relief and Injunction to Compel NMFS to Comply with FOIA Requirement to Release Documents Unless a Valid Exemption Applies

31. EcoRights reasserts and realleges paragraphs 1 through 30 above.

32. NMFS has violated 5 U.S.C. §§ 552(a)(8)(A) by withholding documents under invalid and unjustified claims of exemption under 5 U.S.C. §§ 552(b)(5), (b)(6), and b(7)(C). NMFS may not withhold documents unless foreseeable harm will occur to an interest protected by an enumerated exemption. 5 U.S.C. §§ 552(a)(8)(A)(i). NMFS has not shown that such foreseeable harm exists. NMFS has also violated 5 U.S.C. §§ 552(a)(8)(A)'s mandate that NMFS segregate and release non-exempt information. NMFS has redacted the entire substantive contents of 67 pages of information under attorney-client privilege and deliberative process exemptions without an adequate showing that NMFS attempted to segregate and release the non-exempt information in these pages.

33. NMFS has also violated FOIA by failing to comply with the 5 U.S.C. § 552(a)(6)(A)(i) requirement that the agency provide enough information, presented with sufficient detail, clarity, and verification, so that the requester can fairly determine what has not been produced and why. Exemptions are read narrowly and NMFS bears the burden of proving exemptions apply, which it has failed to do. 5 U.S.C. § 552(a)(4)(b). NMFS has failed to identify the specific exemption claimed for several documents that were redacted. Several documents identify Exemption 5 as the exemption claimed. However Exemption 5 could mean attorney work product, attorney-client privilege, or deliberative process. One document is redacted without any basis for the withholding identified.

34. NMFS's improper withholding of nonexempt documents also violates 5 U.S.C. § 552(a)(3)(A)'s mandate that requested records be promptly released unless they fall within one of FOIA's specifically enumerated disclosure exemptions. It has been eleven months since EcoRights submitted its appeal. Except for two redacted emails released 18 weeks after the appeal (not promptly), NMFS continues to withhold documents, without justifying they are exempt from disclosure.

THIRD CLAIM FOR RELIEF

NMFS Violation of FOIA

5 U.S.C. §§ 552(a)(3)(c)

Request for Declaratory Relief and Injunction to Compel NMFS to Perform a Reasonable Search

35. EcoRights reasserts and realleges paragraphs 1 through 34 above.

36. NMFS has violated 5 U.S.C. § 552(a)(3)(C) by failing to conduct a reasonable, legally adequate search for records responsive to EcoRights request. NMFS's search was inadequate because none of the documents NMFS initially released were from the OLE although EcoRights had specifically asked for OLE documents and EcoRights had reason to know that at least one OLE agent had responsive documents. After EcoRights submitted its appeal, NMFS released two emails, one apparently to an OLE agent and one apparently from an OLE agent. EcoRights makes these assumptions because the names of the sender and recipient have been redacted under Exemptions 6 and 7. The emails concern take of listed salmon and steelhead in the Yuba River. One of the emails indicates the OLE is likely to have more documents responsive to EcoRights' request, but NMFS failed to locate them because of its inadequate search.

PRAYER FOR RELIEF

WHEREFORE, EcoRights seeks the following relief:

a. A declaratory judgment pursuant to 5 U.S.C. § 552 declaring that NMFS violated FOIA by failing to provide the final determination for EcoRights' appeal in accordance with FOIA's statutory deadline;

b. A declaratory judgment that NMFS' failure to provide the appeal determination within the statutory deadline and produce non-exempt records promptly as required by FOIA constitutes illegal withholding of records;

c. A declaratory judgment pursuant to 5 U.S.C. § 552 that NMFS violated FOIA by: improperly withholding records that are not exempt from disclosure; failing to adequately explain how and why withheld information falls within a particular exemption; failing to adequately explain how disclosure would foreseeably harm interests protected by claimed exemptions; and failing to segregate and disclose non-exempt requested information;

1 d. A declaratory judgment that NMFS failed to perform a reasonable, legally adequate search for
2 documents responsive to EcoRight's request;

3 e. An injunction pursuant to 5 U.S.C. § 552(a)(4)(B) ordering NMFS to: 1) conduct a
4 reasonable, legally adequate search for records responsive to EcoRights' FOIA request within 20 days;
5 2) produce all non-exempt records in NMFS' possession responsive to EcoRights FOIA request within
6 30 days; and 3) provide EcoRights with a detailed, legally adequate explanation for the withholding of
7 any information responsive to Ecorights FOIA request within 30 days;

8 f. An award of attorneys fees and costs to EcoRights pursuant to 5 U.S.C. § 552(a)(4)(E); and

9 g. Such other and further relief as this Court deems just and proper.

10 **DISCLOSURE OF NON-PARTY INTERESTED ENTITIES OR PERSONS**

11 Based on EcoRights' knowledge to date, pursuant to Civil Local Rule 3-15, the undersigned
12 certifies that, as of this date, other than the named parties, there is no such interest to report.

Introduction: This Privacy Threshold Analysis (PTA) is a questionnaire to assist with determining if a Privacy Impact Assessment (PIA) is necessary for this IT system. This PTA is primarily based from the Office of Management and Budget (OMB) privacy guidance and the Department of Commerce (DOC) IT security/privacy policy. If questions arise or further guidance is needed in order to complete this PTA, please contact your Bureau Chief Privacy Officer (BCPO).

Description of the information system and its purpose: *Provide a general description of the information system and its purpose in a way that a non-technical person can understand.*

The E-Government Act of 2002 defines “information system” by reference to the definition section of Title 44 of the United States Code. The following is a summary of the definition: “Information system” means a discrete set of information resources organized for the collection, processing, maintenance, use, sharing, dissemination, or disposition of information. See: 44. U.S.C. § 3502(8).

NOAA’s National Centers for Environmental Information (NCEI) are responsible for hosting and providing access to one of the most significant archives on earth, with comprehensive oceanic, atmospheric, and geophysical data. From the depths of the ocean to the surface of the sun and from million-year-old tree rings to near real-time satellite images, NCEI is the Nation’s leading authority for environmental information. By preserving, stewarding, and maximizing the utility of the Federal government’s billion-dollar investment in high-quality environmental data, NCEI remains committed to providing products and services to private industry and businesses, local to international governments, academia, as well as the general public.

The demand for high-value environmental data and information has dramatically increased in recent years. NCEI is designed to improve NOAA’s ability to meet that demand. The Consolidated and Further Continuing Appropriations Act, 2015, Public Law 113-235, approved the consolidation of NOAA’s existing three National Data Centers: the National Climatic Data Center, the National Geophysical Data Center, and the National Oceanographic Data Center into the National Centers for Environmental Information. NCEI has employees in four major locations, Asheville, NC, Boulder, CO, Silver Spring, MD, and Stennis Space Center, MS. NCEI located in Maryland and Mississippi comprise the NOAA5010 system.

The NCEI-MD and NOAA Central Library, with its regional branch assets, are integrated to provide access to the world’s most comprehensive sources of marine environmental data and information. NCEI-MD maintains and updates a national ocean archive with environmental data acquired from domestic and foreign activities and produces products and metadata, and research from these data that help monitor global environmental changes.

These data include physical, biological, and chemical measurements derived from in situ oceanographic observations, satellite remote sensing of the oceans, and ocean model simulations.

NCEI-MD manages and operates the World Data Center (WDC) for Oceanography in Silver Spring, MD. Its personnel directly interact with federal, state, academic, and industrial oceanographic activities; represent NESDIS on various interagency domestic panels, committees and councils; and represent the United States in various international organizations, such as the International Oceanographic Data Exchange. NCEI-MD and NCEI-MS represent NESDIS and NOAA to the general public, government agencies, academic institutions, foreign governments, and the private sector on matters involving oceanographic data.

External users of the Public Web consist of an average of 170,000 unique visitors per month. These users include but are not limited to other NOAA agencies, other federal government agencies such as U.S. Geological Survey, the Environmental Protection Agency, universities- Mississippi State University, University of New Hampshire, Texas A&M, University of South Florida, and state agencies- Mississippi Department of Marine Resources, Louisiana Department of Natural Resources, Alabama Department of Conservation and Natural Resources, Texas Parks and Wildlife, and Florida Fish and Wildlife Commission.

Questionnaire:

1. What is the status of this information system?

This is a new information system. *Continue to answer questions and complete certification.*

This is an existing information system with changes that create new privacy risks. *Complete chart below, continue to answer questions, and complete certification.*

Changes That Create New Privacy Risks (CTCNPR)					
a. Conversions		d. Significant Merging		g. New Interagency Uses	
b. Anonymous to Non-Anonymous		e. New Public Access		h. Internal Flow or Collection	
c. Significant System Management Changes		f. Commercial Sources		i. Alteration in Character of Data	
j. Other changes that create new privacy risks (specify):					

This is an existing information system in which changes do not create new privacy risks. *Skip questions and complete certification.*

2. Is the IT system or its information used to support any activity which may raise privacy concerns?

NIST Special Publication 800-53 Revision 4, Appendix J, states “Organizations may also engage in activities that do not involve the collection and use of PII, but may nevertheless raise privacy concerns and associated risk. The privacy controls are equally applicable to those activities and can be used to analyze the privacy risk and mitigate such risk when necessary.” Examples include, but are not limited to, audio recordings, video surveillance, building entry readers, and electronic purchase transactions.

Yes. *Please describe the activities which may raise privacy concerns.*

No

3. Does the IT system collect, maintain, or disseminate business identifiable information (BII)?

As per DOC Privacy Policy: "For the purpose of this policy, business identifiable information consists of (a) information that is defined in the Freedom of Information Act (FOIA) as "trade secrets and commercial or financial information obtained from a person [that is] privileged or confidential." (5 U.S.C.552(b)(4)). This information is exempt from automatic release under the (b)(4) FOIA exemption. "Commercial" is not confined to records that reveal basic commercial operations" but includes any records [or information] in which the submitter has a commercial interest" and can include information submitted by a nonprofit entity, or (b) commercial or other information that, although it may not be exempt from release under FOIA, is exempt from disclosure by law (e.g., 13 U.S.C.)."

Yes, the IT system collects, maintains, or disseminates BII about: *(Check all that apply.)*

- Companies
- Other business entities

No, this IT system does not collect any BII.

4. Personally Identifiable Information

4a. Does the IT system collect, maintain, or disseminate personally identifiable information (PII)?

As per OMB 07-16, Footnote 1: "The term 'personally identifiable information' refers to information which can be used to distinguish or trace an individual's identity, such as their name, social security number, biometric records, etc... alone, or when combined with other personal or identifying information which is linked or linkable to a specific individual, such as date and place of birth, mother's maiden name, etc..."

Yes, the IT system collects, maintains, or disseminates PII about: *(Check all that apply.)*

- DOC employees
- Contractors working on behalf of DOC
- Members of the public

No, this IT system does not collect any PII.

If the answer is "yes" to question 4a, please respond to the following questions.

4b. Does the IT system collect, maintain, or disseminate PII other than user ID?

Yes, the IT system collects, maintains, or disseminates PII other than user ID.

No, the user ID is the only PII collected, maintained, or disseminated by the IT system.

4c. Will the purpose for which the PII is collected, stored, used, processed, disclosed, or disseminated (context of use) cause the assignment of a higher PII confidentiality impact level?

Examples of context of use include, but are not limited to, law enforcement investigations, administration of benefits, contagious disease treatments, etc.

Yes, the context of use will cause the assignment of a higher PII confidentiality impact level.

No, the context of use will not cause the assignment of a higher PII confidentiality impact level.

If any of the answers to questions 2, 3, 4b, and/or 4c are “Yes,” a Privacy Impact Assessment (PIA) must be completed for the IT system. This PIA and the approved PIA must be a part of the IT system’s Assessment and Authorization Package.

CERTIFICATION

X I certify the criteria implied by one or more of the questions above **apply** to the NOAA5010 and as a consequence of this applicability, a PIA for this IT system is necessary. NOAA5010 has an approved PIA from 2016. PIA approved 9/6/2016. As there have been no changes creating new privacy risks, we will submit to DOC a certification that a new PIA is not needed at this time.

 I certify the criteria implied by the questions above **do not apply** to the NOAA5010 and as a consequence of this non-applicability, a PIA for this IT system is not necessary.
