2/27/08	Anne Brooke	Chulu	1	2	0	0	3 crawls (or one turtle) close together, about the same age, from north to south: 3 yds between #1 & #2, 20 yds between #3 & #2; #3 deepest & largest. **A possible nest & two false crawls...The nest site had been excavated by people soon after it was first found by Tone Castro (CNMI DFW); potential nest at Dankulo had tire tracks through & around it, may have been where a vehicle was stuck in the soft sand. If it was a nest, it had been excavated soon after laying. * reference: Brooke, A. Fiscal Year 2008-March 2009 Annual Report for 61755NNR410 Tinian Wildlife Surveys on Military leased Lands, Tinian, CNMI*
