Thanks, (b)(6).

Yes, I noticed that some are good through 2016. So, I will be sure to check in with you at least twice: before we publish our proposed rule (which I believe will be summer 2016) and before we publish the final rule (the statutory deadline is March 2017). We will definitely consider all benefits to the DPS that are in the current plans before proposing critical habitat. If INRMP updates result in additional benefits to green sea turtles, we can consider those too until the final rule.

Jenny

Your welcome. Yes, you can certainly share the INRMPs as appropriate. Please check back with me, to make sure you have the most current version. Most plans are updated about every 5 years depending on changes that may occur.

(b)(6)

Thank you, (b)(6)! This is very helpful. I was able to download the files from the SAFE website easily.

I am working with Ann Marie Lauritsen, of the Fish and Wildlife Service. She works on the terrestrial critical habitat, while I work on marine critical habitat. Once I download the INRMPS, would it be OK if I share the PDFs with Ann Marie, if they include information about nesting beaches?

Thanks again,

Jenny

Hi Jenny,

Ok. The Navy has 72 INRMPS and many of these address sea turtles as they are located in coastal areas. What is the best way to get these to you? We use the SAFE website.

Are you familiar with AMRDEC SAFE? This is a web app hosted by Army that we use to transfer large files.

<https://safe.amrdec.army.mil/SAFE/>

You will receive an email with a link to the download page.

The following 10 INRMPS address sea turtle conservation.

JBPHH Pearl Harbor
PMRF Barking Sands
JRM Marianas Guam
Kings Bay
Mayport
Key West

Panama City
Pensacola
Corpus Christi
Guantanamo

It may take a couple days, but we can work on getting them transferred over to you.

V/r,

Hi (b)(6)

Nice to meet you. I have not received any INRMPS yet. I would appreciate any help that you can offer...if we can identify areas that are protected by INRMPS, we do not need to include them in our discussions of green turtle critical habitat.

Thanks,

Jenny

Hi Jennifer,

In response to this request, I just wanted to verify that you have received the Navy INRMPS that were sent over to you. Otherwise, if I can assist you in gathering the plans you are looking for, please let

me know.

Subject: Re: DoD, meet the new NMFS rep!

Hi Peter, (b)(6) and (b)(6)

I am looking for all Integrated Natural Resources Management Plans (INRMPs) on green turtles. Would you help me to "get the word out" by forwarding this email to others who may have knowledge of INRMPs or green turtles in their regions? Thanks! Jenny

The National Marine Fisheries Service the US Fish and Wildlife Service (together, the Services) are discussing potential critical habitat for our proposed green sea turtle distinct population segments. We have not yet identified critical habitat areas, but before we do, we would like to know what Integrated Natural Resources Management Plans (INRMPs) are available for green turtles. Under the Endangered Species Act, we do not designate critical habitat on DoD areas where we conclude that an INRMP provides a benefit to the species:

(B)(i) The Secretary shall not designate as critical habitat any lands or other geographical areas owned or controlled by the Department of Defense, or designated for its use, that are subject to an integrated natural resources management plan prepared under section 101 of the Sikes Act (16 U.S.C. 670a), if the Secretary determines in writing that such plan provides a benefit to the species for which critical habitat is proposed for designation (16 U.S.C. 1533(a)(3)(B)(i)).

If you have an INRMP that includes green turtles, or if you plan on adding green turtles to an existing INRMP, please contact me at jennifer.schultz@noaa.gov < Caution-mailto:jennifer.schultz@noaa.gov > [301-427-8443](tel:301-427-8443) <tel:%28301-427-8443> <tel:%28301-427-8443>).

Thanks,
