Subject: Re: Sea turtle data/reports

Hi (b)(6),

No worries. This is my fault; I do not have a good understanding of the Navy's organizational structure. I will work with Dr. (b)(6) and Ms. (b)(6) first, and then contact others when it is appropriate. I still think that it's good we got the word out, though. It seems as if a lot of INRMPS are expiring in 2016, so it will be a good chance to add benefits to the green turtle (if they are not already included). Thank you for spreading the word, and I'll get in touch with you once we have a better idea what we are planning in regards to critical habitat.

Jenny

Thanks Jenny. Navy is a very top down organization, I should have anticipated that they'd prefer to delegate down. Sorry. You'll still end up getting info from the same people that I provided, but it'll be coordinated via HQ.

Aloha (b)(6)

Hi Dr. (b)(6),

Thank you for your email. I will contact you in early 2016 to begin the discussion regarding national

security impacts. In the meantime, I will contact Ms. (b)(6) regarding the INRMPs.

Sincerely,

Jenny

Hi Jennifer,

Your email was forwarded to me from (b)(6) (and Peter Boice via separate correspondence). To simplify this effort please use Ms. (b)(6) (copied above) as your primary POC for the INRMPs you are requesting. As you are aware, Navy has various installations with INRMPs that may provide the benefits to green sea turtles being sought through INRMP implementation and coordination through Tammy will simply the process and ensure a complete response.

When you seek information regarding possible national security impacts please use me as your primary POC and I will coordinate with all the Navy stakeholders.

Thank you.
Respectfully,

Hi (b)(6),

Remember how I told you that we'd be giving as much notice as possible regarding critical habitat? Well, we are starting now, even before we've identified all critical habitat areas. We are in a crunch for time due to our statutory requirements (i.e., we should have our final critical habitat rule out by March 2017). Once we have identified the proposed critical habitat areas, we will contact our DoD partners to identify potential national security risks (section 4(b)(2) of the ESA). However, in the meantime, we would like to know if there are any Integrated Natural Resources Management Plans (INRMPs) that include green turtles (section 4(a)(3) of the ESA).

I was wondering if you could help me to spread the word? I am going to reach out to the contacts you provided (Kevin Birndock, (b)(6), Jacque Rice, Joel Helm, (b)(6), and (b)(6) to introduce myself and request INRMPs that include green turtles. If you think of anyone else who should be notified, would you send me their contact information or forward them this email? Thanks! Jenny (paragraphs below give details...)

The National Marine Fisheries Service the US Fish and Wildlife Service (together, the Services) are discussing potential critical habitat for our proposed green sea turtle distinct population segments. We have not yet identified critical habitat areas, but before we do, we would like to know what Integrated Natural Resources Management Plans (INRMPs) are available for green turtles. Under the Endangered Species Act, we do not designate critical habitat on DoD areas where we conclude that an INRMP provides a benefit to the species:

(B)(i) The Secretary shall not designate as critical habitat any lands or other geographical areas owned or controlled by the Department of Defense, or designated for its use, that are subject to an integrated natural resources management plan prepared under section 101 of the Sikes Act (16 U.S.C. 670a), if the Secretary determines in writing that such plan provides a benefit to the species for which critical habitat is proposed for designation (16 U.S.C. 1533(a)(3)(B)(i).

If you have an INRMP that includes green turtles, or if you plan on adding green turtles to an existing INRMP, please contact me at jennifer.schultz@noaa.gov (301-427-8443 <tel:%28301-427-8443> <tel:%28301-427-8443>).

Hi Jenny,

Just realized I had this as well. This is the data from Tinian that the report summarizes. Suspect it'll be more useful to you.

Aloha (b)(6)

Hi (b)(6),

It was good talking to you, too! Thank you for all of the information, and thanks for the files. I'll be in touch when I have a better idea of specific areas we're considering for critical habitat.

Aloha,

Jenny

Hi Jenny,

Good talking to you yesterday. Thanks for reaching out.

Attached are the two projects that we discussed yesterday. The excel spreadsheet is for Pearl Harbor specifically. The other is the final report (already submitted to FWS) for sea turtles on Tinian.

Aloha, (b)(6)
