Jennifer,
Good morning. Please see below e-mail for info on green sea turtles & MacDill AFB. HARB is Homestead Air Reserve Base, south of Miami, FL. Still looking for relevant INRMPs for you. Julie

Subject: RE: green sea turtles at MacDill?

Julie,

None at HARB, and potential to occur at MacDill AFB, but no records of ever nesting, so MacDill has no management identified for sea turtles other than following sea turtle smalltooth sawfish construction conditions for in-water work, which is also required through the permit process.

Miguel,
I have another question for you. Please see above. Any place else you can think of?? Ms. Schultz has relevant INRMP section for Eglin, the 45 SW, and Tyndall. Thanks very much. Julie
